

FROM EDUCATION TO EMPOWERMENT: BE THE CHANGE

TOGETHER, WE CAN SHAPE A BRIGHTER TOMORROW

For generations, Anjuman-I-Islam has been a cornerstone of education, progress and empowerment, touching the lives of tens of thousands of students every year. Our mission is simple yet profound, to provide quality education, uplift communities and create leaders who leave their mark in this world. We facilitate inclusivity, access and opportunity for modern learning and excellence.

YOUR SUPPORT CAN TRANSFORM LIVES

- Breaking the shackles of Financial Barriers to Education: Countless students face financial constraints that prevent them realise their potential.
- Bestowing a Dignified Future Upon Orphaned Girls: Help increase the number of orphan girls' step into the world with confidence and self-reliance.
- Building the Schools of Tomorrow: Beyond classrooms, lies a critical need to continuously develop cutting edge digital learning centres, STEAM laboratories, advanced research hubs and innovation spaces to ensure that our students are poised to lead the future.

BE A PART OF THIS LEGACY

- Sponsor a Student's Ascent: Support a child's dream to learn and excel.
- Support Growth & Innovation: Contribute to the creation of modern and inspiring learning spaces and advanced research facilities.
- Help Secure a Brighter Future for Orphaned Children: Extend support to our orphanages
- CSR Partnerships: Collaborate for a transformative social impact / Engage in high-impact initiatives

BE A CATALYST FOR CHANGE

Your generosity transcends the realm of a mere donation—it is a powerful and purposeful investment in the future of education, leadership and innovation.

Empowering Dreams, Expanding Horizons.

Greetings,

In the tapestry of life, it is our responsibility to weave a brighter future for generations to come. At Anjuman, we firmly believe in the legacy of progress, constantly striving to enhance our institution and take it to global standards.

Anjuman-I-Islam was established in the year 1874 to provide formal education to Muslims and other communities. This, over a period of 150 years, grew multi-fold to expand as one of India's leading educational institutions, with over 100 institutions and tens of thousands of students, from Muslim and all other communities. Anjuman strives to develop a world-class education system which embodies a culture of excellence and empowers students with quality education from KG to PhD through its multiple schools and colleges imparting foundational, professional, technical and management education in most of the modern education streams. Additionally, we manage two orphanages for girls and a Sahara Center for destitute and distressed women, imparting skills and providing counselling. At orphanages, we provide them with food, shelter, clothing, education and get them settled. We also help them get married.

In the recent past, we've achieved remarkable milestones, including the establishment of an Integrated Technical Campus at Panvel (with colleges of Engineering, Pharmacy and Architecture), College of Law and creation of new infrastructure at Pune and for College of Home Science at our CSMT campus. Additional floors were added to buildings for Allana Institute of Management Studies, Saboo Siddik College of Engineering and at Kurla Campus.

We started Post Graduation Programs and Research Centers at Kalsekar Technical Campus, Panvel, Akbar Peerbhoy College of Comm. & Eco. & Allana Institute of Management Studies. We established Incubation Centers and started Research programs while increasing intake capacity of demand-driven courses. Beyond its exceptional contributions to academics, Anjuman has embraced collaborations with prestigious MIT, Boston, USA for the MIT J-WEL Programme and also Westminster University, UK. We are also in discussions with Finnish universities for potential collaboration. These strategic partnerships have the potential to enrich the academic landscape, fostering innovation, cutting-edge teaching pedagogy and providing global exposure to students and faculty.

In line with our strategic vision to expand, we aim to create post-graduation courses and research centers at Saboo Siddik complex, in addition to adding new courses in mass media, journalism and entertainment and R&D cum incubation center. We plan to establish a medical complex with a medical college and hospital near Bhiwandi. College of Pharmacy, Law, College of Science for Girls, and an English Medium School in Solapur. College of hotel management, pharmacy and nursing at the proposed Goa campus. Additionally, we plan to expand facilities at our existing locations in Versova, Vashi and Turbhe. At Anjuman, we are also committed to the development of our teaching and non-teaching teams. We are progressing to enhance our systems by embracing contemporary technology and practices.

These are ambitious projects and essential for the educational well-being of the community. I am confident that our well-wishers, those who share our commitment, our global friends and their connections will enthusiastically support our efforts to expand our educational impact. As we forge ahead, we honour our rich history with gratitude and pride while envisioning a future defined by inclusivity, progress, and community service.

Thank you for being a part of our transformative journey. Together, we shape a brighter world through education and women empowerment.

With sincere gratitude and best wishes.

Dr. Zahir I. Kazi
Padma Awardee - 2024
President, Anjuman-I-Islam

A LUMINARY OF EDUCATION AND EXCELLENCE

Anjuman celebrates a landmark moment in its illustrious history as Dr. Zahir I. Kazi, its esteemed President and an eminent Radiologist, is honored with the prestigious, fourth highest civilian award, the Padma Shri, in the Literature and Education category, conferred by the Hon'ble President of India, Smt. Droupadi Murmu and presented at the Rashtrapati Bhavan, in the august presence of the Hon'ble Prime Minister, Shri. Narendra Modi.

Dr. Kazi's Padma Shri is a resounding testament to his visionary leadership and transformative contributions to education. Under his dynamic stewardship, Anjuman has grown into one of India's largest and most inclusive educational institutions, impacting countless lives and shaping the future of generations. This recognition is not just a personal milestone for Dr. Kazi, but a celebration of Anjuman's enduring values, commitment to academic excellence, and mission of inclusivity.

The Anjuman-l-Islam

In the year 1874, in a multi cultured Nation, that was struggling to get its sovereignty, a group of visionary individuals and esteemed public figures, led by Justice Badruddin Tyabji, the first Indian Justice of the Bombay High Court before independence and the third President of the Indian National Congress, assembled to establish Anjuman-l-Islam. In an era and country where formal education systems were scarce, Justice Badruddin Tyabji, Camruddin Tyabji, Munshi Ghulam Muhammad, an educationist and reformer, Maulvi Rafiuddin Ahmed, a scholar Late Mohammed Ali Roghay, a philanthropist and Janab Shahabuddin Kazi, a philanthropist recognized the pressing need for quality and formal education for our community and took the initiative to work on this. Their efforts led to the foundation of the first school for Muslim boys with a modest faculty of three teachers and 120 students. The land and funds were contributed by Late Janab Mohammed Ali Nakwa Roghay.

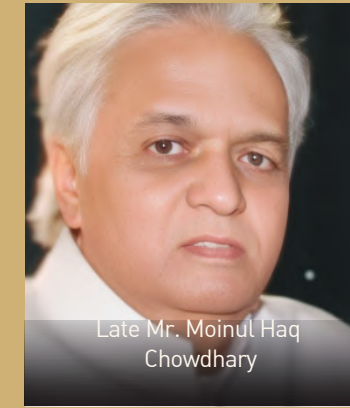

Over a period of time, this vision of the Founders got further strengthened with significant contributions coming from esteemed philanthropists. Late Mr. Jairajbhoy Peerbhoy contributed significantly through personal donation and through donations from others to establish High School at the erstwhile Hornby Road, which is now part of our CSMT campus. Late Janab Aziz Hooseinbhoy Laljee donated a large parcel of land at Panchgani which houses a public school including boarding facilities for boys and girls. Late Mohammed, son of Haji Saboo Siddik, who donated a large sum of money for establishing an institution for imparting Vocational, Technical and Industrial training and education. This led to what today is a prestigious Mohammed Haji Saboo Siddik technical campus at Byculla. The benevolence of brothers, Late Mr. Dostmohammed Peermohammed and Late Mr. Valimohammed Peermohammed resulted in the establishment of our Pune campus, which was built on the land donated by them. Janab Abdul Razzaq Kalsekar has significantly contributed to the establishment of Kalsekar Polytechnic and Kalsekar Integrated Technical Complex at Panvel which offers excellent education facilities in Engineering & Technology, Pharmacy and Architecture and towards the expansion and modernisation of many other institutes including Unani Medical College, Auditorium at Bellasis Road and other English Medium Schools. Anjuman is fortunate to get support from distinguished industrialists and philanthropists Late Haji Mohammed Hussain Allana, Late Haji Abdul Razzaq Allana and their family towards establishment, growth and modernisation of many institutes at Kurla, CSMT Campus, Institute of Business Management,

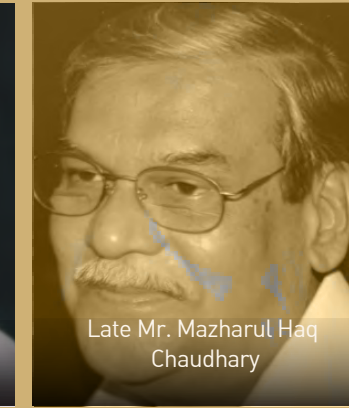

Late Mr. Seth Hooseinbhoy A. Laljee

Late Mr. Haji Mohammed Hussain Allana

Late Mr. Moinul Haq Chowdhary

Late Mr. Mazharul Haq Chaudhary

Multipurpose Hall and Other Schools & Jr. Colleges. Philanthropists Mr. Moinul Haq Chaudhary and Mr. Mazharul Haq Chaudhary contributed towards establishment of the College of Home Sciences for girls at CSMT campus.

Today, Anjuman, a section 8 company, is a prestigious and venerable Educational and Social Trust. With an illustrious legacy spanning over 150 years, more than 100 institutes and tens of thousands of students, Anjuman stands as the oldest minority educational conglomerate in India, renowned for its unwavering commitment to empowering muslims and other marginalized sections of society. At Anjuman, we are deeply driven by the principles of inclusivity, equality, and secularism, ensuring that every individual, irrespective of their background or belief, has access to contemporary educational opportunities to uplift themselves and become a part of the progressive society.

Anjuman provides education from kindergarten to post-graduation and PhD at the lowest possible cost. Apart from the schools and junior colleges, the institutes include polytechnics and professional colleges that cover commerce, engineering, architecture, pharmacy, unani medicine, hospitality, catering and hotel management, law, business administration, home science, teachers' training, computer centres, publishing house and skill development. Anjuman's social outreach includes managing Urdu research center, hostels, two girls' orphanages and Sahara units dedicated to uplifting the community, focusing on destitute women and the underprivileged students for their various needs.

Transforming Education Through Expansion & Innovation

Anjuman has been at the forefront of educational transformation, continuously expanding its academic footprint and enhancing learning opportunities across diverse disciplines. With a commitment to excellence, innovation, and inclusivity, the institution has introduced cutting-edge programs, upgraded infrastructure, and broadened access to quality education, ensuring students are equipped for the future. Anjuman, by fostering intellectual curiosity, global awareness and ethical values, equips its students to become leaders in a rapidly evolving world.

With its rich legacy, global collaborations, and forward-thinking initiatives, Anjuman continues to stand as a beacon of progress and empowerment, inspiring generations to dream big, achieve high and build a brighter future for all.

As a philosophy, Anjuman never turns away a student for want of financial resources. If the student is from an economically weak section of the society, Anjuman provides for his/her fees and other needs including uniform, books, school bus, food grains, medical assistance etc. from the Zakat and other contributions it collects from the donors. Anjuman strives to work towards increasing women empowerment by providing opportunities, active encouragement and support in areas that are important and critical. It has created an environment that is fair, safe and vibrant. It provides them with a platform where they can excel.

Anjuman also provides for shelter and all other needs like clothing, food, education etc. to more than 300 girls that are taking shelter at its two orphanages, a shelter home and vocational training centre for destitute women.

OUR EDUCATIONAL CAMPUSES

Educational Campuses

Our campuses are home to a strong and prestigious network of institutions, from basic education to education in higher, technical, vocational and management studies. They also house pioneering research centers contributing to a vibrant ecosystem of academic excellence and innovation.

SOCIAL WORK

Enabling Access to Education:

Education is a basic necessity and not a privilege. Anjuman ensures that financial constraints never hinder a student's aspirations. With about 50% of its students from economically disadvantaged backgrounds, Anjuman remains committed to providing quality education at the lowest possible cost.

Its initiatives include dedicated funds for underprivileged students, a strong philanthropic network of alumni and corporate sponsors and scholarship guidance cells to assist students in securing financial aid. Through these, Anjuman has supported more than 17,000 students with government scholarships of about ₹ 57 cr over the past five years and supported more than 14,000 students with financial assistance of over ₹16 cr in the form of zakat and other financial aid from alumni, donors and CSR initiatives. Anjuman is deeply committed to upholding two fundamental principles that form the bedrock of its educational mission:

“ Delivering education of the highest quality at lowest possible cost while ensuring that no student is turned away due to financial constraints”.

Anjuman, through its ITI, empowers children with hearing and speech impairments to acquire skills in plumbing, electrical and other vocational skills.

Restoring Dignity -Transforming Lives of Orphaned Girls:

Anjuman mission extends beyond education, it includes uplifting orphaned girls through its two orphanages in Mumbai and Pune providing 300 girls with more than just shelter, providing them with all that is required for them to lead a dignified independent life through education, skills training and job. It goes one step further and facilitates secure futures by assisting in carefully vetted matrimonial alliances where all arrangements are made with utmost care including taking care of wedding expenses, household furniture, appliances, fixed deposits and post marital monitoring.

Sahara Project:

The “SAHARA Project” of Anjuman-I-Islam is a vital initiative which plays a pivotal role in reaching out to out of school children, and supporting them and other underprivileged students from extremely poor families, mostly first-generation learners, from pre-primary to junior college by paying for their fees, basic needs, books, educational material, uniforms, transportation cost and other necessary skills to live a better life as productive members of the society. Anjuman provides free transport facilities to poor students from its different institutions to ensure that the education of deserving students continues uninterrupted. It also provides financial aid to deserving students from the higher and professional education institutes. There is another SAHARA Unit for Destitute Women and Child Welfare, which addresses the needs of destitute women, single parents, victims of broken homes and the marginalized by providing counselling and running short-term vocational courses which enables them to earn a living and makes them self-sustainable and a unit in Mumbra that provides basic technical education.

Community Polytechnic:

In the year 2008, the MHRD, Government of India, selected M.H. Saboo Siddik Polytechnic as a 'Community Polytechnic' under the CDTTP scheme (Community Development Through Polytechnic). Up until the present date, the institute has provided free skill- based training to 5,800 school dropouts and individuals from underprivileged sections of society. The Polytechnic offered skill development courses in Electrical Wireman, Hardware and Network Technician, Mobile Technician, Beautician, Tailoring and Fashion Designers, and Tally Operator.

Community Support During Covid:

- During COVID-19 pandemic our Kalsekar Hospital at Versova was converted into a dedicated covid hospital and vaccination centre. It treated 144 patients and administered about 1.75 lakh vaccinations with MCGM support.
- Our Kalsekar campus at Panvel provided space for the storage of food grains and made arrangements for cooking hygienic vegetarian food for distribution to nearly 8000 people per day. In collaboration with Panvel Tehsil, it distributed 2000 grocery packets (22 kg each) daily to the poor.
- Our Bandra campus was used as a local vegetable and fruit market and our CSMT campus, Bellasis campus, Saboo Siddik campus and Akbar Peerbhoy college campus had been earmarked as quarantine centres.

Expanding Net:

Anjuman intends to expand its support and build networks to reach out to more marginalized students. Esteemed philanthropists' increased involvement would help us scale programs under “SAHARA Project”, scholarships, increased number of girls in orphanages and vocational training for destitute women. By partnering with alumni, donors, CSR sponsors and philanthropists, Anjuman can enhance outreach and ensure that financial or social barriers never block a deserving student's path to education and empowerment.

RESEARCH & DEVELOPMENT

Patents

Anjuman encourages and facilitates creation of intellectual properties

Anjuman strives to create an environment that supports the professional growth of the faculty. This focus on development plays a role in enriching the learning experience for students, fostering their intellectual curiosity and entrepreneurial spirit. The collaborative environment has enabled institutions like Kalsekar Integrated Technical Campus, M. H. Saboo Siddik Campus, and Allana Institute of Management Studies to cultivate a space for innovation and intellectual property development.

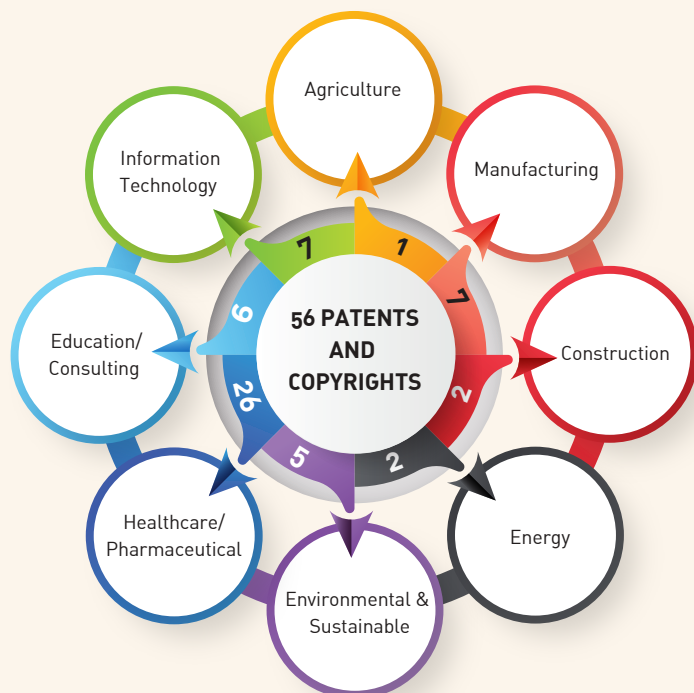

Dr. Imran A. Sheikh's work in this area at Kalsekar Integrated Technical Campus has resulted in 21 patents and copyrights, including multiple patents with international recognition.

Furthermore, collectively, over 50 patents and 6 copyrights have been registered. These patents represent a meaningful contribution to the advancement of knowledge and technology. The expertise of our faculty helps contribute to the generation of valuable intellectual property. The comprehensive portfolio of 56 patents and copyrights spans a diverse range of fields, reflecting Anjuman's commitment to fostering innovation across multiple disciplines, and dedication to addressing contemporary challenges through cutting-edge research.

INCUBATION CENTER

In order to support entrepreneurship, foster innovation and to bridge the gap between academia and industry, Anjuman has created incubation centres at its' Kalsekar Technical campus and M. H. Saboo Siddik campus. These centres provide students, researchers, and startups with resources, mentorship, and networking opportunities to develop and commercialize their ideas.

Incubation centres help students and faculty turn their ideas into viable businesses by providing guidance, funding, and infrastructure and connect students and researchers with industry experts, investors, and successful entrepreneurs, making it easier to bring academic innovations to market. They aim to provide seed funding, grants, and access to venture capital. The centre at Kalsekar Technical Campus has supported over 63 startups, with 12 registration and funding of more than ₹65 lakh has been raised, including four securing funding of ₹1 lakh each under the Maharashtra government's Student Innovator Challenge Competition. The centre collaborates with prestigious institutions such as LEO Lions Club International, IIM Jammu and IIT SINE. It also organized LeadX under Leo Lions Club on Leadership, visited TIE Silicon Valley Charter Member, Saudi Unicorn Holder Entrepreneur, Multinational Platform Connect Souq Founder and participated in multiple EXPOs, including Asia's Largest Makers Mela. The centre also offers internships under the Maha Rojgar scheme and has secured approvals for 80 new interns.

NOTABLE GROWTH & EXPANSION

Transforming Education Through Expansion & Innovation

Anjuman has been at the forefront of educational transformation, continuously expanding its academic footprint and enhancing learning opportunities across disciplines. With a commitment to excellence, innovation and inclusivity, the institution has introduced cutting-edge programs, upgraded infrastructure, and broadened access to quality education, ensuring students are equipped for the future.

Key Recent Expansions & Developments

- Integrated Technical Campus at Panvel – A multi-disciplinary hub, housing Schools of Engineering, Architecture, Pharmacy and the second largest polytechnic in Maharashtra, with continuous infrastructure enhancements and increased student capacity.
- Introduction of new programs, Artificial Intelligence & Machine Learning, Automation & Robotics, Mechatronics. B.Voc Engineering Courses in Automobile Servicing, AI & Data Science and expansion of Civil Engineering Department with addition of two new floors.
- **Central Library**, home to a distinguished technical library, ranked second only to IIT Bombay. It is a fully automated, QR code-based and empowers students, faculty, and researchers with an unparalleled repository of academic resources. It offers expansive physical & digital repositories of 8,200+ books, 28,400+ volumes, 2,306 e-books, 102 journals.
- **Incubation centers, research hubs, and startup ecosystems** to foster entrepreneurial spirit and industry-ready talent.
- **Establishment of A. R. Antulay College of Law (CSMT Campus)** – A premier institution providing comprehensive legal education.
- **Expansion of the Institute of Hotel Management & Catering Technology** – Upgraded facilities and increased student intake capacity by 3 fold.

DEVELOPMENTS IN RECENT PAST

Anjuman has been focussing on improving the quality of the academic programs, introduction of technology, introduction of post graduation and research programs, and collaboration with institutions and global universities to take Anjuman a few notches up. It works towards, faculty development and student development through various interventions.

Collaborating with leading financial institutes

Anjuman has signed Memoranda of Understanding (MoUs) with leading financial institutions to enhance industry-aligned education and improve student employability in banking, insurance, and capital markets. These strategic partnerships include the Insurance Institute of India (III) for specialized insurance education and professional training, the Indian Institute of Banking and Finance (IIBF) for banking and financial certification, and the National Institute of Securities Markets (NISM), SEBI's official institute for capital market education and regulatory training. Additionally, the Chartered Market Technician (CMT) Association, USA provides expertise in technical analysis and investment strategies, while the Bombay Stock Exchange (BSE) Brokers' Forum serves as an apex body for securities firms and investor education.

Embracing Technology

In a landmark step towards digital transformation, Anjuman-I-Islam has partnered with TATA ClassEdge, introducing state-of-the-art digital panels across its schools and colleges. These smart classrooms redefine teaching methodologies, making learning interactive, engaging, and immersive. From early education to advanced professional studies, the TATA ClassEdge initiative ensures that Anjuman's students are equipped with the skills and confidence to navigate a technology driven world.

Global Collaborations

Anjuman-I-Islam's vision extends beyond geographical boundaries, forging prestigious international collaborations with many institutions

Massachusetts Institute of Technology (MIT), Boston, USA

Dr. Zahir I. Kazi led Anjuman delegation to the US, in two pivotal meetings with the Massachusetts Institute of Technology (MIT), ranked #1 in Engineering and Technology by QS World Rankings. The discussions, involving MIT's J-WEL Higher Education and Social Innovation teams, explored avenues for collaboration between MIT and Anjuman's institutions, M.H. Saboo Siddik College of Engineering-Mumbai and Kalsekar Technical Campus, Panvel and the K-12 Department. Proposals included the introduction of the J-WEL programme to the faculty of Anjuman and introducing the cost-effective Micro-Master courses by MIT for Anjuman students, demonstrating a potential win-win partnership.

Anjuman and the Massachusetts Institute of Technology (MIT), Boston, USA signed an MoU with the objective of accessing the J-WEL programme to collaborate and introduce a cost-effective MicroMasters program for the students of Anjuman. The agreement underscores a commitment to knowledge sharing, technology transfer, and the development of joint academic programs. A core team of six faculty members from Anjuman institutes has been formed, which was nominated to participate in an immersive program at MIT for the J-WEL Week. The team engaged with distinguished educators, gaining insights into cutting-edge trends and best practices in education. This program not only resonated with the organization's dedication to excellence but also positioned the Core Team to bring back invaluable knowledge, fostering Anjuman's impact on the educational landscape. Inspired and equipped with fresh ideas, the team returned poised to elevate the organization's role in advancing educational initiatives. Key accomplishments include hosting distinguished guest speakers from prestigious institutions such as Harvard and MIT.

Meeting with Dr. Shahid Jameel, renowned virologist and Former Chairman of the Government of India's COVID-19 panel, and Dr. Farhan Nizami, Director of the Centre for Islamic Studies at Oxford University - 2023.

MoU with Massachusetts Institute of Technology USA, Senior Academia Team of Anjuman attending workshop at MIT, USA, on Architectures of Learning - 2023.

Meeting with Mr. Erik af Hällström, Consul General of Finland for exploring Collaboration Opportunities - 2025.

Meeting with Prof Peter Bonfield, Vice-Chancellor and President of the University of Westminster who was joined by Prof Dibyesh Anand, Deputy Vice Chancellor, and Mr. Stephen Wallis, Director.

Hon. President Dr. Zahir I. Kazi with Dean Dr. Natalie Eddington and Dr. James Polli-Graduate Program Director, University of Maryland.

The introduction of the MicroMasters program in both Management and Engineering Institutes, along with the successful implementation of the AI and STEAM Up Programme in the K-12 Department, has enriched interdisciplinary education across the institutes.

University of Westminster

A landmark meeting with Prof. Peter Bonfield, Vice-Chancellor of the University of Westminster, and senior leadership solidified Anjuman's academic partnerships. The visit explored collaboration in herbal medicine, mass media communication, and entertainment studies, strengthening Anjuman's presence in cutting-edge research and media education. Short term initiatives, including guest lectures, field trips, and a joint Hackathon, were finalized, while long-term goals such as joint research projects and specialized master's programs were outlined. Dr. Kazi's leadership was instrumental in translating the MoU signed in April 2023 into tangible action.

Universities in Finland

Anjuman is in initial stages of discussions with a few Universities of Finland for potential collaboration to improve effectiveness and programs of Anjuman institutes.

Global Engagement & Anjuman's International Outreach Address at Harvard

Dr. Zahir I. Kazi, on 21st Oct 2022, delivered a compelling TED-like talk at Harvard University on philanthropy, showcasing Anjuman-I-Islam's transformative journey in education, women empowerment, orphanages, and engineering innovations. Addressing a distinguished audience of investment professionals, corporate leaders, and academicians, Dr. Kazi successfully attracted support from high-net-worth Indian-origin individuals, amplifying Anjuman's global footprint.

United Nations

Dr. Kazi led the Anjuman's delegation to the United Nations on 24th Oct 2022, engaging in discussions on academic impact programs, collaborations with global non-profits, and UNICEF's Generation Unlimited initiative. The visit explored UN accreditation and membership, reinforcing Anjuman's alignment with the UN Sustainable Development Goals (SDGs) and commitment to global educational partnerships.

University of Maryland

Anjuman initiated discussions with the University of Maryland to explore collaborations in online master's programs, generic drug regulation courses, and research in drug delivery. The visit culminated in plans for drafting an MoU to formalize a partnership between the University of Maryland and AIKTC School of Pharmacy.

Oxford University

Dr. Kazi led an insightful session at Oxford University, hosted by Dr. Shahid Jameel and Dr. Farhan Nizami, where Anjuman's vision was met with enthusiasm, paving the way for collaborative prospects.

High-Level Diplomatic & Humanitarian Engagements

Dr. Kazi's meetings with His Excellency Vikram Doraiswamy, High Commissioner of India in the UK, and Islamic Relief UK led to commitments for fostering educational collaborations and orphan support programs.

Overseas Well Wishers

Anjuman has established Overseas Friends of Anjuman Inc (OFA), a 501(c)3 non profit organisation in USA to achieve its charitable and social objectives. This will help us connect with our alumni network, collaborate with experts and enhance foreign university collaborations. Anjuman is now in the process of formation of OFA's UK Chapter, a significant milestone in expanding Anjuman's global support network.

Allana Institute of Management Studies in association with BSE organised an International Finance Conclave on "Role of Financial Markets in Sustainable Growth" through ESG - 2023.

Anjuman delegation had a highly productive and successful meeting with Prof. Peter Bonfield, Vice-Chancellor and President of the University of Westminster and signed MoU in April 2023.

Partnership between Tata ClassEdge and Anjuman for advancing Education with Technology in Classrooms - 2024.

Hon. President met the Ambassador of United States of America Mr. Eric Garcetti at Taj Lands End Mumbai on the occasion of 247th American Independence Day celebration - 2023.

Hon. President Dr. Zahir I. Kazi's address at Harvard University Cambridge MA, USA - 2022.

STRATEGIC ROADMAP

Anjuman is conscious of its heritage and responsibility towards the society. Our ongoing and planned strategic projects yield numerous benefits to the community which includes;

- Broadening access and opportunities to enhance an equitable and inclusive future for Muslims, marginalized and other aspirants.
- Offering accessible boarding and stay near educational institutions for students from distant areas.
- Availability of contemporary, demand based with geography specific and futuristic education programs in basic and higher education, vocational and professional courses.
- Contribution towards improved human development, intellectual capital, improved employability and livelihood opportunities, including in the under-developed regions.
- Increased availability of medical and other professionals across the country.
- Unhindered learning and development of Principals, faculty and staff.
- Maintaining the rich Anjuman heritage including the architectural value of buildings.

Strategic projects:

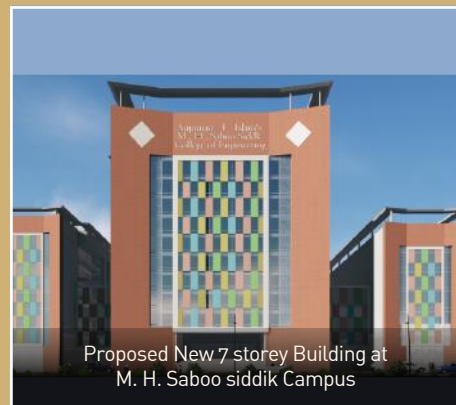

Restoration of heritage Building

• Restoration of heritage building at CSMT Campus

Completion of restoration, refurbishing and repairs of 130 years old Grade IIA heritage building at Anjuman Head located in the CSMT campus, Mumbai, is nearing completion.

This iconic building boasts immense cultural and heritage value, significantly contributing to the city's grandeur and beauty.

Proposed New 7-storey Building at M. H. Saboo Siddik Campus

• Expansion at M. H. Saboo Siddik Campus

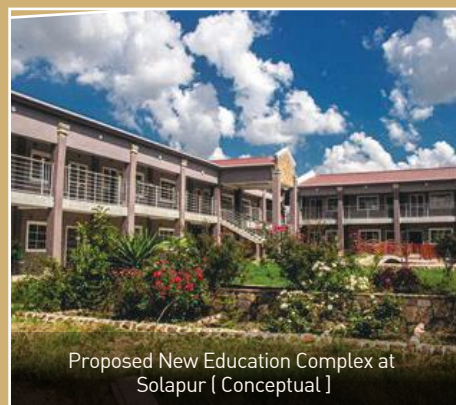

The M.H. Saboo Siddik Campus is undergoing significant expansion at its Byculla complex by demolition of old Library building and construction of a new 7 storey building based on new FSI. The new building will house Post-graduate programs, PhD and R&D Centre focused on Digitalization, IT, and Engineering, new institute of Media and Mass Communication, Innovation Centre, a new laboratory and a modern library.

• New Complex at Solapur

Anjuman is developing a new institute on land acquired 10 years ago which is already in possession to house a new primary and Secondary school, a college for diploma and degree in Pharmacy and skill development Centre for children and adults.

• Vashi Project

Expansion by about 3 times at the existing complex based on new FSI regulations by constructing a new building to house existing B.Ed. courses with enhanced capacity, new CBSE school, new junior college and new degree college.

Proposed New Education Complex at Solapur [Conceptual]

Goa Institute (Porvorim, Goa)

Proposed New Educational Complex at Goa [Conceptual]

Discussions with one Goa Trust is at final stage for collaborating for their land parcel at Porvorim, Goa, where a new institute will be built to house an institute for programs based on the geographical needs of the area. The Institute will offer diploma and degree in Hotel Management, Tourism, Pharmacy and courses related to mines and mining sectors.

A Medical Complex is planned for the Bhiwandi-Kalyan area, featuring a 695 bed multispecialty hospital with modern medical facilities at affordable rates, comparable to government hospitals. Academic programs planned include, Medical graduation and post-graduation programs with 150 intake capacity. Dentistry graduation and post-graduation programs with 100 intake capacity. A Nursing College and a College for paramedics and other facilities, including hostels for students and housing for faculty and staff.

Proposed Medical Complex [Conceptual]

Matheran Project

Restoration of Matheran Heritage Building & Establishment of New Campus

After persistent efforts and follow-up, Anjuman has successfully obtained vacant possession of its property in Matheran. The development plans include restoration of the heritage structure, construction of a new building to accommodate faculty Development Centre and a new CBSE school enriching the educational landscape of the region. This project aims to preserve the heritage legacy while introducing modern educational facilities.

Versova Project

Expansion of existing complex at Versova based on new FSI to provide facilities required for the Tibbia College with updated norms, a shelter home for destitute women, new courses on paramedical studies and new CBSE school. This expansion aims to modernize infrastructure, support women's welfare, and expand educational opportunities.

Hostel at Panvel

Establishment of hostel facilities for 400 male students and 200 female students.

Panchgani Project

Building "Anjuman-I-Islam Knowledge City" offering professional degree courses with state of art facilities along with a skill development centre.

Strategic Road Map

Apart from the physical infrastructure development and creation of new campuses, institutes, Anjuman is focussing on increased usage of technology and latest teaching pedagogy along with collaboration with various institutes to improve the course content and operational efficiency with a faculty that receive continuous development support through Faculty Development Centre, increased external engagement and additional focus on research. Establishment of faculty and student development centre, implementation of ERP across institutes, integration of systems, cloud computing and automation are some of the strategic focus areas in this direction.
