# ABOUT THE PERUVIAN HORSE

Webster's dictionary defines "luxury" as, "the use and enjoyment of the best, most precious things that offer the most physical comfort and satisfaction." Luxury may be the single best word in the English language to describe the Peruvian Paso Horse. The Peruvian Horse is one of the world's last remaining naturally gaited horses, and is appreciated and in demand by American horse enthusiasts for several very good reasons. The Peruvian Horse of today combines qualities, which could be called contradictory. He is spirited, yet easy to handle and smooth and relaxed in motion. There is something for everyone in this elegant animal: smooth riding comfort, high energy, strength and stamina, intelligence and a tractable disposition, animated, flashy presence and 100% natural action which set the Peruvian apart from others. All Peruvian Horse aficionados worldwide share the pride of owning a horse of great beauty and rarity.

## A RICH HERITAGE

The modern Peruvian Horse is a unique animal that has developed during four hundred and fifty years of selective breeding. It descends from horses introduced into Peru by the Conquistadors and subsequent Spanish settlers. They were selectively bred to preserve and improve attributes of the foundation horses, which carried the blood of the Barb, the Spanish Jennet and the Andalusian. This produced a horse with the unique combination of the smoothest ride and the utmost ground-covering stride. To cover the vast haciendas in Peru, one needed an animal of great endurance, but, also important to the

rider, an animal capable of providing a smooth, comfortable ride over those great distances.

## A BREED APART

The Peruvian Horse transmits its unique smooth gait to its purebred foals. No artificial devices or special training aids are necessary to enable the horse to perform its specialty – a natural four-beat footfall of medium speed that provides a ride of incomparable smoothness and harmony of movement along with the utmost ground covering ability within one sequence of footfalls. This signature gait is called "paso llano" and it is 100% unique to the Peruvian Horse. The Peruvian Horse's paso llano gait a rare example in the modern horse world of a natural, medium speed four beat lateral way of going with excellent advance.

## FLAIR AND ELEGANCE

In addition to an easy gait, the Peruvian Horse's creators desired their new breed to retain a brilliant front action movement typified by the upward lifting of the front legs combined with "termino", an outward movement of the front legs similar to the loose outward rolling of a swimmer's arms doing the crawl. The lift and termino of the Peruvian Horse's front legs is 100% natural and is fluid, effortless and well integrated within the gait sequence. Of all of the traits that distinguish the Peruvian Horse, his tremendous "brio" is perhaps the most prized by both expert and novice horse people alike. Brio is an inherent quality of a noble and willing

spirit that enables this tractable horse to perform with an exuberance that can only be described as thrilling. Brio gives the Peruvian Horse its willingness and ability to perform tirelessly for many hours in the service of his rider.

### **A VERSATILE HORSE**

The Peruvian Horse is the world's greatest riding horse. Smooth to ride, beautiful to behold, and incredible brio – all traits that enable it to serve its rider in style. The Peruvian is more than a show horse. He was bred and raised to work hard and provide smooth reliable transportation. Peruvian Horses excel in many aspects of pleasure riding: trail, CTR, team penning, sidesaddle, drill teams, musical exercise, showing... You name it!

### **CONFORMATION AND APPEARANCE**

Physically, the Peruvian Horse is a horse of medium size and with refinement; a type and style of horse referred to in the equine world as a “light riding horse”. Ideal height is between 14 and 15 hands tall, with good balance and almost even ratios of girth, leg and back. He may be any color. The coat and skin are refined and the mane is long and abundant with fine, lustrous hair that may be curly or straight. Bone is refined but dense; in all aspects overall refinement, grace and elegance is desired. Stallions exhibit the powerful arched neck and crest of their Iberian ancestors. Peruvian Horse breeders pay scrupulous attention to genetics, with the three primary qualities being gait, soundness and disposition.

### **THE PERUVIAN HORSE AND THE PASO FINO ARE DIFFERENT BREEDS**

Many people assume a close relationship between the Peruvian Horse and the Paso Fino Horse, but they are in fact two different and distinct breeds of horses. The Peruvian Horse is somewhat larger, deeper in the body and wider. Both breeds have high head carriage and front leg lift, are smooth to ride, and exhibit a similar fourbeat footfall but it's executed differently. The Paso Fino does not execute the distinctive termino and its gait does not require the long stride of the Peruvian Horse.

### **TACK OF THE PERUVIAN HORSE**

The traditional tack of the Peruvian Horse has remained true to his heritage, but they may be ridden in any type of tack that fits properly. The headgear, saddle, stirrups and “guarniciones” (tailgear) used today in shows are the traditional equipment imported from Peru where it has evolved over hundreds of years. Although many people choose to show their horses in traditional tack, any style may be used as long as it conforms to USEF rules. And of course, on the trail anything goes! Enjoy this majestic and rare breed, THE PERUVIAN HORSE, the smoothest horse ever to be bred. Test ride one today at a breeder near you!

# LAUREADO: RDD HUAQUERO+

## *Open Performance Gelding - 2013 · 2014 · 2015*

We are so excited to accept this prestigious award of Laureado from the Los Amigos Peruvian Paso Horse club for Open Performance Gelding presented to our Amazing horse RDD Huaquero. This is Huaquero's 3rd Laureado in this division. Julia and Huaquero have this special bond together, It is truly one for the storybooks. They both seem to be on the same wavelength when they are together. As we all have witnessed these two performing, I am always in awe of their oneness. His ability to know what she is thinking, and do what is asked of him never fails to amaze us.

RDD Huaquero+ has taken Julia thru all of her Junior years and multiple Champion of Champion awards and is a two time US National Champion of Champion performance gelding. He is now taking Ava thru her young jr classes and teaching Ava how to become an amazing rider herself just as he did with her big sister Julia Mann. I believe this relationship between the girls and Huaquero have surpassed any and all expectations We could ever have. RDD Huaquero always has and always will be a part of our family.

We are truly so proud and so blessed to share this amazing horse with all of you.

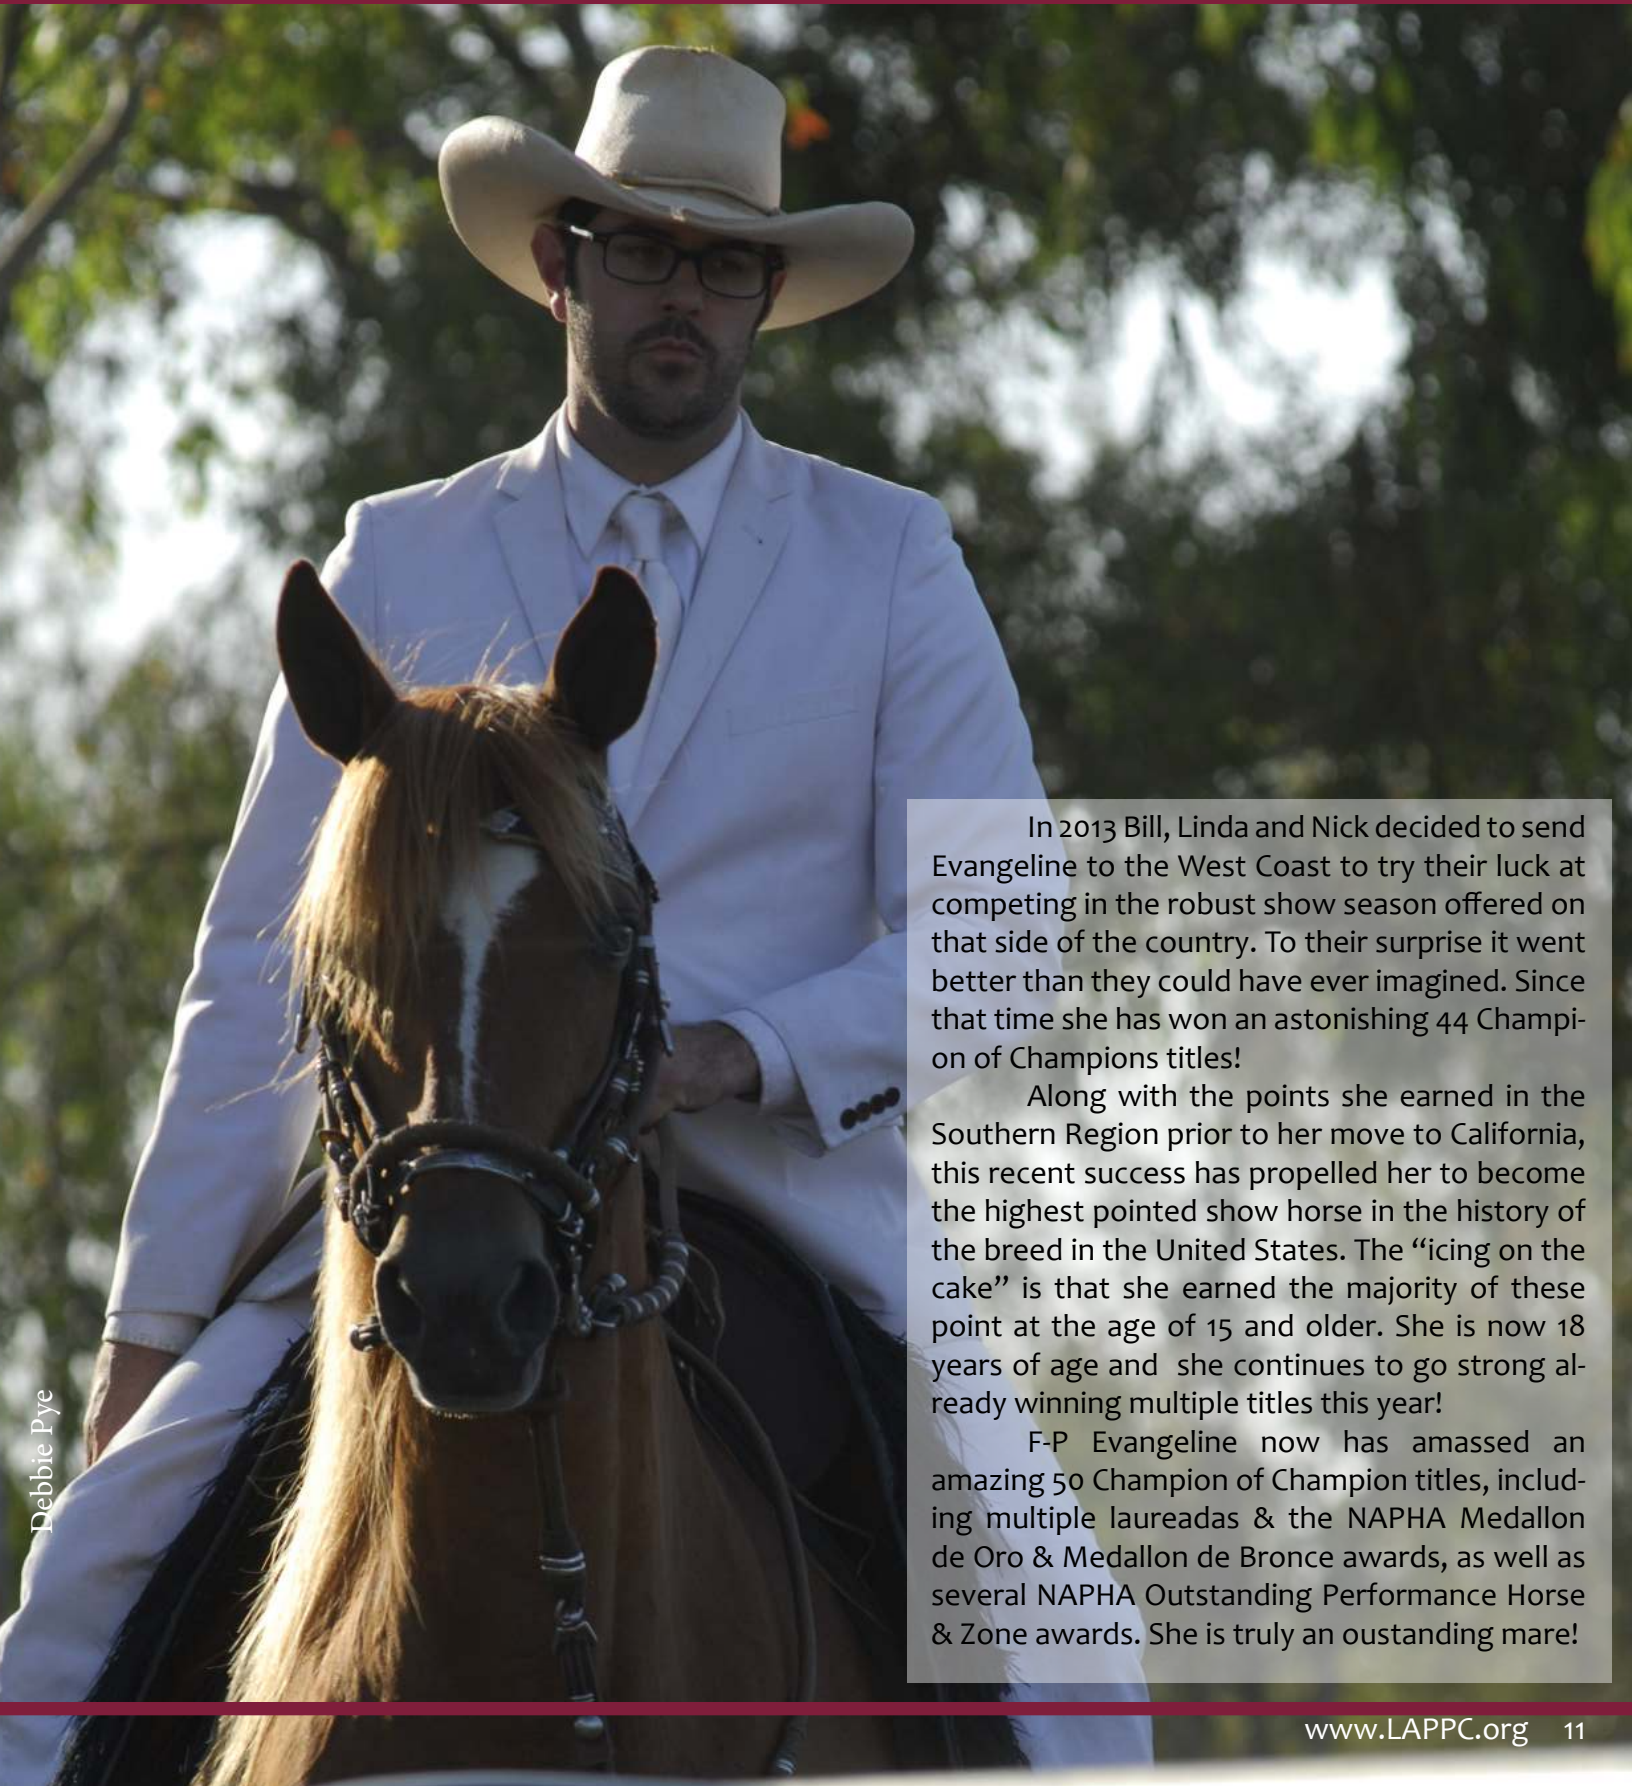

RDD Huaquero+, Julia Mann & the Mann Family.

# LAUREADA: F-P EVANGELINE+

*Amateur Performance Mare - 2013 · 2014 · 2015*

In 2013 Bill, Linda and Nick decided to send Evangeline to the West Coast to try their luck at competing in the robust show season offered on that side of the country. To their surprise it went better than they could have ever imagined. Since that time she has won an astonishing 44 Champion of Champions titles!

Along with the points she earned in the Southern Region prior to her move to California, this recent success has propelled her to become the highest pointed show horse in the history of the breed in the United States. The “icing on the cake” is that she earned the majority of these point at the age of 15 and older. She is now 18 years of age and she continues to go strong already winning multiple titles this year!

F-P Evangeline now has amassed an amazing 50 Champion of Champion titles, including multiple laureadas & the NAPHA Medallion de Oro & Medallion de Bronze awards, as well as several NAPHA Outstanding Performance Horse & Zone awards. She is truly an outstanding mare!

# IN MEMORIAM: LARRY REDMAN

*Jaden on RCh Torbellino+  
& Larry on RDS Tabernero -*

Larry Redman with his wife Joy Redman, started in the Peruvian Paso breed like so many others - with a couple of trail horses to enjoy on their beautiful ranch in the Santa Ynez Valley. Quickly they became enamored with the breed and decided to start showing and breeding. Their Rancho Chahuchu quickly became one of the top competitors, and their breeding program produced strong, successful horses like Rch Ventarrones, one of the top stallions in recent history, a US National Laureado breeding stallion and twice US National Best Gaited Horse of Show.

Larry served on the Boards of the PPHRNA, and later NAPHA. He was instrumental in the formation of NAPHA, and the merger of the PPHRNA and AAOBPPH to form one united registry for the breed.

Larry's favorite activity was trail riding his horses, and more recently, being able to share his love and passion for the breed with his grandchildren. He was a conscientious breeder, a talented exhibitor, a dedicated advocate of the Peruvian horse and a good, kind man. We will always remember his wonderful kindness, generosity and his passion for our breed.

# IN MEMORIAM: BOB CALENTINE

Bob Calentine was a great supporter of the Peruvian Paso breed and the Los Amigos Club. He enjoyed watching his horses and his family compete in the show arena, and riding on the trails. Bob served as a past AAOBPPH board of Director's member and Chairman of several US National shows, including the first combined national show.

Bob & Karen purchased their first two Peruvian horses in 1997, for the trails in Colorado. Within two years, they imported six Peruvian horses from Peru, four of which placed high at a Peruvian Nationals. In 1999, they began their successful breeding program. Hacienda la Cumbre horses have been awarded numerous Regional Championships and multiple National Championships.
