# KHARISMA BANGSA SCHOOL

## ELEMENTARY SCHOOL

### PRINCIPAL'S MESSAGE

As we wrap up this school year, it's the perfect time to pause and reflect on the amazing journey we've had—especially in this second semester. Our elementary students have been busy learning, creating, performing, and growing in so many ways. From academic achievements to fun school events, their energy and enthusiasm have truly brought the campus to life.

One of the highlights was our Science Fair, where students wowed us with creative experiments and presentations. English Week also stood out, packed with engaging activities like spelling bees and reading challenges that helped build confidence and a love for language. Meanwhile, many of our students made us proud by excelling in national and international Math and Science Olympiads, proving once again how far curiosity and hard work can take them.

This term also marked important milestones like the Grade 6 Checkpoint Exams—our students tackled them with focus and maturity, showing they're more than ready for the next step. We also celebrated meaningful moments through programs like our Market Day in support of Qurban Charity, where students learned about empathy, entrepreneurship, and giving back to the community. And of course, we ended the semester on a joyful note with our Year-End Class Performance—an inspiring showcase of talent, creativity, and teamwork.

To all our students, teachers, and parents—thank you for being part of this memorable chapter. Your support, dedication, and spirit made all of this possible. We're proud of what we've achieved together and excited for what's to come. Have a restful break and see you next

**Mikawati, M, Pd.**  
Principal of Elementary School

## BSI SPONSORSHIP AID TO KHARISMA BANGSA BERBAGI KEBAHAGIAAN

As part of the Kharisma Bangsa Berbagi Kebahagiaan charity event, BSI generously donated Rp10.000.000 to support the program. This heartwarming initiative invited children from orphanage institutions to spend a joyful day at Kharisma Bangsa School, where they enjoyed various games, bonded with our students, and explored exciting places together. The event was filled with laughter, meaningful interactions, and unforgettable memories for everyone involved.

## Cambridge Visit to Kharisma Bangsa: Exploring Digital Education

As part of its global mission to contribute to society through education, learning, and research at the highest international levels of excellence, Cambridge University Press & Assessment conducted a special visit to Kharisma Bangsa School on Monday, April 28, 2025.

This visit focused on research and collaborative discussions surrounding the use of digital tools in education. Representing the Cambridge Internal Digital - International Network (Int) team from the UK, Marek Pampuch, a specialist in digital publishing, led the engagement. His expertise has been pivotal in helping schools worldwide adopt and optimize the use of Cambridge's digital products.

During the visit, Marek met with teachers—both individually and in groups—to better understand their digital usage, needs, and preferences. The discussions aimed to identify how Cambridge's digital offerings can be more effectively integrated into classroom practices and tailored to meet the real-world demands of teaching and learning.

The school was represented by the Principals of the Primary, Junior High, and Senior High School, along with several Heads of Department from key subject areas. This provided a well-rounded perspective from different levels and disciplines within the school.

This visit marks another significant step in Cambridge's efforts to collaborate closely with its partner schools, ensuring that technological innovations in education are both practical and impactful. The insights gained from this session are expected to inform future product development and professional support initiatives from Cambridge.

Such engagements reflect the shared commitment between Cambridge and Kharisma Bangsa in shaping a modern, inclusive, and forward-thinking educational environment. April 28, 2025.

## Cambridge Delegation's Strategic Visit to Kharisma Bangsa: Strengthening Global Education Ties

On Tuesday, February 11, 2025, Kharisma Bangsa School, in collaboration with Eduversal, will welcome senior leaders from Cambridge University Press & Assessment, including Jo McGowan, Head of Strategy, and Helena Renfrew Knight, Director of Strategy & Integration. This visit marks a significant step in strengthening global educational partnerships and enhancing collaboration between Eduversal, its partner schools, and Cambridge.

As a key strategic partner, Kharisma Bangsa will host a meeting involving principals from the Primary, Junior High, and Senior High levels, along with the Academic Coordinator. The discussions will focus on improving the implementation of the Cambridge-based curriculum, integrating global learning perspectives, and driving innovation in teaching and assessment practices.

This strategic engagement is expected to deepen the partnership between Kharisma Bangsa and Cambridge University Press & Assessment and contribute to advancing internationally benchmarked education in Indonesia. February 11, 2025

## Open House

A Memorable Experience at Kharisma Bangsa!

We successfully hosted Open House 2025, where visitors explored our vibrant learning environment, participated in engaging activities, and experienced the excellence that defines Kharisma Bangsa. As always, we held our Open House twice this year, in February and August, giving families the chance to get an in-depth look at our school. If you missed the day, you may visit us directly during working hours. Our humble admission team will welcome you warmly. *(February 1, 2025)*

## Short Story Anthology Launch: Middle-High School Edition

We just had a super special moment at school — the launch of our very own Cerpen book! This book is filled with amazing short stories, all written by our all middle and high school students. Yup, every page showcases their creativity, thoughts, and imagination!

It's really inspiring to see how students can turn their ideas into something so meaningful. Through this launch, we hope more students fall in love with reading and writing — because the world of literature has so much to offer! *(April 24, 2025)*

## BASKETBALL SCHOLARSHIP PROGRAM

Every year in October, Kharisma Bangsa opens its Basketball Scholarship Program for aspiring young athletes. This opportunity is specifically designed for students currently in grade 6 or 9, meaning they are about to enter middle school or high school in the following academic year. It's a perfect blend of sports and academics, giving students a chance to shine both on the court and in the classroom.

The competition for this scholarship is quite intense, with more than 100 students joining the selection process each year. Out of all the participants, only 20 students will earn a spot in the program, making it a truly competitive and rewarding opportunity.

The selection isn't just about basketball skills — it's a comprehensive process. Students go through several stages, including an academic exam, an English test, a basketball skill test, and a final interview. Each part plays an important role in determining not only who gets selected but also the percentage of the scholarship offered. Some might receive a full scholarship, while others may be granted a partial one based on their overall performance.

For students and parents who are passionate about basketball and education, this program is a great way to take a big step forward. It's more than just a scholarship — it's a gateway to a balanced and exciting school life. *(January 3, 2025)*

## A Joyful Start to the 2nd Semester

After enjoying a well-deserved two-week break for the New Year holiday, our students are finally back at school! On 6 January, the classrooms came back to life with cheerful greetings, excited stories from the holiday, and a fresh burst of energy to kick off the new term.

It's always heartwarming to see familiar faces return, ready to dive into new lessons, meet up with friends, and set goals for the months ahead. The start of the year is a great time to reset, refocus, and embrace new challenges with a positive mindset. *(January 6, 2025)*

### Ragnar The Little Hero

Ragnar is truly a phenomenon. He's just a Grade 1 student, but his achievements are already stunning. He has collected 8 medals in international competitions, which even led to three special invitations—from Vice President Mr. Gibran, Coordinating Minister Mr. Pratikno, and Mayor of South Tangerang Mr. Benyamin—in recognition of his excellent record.

Ragnar simply loves mathematics. One day, during a conversation with his homeroom teacher Ms. Nafisa, he asked, "What year were you born, Ms.? So in 10 years, you'll be 34 years old, right?" His curiosity shows up in the most thoughtful ways.

Ms. Nafisa often gives him little challenges to keep him sharp. But just like other children, Ragnar spends his days studying, playing, and reciting. He enjoys playing football and chose to join the drawing club. And one important thing that shouldn't go unnoticed—his parents are always there to support and nurture his curiosity.

## GLARISA VOL. 8

The Glorious Age of Kharisma Bangsa is Back! Yep, Glarisa is back again this year—now entering its 8th series! This beloved event is our school's very own pentas seni (art stage), packed with excitement and creativity. From fun competitions, amazing performances, to a variety of food and beverage tenants, there's something for everyone to enjoy.

What's even more exciting? We're having a special guest star this year—Idgitaf! Her performance will definitely make Glarisa even more unforgettable. Don't forget to mention our valuable alumni Anindyta F. Utami who shared an inspiring story about building critical thinking mindset.

Big shoutout to our OSIS team who worked so hard to make this happen. They're not just organizers—they're true team players. Respect and appreciation for all their effort! See you all at Glarisa vol. 9 next year! *(February 21, 2025)*

## Kindergarten Club Performance

We just had our KG Club Performance, and it was such a heartwarming event! Our little stars got the chance to show off the skills they've been learning — from singing and dancing to martial arts and more — right in front of their proud parents. It was more than just a performance; it was a confidence booster for the kids, helping them get comfortable being in the spotlight while having tons of fun.

This club performance is part of our effort to let students explore their interests outside the classroom. We offer a variety of fun and engaging clubs for our kindergarteners, including Traditional Dance, Drawing, Marching Band, Singing, Tahfiz, Karate, Minisoccer, Basketball, Little Chef, and Eduelation.  
(December 14, 2024)

## Elementary Outing Program

Twice a year, our elementary students head out for something special the Outing Program!

This semester, the outing topic was fun. So they went to entertain place like From rock climbing to meeting amazing animals, every trip is packed with fun, learning, and unforgettable memories. They built, climbed, explored and loved every second of it! (February 11, 2025)

## Kindergarten Outing Program

Our kindergarten students had an exciting and educational field trip to the National Library! They explored colorful books, shared stories with friends, and enjoyed the joy of reading together. These trips are a great way to spark curiosity and a love of learning outside the classroom.

At Kharisma Bangsa, we run field trips like this twice a year to help students discover new environments, gain real-world experiences, and have fun along the way. (February 25, 2025)

## Middle-High School Field Trip

Back in February, our middle and high school students went on an exciting field trip that perfectly connected with what they've been learning in class. They got to explore some amazing places like the Museum Nasional, TMII, the Oishi factory, Sari Roti factory, Universitas Indonesia, and even the TMII Museum Listrik and IPTEK.

It was such a rich experience for them, diving into history, science, and technology all in one go. Visiting these spots helped bring their lessons to life and gave them a real feel for how the things they study every day connect to the world around them.

What a journey it was—full of learning, fun, and discovery! Can't wait to see what other adventures await our students next. If you missed out this time, stay tuned for the next opportunity! (January 22, 2025)

# English Week

We just wrapped up English Week for our elementary students, and it was full of excitement and learning! ☑ Students took part in engaging activities like the Spelling Bee Competition, Grammar Competition, and Reading Challenge—each designed to boost their English skills in a fun way.

To celebrate their achievements, we held an Awarding Day, where we announced winners from each class in each competition category. It was a proud moment for everyone involved! What made the day even more special was the presence of parents whose children are part of the marching band club. They were invited to watch their children perform, showcasing not just academic excellence but also their talents in extracurricular activities.

This whole experience is a great way to motivate our students to love learning, enjoy the course, and be active in school life. Well done to all participants and winners! (May 5, 2025)

## Leadership Camp

Leadership Camp is a fun and meaningful activity held for 2 to 4 days right after exams. For kindergarten and elementary students, the camp takes place at school, using classrooms, fields, and open spaces filled with exciting programs that build teamwork and leadership skills. Meanwhile, middle and high school students go off-campus, where they join various activities designed to strengthen their class bond, all under the guidance of their homeroom teachers.

(December 16, 2024)

## Science Week

Back in February, we had a blast during our annual Science Week—a special time where elementary students didn't just learn about science, but actually lived it! This week was all about hands-on experiments, creativity, and bringing scientific concepts to life in ways that were fun, challenging, and incredibly engaging.

Our students showed off their innovative spirit in the DIY Invention Competition, creating all sorts of clever and practical devices. Classrooms turned into mini labs with activities like making homemade lava lamps, planting sessions to learn about growth cycles, and building DIY bird feeders to understand ecosystems. One of the most exciting moments? The egg drop competition—a thrilling test of physics, design, and problem-solving skills!

We wrapped it all up with the Science Expo, where parents were invited to see what the students had been working on. The energy was high, the projects were impressive, and the pride in every student's face said it all. Science Week was more than just a series of activities—it was a celebration of curiosity, discovery, and the joy of learning. (February 17, 2025)

# Improving Teaching Quality Through Internal Class Appraisal by Principal and Academic Coordinator

As part of its ongoing commitment to enhancing teaching and learning quality, Kharisma Bangsa School recently carried out an Internal Class Appraisal involving subject teachers across various levels. Led by the School Principal and Academic Coordinator, this initiative aims to observe classroom instruction firsthand, evaluate teaching strategies, and provide meaningful feedback to support continuous professional development. The appraisal focuses on key instructional components such as lesson planning and structure, teacher-student interaction, the integration of media and digital tools, differentiation strategies, active learning methods, and assessment of student understanding. By addressing these core areas, the process helps ensure that teaching remains responsive to student needs and aligned with the school's educational goals.

Conducted in a collaborative and supportive manner, the appraisal encourages open dialogue and reflection. The School Principal and Academic Coordinator serve not only as evaluators but also as mentors, promoting a shared commitment to instructional excellence. Feedback is designed to help teachers refine their methods, implement innovative practices, and exchange ideas with peers. This initiative reflects Kharisma Bangsa's strong culture of quality, collaboration, and continuous improvement, reinforcing its mission to deliver effective, reflective, and student-centered education in every classroom. *(February, 2025)*

## Mother's Day Celebration

Each year on December 22, we take a moment to honor the incredible women who shape our lives — our mothers. This year, our beloved Kharisma Bangsa Moms Club made the celebration extra special. With heartfelt efforts, they presented a beautiful event to appreciate every mother in our school community. It was a sweet reminder of the love, care, and strength that mothers bring into our lives every single day. Thank you, Moms, for everything — you are truly the heart of our homes and school. *(December 21, 2024)*

## World Read Aloud Day

One of our focuses on literacy is bringing stories to life. With passion and creativity, Kindergarten students read topics they love. Not only did they dress up as story characters and walk around the school, but they also presented their stories to friends.

Literacy at our school is fun, engaging, and inspiring!  
Happy World Read Aloud Day! Keep reading, keep dreaming!  
*(February 5, 2025)*

## Changing Point: Turning Good Deeds into Rewards

At our elementary school, we have something special called Changing Point—a fun and meaningful moment that many students look forward to at the end of every semester. Throughout the term, students collect points by doing good deeds: things like completing quizzes, arriving on time, helping their friends, or just being responsible in class. Every positive action earns them a little reward in the form of points.

What makes Changing Point exciting is that those hard-earned points can later be exchanged for things they truly love—whether it's stationery, toys, books, or other fun items. It's like a mini celebration of all the good choices they've made over the months!

This system isn't just about the rewards; it's about building habits. By linking positive behavior with something tangible and joyful, students are more motivated to repeat those good actions again and again. In the end, everyone wins—the classroom becomes a more positive space, and the students feel proud of their efforts. *(December 12, 2024)*

## Sharing Knowledge and Inspiration through PodKharisma

Meet Jasper Rexx, a brilliant student from Kharisma Bangsa School, whose dedication and passion for science led him to remarkable achievements! Not only did he secure an Absolute Gold Medal in the 2024 Olimpiade Sains Nasional (OSN) in the Astronomy category, but he also competed in the Academy of Champions by Ruangguru, where he proudly represented Banten (District II Team) and finished in 4th place!

Jasper is our inspiring student, thus we made a podcast session, talking about his life, lessons, school, career, and many more. You may watch the full video at Kharisma Bangsa Youtube Channel.

*(February 19, 2025)*

Does crying break your fast? What's the ruling on intending to pray 3 rak'ahs of Witr while the imam only leads 2 rak'ahs?

In this special edition of PodKharisma, we discussed various questions about fasting during Ramadan with Mr. Ikmal, an Islamic Education (PAI) teacher at Kharisma Bangsa Elementary School. With a background in Islamic Sharia studies, he'll explain how fiqh is applied in daily life. Don't miss it! Watch it on Kharisma Bangsa's YouTube channel.

*(March 19, 2025)*

## Market Day: Where Students Learn and Give Back

The Market Day is one of those fun and meaningful traditions we love at school. It's a day when students get to bring food, set up their little stalls, and sell their goodies to everyone—friends, teachers, and staff. Each class takes turns hosting the event, so everyone eventually gets a chance to be part of the action.

But it's not just about selling food—it's a lot more than that. At the end of the event, all the money collected goes to charity. Sometimes it's used to buy grocery packages for those in need, other times it's donated to orphanages or other social causes. It's our way of giving back to the community, and it really shows how even small efforts can make a big impact.

What makes this program extra special is how it helps students grow. From teamwork and creativity to communication and budgeting, they pick up a bunch of soft skills without even realizing it. They learn how to handle real transactions, promote their products, and work together—all while having fun and doing good.

## Spotlight on Achievement: Miko's Journey in Mathematics

Mikko Aquila Novantoro, a Grade 11 Oxford student, has become one of the school's most accomplished learners, particularly in mathematics. His passion and talent have earned him numerous awards, a journey that began as early as middle school and continues to this day.

Almost every Monday during the morning assembly, Miko's name is called to the stage to receive recognition. His consistency and achievements have made him a familiar and inspiring figure, admired by both peers and teachers alike.

Miko's success is a result of discipline, curiosity, and perseverance. Beyond the trophies, his journey reflects the value of hard work and a love for learning qualities that make him not only a high achiever, but also a role model for the entire school community.

## Isra Mi'raj: A Day of Reflection and Celebration at Kharisma Bangsa School

To commemorate Isra Mi'raj this year, our middle and high school students took part in a series of meaningful activities that were divided into boys' and girls' groups. This separation allowed each group to have their own sessions for tabligh, competitions, and awarding, creating a more comfortable and focused environment for everyone. The event included Qur'an recitations, religious storytelling, and engaging competitions that encouraged both spiritual reflection and creativity. By organizing the program this way, students were able to participate fully, and the entire experience became more impactful and memorable for our school community. (January 27, 2025)

Isra Mi'raj isn't just another holiday at our school—it's a truly special moment, especially for our Kindergarten and Elementary students. This year, the commemoration turned into a fun and meaningful celebration filled with excitement and creativity. Instead of staying home, the students came together to enjoy a day full of engaging activities that brought both joy and valuable lessons.

The classrooms were beautifully decorated with colorful Islamic themes, and each class gave its own touch to make the atmosphere more festive. Students participated in various competitions that not only entertained but also deepened their understanding of Isra Mi'raj. (January 24, 2025)

## Sharing Kindness through Ramadan Charity

At the Garage Sale 2025, Kharisma Bangsa Elementary School students brought their pre-loved toys, books, and more to sell at friendly prices. All the proceeds? 100% for our Ramadan Charity Program

This activity isn't just about buying and selling—it's about sharing, giving back, and learning the joy of helping others. Big thanks to all the students, teachers, and parents who made this heartwarming event possible!

Let's keep spreading kindness, one small act at a time!  
(March 12, 2025)

## Kharisma Bangsa Berbagi: Ramadan Charity

Through the Kharisma Bangsa Berbagi program, we were able to collect 515 basic food packages and 730 iftar packages during the holy month of Ramadan. These packages were then distributed to the surrounding community with warm smiles and heartfelt prayers, bringing a little light and relief to those who needed it most.

This meaningful act of kindness was only possible thanks to the generosity of our school families. We sincerely thank all parents, students, and staff who took part by donating and supporting this cause. Your contributions brought not just food, but also hope and happiness to many.

Moments like these remind us of the power of compassion and the strength of our school community when we come together. May this spirit of giving continue to shine in our hearts throughout the year. (March 12, 2025)

## Iftar Program: Sharing Joy and Togetherness

Our Kharisma Bangsa school family came together for a special Iftar Program, and it was truly filled with joy, gratitude, and togetherness. Each school level had their own moment to shine throughout the day, and it made everything feel so personal and meaningful.

Some of our talented students took the stage with beautiful performances, adding a special touch to the atmosphere. Their efforts really impressed everyone and made the event even more memorable.

Moments like these remind us of the strong bond we share as one big family. Thank you to everyone who made this Iftar program so special!  
(March 13, 2025)

## First Day Back: Post-Eid Vibes

After a well-deserved two-week break for the Lebaran holiday, we're finally back to school! The atmosphere on the first day felt warm and cheerful, with friends greeting each other, teachers welcoming students, and lots of laughter filling the hallways.

Students came back with stories to tell—some spent quality time with family, others traveled to different cities, and of course, many enjoyed delicious Eid dishes (ketupat, opor, rendang... who's still full?). It was heartwarming to see everyone reconnecting and catching up after the long break.

Teachers also took time to ease everyone back into the school rhythm, allowing students to share their holiday experiences during class. It's always fun to hear the little adventures, funny moments, and sweet traditions that make the Lebaran holiday so special for each family.

Now that we're recharged and refreshed, we're ready to dive back into learning and growing together. Let's make this term meaningful and memorable! (April 9, 2025)

## Parenting Seminar

We held a parenting seminar on February 15 to support parents in their journey alongside their children at school. The event was split into two sessions—one for parents of Grade 1–3 students, which focused on building emotional resilience in young children, and another for parents of Grade 4–6 students, where the topic centered on how to communicate effectively with pre-teens. Each session aimed to address the different parenting challenges that come with each stage of childhood.

The speaker, Ayu Riana Sari, Ph.D., shared valuable insights and practical strategies that parents could apply in their daily interactions with their children. Her warm and relatable approach made the discussions not only informative but also engaging. We're thankful to all parents who took the time to join, and we hope they found the seminar helpful as we continue to work together in supporting each child's development.

(February 15, 2025)

## Sharing Blessings through Kurban Charity

In the warmth of these days of sacrifice, we've learned the true meaning of giving without expecting anything in return. With sincere hearts, 20 cows were shared and transformed into 1,550 qurban meat packages, reaching far and wide, touching many lives. Thank you for the trust you've placed in us during the Kurban program this year. Every contribution is a lasting footprint of kindness. May this act of devotion become a guiding light, and may Kharisma Bangsa always be blessed with abundance from both the heavens and the earth. (June 6, 2025)

## Seminar on “Differentiated Learning” by Cambridge University Press & Assessment

On Thursday, December 12, 2024, Kharisma Bangsa School reaffirmed its commitment to educational excellence by hosting a professional development seminar for teachers. The event featured Ms. Dian Apriyani, Senior Country Manager at Cambridge University Press & Assessment, who delivered an engaging session on “Differentiated Learning.”

Ms. Dian highlighted key principles such as differentiation by content, process, product, and learning environment. She also shared practical strategies, including formative assessments and adaptive lesson planning. Teachers actively participated in discussions and reflected on their own practices, gaining valuable insights and inspiration to enhance their teaching.

The seminar strengthened the partnership between Kharisma Bangsa and Cambridge University Press & Assessment, reinforcing the school's dedication to student-centered, 21st-century education. (December 12, 2024)

## Career Planning: Turning Dreams into Direction

Our grade 6 students joined a heartwarming and meaningful mini seminar with Mr. Nozim. The theme might sound simple—"What activities make you happy?" and "What subject do you enjoy?"—but these questions sparked some really thoughtful reflections. We believe it's never too early to start thinking about the future, and this session was part of our effort to help students explore their passions.

As graduation time approaches, we want our students to be more than just academically ready—they should also start recognizing what they love and what makes them excited. By discussing the things they enjoy doing and the subjects that make them curious, students can slowly begin to see patterns and imagine possible future paths. Whether it's becoming a scientist, an artist, a teacher, or even a game developer, the first step is to dream it.

This session wasn't about locking in a decision, but rather opening up possibilities. When students can visualize what they want to become, it becomes easier to set goals and make choices that bring them closer to that dream. That's why we take their hopes and interests seriously—because those little sparks of joy today might just grow into the careers of tomorrow. *(January, 16, 2025)*

## MUN Seminar

Model United Nations (MUN) is an academic simulation that introduces students to the role of diplomats, discussions, and problem-solving following the UN system. In January, The International Global Network organized an MUN seminar specifically for middle-high school students, giving them a chance to learn firsthand how international debates and negotiations work. This initiative has since developed into a club-based extracurricular program, where students not only practice global communication and diplomacy but also strengthen their critical thinking, teamwork, and leadership skills. Today, MUN is seen as one of the most impactful platforms for young learners to upgrade their global mindset and prepare themselves for future challenges in a connected world. *(January, 2025)*

## University of Toronto Seminar 2025

Every now and then, our college counseling department organizes seminars for students and parents to help them get a better picture of university life around the world. Back in April, we had the honor of hosting a session with the University of Toronto—one of the top universities globally. They shared a lot about academic life, opportunities on campus, and what it's like to live and learn in Canada.

But what made the event extra special for us was the success story of our very own Fakhry Musyaffa Ariyanto. He didn't just get accepted into the University of Toronto—he also earned the prestigious Beasiswa Indonesia Maju, a scholarship awarded to some of Indonesia's brightest minds. Fakhry is now diving into the world of material engineering, and we couldn't be prouder.

It's always exciting to see our alumni thriving, especially when they come back to inspire others. Fakhry's journey shows what's possible with hard work, guidance, and the right support system. For all our current students and parents, this is just one of many success stories we hope to keep writing together. *(April 22, 2025)*

## Cambridge University Seminar

We had a great session with a representative from Cambridge University who shared valuable insights on how to get into one of the world's top universities. It was an amazing opportunity not just for our high school students, but also for parents who came to join. Huge thanks to our college counseling department for organizing this and always bridging students and families with valuable information for the future. This is just one of many university seminars we're hosting. Through these sessions, students—and their parents—can explore various options and choose the path that best fits their future plans. More to come, so stay tuned! *(February 13, 2025)*

## Cambridge Primary Checkpoint

As a Cambridge school, it's part of our commitment to academic excellence to run the Cambridge Checkpoint exams—and this time, it's our elementary students' turn! They recently sat for the tests in three core subjects: Mathematics, Science, and English.

The Cambridge Checkpoint exams are designed to give a clear picture of each student's strengths and areas for growth before they move on to the next stage of learning. It's a great way to assess how well they've understood key concepts and developed essential skills throughout their primary years.

We're proud of how our students approached these assessments—with focus, confidence, and a positive attitude. These exams are not just about scores; they help teachers, students, and parents better understand learning progress and prepare for even greater achievements ahead.

Well done to all our young learners! Let's continue to support and encourage them as they grow and thrive academically. *(August 2025)*

## EASE 3

In early March, our students took the EASE 3 (Evaluation of Standardized Exam), which serves as the midterm exam for the second semester. It's a computer-based test that covers several topics students had learned in class.

What's unique about EASE is that students from different grade levels sit together in the same room, creating a focused and collaborative test environment. The results help teachers track progress and adjust learning strategies as needed. *(March 17, 2025)*

## IGCSE Mock Up

Our grade 10 students have just wrapped up two important milestones—first, their IGCSE Mock Exams, which gave them a great chance to experience what the real IGCSE will feel like. It's a key moment for them to evaluate how far they've come and what they still need to work on.

They also completed the IGCSE English as a Second Language Speaking Exam. For many students, speaking in a formal test setting can be a bit nerve-wracking, but they did an amazing job pushing through and showing their progress. We're proud of their efforts and resilience! Let's keep supporting them as they continue their IGCSE journey. *(September 2025)*

## From Theory to Practice: Grade 12 Hands-On Exams

Last March, our Grade 12 students took part in a series of practical exams across Biology, Chemistry, Physics, Religion, and English. These assessments gave students the chance to apply their knowledge in real-life settings while showcasing both skill and creativity.

In science, they explored enzyme reactions in Biology, conducted titration and calorimetry in Chemistry, and measured specific heat capacity in Physics. The Religion exam emphasized spiritual practice through the adhan and prayer demonstrations, while in English, students brought their creativity to life with drama and singing performances.

These practical exams went beyond theory, allowing students to combine knowledge with hands-on experience—making learning more engaging, meaningful, and memorable. *(March 10, 2025)*

## EASE 2

EASE (Evaluation of Standardized Exam 2) is our final exam for the first semester. It's designed to evaluate how well students have understood and retained what they've learned over the past few months.

During the exam, students will use their own devices to complete all the questions. To keep everything fair and focused, each room will have a mix of students from different grades. This setup helps maintain a more private and quiet environment for everyone.

*(December 9, 2024)*

## Report Distribution: Midterm and Final

At our school, we hold regular parent-teacher meetings three times a month, giving parents the chance to directly hear about their child's learning progress from the homeroom teacher. These sessions are done privately, allowing for clear and open discussions about each student's development. Such consistent communication helps strengthen the partnership between parents and teachers, ensuring that every child receives the best support both at home and at school.

In April, we wrapped up the semester with a midterm report distribution. Parents were invited into the classroom one by one to discuss the semester's results in detail with the homeroom teacher. It was a great way to reflect on students' growth and plan together for the next steps. These meetings also provided an opportunity to celebrate achievements, address challenges, and set clear goals for the months ahead. *(February 13, 2025)*

In December, we wrapped up the semester with a final report distribution. Parents were invited into the classroom one by one to discuss the semester's results in detail with the homeroom teacher. It was a great way to reflect on students' growth and plan together for the next steps. As the school year closed, these discussions became an important moment to summarize the overall progress, highlight strengths, and prepare strategies for future improvement. *(June 4, 2025)*

## Principal Performance Assessment Penilaian Kinerja Kepala Sekolah (PKKS)

Principal of Kharisma Bangsa Highschool Earns "Excellent" Rating in Performance Assessment (PKKS)

The Principal Performance Assessment (PKKS) for Mr. Muhamad Budiawan, Principal of SMA Kharisma Bangsa, was conducted on Friday, December 13, 2024. This annual evaluation assesses the principal's managerial and

The assessment was carried out by Supervisory Officer Ms. Neni Handayani, S.Pd., M.Pd., and the Head of Senior High School Division at the South Tangerang Education Office, Ms. Hj. Rr. Niken Indah S., S.H., M.Si. The focus was on evaluating competencies, performance, and achievements in improving education quality and school management.

Mr. Budiawan received an "Excellent" rating, reflecting his dedication, professionalism, and commitment to creating a high-quality, supportive learning environment for students. (December, 2024)

## Moms Club Wraps Up the 2024–2025 Academic Year

This month marks a sweet ending for the Kharisma Bangsa Moms Club as they officially closed their programs for the 2024–2025 academic year. What a wonderful season it has been! From fun and fitness with Zumba and Pound Fit, to learning together through book clubs, cooking classes, and even language sessions in English and Turkish, these moms have filled the school year with warmth, laughter, and positive energy.

Their involvement in school events—like Teachers' Day, the school anniversary, and charity programs—has been nothing short of amazing. Always full of spirit and creativity, they've added a vibrant touch to every occasion. Whether organizing behind the scenes or cheering from the front row, the Moms Club showed what true school spirit looks like.

Beyond the activities, it's the friendships, shared stories, and moments of togetherness that made this season so memorable. The school truly feels more alive and colorful with the Moms Club around, and their contributions are deeply appreciated by everyone—students, teachers, and parents alike. (May 2025)

## FLS3N 2025

The city-level Festival Lomba Seni dan Sastra Siswa Nasional (FLS3N) has officially kicked off! This exciting arts and literature competition is a great platform for students to explore and showcase their talents. Our Bahasa Indonesia teachers have been amazing—guiding our students every step of the way, from registration all the way to action day.

This year, our students are taking part in various categories: Menulis Cerita (Story Writing), Ilustrasi (Illustration), Tari Kreasi (Creative Dance), Solo Vokal (Solo Singing), and Mendongeng (Storytelling). Each of these categories lets students express their creativity and passion in unique and meaningful ways.

We're so proud of their courage and enthusiasm to represent our school and bring their artistic visions to life. Let's cheer them on and wish them the best of luck throughout the competition! (May 21, 2025)

## O2SN

Three elementary students from Kharisma Bangsa recently took part in the O2SN (National Student Sports Olympiad) for Pamulang District, which was held on Saturday, May 17, 2025, at Muhammadiyah 12 Pamulang School. This annual event brings together young athletes from various schools to compete in different sports and show their passion and skills.

Representing Kharisma Bangsa in the karate category were Delisha Azalea Putriadivita (Grade 5 Cambridge) and Dzikra Alaric Ashatosi (Grade 5 Oxford). In the pencak silat category, Izyan Waiz Utomo (Grade 5 Oxford) showed a confident and energetic performance. All three students gave their best and made us proud with their determination and spirit.

At Kharisma Bangsa Elementary, we're proud to have both karate and pencak silat clubs where students can train, grow their interest in martial arts, and get support for joining competitions like O2SN. These clubs not only help students improve their skills but also give them opportunities to shine outside the classroom. Well done to Delisha, Dzikra, and Izyan! We're excited to see how far your talents will take you in the future! (May 17, 2025)

# COMMENCEMENT EXERCISES AND MOVING UP KINDERGARTEN - ELEMENTARY - MIDDLE - HIGH SCHOOL

## CLASS OF 2025

This year, we proudly celebrated the graduation of 126 students from our middle and high school! The big day took place at Universitas Terbuka Convention Center, and it was truly one to remember. We kicked things off in the evening with a warm and festive atmosphere that brought everyone together—students, parents, and teachers alike.

The night was filled with excitement and heartfelt moments. Guests were treated to a vibrant entertainment show, beautifully designed stage setup, and of course, some seriously delicious food. But what made the night truly special was a touching moment where each student gave a personal letter to their parents. These letters were filled with gratitude, appreciation, and love, and it honestly brought tears to many eyes.

A few days earlier, on Saturday, May 24, it was our Grade 6 and Kindergarten B students' turn to shine. Held right at our lovely school, their celebration was nothing short of heartwarming. Seeing the little ones walk confidently and the Grade 6 students beam with pride was a reminder of how much they've grown. Their smiles, laughter, and even a few happy tears made the day so precious—it wasn't just a graduation, it was a beautiful goodbye to one chapter and the exciting beginning of another.

Both events reminded us how much love, effort, and community support go into raising and educating a child. It was more than just a ceremony—it was a celebration of growth, resilience, and the bonds that make our school feel like home.

# KHARISMA BANGSA SUCCESS STORY

## Short Stops

### Saying "thanks"

As the school year winds down, encourage your child to thank her teachers with nice notes or small gifts. Or she might go in with friends to fill a beach bucket or a basket with treats like scented lotion, stationery, tea, or a bookstore gift card.

### Stop mumbling

Does your middle schooler mumble when he speaks? This is common as tweens become more self-conscious, particularly if their voices are changing. Give your child practice speaking in situations where it's important that he's understood. For example, at the barber shop, have him tell the hair-cutter how short he wants his hair.

### DID YOU KNOW?

Students who smoke marijuana get lower grades and are more likely to drop out of school. Ask your middle grader about her feelings on marijuana and if any of her friends have talked about trying it. Then, explain that marijuana is harmful to growing bodies—and that it is illegal for her to use it.

### Worth quoting

"In summer, the song sings itself."  
William Carlos Williams

### Just for fun

**Q:** A butcher is 5'10" and wears size 13 shoes. What does he weigh?

**A:** Meat!

## OLIMPIADE GURU MATEMATIKA KE-10 2025

We're proud to celebrate Mr. Febri, our dedicated mathematics teacher, who won a bronze medal at the 20th Kompetisi Matematika Nalaria Realistik, standing out among 984 participants from across Indonesia. An alumnus of the Middle East Technical University, Mr. Febri isn't just a teacher of formulas—he inspires students to see the beauty and logic of mathematics. This achievement reflects his passion, discipline, and commitment to education.

## QUALIFICATION ROUND OF THE JUNIOR ENGLISH OLYMPICS 2024

Congratulations to Aldio Rananda Atarya for earning a Bronze Medal in the Qualification Round of the Junior English Olympics (Category JEO4). It takes courage and self-confidence to join an English competition at this level—and Aldio showed both. This achievement reflects not only his language skills but also his willingness to step up and challenge himself. Well done, Aldio. Keep growing and keep believing in your voice.

## INTERNATIONAL ROUND OF FUTURE INTELLIGENCE STUDENTS OLYMPIAD 2024

We are proud to announce that Kenzo Atharrayhan Atmawijaya has successfully earned a Silver Medal in Mathematics at the International Round of the Future Intelligence Students Olympiad. This outstanding achievement highlights his dedication, hard work, and talent in mathematics on the global stage. Congratulations, Kenzo, for bringing pride and inspiration to our school community!

## KOMPETISI MATEMATIKA NALARIA REALISTIK 2025

Once again, Sienna Chiara Faizza Firman shows us what it means to love learning. She earned a silver medal at the 20th Kompetisi Matematika Nalaria Realistik—not just for the win, but for her true passion for mathematics. With curiosity and quiet determination, Sienna keeps inspiring us year after year. Keep going, Sienna—your journey is only beginning!

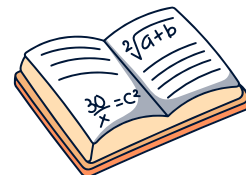

## KOMPETISI OLIMPIADE BRILLIANT 2025

A big shoutout to Qianna Azalia Afsheena for winning Third Place in the English Category (Grade 3 level) at the Kompetisi Olimpiade Brilliant! What a fantastic achievement at such a young age—we're so proud of you, Qianna! English has truly become the heartbeat of our classroom. It's not just a subject, but a daily vibe that connects us, sparks creativity, and boosts confidence in expressing ideas. No wonder it helped Qianna shine so brightly on this stage!

# EDUVERSAL MATHEMATICS COMPETITION 2024

The Eduversal Mathematics Competition Season 5 is known as one of the most elite math competitions, with over 5,000 participants from various schools. Divided into preliminary and final stages, each contestant competed only with peers from the same grade—making the competition fair but no less fierce. The final round was held offline and paper-based, testing not just accuracy but focus under pressure. And now, we proudly present the winners from Kharisma Bangsa. Your hard work, discipline, and love for mathematics have paid off. Congratulations, young mathematicians!

**Daffa Atha Arkana**

## TBI SPELLING BEE 2025

Every word holds power—and we help students harness it through spelling mastery. Beyond memorizing letters, they build confidence, sharpen minds, and unlock opportunities. Through engaging lessons and friendly competition, our students grow into precise, effective communicators. We're proud to see them shine at The British Institute Spelling Bee Competition 2025. Well done, students!

## EF-SPELLING BEE 2025

Kharisma Bangsa Wins Big at EF Spelling Bee 2025!

Congratulations to Aisha Nabila Nareshwari Nur (Grade 5) for winning 1st Place in Group C at the 17th EF Spelling Bee National Competition, held on January 19, 2025, at Gelora Bung Karno. Earlier, she also secured 3rd Place at the EF Sawangan Regional Round. Well done also to Halil Ibrahim Ozgul (Grade 3) for reaching the semi-finals in Group B, after winning 1st Place Regionally at EF Cinere. Proud of your achievements!

## JAMBORE IBU PERTIWI 2025

The 2025 Jambore Ibu Pertiwi event, held at Bale Panjang Hall, Museum Indonesia TMII, aimed to instill the values of Pancasila and shape the character of Indonesia's young generation. Through educational games like the Pancasila Snakes and Ladders, students learned and practiced Pancasila in an interactive way alongside participants from other schools. The "learning through play" concept was at the heart of this year's Jambore Ibu Pertiwi. Our students who joined the event: Myesha Afshien Cantabile Prasetya and Anggia Syafiqaputri Addien

## KOMODO MATH COMPETITION 2025

We're proud to share that 10 of our students excelled in the Komodo Math Competition, an international contest with rigorous standards. Their sharp reasoning and dedication brought this success, reflecting not just talent but also daily effort and support. To all our winners, your hard work and consistency have paid off, and you've made us incredibly proud. Keep aiming high—this is only the beginning of many more milestones to come. Well done, students—keep aiming high!

represent Indonesia at the international level. Jasperr is aiming for the International Olympiad on Astronomy and Astrophysics (IOAA), Rafi for the International Economics Olympiad (IEO), and Sultan for the International Olympiad in Informatics (IOI). Congratulations, students!

## GRADED EXAMINATION OF MUSIC PERFORMANCE 2024

With unwavering dedication and passion, Arsala Rania Islamil has struck a triumphant chord. Congratulations on earning the Level 1 Award in Graded Examination in Music Performance with Merit from Trinity College London — a globally recognized institution known for its high artistic standards.

This is more than just a certificate — it's a powerful testament to your discipline, musicality, and perseverance. Arsala, you didn't just play the notes — you moved hearts, and today, the spotlight is truly yours. Bravo.

## PEKAN HARIAN ILMIAH (PHI) KE XXIII 2024

Sienna Chiara Faiza Firman once again shows her love for mathematics through achievement.

She earned a Bronze Medal in the Mathematics category at the Paket Harian Ilmiah (PHI) ke-XXIII, held by Universitas Islam Malang at the national level in 2024. Her passion for solving problems and exploring numbers continues to grow — and this medal is a reflection of that joy.

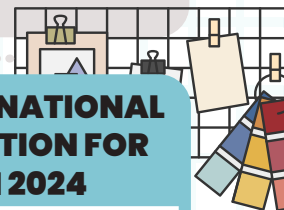

Well done, Sienna. When you love what you learn, success naturally follows.

## BUNKASAI TINGKAT SMA PGMP B. JEPANG 2025

Creativity meets culture in the world of manga — and Deandra Farah brought both to life beautifully. She won 2nd place in the Lomba Manga at the BUNKASAI PGMP Bahasa Jepang Jabodetabek, showcasing her talent in storytelling through art. At Kharisma Bangsa, students have the opportunity to explore foreign languages, including Japanese — and Deandra's achievement

reflects how language and culture go hand in hand. Congratulations, Deandra. Your art speaks louder than words — keep creating!

## ASIAN SCIENCE & MATHS OLYMPIAD 2024

A big congratulations to Danuar Binara Atarya and Ragnar Azhar Saddiq Lasabuna for earning Bronze Awards in the Indonesia Preliminary Round of the Asian Science and Math Olympiad.

What makes this achievement even more special — they are only in Grade 1, yet they've shown the number one spirit and motivation in facing such a tough academic challenge.

Well done, Danuar and Ragnar. Keep that fire burning — this is just the beginning of your inspiring journey.

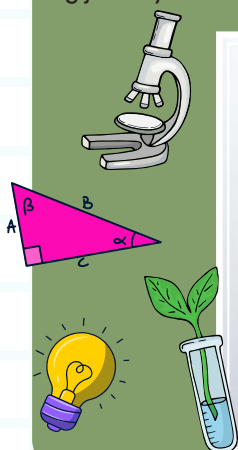

## THE 8TH INTERNATIONAL ART COMPETITION FOR CHILDREN 2024

A big applause to Adisti Khairuna Sari for winning a Silver Diploma Medal at the International Art Competition!

Guided by our amazing art teacher, Mr. Junjun Rudolf, Adisti honed her creativity right here in our very own Art Room — where students grow, explore, and express their artistic talents. Well done, Adisti!

## CODING BEE BATTLE 2024

Big shoutout to Kayden Abhinaya Kumoro for winning 3rd place in the Python Category at the Coding Bee Battle, a national-level coding competition. At Kharisma Bangsa, coding is a common subject for students in the class—and Kayden has shown how far that foundation can take you. With creativity and problem-solving, he proved that young minds can do big things in tech. Well done, Kayden. Keep coding, keep growing!

## INTERNATIONAL ABACUS AND MENTAL ARITHMETIC OF TAIWAN CHAMBER OF COMMERCE 2024

In mental arithmetic competitions, participants solve complex math problems using only their minds—often by visualizing and mentally manipulating an abacus to calculate with incredible speed. Calistha's perfect score of 100 in such a prestigious competition highlights not just her mental agility, but also her independence—one of Kharisma Bangsa's core values. Her ability to stay focused, think critically, and rely on her own skills under pressure is truly inspiring. Congratulations, Calistha!

## THE CENTRE FOR EDUCATION IN MATHEMATICS AND COMPUTING, 2025 CAYLEY CONTEST

A remarkable achievement by Sienna Chiara Faiza Firman! In the prestigious Cayley Contest, hosted by the Centre for Education in Mathematics and Computing (CEMC)—an institution known globally for its rigorous academic standards—Sienna ranked among the top 25% of contestants. This is more than just a number. It's a powerful reflection of her sharp thinking, relentless determination, and true passion for mathematics. Congratulations, Sienna! You continue to make us proud, proving that excellence knows no limits. Keep reaching higher!

## SEAMO X 2025

Congratulations to Our Young Mathematicians!

Kharisma Bangsa Elementary has once again demonstrated excellence in mathematics! Our talented students have showcased their analytical thinking, problem-solving skills, and dedication at the Southeast Asian Mathematical Olympiad (SEAMO) Jakarta Round on October 19, 2024. Their outstanding achievements reflect their passion and perseverance in tackling complex mathematical challenges.

Their expertise in logical reasoning, algebraic mastery, and mathematical creativity sets a high standard for future competitions. We are proud of their hard work and determination!

## INTERNATIONAL MATH CHALLENGE 2024

Two of our young learners have made their mark on the international stage. Danuar Binara Atarya and Ziggy Saverio Aninditya each earned a Bronze Award in the International Math Challenge, where students from 85 countries took part. Danuar competed in the Kids Grade 1–2 category, while Ziggy competed in the Grade 5–6 category—both showing that determination and a love for math can take you far. Their achievement is also a reflection of how our Cambridge Math subject builds strong problem-solving skills from an early age. Congratulations, Danuar and Ziggy. We're proud of your global journey!

# a JISMO 2024

The Japan International Science and Mathematics Olympiads (JISMO) is a prestigious competition designed to challenge and develop students' skills in science and mathematics through creative, analytical, and logical thinking. With participants from various countries across Asia, JISMO encourages students to go beyond textbook knowledge—to think critically, solve real-world problems, and discover the true joy of learning.

We are proud to celebrate our outstanding students who rose to this challenge and succeeded. Their achievements reflect not only their talent and hard work but also their dedication to learning and their courage to compete on an international stage. Congratulations to all—your success is an inspiration to us all, and we believe it's only the beginning of many more accomplishments to come.

## OLIMPIADE AKADEMIK NASIONAL KESAKTIAN PANCASILA 2024

Khairunnisa Anjani Asmaulya proudly earned a Gold Medal with an A+ predicate in the English Category at the Olimpiade Akademik Nasional Kesaktian Pancasila.

Her confidence and fluency in English didn't come overnight—it's the result of her hard work and the consistent use of English in our daily school environment.

Well done, Anjani. Your words inspire, and your achievement makes us proud.

## FUTURE INTELLIGENCE STUDENTS OLYMPIAD 2024

In the world of numbers, logic, and precision—Sienna Chiara Faiza Firman rises with brilliance.

She earned a Gold Award in the Mathematics Category at the Future Intelligence Students Olympiad (FISO) – National Round, proving that sharp thinking and a calm heart can conquer any challenge. Sienna's achievement is more than a medal—it's a reflection of quiet strength, steady effort, and a love for learning that shines from within. Congratulations, Sienna. This golden moment is just the beginning of many more to come.

## Be an entrepreneur

Starting her own business can give your middle grader work experience *and* something fun to do this summer. Share these suggestions.

■ **Event assistant.** Your tween might help local parents with celebrations like birthday parties or family reunions. She could put together party favors, set tables, take photos, or do face painting, for example.

■ **Yard genie.** Neighbors may need your child to water or mow lawns, or to plant flowers, prune bushes, or weed gardens.

■ **Parent's helper.** Suggest that your middle grader look for families who want someone to play with their children while they clean, work from home, or run errands.

*Tip:* To advertise, she can hang flyers on community bulletin boards or ask family, friends, and neighbors to spread the word. 👍

## INDONESIA MATHEMATIC SCIENCE ENGLISH OLYMPIAD 2024

Congratulations to Aldio Rananda Atarya for winning a Bronze Award in the English Primary 6 Group, and to Danuar Binara Atarya for earning a Bronze Award in the Mathematics Primary 1 Group. With courage and effort, they stepped into the competition and made us proud. Well done, Aldio and Danuar—keep shining!

## PARAHYANGAN MODEL UNITED NATION 2024

Shakira Putri Amalia brought her voice to the global stage at the UN Women council during the Parahyangan Model United Nations, representing the country of Jordan. Her strong speaking skills and confident diplomacy earned her the Verbal Commendation Award—a recognition of clarity, presence, and global perspective. Much of this mindset was shaped right in the classroom, where discussions, critical thinking, and international awareness are part of everyday learning. Congratulations, Shakira. Your voice matters—and the world is listening.

## RUANGGURU ACADEMY OF CHAMPIONS 2025

**JASPER REXX PUTRA CAKRA**  
(ALUMNI CLASS OF 2025)

Jasper Rexx Putra Cakra has secured 4th place out of 36 top contenders in the prestigious Academy of Champion Ruangguru!

A remarkable achievement in a competition that brings together Indonesia's brightest students.

For six years, Jasper has been a proud student of Kharisma Bangsa, where he has flourished in an environment that nurtures excellence. With top-tier teachers, an outstanding learning system, and unwavering support, he has grown into a formidable competitor.

Throughout his journey, Jasper has truly enjoyed every step of his development, embracing the

challenges and victories that come with it. This achievement is even more special as Jasper follows in the footsteps of his senior, Axel, who also emerged victorious in a similar competition.

Their success is proof that Kharisma Bangsa continues to cultivate champions—building not just academic excellence, but also the resilience and mindset of true winners.

Congratulations, Jasper! The future is yours to conquer!

# APPRECIATING OUR OSN 2025 DELEGATES

We are proud to recognize our elementary, middle, and high school students who represented Kharisma Bangsa at the 2025 City- and Province-level National Science Olympiad (OSN) in Mathematics, Science, and Social Studies. Although they did not advance to the next stage, their dedication, hard work, and courage to compete are truly admirable. We believe this valuable experience will inspire even greater achievements in the future. Congratulations to all our delegates, and thank you for bringing pride and honor to our school!

# Celebrating OUR YOUNG SCHOLARS' ACHIEVEMENT AT OSN-P 2025

With immense pride, we celebrate the remarkable achievement of 10 outstanding students from Kharisma Bangsa who have successfully advanced to the Provincial Level of the National Science Olympiad (OSN-P) 2025. Their success is more than just a milestone—it is a reflection of their perseverance, dedication, and brilliance. These students have faced challenges with determination and proved that hard work truly paves the way to excellence. The entire Kharisma Bangsa community stands proud of their accomplishment, and we extend our best wishes as they continue their journey toward the national stage. May their efforts inspire many others to pursue excellence with the same unstoppable spirit.

## JUNIOR ENGLISH OLYMPIC 2024

We proudly congratulate Mikko Aquila Novantoro for his outstanding achievement at the Junior English Olympics (JEO) 2024. Representing Indonesia, Mikko won a Gold Medal in the Qualification Round held on 16–17 November 2024. This remarkable accomplishment reflects not only his dedication, talent, and hard work, but also his ability to compete at an international level with confidence and excellence. Through this achievement, Mikko has proven that persistence and passion can open doors to global opportunities. We are confident that Mikko will continue to shine in his academic journey and inspire others with his remarkable achievements, serving as a role model for his peers and a source of pride for our school community.

## Learning that fits in

How does your tween plan to spend his summer days? Whether he is going to the movies, riding his bike, or picking out camping gear, he can keep his mind active and continue learning. Here's how.

### Explore animation

Encourage your child to watch an animated movie and then read books or websites to learn about the process behind it. He could even try his hand at animation on a site like [fluxtime.com](http://fluxtime.com). Together, watch an animated film that you enjoyed as a child—he may be surprised by how much animation has changed since you were his age.

### Go the distance

How far can your middle grader bike, swim, rollerblade, run, or walk this summer? Suggest that he record his distance each time and track his progress on a U.S. map. At the rate he's going, how far will he "travel" by summer's end? Example: If he bikes 12 miles a week for

12 weeks, he would draw a line to a spot that's 144 miles away. Where could he go if he added two miles a week?

### Analyze product reviews

If your child is in the market for something new (tent, basketball, headphones), have him read reviews to identify comments that are most helpful. For instance, buyers might include pros and cons of the product. Or they may give information about themselves to help put their opinions in context. ("I am an experienced camper who has tried many tents.") Your tween can use the information to decide which product he prefers. 👍

## INDONESIA MEMANAH 10 2024

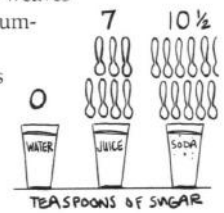

Tabina Maritza Himawan has hit the mark—literally. She earned the Best Score in Indonesia Memanah 10, an archery competition organized by the Komite Olahraga Pendidikan Nasional. Through dedication and consistent practice in our archery club, Tabina has sharpened her skills, focus, and precision. Congratulations, Tabina. Your aim is true, and your spirit even stronger. Keep going—you're on target for greatness.

## Activity Corner

## Make an infographic

Let your child combine creativity and technology by making an *infographic*, or an "information graphic." It's fun—and it's good practice for research papers at school.

An infographic weaves together words, numbers, and images to compare things or to make a point. For example, it could be a flow chart that includes photos or a picture graph with fact boxes.

Next, have him pick a topic he's interested in. For instance, if he wants to lose weight, he might create an infographic comparing the sugar in drinks (soda, juice, milk, sports drinks, flavored water, tap water). Suggest that he read the labels and measure out the teaspoons of sugar in each one. Then, he could take photos to use in his infographic. Seeing the teaspoons of sugar piled up is a powerful way to encourage someone to drink water rather than soda!

*Note:* He can create his infographic on poster board or by using software like PowerPoint, Keynote, or Kidspiration. 👍

## KEJUARAAN NASIONAL KARATE BKC PIALA WAMENHAN REPUBLIK INDONESIA 2025

He's only 7 years old, but his spirit roars like a true warrior. Meet Arkananta Rizky Mahendra—Arka, the karate kid of Kharisma Bangsa.

At such a young age, Arka stood tall and proud as he claimed 3rd place in the Kata Perorangan Usia Dini Putra category at the Kejuaraan Nasional Karate BKC Piala Wamenhan.

Through our karate club, Arka has stepped into a world of discipline, strength, and courage—and he's already making his mark. This is just the beginning, Arka. Your journey in karate is one to watch!

## THE 2ND RHAPSODIE INDONESIA MUSIC FESTIVAL 2025

Huge congratulations, Franda Azarenka Zhou! Your incredible journey is a true reflection of not just talent, but also independence, perseverance, and heart. Winning the Diamond Award at the 2nd Rhapsodie Indonesia Music Festival is already amazing—but doing it all with such grace and self-reliance makes it even more inspiring. And being selected to represent in the Asia Aegean International Music Competition in Taiwan is no small feat. You've shown that with focus and courage, you can achieve anything.

## ISPO 2025

A proud achievement from the Indonesian Science Project Olympiad (ISPO)! Out of 13 teams representing Kharisma Bangsa, 6 teams successfully brought home medals—a reflection of how well our students comprehend science and how effectively our teachers deliver the subject. This achievement also led our school to receive a special recognition as the School with the Most Finalists—a testament to strong collaboration, great guidance, and passionate learning. Congratulations to all participants and mentors. You've proven that science is not only about theories, but also about creativity, teamwork, and impact! Here are the winners

## CHAMPIONS CUP 2025

The Champions Cup organized by The Walrus Basketball in Bandung last January turned out to be such a sweet memory for our middle school students from the KB Eagles Basketball Team. Competing away from home, in a city quite far from school, was already a big challenge—but our young athletes showed incredible heart and spirit.

Our boys' team fought hard and proudly secured third place, while our girls made it all the way to the finals and brought home the runner-up title. These achievements aren't just about medals—they're a reflection of the strong mentality and determination our students carry, even at a young age.

Traveling, adjusting to a different environment, and going up against tough opponents didn't shake them. If anything, it made them stronger. It's clear that these young Eagles are already learning how to rise to the occasion, no matter where they are. What a great way to kick off the year!

## ZASIS 3RD INVITATIONAL 2025

Congratulations to Nadyaluna Gita Ananda from Grade 2-Oxford for winning the Gold Medal in Gymnastics Category Level 2 (WAG) at the ZASIS 3rd Invitational 2025! Your achievement shows what happens when talent meets dedication. Competing at this level takes courage and discipline, which you displayed with grace and confidence. We're especially proud of how you embodied Kharisma Bangsa's core value of Independence, owning your journey every step of the way.

## KEJUARAAN KARATE PIALA REKTOR UNIS II SE BANTEN KOTA TANGERANG

Kiara Rizkyana Mahendra's strength and determination shone as she won First Place in the Kumite +40kg Pemula Putri category at the Kejuaraan Piala Rektor UNIS II Se-Banten. A proud member of our karate club, her journey shows what passion and persistence can achieve. Inspired by her story? Join the karate club and start your own path to success—you could be the next champion!

## DBL BANTEN 2024

What an incredible journey!

DBL Banten 2024 brought us so much to celebrate: both our boys' and girls' teams proudly secured Runner-Up titles, while Kharisma Bangsa was named Most Favorite Supporter. Atha also shone individually, earning the MVP title of DBL Banten 2024.

The true victory, though, lies in the lessons learned and the growth we've shared together. Huge thanks to every player, supporter, and the entire Kharisma Bangsa family for your dedication. Sometimes we win, sometimes we learn—but we always rise stronger. The best is yet to come!

First Team: Kierania Zaveira Qurratayuni, Azzahra Aisyah Yusuf, Sultan Athasyena Fadawkas, Jonathan Karsten Hatorangan Panggabean

Azzahra Aisyah Yusuf, Evanthe Putri Meida, Nisrina Syifa Rafifah, Nasywa Arzalila Rakhman Putri, Kierania Zaveira Qurratayuni, Aisyahniwa Wiraharja, Karnisyia Cherishqia Musthofa, Athaillah Fathya Alike Nasution, Meidina Arzalea putri, Nabilah zahra putri, Falisha Ayra Shafana

# TC FIBA U16 ASIA CUP SEABA QUALIFIERS 2025

Aisyah Azzahra Yusuf and Ariq Shafa Cayara, members of our very own KB Eagles basketball team, have been selected among just 20 athletes nationwide to join the Training Camp (TC) for the FIBA U16 Asia Cup SEABA Qualifiers. This achievement is a powerful reflection of their relentless dedication, discipline, and love for the game. As core players of the KB Eagles, Aisyah and

Ariq have consistently shown outstanding performance on the court—and now, they're taking that excellence to a national level. Being invited to this prestigious training camp means they're not just playing for school pride anymore—they're stepping closer to representing Indonesia on the international stage. Let's stand behind them and cheer them on as they continue to soar higher. Go Eagles!

## BANDUNG OPEN GYMNASTICS 2024

At just Grade 2, Nadyaluna Gita Ananda—fondly known as Una—has already made a golden leap in the world of gymnastics. She claimed the Gold Medal in Gymnastics Level 2 at the prestigious Bandung Open Gymnastic, hosted by PB Persani and the Bandung City Education Office. With every flip, stretch, and pose, Una showed the heart of a true champion—graceful, fearless, and focused. This is not just a win on the mat—it's a powerful start to a shining journey. Bravo, Una. The world is watching!

### QUOTES OF THE DAY

*"Learning isn't about being the best; it's about being better than you were yesterday."*

### GLARISA VOL. 8 2025

#### Congratulations to Our Winners at GLARISA Vol. 8!

Once a year, our school transforms into a vibrant stage of talent, creativity, and excitement—and this year's GLARISA Vol. 8 Competition (14–22 February 2025) was no exception.

We're proud to celebrate the outstanding achievements of two of our students who shone brightly among many talented participants:

- > Aida Lupita Mansyur – 3rd place in Storytelling
- > Tabina Maritza Himawan – 3rd place in Colouring

Your creativity and effort made this celebration even more special. Well done, and keep shining!

### INDONESIA ICE SKATING OPEN 2025

We're proud to celebrate Delisha Azalea Putriadiyita from 5 Cambridge for her incredible performance at the Indonesia Ice Skating Open 2025!

With grace, strength, and focus, Delisha brought home not just one—but two medals on the ice:

- > 2nd Place – Solo Compulsories Freestyle 1 (Female, 11 years old)
- > 3rd Place – Freestyle 1 (Female, 11 years old)

Your dedication and passion shine with every glide. Keep skating strong, Delisha—this is only the beginning!

### INDONESIA NATIONAL PIANO FESTIVAL 2025

A heartfelt congratulations to Mikail Raffandra Al-fadli for winning the Diamond Award at the Indonesia National Piano Festival.

This recognition isn't just about flawless notes or perfect timing — it's a reflection of Mikail's dedication, discipline, and deep connection to music. Behind every melody he plays is a story of hours spent practicing, moments of doubt turned into determination, and a passion that speaks louder than words. His journey shows us that when talent meets perseverance, something truly beautiful happens.

We're beyond proud of you, Mikail. Keep letting your music inspire hearts and speak where words cannot.

## Good company

One reward for the hard work of parenting is getting to enjoy your child's company! Try these ideas to share simple moments and stay close.

**Laugh together.** Being silly may strengthen bonds and ease tension from hectic schedules. You might show each other funny animal pictures or videos you find online. Or pass around the comics section of the newspaper.

**Share a treat.** Make a special snack that your tween enjoyed when she was younger, or go out for a smoothie and listen to what she has to say. You might be surprised by what comes up—she may talk about a boy she has a crush on or a problem with a friend.

**Window shop.** You don't have to spend a lot to enjoy a shopping adventure together. Browse garage sales, flea markets, or thrift stores for bargains. Seeing what your middle grader points out can help you get to know her changing tastes. Or take her to book or music stores, and let her tell you about her favorite authors and bands.

## KEJURKOT TAEKWONDO

JAKARTA SELATAN 2025

Behind this gold medal is more than just talent — it's the reflection of her independence, discipline, and quiet determination. Humaira trains with focus, pushes herself forward, and never waits to be told what to do. She owns her journey. Winning is great — but the way she gets there? That's what truly inspires us. Congratulations to Humaira Kinarian Boedihardjo for securing 1st place in Kejurkot Taekwondo Jakarta Selatan 2025!

TABINA MARITZA HIMAWAN – 3 COLUMBIA

## Ultimate Taekwondo Academy 1ST VIRTUAL TAEKWONDO TOURNAMENT 2025

Small in size, mighty in talent!

Congratulations to Kinara Jennaira Vrisa for winning a Gold Medal and Ingvar Arthur Razy for securing a Silver Medal—both while still in Grade 2! Your achievements are a shining example that brilliance knows no age. Kinara impressed the judges with her outstanding skills and confidence, while Ingvar showcased remarkable dedication and talent beyond his years. We are incredibly proud of how you both have embraced challenges, worked hard, and delivered such inspiring performances at such a young age. Keep dreaming big and reaching for the stars—you're just getting started!

## FLS3N 2025 Tingkat Kecamatan Pamulang

Big congratulations to Dinda Mariah Shidqia for winning 3rd place in the Menulis Cerita category, and to Raissa Aurelia Rusdi for also securing 3rd place in Menyanyi Solo Putri at the Festival Lomba Seni dan Sastra Siswa Nasional (FLS2N) ting-

Dinda Mariah Shidqia

Raissa Aurelia Rusdi

kat Kecamatan Pamulang! Dinda poured her imagination into words and created a story that stood out, while Raissa wowed the audience with her soulful voice and stage presence. What an amazing showcase of talent from both of you!

## SENSA KIDDIE HOOPS FESTIVAL 2025

On May 17, four students from Kharisma Bangsa Kindergarten participated in the Kiddie Hoops competition organized by Senusa Basketball at Bale Court, Cinere, Depok.

This was the first competition experience for Qiana Asheeqa Ashatosi, Nafeesa Aliya Syabana, Kayla Wiasha Anjani, and Shazena Xera Medina, who were divided into two teams. They competed against 17 other teams from three schools and regular Senusa groups, ultimately making it to the quarter-finals.

The competition was not only a test of agility but also helped to build teamwork and confidence among the children. Hopefully, this marks a strong beginning for TK Kharisma Bangsa in achieving success in future competitions.

We are proud to announce that 45 Kharisma Bangsa students have won awards at The 5th International STEM Olympiad 2025, held online up to the final round. Our students successfully competed in multiple categories: Art & Film, Coding, Math, Science, and Tech & Engineering—bringing home Gold and other prestigious medals. This year's Olympiad also featured an international stage in Barcelona, Spain, making the journey even more meaningful. Congratulations to all winners—and a big thank you to every student who participated. Your hard work, courage, and dedication make us truly proud!

# SACH Archery Exhibition Intern-School Match 2025

Did you know that our school has an Archery Club? And not just any club—it's a team of focused, disciplined, and talented students who recently made us all proud by winning the Grand Champion Award at the SACH Archery Exhibition Inter-School Match!

**Kharisma Bangsa Elementary, 2nd Favorite Champion & Overall Champion - SACH Archery Exhibition Inter-School Match**

They didn't just win one or two—our archers secured victories in 11 different categories, showing their consistency, skill, and team spirit across the board. This incredible achievement results from dedication, regular training, and a deep love for the sport. If you've ever been curious about archery or want to challenge yourself in a new way, maybe it's time to check out the Archery Club. Who knows? You could be the next one standing tall with a bow and a medal.

**Maliq A. Nasution**

**Prabu Andhika  
Adrian**  
Monash University  
(Psychology and Science)  
*Double Major*

# A SURE STEP ON THE LEGAL PATH: MICHAEL'S STORY

## FROM KHARISMA BANGSA

**Michael Adam Putra**, a 2015 alumnus of Kharisma Bangsa High School, is known not only for his academic excellence but also for his dedication to self-development and passion for the legal field. Since his school days, Michael has shown a keen interest in various areas, including tennis, which he pursued alongside his busy academic schedule.

After completing his secondary education, Michael continued his studies in law, earning a **Master of Laws (LL.M)** degree from **Gadjah Mada University**, one of Indonesia's top institutions. He concluded his studies with distinction, receiving the **Best Graduate of the Master in Law Study Program** award for the Jakarta campus during the 2022 postgraduate graduation. This award stands as clear evidence of his hard work and commitment to his academic journey.

Currently, Michael works as a Legal Manager an important strategic role that demands sharp legal analysis as well as strong communication and negotiation skills. He resides in the Pamulang area, though his memories of living in the Kharisma Bangsa dormitory remain vivid. For Michael, dorm life was not only about togetherness and discipline but also about developing character and independence.

One teacher who left a lasting impression on him is Mr. Nurhadi, whom he credits with significantly influencing his way of thinking and approach to learning. Michael sees his experience at Kharisma Bangsa as a vital foundation that prepared him for both higher education and professional life.

In his view, each stage of life comes with its own challenges and dynamics: school is a time when students are closely guided by teachers in a structured setting; university life demands independent thinking and the ability to manage time and responsibilities while the working world calls for the practical application of knowledge and adaptability in a competitive, ever-evolving environment.

If given the chance to return to his school years, Michael admits he would have taken certain things more seriously particularly improving his foreign language skills. He believes that studying English and Turkish more intensively from an early age would have provided significant advantages, especially in today's era of globalization and professional mobility.

To his juniors at SMAS Kharisma Bangsa, Michael offers a simple yet important message:

**"Learn English and Turkish better."**

In his eyes, language skills are key assets that can open wider doors in both education and career, at national and international levels.
