Solution Selling Collections

Solution Selling is a transformative approach that prioritizes the unique needs and challenges of your customers. The old model of pushing products and seeing what sticks is gone. Overwhelming potential buyers with an excess of products and features often leads to confusion and indecision. Solution Selling focuses on providing tailored solutions by delivering a curated presentation that resonates deeply

and feels tailored specifically for your client. Our Solution Selling Collections are well-crafted, curated presentations that capture a variety of customer profiles. This elevated and more personalized approach to product recommendations will spark meaningful conversations with your customers and lead to greater mutual success. *See Collections on pages 126-135.*

Sustainable Style Finder

Finding sustainable products can be challenging. Our **Sustainable Style Finder** helps you easily locate products for all your sustainability needs.

This 3-factor website tool quickly filters all the sustainable apparel, headwear, bags, drinkware, accessories and hard goods styles in our stocked assortment.

We vet each style's sustainability claim carefully using verifiable global standards that assess sustainable components, sustainable manufacturing practices and responsible mindset policies.

- Styles with **Sustainable Materials** contain all or a portion of verified sustainable fibers or materials. Recent enhancements to our **Sustainable Materials** filtering now give you an even easier way to find styles made from **recycled or reclaimed** materials, sustainable **USA grown cotton** and **other sustainable** materials like organic cotton and sustainably sourced cork.
- Styles with **Sustainable Manufacturing** have been sourced across a wide range of sustainable fabric and product manufacturing practices validated by globally recognized organizations.
- Styles with **Responsible Mindset** are from brands with social and sustainable 'give-back' policies directly linked to the products sold in our industry.

Look for the leaf icon to find sustainable products.

UNDER ARMOUR.

It all started with a t-shirt

Under Armour's first product - a t-shirt - changed the performance apparel game forever. It was soft, skin-tight and stretchy. Most importantly, it wicked sweat faster than anything else out there, keeping athletes cool, dry and light. Today, their tees are more technically advanced - but remain at the top of their game.

SLIM FIT

SLIM FIT

Our **SLIM FIT** follows the shape of the body with enough room built in for ease of movement, keeping a sleek and updated look. A great choice for a more fashion-forward silhouette.

ACTIVE FIT

ACTIVE FIT

Our **ACTIVE FIT** is a true-to-size cut, that falls free from the body with a slight taper to reduce bulk in layering. The perfect combination of form and function.

TEAM FIT

TEAM FIT

Our **TEAM FIT** allows garments to move and flex easily, in a non-restrictive silhouette that's comfortable for the active wearer, whether athlete, coach or fan.

Finding your perfect garment size is easy

How to Measure

CHEST: Measure just under the arms, across fullest part of chest, around shoulder blades holding tape firm and level.

WAIST: Measure your natural waistline, keeping one finger between the tape and the waist.

HIP: Stand and measure around the fullest point of hips.

SLEEVE LENGTH: With arm relaxed at side and slightly bent, measure from center back neck, over the shoulder, down to the outer wrist.

INSEAM: Stand and measure from center crotch to bottom of ankle bone. (Please refer to specific style for garment inseam length.)

UNISEX: Men's medium is similar to ladies' large. Sleeve length will be about 1-1½" longer. Body of garment is not form fitting. Unisex medium is equivalent to men's medium through chest and sleeve length.

TALL SIZES:

Men's garments have added length in the body and sleeves. Short-sleeves are 1" longer, long-sleeves and body length are 2" longer.
