About Tragopan Security

Tragopan Security Solutions is a trusted and dynamic security company based in London, dedicated to safeguarding people, property, and assets with unwavering professionalism. Established in 2012 by a retired Air Force Group Captain, our company was built on the principles of discipline, integrity, and precision – values that continue to define everything we do.

Since our inception, we've grown steadily and earned a reputation for excellence across the security industry. Today, we are proud to be recognised as a leading provider in every sector we operate in – from residential and commercial sites to construction, retail, and vacant property protection.

Our team of highly trained, fully licensed professionals is supported by the latest surveillance technology and a management team committed to 24/7 operational readiness. Whether responding to urgent incidents or maintaining long-term site security, we deliver results that clients can rely on – every time.

Our Vision

To lead the future of security in the UK — setting the standard for excellence through innovation, integrity, and an unyielding commitment to safeguarding people, property, and peace of mind. We strive to be the name clients trust first and remember always.

Our Values

Integrity

We uphold the highest ethical standards — doing the right thing, always. Trust is not just earned; it's protected.

Responsiveness

In security, every second matters. We act swiftly and decisively, ensuring no call goes unanswered and no risk goes unmanaged.

Excellence

We pursue excellence in every detail — through our people, our technology, and the quality of service we deliver day and night.

Reliability

Our word is our bond. Clients count on us because we consistently deliver — without excuses, without fail.

Respect

We treat everyone with dignity and professionalism — clients, the public, and our team. It's who we are and how we lead.

At Tragopan Security Solutions, we don't just protect — we provide peace of mind.

Services

Keyholding

We are proud to be one of the largest keyholding self-deliverers in London, currently holding over 4,000 sets of keys for commercial, residential, and government clients. Our secure key vaults, custom-built in-house, are designed with maximum protection in mind. With us, you can rest easy knowing access to your premises is in safe, accountable hands.

Alarm Response

Our dedicated response team operates 24/7 and guarantees a response time within 60 minutes of an alarm activation. We dispatch trained officers to investigate, secure the premises, and liaise with emergency services where necessary. Before leaving, we ensure the site is fully secure—so you're not left with any uncertainty.

Mobile Patrol

Our mobile patrol division covers all areas of London with over 20 fully marked vehicles, including cars, vans, and a growing fleet of electric vans as part of our sustainability efforts. We've also introduced 4 moped/motorbike units to reach locations faster and ensure response times are consistently met. Every patrol vehicle is equipped with state-of-the-art, custom-built security cages housing in-house designed key boxes—ensuring keys remain secure in transit. Whether scheduled or random, our patrols offer a strong visual deterrent and real-time response capability.

Services

Front of House / Reception

Your front desk is your first impression—so we only provide the best. Through a thorough recruitment and vetting process, we ensure our front-of-house staff are professional, presentable, and people-focused. They don't just handle access and security—they represent your brand with confidence and courtesy.

Static / Retail Guarding

Our static and retail security officers are trained to be alert, responsive, and proactive at all times. Whether they are deterring theft on the shop floor or monitoring a construction site overnight, our guards maintain a strong visible presence and follow clear protocols to keep your people and property protected.

Dog Handler Units

Dogs are not just companions—they're extra eyes and ears, perfect for high-risk environments or vulnerable sites. Whether it's for construction, event, or vacant property security, our dog units offer powerful visual deterrence and superior detection capabilities. We can provide anywhere from 1 to 30 highly trained dogs, depending on your site needs.

Services

Vacant Property Services

Our vacant property division operates at the same scale as our patrol department, covering hundreds of empty buildings across London. We don't just check for intruders—we assess the structural condition of the property, identify signs of damage, wear, or required repairs, and ensure the building remains safe and compliant while unoccupied.

CCTV Installation & Monitoring

We design, install, and manage custom CCTV systems tailored to your site. Our 24/7 control room monitors live feeds in real time, using bespoke-built alert systems that detect unusual behaviour before it becomes a threat. With proactive alerts and rapid response coordination, we stop issues before they escalate.

Lock & Unlock Services

Our professional Lock & Unlock services ensure your premises are secured at the start and end of each day. Whether it's a commercial building, construction site, or residential block, our trained security officers will arrive on time to securely unlock in the morning and lock up at night, checking all access points and setting alarms where required. With our reliable service, you can have complete peace of mind knowing your property is protected and accessible only to authorised personnel.

Services

Concrete Barrier Blocks

Highly durable and instantly visible, our concrete blocks are used to secure perimeters, prevent unauthorised vehicle access, and protect sites from ram-raiding and illegal encampments. Ideal for construction sites, events, and vacant land.

Mobile CCTV Towers

Our rapid-deployment CCTV towers deliver 24/7 remote monitoring, even in locations without mains power or internet. Featuring motion sensors, night vision, and live feed access, these towers provide a powerful, flexible surveillance solution for large or high-risk sites.

Vacant Property Steel Boarding

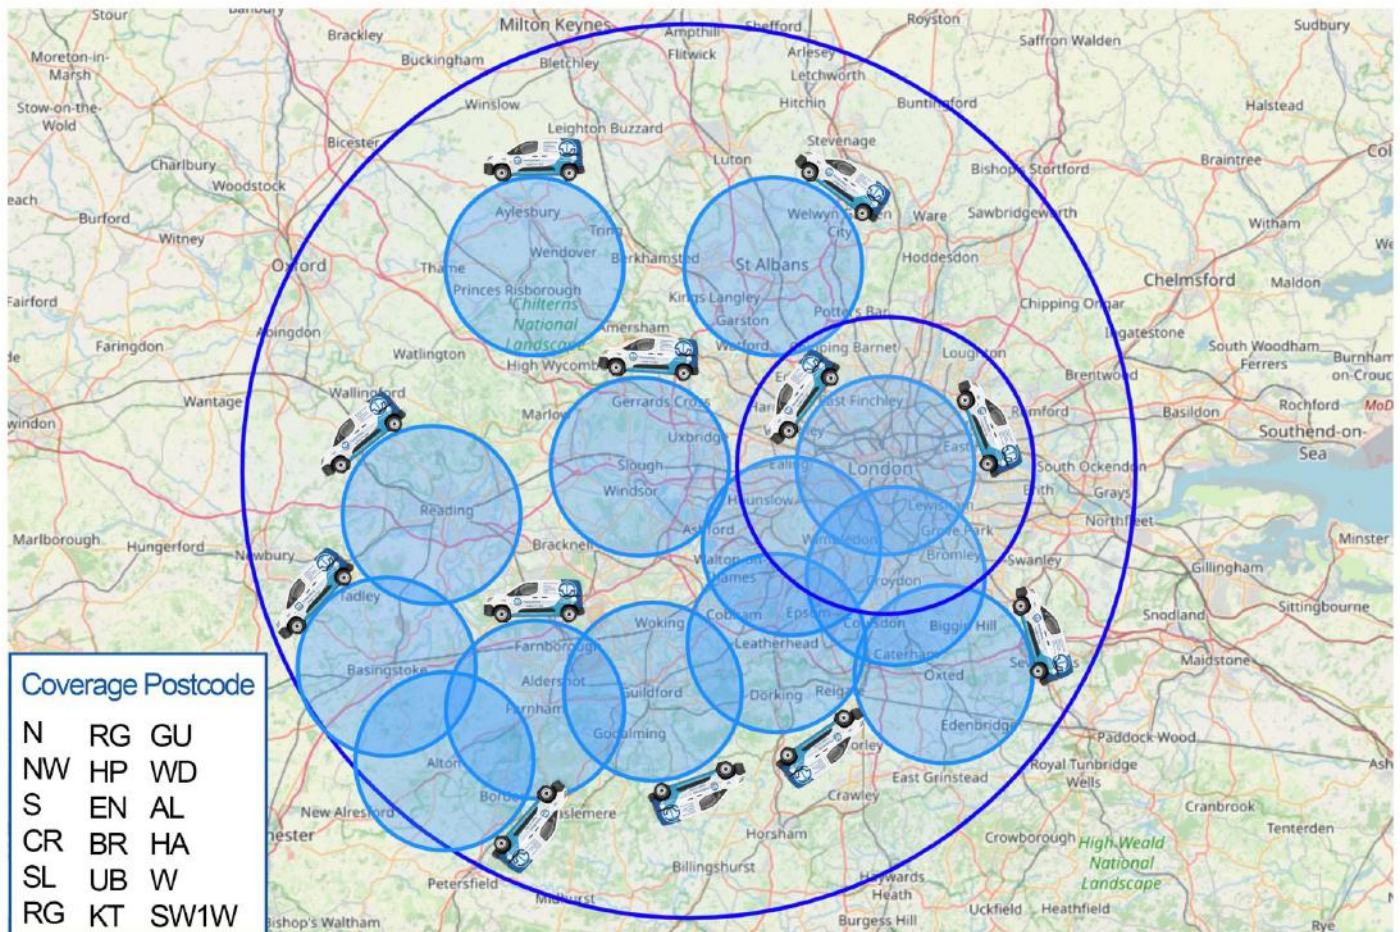

We secure empty properties with reinforced steel sheeting and anti-tamper fixings to prevent break-ins, squatting, vandalism, and fire risks. This service not only protects your asset but also helps meet insurance and local authority requirements.

Coverage Map

Coverage Map

Our coverage is not limited to the listed postcodes, as we also serve additional surrounding areas

Leading the Way in Mobile Patrols Across London & Beyond

We are proud to operate one of London's largest and most proactive mobile patrol divisions, ensuring round-the-clock security for businesses, properties, and communities. Our highly visible patrol fleet and dedicated security professionals provide an efficient, rapid-response service, offering peace of mind to our clients.

Our coverage map highlights the extensive areas we patrol, covering a wide range of postcodes across London and the surrounding regions. But our reach doesn't stop there—our flexible security solutions extend to additional surrounding areas based on client needs.

Quality & Accreditations

At Tragopan Security Solutions, quality isn't just a promise — it's a proven standard. We are proud to hold a number of industry-leading certifications and accreditations that demonstrate our commitment to excellence, compliance, and continuous improvement.

SIA Approved Contractor

We are an SIA Approved Contractor, meeting the highest operational and performance standards set by the Security Industry Authority. This ensures our services are legally compliant, professional, and consistently reliable.

NASDU Compliant

For our canine security services, we follow the standards set by NASDU (National Association of Security Dog Users). All handlers and dogs are professionally trained to ensure safe, effective performance on site.

ICO Registered & GDPR Compliant

We are fully registered with the Information Commissioner's Office (ICO) and fully compliant with UK GDPR. Whether it's personal data, keyholding records, or CCTV footage, we handle and store all data with the highest level of care, confidentiality, and legal compliance.

Safe Contractor Approved

Recognised for excellence in health and safety management, SafeContractor approval assures our clients of a secure, compliant working environment on every site.

Environmental, Social & Governance (ESG)

We believe success isn't just about growth — it's about responsibility. Our ESG approach ensures we operate with purpose and integrity in everything we do:

Environmental

- Introducing electric vehicles into our patrol fleet to reduce emissions
- Minimising waste and reducing paper usage through digital systems
- Using energy-efficient equipment and recyclable materials wherever possible

Social

- Creating inclusive employment opportunities and fair working conditions
- Supporting local communities through training and recruitment initiatives
- Promoting staff wellbeing through mental health and development programs

Governance

- Maintaining full compliance with industry regulations and standards
- Holding accreditations including SIA Approved Contractor and ACS, with ISO 9001, ISO 27001, and B-Corp certification currently in process
- Operating with transparency, accountability, and a strong ethical code

Success

At Tragopan Security Solutions, we don't just talk about results — we deliver them. Here's a snapshot of our scale and achievements:

- Over 4,000 keyholding clients across London
- More than 9,000 alarm responses handled in the past year
- A mobile patrol fleet of 20+ vehicles, including electric vans, cars and motorbikes
- Access to over 30 operational dog units when required
- Weekly inspections of 400+ vacant properties across London
- A team of 200+ licensed, active security officers
- 24/7 live CCTV monitoring supported by custom-built alert systems
- Guaranteed alarm response time within 60 minutes
- 98% client retention rate — and growing
