Dräger DrugCheck® 3000

Simple. Safe. Sound.

The rapid drug test.

D-29737-2015

SAMPLING: SIMPLE, SAFE AND SOUND

The DrugCheck 3000 consists of a swab, for obtaining an oral fluid sample, and a test cassette for the analysis. The disposable DrugCheck 3000 test kit is hygienic to use and not likely to be manipulated. Since there is no need for electricity, it is mobile and can be used safely on-site in hazerdous areas.

ANALYSIS: FAST AND SENSITIVE

With the DrugCheck 3000 the person tested will be checked for up to six substance classes simultaneously: cocaine, opiates, amphetamine, methamphetamine, benzodiazepines and cannabis (THC). The test itself is performed in three easy steps: Swab the oral fluid sample, shake the test kit and start the test after a short waiting period. Test results can usually be read after two minutes.

The Dräger DrugCheck 3000 gives you the unique possibility to detect cannabis (THC) either with a fast result or a more sensitive reading, depending on the waiting period.

D-24715-2015

YOUR ADVANTAGES: AT A GLANCE

- sensitive drug detection in less time
- oral fluid based – non-invasive
- simultaneous detection of up to six of the most frequent substance classes – two measurement options to detect THC: fast reading or sensitive reading
- extremely hygienic to use and not likely to be manipulated.
- easy to apply
- pocket sized test
- no optoelectronic evaluation or power supply needed
- applicable everywhere and at any time
- 100% proven Dräger technology

SECURELY PROTECTING EMPLOYEES AND INVESTMENT

Employees who are under the influence of drugs or prescription medicine not only put their own health at risk, but also increase the risk of accidents involving others or machinery. Additionally, low concentrations may lead to unpredictable effects such as reduced productivity, which in turn, can have far reaching and lasting consequences for the whole company.

Reliable impairment checks directly on-site provide you with a firm means to detect and reduce substance abuse for a safer workplace.

When using the Dräger DrugCheck® 3000, you find out in minutes if a person is under the influence of drugs. The compact and quick oral fluid based drug test yields reliable results, is cost effective and easy to use. The device does not require electricity and can be used anywhere.
