BIO

Better Late is a DJ originally from London with over 20 years behind the decks, playing at some of the best venues and events internationally, from the UK, to France, Portugal, Brazil, and Spain. Currently based in Barcelona, by day he is a teacher and mentor to rising DJ stars at his own academy, On Tempo, and by night, he continues to be a long-standing member of the underground electronic music scene, DJing and promoting events such as UK House & Garage and Funk It!

His ability to read and connect to the energy of the crowd means he crosses through many genres in his dancefloor-shaking sets, always keeping it groovy to include warm chunky house and tech tracks alongside tribal beats, weaving in a handful of classics. His track selection, creativity, and mixing skills are unparalleled, guaranteeing to get the whole floor stomping and following along on his deep, exciting, and story-telling journey.
