18 - 19 JUNE 2025

2025 Event Report

supera.ai

“It’s an honour to be here at SuperAI. I can feel the whole spirit of AI power – instead of just looking to the future, the best way to enjoy AI is to build it.”

Tao Cheung
Co-Founder, Manus AI

“It’s been great to hear from people from all around Asia showcasing progress in hardware, robotics, and software. Great event!”

Dwarkesh Patel
Host, Dwarkesh Podcast

“It’s really great to be back at SuperAI again to hear about all the exciting new stuff that people are building and work out how we can make AI useful.”

01. Asia's Largest AI Event

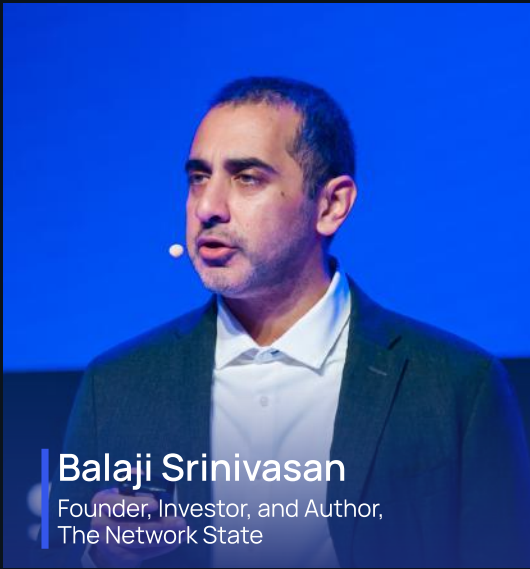

From 18–19 June 2025, SuperAI transformed Marina Bay Sands into the epicenter of artificial intelligence: a sold-out summit uniting 7,000 innovators from over 100 countries.

The brightest minds took the stage at SuperAI 2025

With 100+ headline speakers, SuperAI convened leading global voices to unveil breakthroughs in robotics, healthcare, finance, and AI's economic and societal impact.

Attended by industry leaders

Over 1,000 companies gathered at Singapore's iconic Marina Bay Sands to showcase their AI innovations.

AND MANY MORE

A large audience of people is seated in a conference hall, facing a stage. A speaker is visible on the stage, standing in front of a backdrop that features the 'SUPERAI' logo. The audience is diverse in age and appearance, and many are looking towards the stage. The lighting is dim, with a blue hue, and the overall atmosphere is professional and focused.

A look inside Asia's largest AI event

Over two electrifying days, global pioneers in AI research, robotics, infrastructure, and investment converged with local visionaries to explore what's next.

From product launches to first-time connections, SuperAI brought together every layer of the AI ecosystem, making Singapore the industry's meeting point for the future of intelligence.

Happy to join a panel today at [SuperAI](#) Singapore: New Models, New Machines: AI in Finance Today.

My key points:

- What makes AI in finance different?

It's not just the data – though finance is information-heavy, especially with sensitive internal data.

AMD

Do you like content creation? Are you looking to boost creative productivity with AI-powered workflows?

We're excited to share that AMD, in collaboration with A.V. Mapping, will be hosting the Creator Lab at SuperAI 2025.

Whether you're producing TikToks, editing videos, building podcasts, or simply curious about AI, AMD's Creator Lab will show you why hardware matters, and how AMD Ryzen™ AI delivers faster, smoother results.

Date: Day 2 of SuperAI — 19 June, 2:00–4:00 PM
Location: The Forum, SuperAI (Marina Bay Sands, L5)
Bonus: All accepted participants receive a complimentary 2-day SuperAI Singapore pass — so your learning continues across the full event.

Sign up to secure your spot (limited to 80 pax only): <https://lnkd.in/eAY9A66J>

[#SuperAI2025](#) [#CreatorLab](#) [#AMD](#) [#RyzenAI](#) [#AVMapping](#) [#ContentCreators](#) [#AIWorkflow](#) [#MarinaBaySands](#) [#SingaporeEvents](#)

- Value accrual and entrepreneurial energy are shifting from foundational model/infra layers to the application layer.
- AI's immense, long-term impact on industries is still underestimated. Expect new business models/industries over 30–40 years, forcing incumbents to reinvent or perish.
- The US, China, and India are global hotbeds of AI talent. With India's vast consumer market, there's a growing need to strengthen core R&D for sustained leadership.

10
Finalists

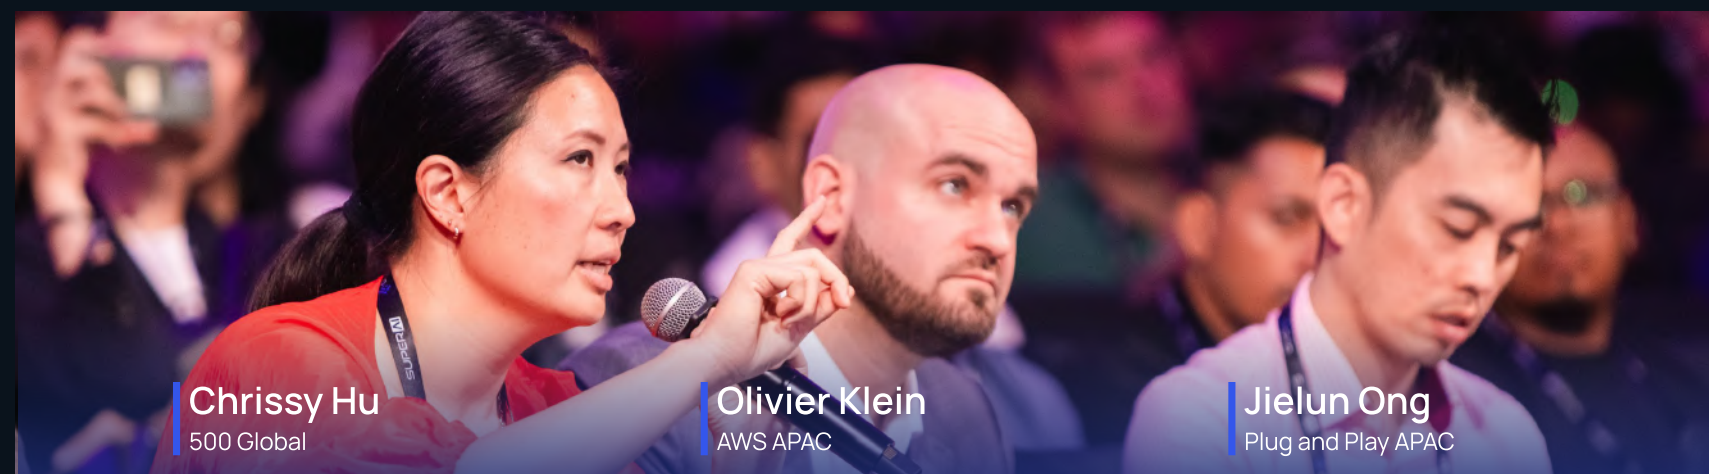

The world's largest AI startup competition

Drawing contestants from 40 countries, the Genesis Startup Competition cemented its status as the stage for AI's next generation.

10 finalists competed in a shark-tank style format on 18-19 June, pitching solutions for generational problems in Embodied AI & Robotics, HealthTech & Biotech, Fintech, and Web3 & Decentralized Intelligence.

Nanyang Biologics, recently spun-off from Nanyang Technological University, took the grand prize for their graph neural network technology to accelerate drug discovery. The prize connected them with 500 Global, which has started the investment process.

With several finalists going on to secure investment, enterprise matchmaking (in partnership with Plug and Play), and cloud credits (from AWS), SuperAI Genesis continues to foster the global AI startup ecosystem.

\$500

In SambaNova Compute Credits

The inaugural SuperAI NEXT Hackathon selected 60 of the most talented AI and ML engineers to go from idea to working product in a high-pressure, high-energy 36-hour sprint. Working in the heart of SuperAI, participants built prototypes across robotics, finance, healthcare, retail, and sustainability. Fueled by adrenaline, cans of Red Bull, and a \$50,000 prize pool, teams pushed through two sleepless nights with mentor check-ins, technical workshops, and round-the-clock snacks and amenities.

With guidance from senior leaders at AWS, Shellcode, and SambaNova Systems, the four winning teams showcased their innovations live on Day 2, as 7,000 SuperAI attendees watched AI's biggest stage.

04. Singapore's SuperAI Ecosystem

another way of saying they are the average. But progress comes from people who build things that are new, and by definition unpopular (or 'pre-popular'), and then them pushing the average towards the direction of progress.

and as Reid Hoffman shared on threads (thanks Aki Taha for flagging), for us to effectively push the boundaries towards progress, we need networks of friends to motivate us, ask us hard questions and to support us.

CNA coverage: <https://lnkd.in/d6bTS2JT>

Thank you amazing founders who demoed at our booth: **Anand Roy** (Wubble), **Rishabh Bhardwaj** (Walled AI), **David** (AIPath.one), **Maish Nichani** (Mighty Cursor), **Calvin Tan** (Pints.ai), **Ivan** (Sellrise.ai), **Tim Moylan** (Usecase | Your Key to AI), **Sowmiya** (JustPing AI).

Thanks to all the amazing community members and partners who came by to show support the AI founders and say hi! ❤️

Next up: TGB members can work for FREE at our new TGB GenAI Lab every Friday ;)

Come hang out, work, chill, have AI conversations at **SQ Collective** next Friday: https://lnkd.in/geCm_Hcs

AI

Last week, **Gunderson Dettmer** was proud to co-host Day Zero: SuperAI Mixer alongside **Plug and Play APAC** and **Stripe**, with support from **SuperAI**, **AI CONNEX**, and **VC ARENA**. This event helped kick off Singapore AI Week, bringing together innovators, investors, and thought leaders to explore the cutting edge of AI.

A huge thank you to our stellar panelists, **Peter Noszek** (SuperAI), **Jun Ho Bae** (Altara Ventures), **Komes Chandavimol** (KASIKORN Business-Technology Group [KBTG]), **Abdul Kazi** (Betterdata), and moderator **Lauren Teo** (Stripe) for the insightful discussion.

Shoutout to our Singapore team, partners **David He** and **David Wang**, and associates **Benjamin Teo** and **Binh Vong**. Special thanks to **James Conde** and **Ieran Perez** for making this collaboration a success!

SINGAPORE AI WEEK

16 - 22 JUNE 2025 | SINGAPORE

SuperAI drew thousands of technologists to the conference, catalyzing Singapore AI Week: a series of over 100 satellite events that covered the entire AI development lifecycle from prototype to product. Events spanned VC speed-dating, vibe coding sessions, developer meetups, demo days, networking events, and workshops.

Events included a C-suite networking event organized by the Global Finance & Technology Network, a non-profit initiated by the Monetary Authority of Singapore.

SuperAI also partnered with the National Youth Council and Wavesparks to provide 200 students worldwide with complimentary access to the conference.

These activations extended the two-day conference into the largest AI festival to date.

Grateful for the chance to speak at Ctrl AI Connect on Wednesday, June 18, at the BLOCK71 x Airwallex x Second Talent Mixer.

It was an inspiring evening filled with bold ideas, meaningful conversations, and fresh perspectives on the evolving AI ecosystem.

Thoroughly enjoyed connecting with visionary founders, forward-thinking investors, and ecosystem leaders who are actively shaping the future of generative AI.

Special thanks to **BLOCK71 Global** and **Airwallex** for hosting us at the Airwallex office and creating an ideal environment for genuine discussions.

Also super thankful to be part of celebrating the wrap-up of BLOCK71's Spring GenAI Program, highlighting groundbreaking innovations and fostering relationships that drive progress.

Events like these reinforce my belief that true innovation is about more than just technology.

It's about building meaningful relationships and intentional collaborations that push the boundaries of what's possible.

What an incredible evening at Neural Networking: VC-Startup Speed-Dating during Singapore AI Week!

We are thrilled by the overwhelming response, with over 250 startups applying to join our exclusive event co-hosted by **Kadan Capital**, **Antler** and **HubSpot For Startups**. After a rigorous selection process, we matched the top 50 most promising AI startups with 25 leading VC investors.

Our takeaway is clear. With new ventures emerging every day, Southeast Asia is quickly becoming a platform for leading AI startups. We were thrilled to see so many VCs come together with a shared vision to support and shape the next generation of iconic companies.

A huge thank you to all the startups, investors, and partners who made this event such a success.

Want to be part of our next event? Follow us on LinkedIn for updates. Here's to building the future of AI, together!

Breaking down silos for AI's global development

SuperAI united builders, startups, policymakers, academics, and investors to accelerate AI innovation on a global scale.

At the heart of the event were nine Community Hubs covering government, academia, youth, media, and venture. Together, they became the meeting point for a diverse and fast-growing ecosystem.

Student programs, university partnerships, and showcases such as Stanford HAI and IMDA's AI adoption frameworks highlighted the breadth of collaboration shaping the industry.
