

SPIEWAK

since 1904

Celebrating 120 years of Service

A TRADITION OF INNOVATION

In the autumn of 1904, Isaac Spiewak opened a business in Williamsburg, Brooklyn, producing handmade sheepskin vests that he sold on the streets of New York. Over a century after its founding, I. Spiewak & Sons has grown into one of the premier names in performance uniform apparel.

The garments we produce have been trusted by the soldiers of WWI and WWII and are currently worn by uniformed professionals around the globe. Over a decade after our centennial, we remain a privately-held family business that features forward design, premium fabrics, and new technologies.

We are excited to present our new catalog and the innovative products within.

SINCE 1904

Spiewak Factory, Brooklyn New York - 1917

Roy Spiewak

A TRADITION OF SERVICE

Spiewak joins in expressing our nation's gratitude to those in public service whose dedication to their job day in and day out maintains our freedoms and makes our job so rewarding. In particular, we would like to thank the men and women of the Spartanburg County, SC Sheriff's Office, Waterbury, CT Police and Fire Department, as well as St. Louis, MO Fire Department for their valuable time and patience in allowing us to photograph them at work.

COMMITMENT TO QUALITY AND SAFETY

I. Spiewak & Sons, Inc. meets or exceeds all required and recommended standards and guidelines for quality control and garment safety. You can trust Spiewak products to perform up to your demanding standards everyday.

Spiewak is committed to keeping you safe on the job. Spiewak maintains an emphasis on industry education and product compliance so that you "Get Home Safe," everyday.

LIFETIME WARRANTY

SPIEWAK'S LIMITED LIFETIME WARRANTY, AS PART OF OUR TOTAL QUALITY ASSURANCE PROGRAM, INSURES THAT THE ORIGINAL PURCHASER RECEIVES DEFECT FREE, TOP QUALITY COMPONENTS AND WORKMANSHIP IN THEIR SPIEWAK GARMENT. THIS LIMITED WARRANTY COVERS PRODUCTS MANUFACTURED BY I. SPIEWAK & SONS, INC. AND PURCHASED FROM ANY AUTHORIZED SPIEWAK DEALER.

I. Spiewak & Sons, Inc. warrants to the original purchaser that their Spiewak product will be free from defects in materials and workmanship for the natural life of the garment, subject to normal wear and tear.

Should this garment become defective during the warranty period, simply return it to the place of purchase together with your dated proof of purchase (sales receipt or copy thereof). I. Spiewak & Sons, Inc. will, at its option, either repair or replace, without charge, any item determined to be defective.

Limitations: This warranty does not cover normal wear and tear, the color fastness of fluorescent fabrics, damage from chemicals, fire, misuse,

accident, improper care in cleaning or negligence. This warranty applies only to the original purchaser of the covered products and is not transferable.

THIS WARRANTY IS THE ONLY WARRANTY GIVEN BY I. SPIEWAK & SONS, INC. (OR ANY AUTHORIZED DEALER OR OTHER SELLER) FOR THE COVERED SPIEWAK PRODUCTS, AND IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES (WHETHER ORAL OR WRITTEN) INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR ANY PARTICULAR PURPOSE.

SPIEWAK'S LIABILITY AND YOUR EXCLUSIVE REMEDY IN CONNECTION WITH THE SALE OR USE OF COVERED SPIEWAK PRODUCTS SHALL BE STRICTLY LIMITED TO SPIEWAK'S OBLIGATIONS AS SPECIFICALLY PROVIDED IN THIS WARRANTY. IN NO EVENT SHALL SPIEWAK BE LIABLE OR RESPONSIBLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING ANYWAY IN CONNECTION TO SPIEWAK PRODUCTS OR THEIR SALE OR USE, INCLUDING BUT NOT LIMITED TO DAMAGE TO PROPERTY, INJURY TO PERSONS, LOSS OF USE OF THE PRODUCTS OR INCONVENIENCE.

STANDARDS

ISO 9001 : 2015 CERTIFIED

I. Spiewak & Sons, Inc is registered by DQS/UL to ISO 9001 : 2015 certification on our facilities and quality systems. ISO 9001 certification ensures that each product and component is designed, manufactured, and delivered with the same quality and service.

ANSI/ISEA 107-2020 CERTIFIED

I. Spiewak & Sons is committed to worker safety through education, industry knowledge, and technically advanced garments. All Spiewak high visibility garments are third-

party certified to comply with the latest standards to give you independent assurance of our products' safety and compliance.

ASTM F1671 - 2022 Certified

I. Spiewak & Sons' EMS garments have passed ASTM F1671 - 2022: the standard method for testing the resistance of materials used in protective clothing to penetration by blood-borne pathogens, using the PHI-X174 Bacteriophage Penetration as a test system.

WEAR WHAT WORKS.

5 ELEMENTS. 1 SOLUTION.

1 OUTERSHELLS/DUTY JACKETS

WeatherTech® Systems AirFlow Duty Jacket SH3466

Lightweight, waterproof, and breathable. This duty jacket is perfect for any tactical situation, featuring hidden panels for identification. Add the S912 vest when you want to be seen. See page 10

- RELATED STYLES:
- S3616 p.11
 - S3818 p.15
 - S1780 p.16
 - S577CF p.23

2 HI-VIZ DUTY RAINWEAR JACKETS

VizGuard® Public Safety Systems Parka S578V

ANSI 107-2020 Type P Class 3 Type R Class 3
Be Seen. Be Safe. Be Dry. This VizGuard Systems Parka ensures maximum visibility in any situation, day or night, rain or shine. See page 44

- RELATED STYLES:
- S588VT p.40
 - S588VTR p.41
 - S366VZR p.50

3 JACKETS/LINERS

Performance Softshell Jacket / Liner S318Z / S318ZX / S318ZXV/ S319STL

This deluxe performance softshell can be worn on its own or zipped into your systems jacket or parka for maximum warmth. See pages 12-13

- RELATED STYLES:
- S327 p.17
 - S326 p.17
 - S0890 p.22
 - S526CF p.22
 - S319V p.39
 - S525V p.51

4 PANTS

WeatherTech® Tactical Response Pant S1785

This is the best fitting, most comfortable, waterproof overpant ever made for public safety. Period. See page 19

5 HI-VIZ VESTS

VizGuard® Airflow Public Safety Vest S912

ANSI 107-2020 Type P Class 2
Be Seen. Be Safe. This vest is designed specifically for the public safety market and is third party certified to meet the ANSI 107-2020 standard. It features 5-point breakaway, zipper front, adjustable sides, and Spiewak's exclusive Comfort Fit. See page 47

Compliance to ANSI 107-2020 is now mandated by DOT Federal Highway Administration Code of Federal Regulations Title 23 Part 634. See page 38 for more information on ANSI compliance.

LEADERS IN OUTERWEAR

Spiewak produces the best performance outerwear on the market today due to our time proven expertise in product design.

We focus on meeting specific consumer needs and utilize the best fabrics available. Each garment is subjected to a long period of research and development through our extensive network of end-user testers. We repeat the cycle to constantly improve our designs.

The results are garments that consistently outperform the competition on weartests, in their day-to-day performance, and in customer loyalty.

WEATHERTECH® SYSTEMS AIRFLOW DUTY JACKET

SH3466

- High performance Tactel® shell and WeatherTech® waterproof, windproof, breathable lining with sealed seams engineered to keep you warm and dry in all weather conditions
- Three-piece waterproof, windproof, breathable drop-in hood
- Front and back rain shed yokes with snap closure and mesh lining for increased airflow, with zippered pockets hidden under front yokes
- Performance sleeve allows for complete range of motion

READY FOR ANYTHING

Over the past 30 years
Your duties have changed.
Your equipment has changed.
But your uniform hasn't.
Until Now...

If you haven't experienced the SPDU™, call to get your own DVD explaining the features and benefits of the uniform that continues to change the marketplace.

Contact customer service at 800.223.6850

INNOVATIVE QUALITY UNIFORMS

INTRODUCING

CUSTOM UNIFORM PROGRAMS

Combining tradition with technology to give you the image you desire and the performance you deserve.

We strive to deliver the highest quality, comfort, and functionality in our products, investing significant resources in the engineering and advancement of technologies within our market. Working together with Law Enforcement professionals we have developed many unique features within our uniforms, including:

- Performance-based fabrics with Nano-Technology for permanent water and stain resistance, or Sorbtek®365™ for superior wicking and moisture management.
- Our patented Shirt Retention System®.
- Our patented Hidden and Secure® Cargo Pocket.
- Our Expand-on-Demand Waistband.

These features, combined with other attributes, deliver a uniform with the highest performance levels in our industry. We use only the highest quality fabrics, components, and construction methods to insure that garments carrying the Spiewak label meet the tough standards we have set and maintained for over 100 years. One look at a Spiewak Uniform will convince you of our commitment to producing the highest quality garments. Our customers benefit not only from a reduction in overall uniform expenditures as a result of Spiewak's better quality and durability, but also a significant increase in officer morale due to Spiewak's comfort, performance and functionality.

These superior Spiewak features are available in our core line of stock uniform products as well as in our **custom tailored uniform programs**.

Utilizing a Department's specified fabric and color, we design a customized uniform that combines **tradition** with **technology** to give you the **image** you desire and the **performance** you deserve.

For customized uniform requests, please contact our Customer Service Department at:

OPEN INNER DESIGN

- Bonded Fabric to ensure professional appearance and long lasting durability
- The Vest Carrier design provides all the same key features of a standard Spiewak uniform shirt
- Two side zipper options on each side of the carrier provide 3-stage adjustability to ensure a proper, desired and secure fit
- Side Stretch Material allows for comfort, range of motion and breathability
- 6 Heavy Duty Elastic Straps (3 in the front and 3 in the back) hold the armor in place
- The Body Armor's original cover and straps are used to secure the armor to the wearer's body, ensuring proper fit, placement and coverage
- Padded shoulder and upper chest mesh inner lining provides added comfort and breathability, further securing the armor
- 2 way front pockets – accessible from both the top and side
- Comes with a removable Mic and/or Body Camera Clip

ADJUSTABILITY

- Designed to be worn with the External Vest Carrier, the upper portion of the Base Layer Polo is made of the same material as the uniform shirt to ensure color match
- When worn under the External Vest Carrier, the visible portions of the Performance Base Layer Polo provide all the same key features of a standard Spiewak uniform shirt
- Lightweight, moisture wicking, anti-bacterial, breathable, athletic knit mesh on the lower portion of the Performance Base Layer Polo provides excellent odor-reduction, breathability, and moisture management
- The lower portion mesh material provides maximum stretch for superior range of motion and comfort
- The moisture wicking mesh also lines the inside collar stand and back yoke for additional comfort (SORBTEK EXS Ripstop styles only)

INTRODUCING

SPIEWAK® SORBTEK® 365™

is designed for superior moisture wicking and absorption, comfort climate control, soil and stain resistance, breathability, comfort stretch, excellent color retention and easy care.

WHY SORBTEK® 365™ TECHNOLOGY - For Fast Wicking, Superior Hand, and Comfort Climate Control

• FAST WICKING

While some technology wicks only in one direction, **SORBTEK®365™** spreads moisture out in all directions (360°).

SORBTEK® 365™ TECHNOLOGY is superior because it is created during the extruding of the yarn so it is permanent and won't wash out.

SORBTEK®365™ incorporates two separate technologies:

- (1) changing the cross section of the polyester fibers to give it channels for moisture wicking;
- (2) changing the chemical bonding in the creation of the yarn to make it more hydrophilic, so it will continue to wick even when the channels are full.

SUPERIOR HAND AND COMFORT CLIMATE CONTROL

- Spiewak Professional Poly fabric with **SORBTEK®365™** has superior coverage and hand due to bulk created in yarn formation.

SORBTEK®365™ changes the mechanics as to how fabric breathes by changes in the yarn formation. Coverage is increased due to the relatively large number of filaments in the yarn, not by increasing the overall weight of the fabric.

SORBTEK®365™ fabric has a buttery finish and a nice hand. The bulk / coverage gives the fibers the ability to be more comfortable to the hand and to trap warmth when desired, but still move the excess moisture to prevent re-wet.

Bulkier yarn allows the fabric to cover more of the body, with less micro-holes. Yet it still has excellent breathability with superior Moisture Vapor Transmission rates.

HOW IT WORKS

YOUR COMFORT MATTERS WICK AWAY MOISTURE

SORBTEK® 365™ quickly spreads the moisture and transports it (wicks it) from the inside to the outside of the fabric to quickly dry, 3 times faster than the competition.

SORBTEK® 365™ moisture management technology is created during the manufacturing process of the polyester yarn. Since it is inherent in the yarn it is permanent and will never wash out.

YOUR COMFORT MATTERS COOLING

SORBTEK® 365™ has fantastic cooling properties in the hot weather for Comfort Climate Control and Fast Wicking because it has:

- Very quick absorption
- Very quick spreading / quick drying
- Does not rewet (rewetting is when the garment, soaked with sweat, clings to the body)

SORBTEK 365 FABRIC

- Full comfort mechanical stretch built into fabric
- Shirt Retention System® designed to keep shirt tails in
- Zippered front closure
- Channeled pen pocket through flap on left chest pocket; unchanneled pen pocket through flap on right chest pocket
- Hidden chest pocket
- Stitched creases
- Hidden tabs to button down collar (long sleeve only)

NANOTECHNOLOGY EXPLAINED

Nanotechnology is essentially “engineering at the molecular level.” For your uniform, this means that the technology is built into the fiber and therefore permanent, unlike a topical coating or spray application. To maintain this technology, please refer to the care instructions.

KEY FEATURES

- Permanent water and stain resistance (advanced nanotechnology)
- Colorfast, breathable, comfortable, durable, wrinkle resistant fabric
- Excellent UV protection (UPF of 40+ according to ASTM 6603)
- Full comfort mechanical stretch built into fabric
- Silicone grip Shirt Retention System[®] designed to work with SPDU[™] trousers and shirts to hold shirt tucked into trouser
- Hidden & Secure[®] cargo pockets on both thighs of SPDU20

Spiewak continues its commitment to worker safety through education and superior product. Since Vizguard's creation in 1999, Spiewak has led the industry by example. Spiewak tests every high visibility style to ensure compliance with the most recent ANSI Standards.

ANSI

ANSI 107 - 2020 now includes specific criteria for single-use disposable coveralls, and also introduces the optional measurement of a garment's nighttime luminance at all viewing angles.

ANSI 107 - 2015 consolidated the requirements of ANSI 107 - 2010 and ANSI 207-2011. The ANSI 107-2015 standard identified garment types based on expected use settings and work activities being performed. It also addressed a standard for smaller sizes to allow for proper fit.

All Spiewak high visibility products are manufactured to be in compliance with the ANSI 107 - 2020 Standard.

For more information on current standards, please visit www.spiewak.com

GUARDIANFX™ PPE PERFORMANCE BASE LAYER TEES

BL110 & BL120

- Advanced “No Melt, No Drip” performance fiber allows the characteristics of a performance base layer without the burn and char risks of cotton or polyester
- Features an energy capture and release system providing advanced temperature management technology at the fiber-level:
 - balances temperature (increases comfort)
 - feels cool, fresh to touch (reduces sweat)
 - absorbs excess heat (limits overheating)
 - stores heat (keeps you cool)
 - releases heat (keeps you warm)
- Extreme wickability
- Horizontal and vertical stretch
- Silver+ Anti-microbial technology
- Complies with ASTM D6413 for flame-resistance and no melt, no drip

BL110 & BL120 page 52

GuardianFX™ PPE Performance Base Layer Tees

- Advanced "No Melt, No Drip" performance fiber allows the characteristics of a performance base layer without the burn and char risks of cotton or polyester
- Features an energy capture and release system providing advanced temperature management technology at the fiber-level:
 - balances temperature (increases comfort)
 - feels cool, fresh to touch (reduces sweat)
 - absorbs excess heat (limits overheating)
 - stores heat (keeps you cool)
 - releases heat (keeps you warm)
- Extreme wickability
- Horizontal and vertical stretch
- Silver+ Anti-microbial technology
- Non-compression Comfort Fit
- Complies with ASTM D6413 for flame resistance and no melt, no drip
- Wash and wear - machine wash
