The Science Behind Joint Genesis

Joint Genesis targets the synovial fluid that cushions your joints. As we age, this fluid diminishes, causing friction and pain. Key mechanisms:

1. Hyaluronan Boost

Mobilee® stimulates hyaluronan production, restoring joint lubrication naturally. Clinical studies show a **72% improvement** in joint function.

2. Inflammation Control

Pycnogenol® reduces inflammatory markers that contribute to joint degradation by up to **52%**.

"In my 20 years as a rheumatologist, I've rarely seen a supplement with such compelling clinical evidence. The Mobilee® and Pycnogenol® combination is revolutionary."
- **Dr. Michael Harris**
