

Meet Cameran

A construction camera that acts like your teammate.

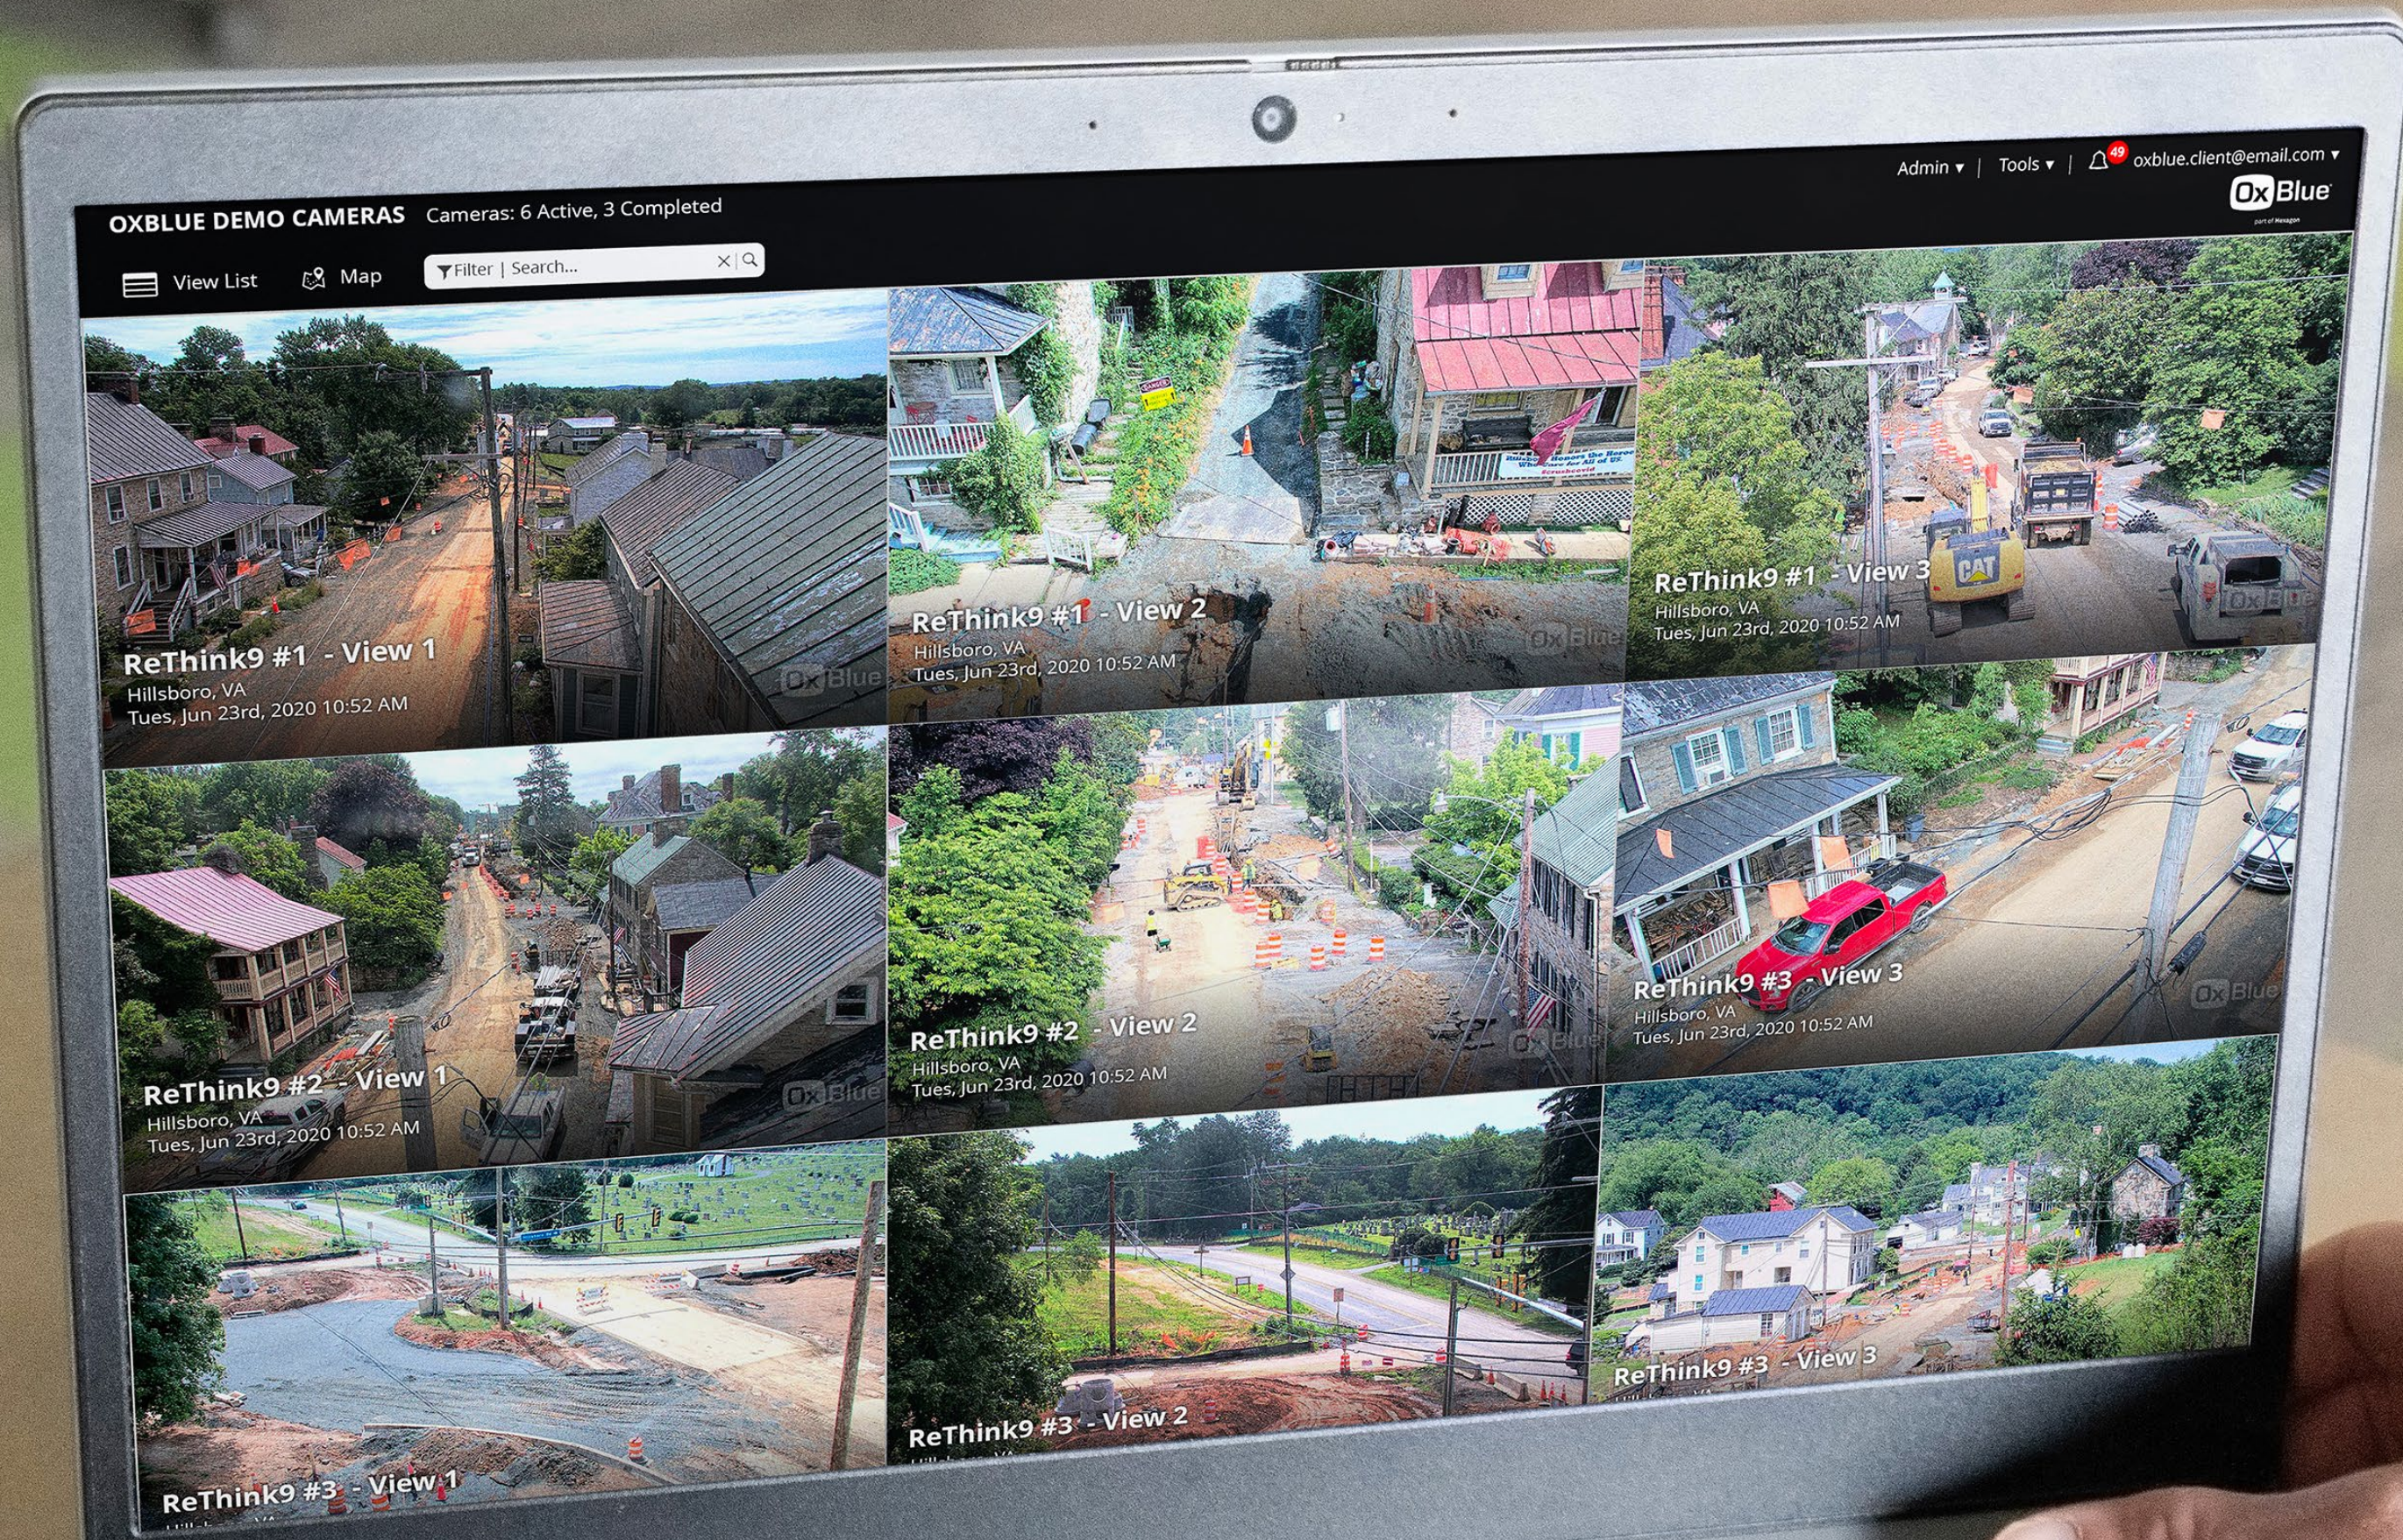

When you're wearing many hats, Cameran can help fill the gaps. Here are the three top reasons why they're your next best hire

Streamlined Project Oversight:
Cameran shares real-time updates and captures automatic documentation through live streaming, video on demand, or time-lapse imagery — any time, any where.

With Cameran you can...

See all your projects
on one convenient
dashboard

Capture past jobsite conditions exactly as they were

Set alerts so you know what's happening at the exact right moment

... It's like having the right teammate
on site at the exact right time.

Stronger Sitewide Security:
Use Cameran to spot risks in
real-time while optional talk-
down audio hardware can stop
intruders in their footsteps.

With Cameran you can...

Use motion detection
to identify trespassers

Deter intruders with
alarms and strobes

Collaborate with
emergency responders

... It's like having a reliable security guard that never needs to take a break.

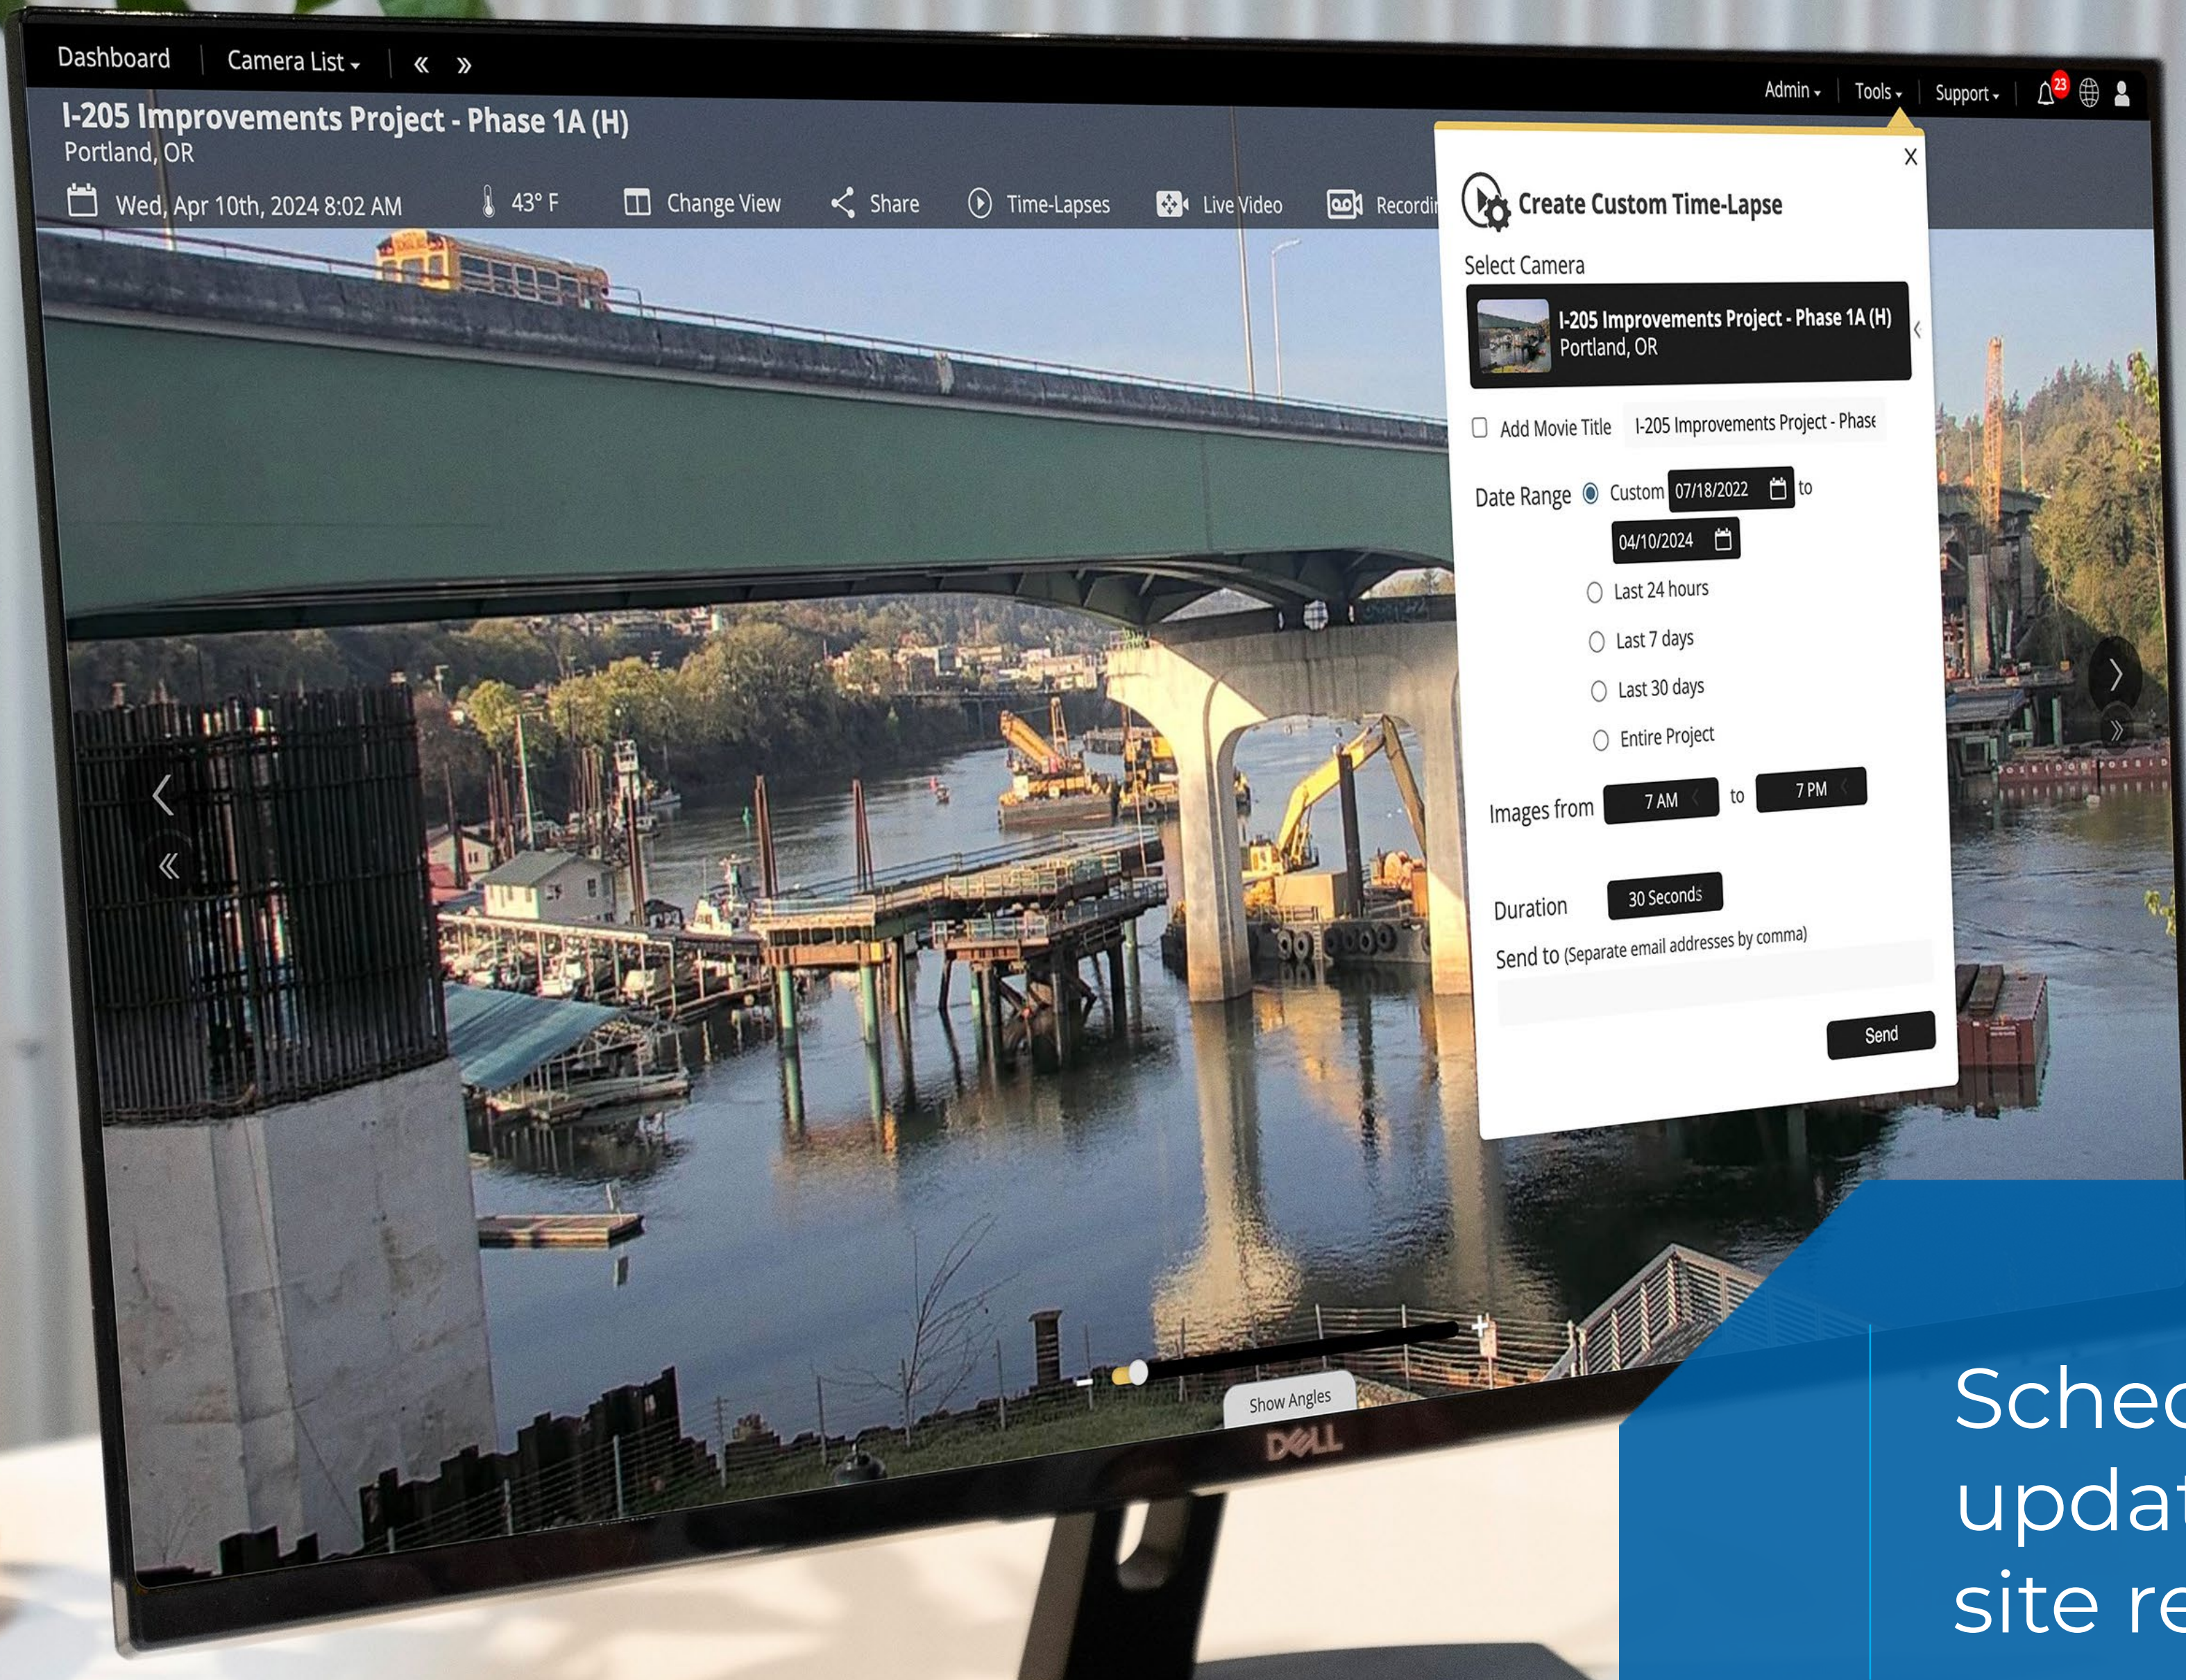

Clearer Communication and Collaboration:

Cameran shares insight and updates on project progress using artificial intelligence and time-lapses.

With Cameran you can...

Keep all parties
up-to-date in real time

Create Custom Time-Lapse

Gather data on activity, weather and safety compliance

A woman with blonde hair and glasses, wearing a black top and light-colored pants, stands in a modern office with large windows. She is smiling broadly and looking towards a man in a dark blue shirt who is also smiling. Another man in a white shirt is partially visible in the foreground, looking towards the woman. The background shows a cityscape through the windows.

... It's like having an assistant who always knows how to make you look good in meetings.
