Tupi Tea is a dietary supplement containing 120g of the composition that ultimately promotes a healthy libido, stamina, and adequate production of nitric oxide regardless of age. It is the Tupi Tribe's secret recipe for a drink that supports males over the age of 18 with increased blood flow and virility for enhanced manliness. In addition to enhancing performance, this

organic blend promotes positive effects on joint health, prostate function, and confidence.

Tupi Tea contains an incredible formula, consisting of rare ingredients — as found in the legendary drink the Tupi tribe drink. It works by supporting the health of the endothelium — the newly-discovered organ responsible for supplying every part of the body with blood flow. And this groundbreaking formula helps libido function, virility, stamina, and performance.
