**A**ssumption College is a small, loving learning community where women are empowered with the resources to develop their individual potential, the guidance to work through personal struggles, and the encouragement to make our world a better place.

A tall, narrow stained glass window with a grid pattern. The central figure is a person in blue and white robes, possibly a saint or religious figure, holding a small object. The background is filled with abstract geometric shapes in yellow, blue, and red, and a pattern of white circles at the top. The window is set in a modern building with a white ceiling and a dark circular vent visible in the lower right.

## Ability-based Learning

More recently, Assumption College educators have become involved in an effort to redefine education in terms of abilities to better prepare our students in a world characterized by continuous change. Students are engaged in the learning process so they are able to apply the knowledge they gain and be more successful in whatever field they are in.

In Assumption, students are guided so they form values that influence their creativity, critical thinking, and leadership so that they can be of service to a wider community. This new approach to teaching and learning is anchored on the way we support our students so that they can discover the very best in themselves and in others and be successful in whatever life path they choose.

We love how accepting Assumption College is. We've made friends with people we never thought we'd even talk to. We're all used to sticking to ourselves and people who are like us. Assumption College takes that away from you. It almost forces you to get to know people who are different. Once you can get comfortable with that, it can change your life.
