CREEators

Meet the CREEators - a global partner network accelerating sustainable timber-hybrid construction.

Being a CREEator signals expertise in building sustainably and boosts visibility.

LET'S SHAPE THE FUTURE TOGETHER.

Get in touch and schedule your introduction meeting.

Elif Istanbulluoglu

WHO ARE CREEATORS?

CREEators are selected design and engineering partners experienced in designing and delivering CREE timber-hybrid buildings. Typical CREEators include integrated planning teams, architects, structural engineers, MEP experts and sustainability consultants.

PLANNING WITH CREE

A new systematized way of building requires early integration of stakeholders and early design decision-making. Our CREEator partnership expedites this by bringing all stakeholders together while offering the possibility to tender the involvement of different parties in the market. Backed by the global CREE Network, CREEators benefit from shared expertise, proven solutions, and continuous collaboration across projects and disciplines throughout the building design process.

MEMBERSHIP FEE

EUR 1.200,-
per year

MEMBERSHIP INCLUDES

- Tools & Platfrom Access
- In-Person Support from CREE
- Network Visibility

CREEATOR BENEFITS

- **Plan faster, with less risk:**
  Streamline the integrated planning process by leveraging CREE Network expertise to deliver highly sustainable buildings with proven performance and reduced risk, every time.

- **Access exclusive digital toolsets:**
  Use the CREE Building Designer, the CREE Platform, pre-engineered details, BIM libraries, marketing materials, and direct in-person guidance from the CREE Team.

- **Win the right projects:**
  Quickly identify opportunities best suited for the CREE System, gaining a competitive edge in tenders and competitions while remaining an independent design practice.

- **Learn from a global expert network:**
  Connect with 70+ like-minded companies across 18+ countries, sharing practical experience, knowledge, and continuous learning.

- **Increase visibility and unlock opportunities:**
  Showcase your expertise across the global CREE Network, reaching developers, investors, and strategic partners worldwide.
