ABOUT

Y-Not Design & Manufacturing

Y-Not Design & Manufacturing is a US-based company that specializes in global procurement and distribution of custom-made products, retail and white label items, employee recognition gifts, and sustainable promotional products. As a certified minority and woman-owned Hub Zone company, we take pride in offering unique, custom-designed products that extend a customer's brand from last-minute events to employee engagement programs. Our owner has over 25 years of experience in the manufacturing and service business, and our customers love that they can track their products all the way to the factory. Since our establishment in 2005, we have been dedicated to providing exceptional service and quality products to our clients.

Solution Selling Collections

Solution Selling is a transformative approach that prioritizes the unique needs and challenges of your customers. The old model of pushing products and seeing what sticks is gone. Overwhelming potential buyers with an excess of products and features often leads to confusion and indecision. Solution Selling focuses on providing tailored solutions by delivering a curated presentation that resonates deeply

and feels tailored specifically for your client. Our Solution Selling Collections are well-crafted, curated presentations that capture a variety of customer profiles. This elevated and more personalized approach to product recommendations will spark meaningful conversations with your customers and lead to greater mutual success. *See Collections on pages 114-123.*

Sustainable Style Finder

Finding sustainable products can be challenging. Our **Sustainable Style Finder** helps you easily locate products for all your sustainability needs.

This 3-factor website tool quickly filters all the sustainable apparel, headwear, bags, drinkware, accessories and hard goods styles in our stocked assortment.

We vet each style's sustainability claim carefully using verifiable global standards that assess sustainable components, sustainable manufacturing practices and responsible mindset policies.

- Styles with **Sustainable Materials** contain all or a portion of verified sustainable fibers or materials. Recent enhancements to our **Sustainable Materials** filtering now give you an even easier way to find styles made from **recycled or reclaimed** materials, sustainable **USA grown cotton** and **other sustainable** materials like organic cotton and sustainably sourced cork.
- Styles with **Sustainable Manufacturing** have been sourced across a wide range of sustainable fabric and product manufacturing practices validated by globally recognized organizations.
- Styles with **Responsible Mindset** are from brands with social and sustainable 'give-back' policies directly linked to the products sold in our industry.

Look for the leaf icon to find sustainable products.

△ RAREFORM

At Rareform we believe billboards deserve a second chance.

We're in the business of sustainability, repurposing billboards into original products that inspire daily adventures. There's no blueprint on how to do what we do.

Rareform Totes

- no 2 bags alike!
- hand-cut from repurposed billboard vinyl, making each bag totally unique
- each bag features a plain white or black panel on one side and an exclusive, one-of-a-kind design on the flip side

Live without limits

From day one, Glyder's mission has been to cultivate a community of people who live life without limits. Those who see a boundary and break through it. Since we are all unique and no adventure is the same, we make it our focus to design multifunctional pieces that will perform with any activity. We create pieces that can take you from studio, to street, to the highest peak, all in one outfit.

The goal: Always do better

Born from a deep love of sport and an authentic drive to do what's right, this family-run company maintains one goal: To create the best activewear in the world, for the world.

After decades of dedication and constant innovation, they created the tasc brand. From their humble beginnings in New Orleans, to a company that now spans continents, they continue in the pursuit of better: Better materials, better processes, and a better future.

UNDER ARMOUR.

It all started with a t-shirt

Under Armour's first product - a t-shirt - changed the performance apparel game forever. It was soft, skin-tight and stretchy. Most importantly, it wicked sweat faster than anything else out there, keeping athletes cool, dry and light. Today, their tees are more technically advanced - but remain at the top of their game.
