SUMMER 2025

Summer 25 promises to be really exciting. Once every three years we launch the new CLUB line and it's finally that time again.

We also extended our elegant PERFORMANCE Line, adding a more colorful, fashionable PLAY look and a more PETITE style for the smaller size requirements of southern European and Asian markets.

The Summer 25 collection has a clear structure, in which each line (PERFORMANCE, VISION, CLUB and OFF-COURT) is a self-contained concept, but can be combined with each other by a sophisticated color map and design language.

This allows us to offer a uniquely versatile and highly customisable summer collection that perfectly embodies the DNA of HEAD.

Roman Stepek
and the HEAD Sportswear team

PERFORMANCE

Our high-quality PERFORMANCE Line celebrates the traditional tennis look and combines it with the latest technologies.

Our specially developed MXM technology ensures excellent climate management in every match, no matter how intense.

Our polo shirts and T-shirts are characterised by an elegant jacquard structure on the collar. They also include an innovative body mapping technology, to deliver a pleasant cooling effect and a technically sophisticated look.

The colorful PLAY styles, have a distinctly modern, sporty look thanks to the special melange effect of the fabric. The color map combines timeless white and navy with a vibrant light green, fresh grapefruit tones, a radiant sunshine yellow and sporty grey. Our pro athletes at Team HEAD, are all kitted out in PERFORMANCE Line.

Young, dynamic, expressive – that is our VISION Line.

With its modern cuts and fashionable styles it appeals, above all, to Generation Z.

Elaborately processed Mesh Crop Tops or a casual combination of terry shorts and cropped polo shirts playfully combine fashion and sport for women. Casual tracksuits, T-shirts in color block look and tank tops make up the sporty style of the men's VISION Line.

Subdued shades of light green, pink, orange and petrol come in plain colors, light fade-out, multi-color or logo prints as well as polka dots.

VISION

It's what we've all been waiting for.
The new CLUB Line is here.

It is designed for a three-year presence in the retail sector to provide a consistent and reliable collection for consumers.

It's ideal for teams, as the designs for women and men are the same. That means building that unique uniform look is incredibly easy.

In addition, individual styles in white and navy are offered in our NOS (never out of stock) programme and are thus also available over the three-year life cycle of each CLUB line.

CLUB

The OFF-COURT Line brings the HEAD look from the court to the city.

The pure cotton range celebrates casually cut sweatshirts, sweatshorts, jogger pants and T-shirts and can be seamlessly combined with the styles of the other lines thanks to our versatile color map.

Fresh colors such as sun yellow, grapefruit, coral, pink, light blue, petrol, taupe and light grey as well as an eye-catching 70's Miami Beach Print boldly radiate beautiful summery vibes.

OFF COURT

COLOR CONCEPT

MOISTURE TRANSFER MICROFIBRE

These high-performing microfibres move sweat to the surface of the material where it is efficiently removed. This brings a cooling effect and allows the material to dry quickly. MXM is at its most effective when worn directly on the skin.

TAPED SEAMS

Seams are a weak point on clothing where moisture and wind can penetrate. That is why the seams on the inside of our products are sealed with tape. This tape is machine-welded onto the seam and closes it completely. We make a distinction between "fully seam taping", where all seams are closed, and "critical seam taping", where only seams that are in critical places, such as the shoulder area, are closed.

100 % PFC FREE

Textiles in the outdoor sector are treated with a chemical finish (durable water repellency - DWR) to make them water- and oil-repellent. Fluorocarbon compounds, which are also called per- or polyfluorinated chemicals (PFCs), are usually used for this purpose. These chemicals are controversial because of their harmfulness to both human health and the environment. At HEAD Sportswear, we are striving to convert all fabrics treated with DWR to become PFC-free in the long term. This enables us to protect people and the environment.

FOOTWEAR TECHNOLOGIES

COMFORT

ORTHOLITE®
With its innovative long-term cushioning, and lightweight, highly breathable foam, the OrthoLite® insole enhances comfort on and off the court. The moisture management helps to keep the foot cool, dry and comfortable. On top of that, the insole is machine-washable.

HEAD TRI-NRG
HEAD's complete support technology. First, NRG **N**eutralizes impact in the heel heal area, then it is **R**igid in the midfoot area for excellent torsional suppor-t properties and densities in each area of the shoe are key elements in this HEAD footwear technology.

HEAD COOLING SYSTEM
Perforations in the outsole, midsole and sock-liner ensure great ventilation in the bottom of the shoe. Also includes a breathable upper mesh material that provides optimal cooling.

DYNAFOAM
Created with small air cells, this highly respon-sive, lightweight midsole offers exceptional comfort and lasts longer than conventional EVA midsoles.

SOCK SUPPORT SYSTEM
Fully integrated elastic sock construction for initial comfort and better support.

HEAD T-KORE 360°
Highlighted by the shoe's design, HEAD T-KORE 360° brings together the performance technolo-gies that ambitious players need. The innovations give your shoe a core strength, with enhanced stability, abrasion resistance and torsional sup-port.

STABILITY

BOA® PERFORMFIT™ WRAP
Delivers micro-adjustable, precision fit engineered to perform in any conditions.

HEAD LATERAL CONTROL+
Reinforced sidewall for outstanding lateral stability which also helps to prevent rolling over during more extreme moves.

DELTASTRAP
Triangle shaped midfoot straps are integrated into the lacing for best stability and an individual fit.

HEAD LATERAL CONTROL
HEAD includes additional lateral stability on all our top performance shoes to help avoid rolling over during extreme slides.

HEAD LOCKDOWN STRAP
Midfoot straps integrated into the lacing system keep your foot in place.

HEAD HEEL STABILIZER 180°
TPU Brace that wraps around the heel for best fit and support.

DURABILITY

HEAD HYBRASION+
A special rubber compound developed for HEAD shoes. Guarantees the best traction for all court surfaces while still providing excellent durability for players who slide a lot.

SUPERFABRIC®
Extremely abrasion resistant and at the same time really flexible upper material.

HEAD HYBRASION
Non-Marking rubber compound that provides good grip and offers great durability on all surfaces.

HEAD DRIFT DEFENSE
In order to have a complete durable shoe, the upper of a shoe needs to be durable as well, especially around the toe and medial forefoot area. HEAD uses an abrasion resistant rubber or a TPU layer in the Drift Defence technology to protect this area during aggressive toe drags.

MOTION PRO BOA PADEL

DRIFT DEFENSE · COOLING SYSTEM · LATERAL CONTROL · HYBRASION · SOCK SUPPORT SYSTEM · DYNA FOAM · BOA PERFORMFIT™ WRAP

Developed with HEAD's pro players, the MOTION PRO BOA PADEL is the first padel shoe with Dual BOA® Fit System, which delivers micro-adjustable precision fit.
