SEAQUAL INITIATIVE Cleaning the Ocean

SEAQUAL INITIATIVE works with collaborators and authorities to help clean our oceans. Marine litter from our beaches, ocean floor and surface, rivers and estuaries, is collected by clean-up programs. It is then sorted into different material types and the plastic portion is cleaned and transformed into Upcycled Marine Plastic, a fully traceable raw material used to create inspiring sustainable products. By choosing products containing Upcycled Marine Plastic, you are helping to clean our oceans.

FLUOR

In this catalogue, the colours of the products have been reproduced as accurately as possible, within the limitations that printed materials may present. It is important to note that, due to continuous improvement processes and stock updates, slight colour variations may occur that are not reflected in this document.

Consequently, chromatic differences will not be considered valid grounds for complaint. MAKITO reserves the right to update or modify the colours of its products without prior notice and without this implying any discrepancies with what is shown here.
