Sri Lanka in Crisis: India's Options

ABOUT THE BOOK

The author suggests on the basis of extensive research that Tamils and Sinhals are different only in their historical interaction with British colonialists. Otherwise, in ethnicity, language and religion they are of the same family. Due to the British early familiarity with Tamils in India, the Sri Lanka Tamils found easy access to the British colonialists, while the landed gentry and farming community of Sinhala did not. Hence, the Tamils got ahead in English education and professions, and a big gap developed between the two communities. The LTTE emerged out of that frustration. But the LTTE became terrorist, and soon an albatross.

GAUTAM DAS

ISBN : 978-93-91504-68-7

The main reasons why China-Indian geo-political relations have an underlying uneasiness is because of the issue of Tibet. It is the basis of the Chinese claim to the entire Indian state of Arunachal Pradesh, which it alleges is 'Chinese territory occupied by India'.

China-India relations have thus remained semi-hostage to the unresolved territorial dispute. There is continuing suspicion in China regarding India's attitude towards Tibet, mainly because of the Dalai Lama's residence in India as a 'guest of India'.

China-Tibet-India

GAUTAM DAS

ABOUT THE BOOK

The main reason why China-India geo-political relations have an underlying uneasiness is because of the issue of Tibet. It lies at the heart of the Chinese claim to the entire Indian state of Arunachal Pradesh, which it alleges as “Chinese territory occupied by India.” This creates a major part of the unresolved boundary issue between the two Asian countries. Inability to agree on their common border led to a limited war between them in October-November 1962, resulting in a humiliating defeat for India.

Hindu Power in the 21st Century: Resistances, Fears and Obstacles

FRANÇOIS GAUTIER

Why a book about Hindu Power, you may ask? Firstly, as I will explain at length all along, Hindu power is absolutely *secular* in essence, as Hindus have always accepted the diversity of the Divine and thus every persecuted religion found refuge in India, from the Jews to the Parsis, from the Armenians to the Tibetans today.

Secondly, it has been a one-way traffic and Hindus have been at the receiving end of Islamic violence and Christian missionaries to convert them—and this is why Hindus MUST take power—and keep it.

Thirdly, I am one of the few Western journalists and writers to defend Hindus because I think that they are the holders of the last Knowledge that can save the World: 'who am I, why live, what is death, what is an avatar, what is karma, what is dharma,' etc.

A History of India as it Happened

FRANÇOIS GAUTIER

We see more and more today that Indian History has to be rewritten according to the latest linguistic and archaeological discoveries, if Indian children are to understand who they are and where they come from. We know now that not only the history of India's beginnings were written by European colonizers, with an intention to downsize, downgrade and postdate Indian civilization, but that, unfortunately, generation after generation of Indian historians, for their own selfish purpose, endorsed and perpetuated these wrong theories, such as the Aryan invasion, which divided India like nothing else, pitting South against North, Aryan against Dravidian, and Untouchables against Brahmins.

Bangladesh: Tryst with Destiny

DIPANJAN ROY CHAUDHURY

The book makes an attempt to capture this essence of Bangladesh's constant struggle to maintain its identity, amid forces inimical and detrimental to its secular politics. The book is an initiative to celebrate the spirit of liberal ideology which created Bangladesh. It is surprising that the country which played the most critical role in the emergence of Bangladesh over four decades ago does not have adequate literature and books on the country with which it shares the longest boundary. The passion, which helped 'Muktijodhas' in 1971, did not reflect in enough scholarship in India on Bangladesh.

Northeast: Diverse Complexity

DIPANJAN ROY CHAUDHURY

The book discusses varied issues—insurgency, politics, neighbours, tourism, culture, economy and industry in most of the states of Northeast and captures the essence of the region in its true spirit.

The term "Northeast" is a misnomer, as each of the eight states are unique in their own ways. No other region or state in India is as ethnically diverse as the states of the Northeast. The book provides a glimpse of the rich culture and the economic potential that the region possesses.

The author has also made an attempt to understand the insurgencies and conflicts in the region, which are complex in nature, contrary to common perception.

India's Defence & National Security

SHEKHAR DUTT

In India's perspective, the relationship between *force* and *deterrence* and the country's commitment to peace is clear and unambiguous. If the military component has requisite capability and this is backed by an equally strong national-will, then *force* is forged into a winning instrument. This book is meant to bring about this awareness.

No attempt has been made to mould it into a prescriptive treatise but this study contains author's experience on some important issues. Obviously, it will invoke interest in those for whom the nation's future is dear and amongst the professionals who are already engaged in this interesting domain.

पुस्तक के बारे में

यह ग्रंथ इसी अवधारणा का प्रतिफल है। माहेश्वर तंत्र आगमी शास्त्र है। भगवान सदाशिव से भगवान नारायण के माध्यम से भगवान शंकर जी तक पहुँचा यह शास्त्र अद्वैत के विषय में जितना बोला है उतना कोई अन्य निगम शास्त्र नहीं।

श्री भागवत समूचे वेद शास्त्रों का सार है। ब्रज लीला और रासलीला उस सार के प्रमुख अंग हैं। इनका ही विश्लेषण ग्रंथकार ने अपने इस ग्रंथ में प्रमुखता से दिया है। श्री भागवत के अन्य विषय "संतति विवरण" तथा श्री कृष्ण-ऊधव सारांश ज्ञानोपदेश भी इस ग्रंथ में समाहित है। सनातन धर्म की महिमा-महत्ता ऐसे लघु ग्रंथ से ही जग जाहिर करने योग्य है। सभी के काम की चीज है।

This book is the result of a year of teaching Italian language and culture in India at the GD Goenka SoFD University, Indian branch of the Polytechnic of Milan.

Having found myself before a dynamic class, I decided to utilise their skill in design to compile all the Italian notes of the academic year and create a little handbook outlining the main rules of the subject.

As a result, this is not an exercise book, but rather a guide to the main grammar rules, vocabulary, and concepts of the history, literature, and architecture of the topic we studied: the main objective of this work is to learn Italian

Origin and Destiny of Man

JULIO OZÁN LAVOISIER

The mission of the Hindus, according to the author, is clarified in the work of their latest remarkable philosophers: Vivekananda and Aurobindo. However, upon paying more attention to their politicians than to their great thinkers, they seem to have forgotten their mission.

The aim of this book is to remind us of what we have forgotten, what makes us think and live, "the Life of life, the Mind of the mind" (*Kena Upanishad*).

PUNJABI CONTEMPORARY LITERARY SERIES

General Editor Prof. Rawail Singh

Punjabi Contemporary Literary series of translation of Punjabi literature. It is a welcome initiative to take Punjabi authors beyond the borders of Punjab through translation into English. There is no hesitation in accepting that despite having created a rich body of work, Punjabi literature is not being widely read. A large section of Punjabi population, who have got education in English medium schools, feel at home more with English than Punjabi. They prefer English to be their language of self-expression. It is also globally accepted that one can open his or her soul in one's mother tongue only. While such educated people express their urban experiences in English, Punjabi language and culture are at a disadvantage. Consequently, the purity of Punjabi culture, the essence of its land, the lifestyle of the people, its traditions, heroic tales and stories are missing in their sensibilities.

For those who can't read Punjabi, translation acts like a bridge. It is a commendable initiative taken by the publisher to promote Punjabi literature through translation. It is also important to realize the specific significance of translating Punjabi literature into English that has a wider readership. A large number of overseas Punjabi readers would get a chance to appreciate the richness of Punjabi literature and then go on to bring more texts to their respective countries.

Shakti Books is a significant series devoted to representing the range of issues pertaining to gender and its overlapping and intersectional concerns and contexts. It is unique in its ability to connect with well-known scholars writing on gender issues as well as to reach out to bright young talents negotiating and mediating the field.

The series seeks to analyse the patriarchal structures and institutions at play and strives to engage with history, culture, socio-economic order and the political nuances of the same. It focuses on the 'invisible,' the 'unspoken' and the 'new' within the field of gender studies.

While writings on gender are available across disciplines or within scholarly readership, the interrogation of gender in this series is refreshing and cutting edge. It undertakes to sensitize its readers to unravel the nuances of gender in the everyday and encourages them to take part in this conversation.

The series has a multidisciplinary outlook interlinking literature, science, economics, history, sociology, culture, arts, aesthetics, religion, politics, geography, media and education. The range of issues include class, caste, religion, race, ethnicity, region, language, age, desire and sexuality and their intersecting and overlapping concerns with gender. The series focuses on women of today, both in the urban and rural contexts, who are aspirational and building on the gains of a sustained women's movement in India.

In a systematic and accessible manner, *Shakti Books* makes refined and sophisticated links to the widespread network of gender studies which includes the creative, critical, communicative, cultural and the contemporary. The emphasis of the series is to examine the perceptions of gender in the present, its link to the historical past and its significance for the contemporary times. *Shakti Books* has been the first series to consider and address these critical connections and provide a wide platform to a range of young authors and scholars to bring forward their writings on gender issues. It reiterates the indispensability of gender equality and focuses on aspects of the complexity of gender through incisive analysis of the same.

This series intends to add content to the security policies of India, and the intellectual pluralism that stems from this, could in turn, provide India's politico-bureaucratic elite, an idea of the national mood on military issues and enable them to direct the country's policies in the right direction. Until now, a large number of India's politicians and the people they represented, were only interested in regional issues within India's border. But that has begun to change.

Across India, the media, a number of academics and intellectuals have started to debate issues of national security and military affairs, especially so in an era when India faces and fights terrorism unleashed by Pakistan. This is the start of a healthy tradition in the country.

South Asia is now perhaps the most heavily militarised region in the world, and nuclear India remains boxed between the region's two other nuclear powers—China and Pakistan—and while both are in land contiguity with India, diplomatic relations with them are far from perfect. But despite this, the debate on national security issues is limited, and our people remain inadequately informed about the military issues that concern every citizen. It is this shortcoming that this series will address.

The Foreign Policy, Peace and Security Series (FPPSS) is dedicated to publishing scholarly books on critical issues of international relations, especially those concerning India's security and its foreign policy. The series aims to bring to bear diverse opinions to help generate informed debate on India's relationships with the outside world. The volumes will be analytically rigorous and rich in detail. They will, however, be written consciously for a wider non-specialist audience. As India enters the 21st century, in a world that is both anarchic and integrated, Indians can no longer afford the luxury of ignoring external relations or leaving critical decisions to a small group of experts. The Foreign Policy, Peace and Security Series will, hopefully, help bridge the information and analysis gap between experts on international relations and ordinary interested Indians.
