ABOUT BLOOMDALE

Bloomdale Eyewear is a successful and trendy Dutch eyewear brand, founded in 2015. Our designs stand for cheerful and trendy colors, original shapes and fine details. We design a wide collection of frames that are wearable for a wide audience but are also slightly different. Our models are made of high-quality and lightweight materials, which ensures comfortable and long wearing pleasure. We use Mazzucchelli acetate from Italy, Japanese stainless steel with a nickel-free and allergy-free coating and soft silicone nose pads from Germany.

At Bloomdale Eyewear you will always find a pair of glasses that suits you!
