# Letter from the Chairman

Dear Bull Terrier Friends,

I'm excited to announce that the next edition of Bully Talk will be available to all Bull Terrier fans in and around South Africa for the first issue, then it will be exclusive to Members. So, if you would like to receive the bi-annual WP Bully Talk, please fill in the Membership Application form at the end of this newsletter and send it to the Secretary along with the POP for your membership category.

Reflecting on the past year, our Club has seen remarkable growth and success. Our October Show, with Dr. Carl Pew officiating, demonstrated the dedication of Bull Terrier enthusiasts, resulting in a fantastic turnout. Kudos to our new committee and members for their enthusiasm and support.

Our commitment to innovation has set us apart. The introduction of our new annual Points Systems highlights the top Bull Terriers in South Africa, leading to the crowning of the country's Top Bull Terrier at the Ultimate Bull Terrier event, held in conjunction with October Show.

Looking ahead, Mr. Tony Wiseman from Bulroarus Bull Terriers in Australia will judge our upcoming October Show, which promises to be an exciting event.

The recent AGM was a success, fostering camaraderie in our Club and Bull Terrier community.

**Herewith our Committee as elected at the AGM:**

| |
|---|
| **President –** Dr Carl Pew |
| **Vice-President –** Willem Nel |
| **Patron –** Nonnie Oosthuizen |
| **Chairman –** Tony Ingram |
| **Vice-Chairman –** Bennie van Niekerk |
| **Secretary –** Nikki Redtenbacher |
| **Treasurer –** Shirvan Schrueder |
| **Bully Talk Editor – Tania van Niekerk** |

I'm thrilled to launch the Western Province Bully Talk, a bi- annual magazine by Tania van Niekerk, offering a platform for kennel showcases and articles.

Thanks to generous donors like Nikki Redtenbacher, especially for the Ultimate Bull Terrier and WP Top Bull Terrier award trophies.

Let's continue pushing boundaries and celebrating our bond with Bull Terriers.

Warm regards,
**Tony Ingram**

## Bulroarus Bull Terriers – NSW Australia

After having owned a Bull Terrier in the early 1970's growing up, I had always wanted to show and breed pure Bull Terriers and eventually purchased my first dog in 1996, Swaggerbout Extortinist, „Cliffy".

I have been breeding under my prefix 'Bulroarus' since 1999 and began showing in 2000. Over 50 litters have been bred since, including multiple Best In Show winners, ROM-awarded dogs and Supreme Champions. My foundation bitch, "Pacmartee Elles Thunder", produced, in my first litter, three ROM certified dogs. My first home-bred male, "Bulroarus Roman Candle, ROM", was a BIS Winner at Speciality Shows and was a prolific sire, still appearing in pedigrees today. Both his sisters were consistent winners in the Speciality ring, "Bulroarus Penny Bunger, ROM" and "Bulroarus Bonfire Lass, ROM". 'Bulroarus' has also bred a number of dogs which have attained their American Championship and ROM classifications.

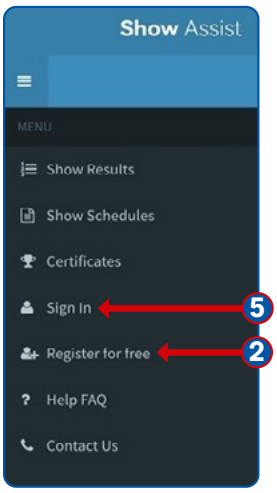

During my time in the Breed, I have been successful at Trophy Show level in Australia, having won both the Superlative Box and Ormandy Box at different Shows, with "Bulroarus Bonfire Lass, ROM" in 2001 and "Bulroarus Womaniser" in 2017. "Bulroarus Mischief Maker, ROM" was a prolific BIS Winner in the speciality ring and is featured in all my pedigrees today.

I have been a member of the Northern Districts Bull Terrier Club for over 20 years, was Vice-President for 8 years and currently hold the position of President of the Club and have done so for the last 10 years. I have travelled to Silverwood in the USA and attended the Trophy Show in the UK on numerous occasions.

Before qualifying as a Championship Show judge under the Dogs NSW Judges Training Scheme in 2018, I judged many Field days in Australia and in 2015 had the privilege of judging the ISIS Vabo Trophy at Silverwood in Texas for the Bull Terrier Club of America. In 2017, I had the opportunity to judge the very well-respected 'Country Competition' for the Netherlands Bull Terrier Club in Leiden, The Netherlands. Since qualifying, I have judged Silverwood (USA), Trophies (UK), Major Trophy Show (ZA) and many more Speciality Bull Terrier Shows around the world.

GROUP WINNER

**REMEMBER:**

- At Breed, Group & BIS level the same procedure is followed for all other mandatory and elected Challenges, i.e. Puppy, Junior, SA Bred, Vereran etc.
- If you win ANY 'in Breed' award, check if your dog is required to stay for Stage two

## BEST IN GROUP

Stage two

The Best of Breed winners compete against other Breeds in the same Group
There are seven Groups in total: Gundogs, Herding, Hounds, Terriers, Toys, Utility and Working

**A JUDGE LOOKS FOR:**

- Unique Breed specific characteristics
- Good condition of the coat, teeth and eyes
- A dog's temperament in the ring and if it is happy to be there
- A dog's movement should be sound and balanced, with no sign of lameness
- No visible signs of health problems

BEST OF BREED WINNER

Stage one

## BREED CLASSES

All Class winners go forward to CC and together with Champions Class winners, split by sex, compete for Best of Breed
Remember, all respective Puppy/Junior/Veteran Class winners compete for BP/BJ/BV of Breed

Dogs and Bitches compete against others of the same Breed in a suitable Class, split by sex/age
(such as Minor Puppy, Puppy, Junior, Veteran etc.)

BREEDERS PROFILE

# KINGSTONIA

## Colin & Annette Bohler

Colin Bohler along with his wife Annette, became involved with Bull Terriers in 1976 and are the owners of Kingstonia Bull Terriers. The kennel has bred, owned and been involved with 36 Champions, eight Ormandy Vase winners, four Ormandy Jug winners, eight Stud Dogs of the Year and three Brood Bitch winners and a multitude of Best in Show All Breed Winners and Best Puppies in Show including KUSA National Puppy of the Year Winner and Best in Show at the prestigious Goldfields Kennel Club All Breeds Championship Show amongst many other accolades.

Ch. Bonaparte of the French Border of Kingstonia is the S.A. Stud Dog record holder with 19 Champions and Ch. Sandawana's Tommy Hotspur of Kingstonia produced 19 Champions to their credit, a record they held for the last 31 years.

Before frozen semen was available In 1987 Garth Appel and I decided to send Ch. Riolema Rubygale of Beltone, to be mated to Int Ch. Polytelis Silver Convention (Simon) in Holland, for two reasons. One was that there was no quarantine restriction in Europe, (if she was sent to the UK she would have to spend six months in quarantine before she could be mated and sent back to South Africa). The other reason was that Simon had a lot of virtues which dogs in the UK lacked at the time, and further proved to be a dominant sire to bitches being sent to him from all around the world, most of whom were out crosses, passing on his outstanding head and overall sound confirmation, so he was our natural choice.

The only male to survive was an outstanding dog, Beltone Quo Vadis of Kingstonia who won a CC at the age of six and half months.

Unfortunately he turned out to be an unilateral cryptorchid, and therefore a great loss to the breed.

One of the two bitches was the outstanding Ch. Beltone Que Sera (Samantha).

In 1988 Ch. Beltone Que Sera won the Ormandy Bitch Vase and Jug and Bitch of the Year awards. She was also the runner up Supreme Bull Terrier on a referee decision.

In 1989 she once again played bridesmaid, winning the Ormandy Bitch Jug and Bitch of the Year awards. She produced Ch. Beltone Tia Maria of Naletcea, as well as four Champions in one litter of four by Ch. Dajan St. Nicholas of Sandawana (Imp UK), namely Ch. Beltone Battleship of Kingstonia , Ch. Beltone Haley's Magic of Kingstonia, Ch. Beltone Silver Shadow of Kingstonia and Ch.Beltone Silver Shadow of Kingstonia and Ch. Beltone Captain Kariba.

During 1990 Ch. Beltone Riolema Rubygale of Beltone was sent back to Europe for the second time to be mated to Int. Ch. Explorer of Prince Advokat. This mating produced an outstanding brindle and white bitch, Ch. Beltone Big Trouble of Kingstonia. "Tina" later mated to her half- brother Ch. Bonaparte of the French Border at Kingstonia (Imp Germany) produced another outstanding white bitch Ch. Kingstonia Here is Trouble of Beltone, a top winning bitch of her day.

Colin is also well known for a successful programme of importing frozen semen for artificial insemination. He imported top bloodlines from Europe that dramatically improved the breed in South Africa.

Another first for the Onderstepoort Veterinary Academic Hospital and Kingstonia Colin Bohler, Dr Annett Heise of the Section of Reproduction and Dr Fiona Hollinshead of Matamata Veterinary Services in New Zealand. Together, this team made history at the end of July 2013. Alexsis became the first bitch in OVAH to be artificially inseminated with frozen -thawed semen deposited in her uterus through the use of a transcervical endoscope. The Repoduction service of the Onderstepoort Vetinary Academic Hospital recently acquired a special endoscope designed to facilitate transcervical insemination of bitches.

With the help of international expert Dr Fiona Hollinshead, all Reproduction staff got hands -on training in the use of the endoscope. The team again showed their mettle as everyone picked up the skills really quickly and was able to successful catheterize a bitch on their first attempt. Endoscopic transcervical insemination (TCI) holds many advantages over other established techniques of intrauterine insemination. It is a less invasive procedure, eliminates the need for anaesthesia, catheterization of the cervix is more repeatable and the expected pregnancy rates are the same as for other methods. This method of insemination of frozen-thawed semen in the bitch will now be offered routinely at OVAH.

Colin and Annette were two of the founders of the Bull Terrier Care Association (welfare) and served as members and Chairman for many years. During his tenure some 500 dogs were rehomed. He also served on the Eastern Transvaal Bull Terrier Club and was Chairman of S.A.B.T.C. Annual Committee for eight years.

Colin is the author of Bull Terriers of South Africa 1860 – 1999. Colin is also an Honorary Life Member of the South African Bull Terrier Club and the Eastern Transvaal Bull Terrier Club

RUSSEL LAMONBY with CH. EMRED DEVILS TRI-STAR
WINNER OF REGENT TROPHY & ORMANDY JUG DOG UK

His first appointment as Judge was in 1980 and he qualified as a Terrier Judge in 1983 since then he has judged 94 times in various overseas countries such as Zimbabwe, Sweden, United Kingdom U.S.A, Madagascar, Germany, Czech Republic, Holland and Australia (7 times) his most recent overseas assignment was judging at The Bull Terrier Club Major Trophy Show in the U.K. for the 3rd time and is the first South African ever to be invited to do so at this most prestigious event on the Bull Terrier calendar.

In 2013 I judged the Bull Terrier Club (UK) International Class with Joe Phillips (Bullyon) and in 2015 judged the Ormandy Jug for Bitches with Bill Poole (Rocky Tops). Was called upon as referee for a split decision on the Ormandy Jug Dog and chose Lambonby's Ch. Emred Devil's Advocate who went onto win the Regent Trophy.

In 2017 Judged the Ormandy Jug Dog Class with Chuck Wannop ( Charisalee.

Future Judging appointments are Australia for the 8th time, U.S.A and some local appointments.

## Bennie & Tania van Niekerk

Bennie's first introduction to showing Bull Terriers was when his great friend, the late Dirk Rupping, invited him to join them at a meeting of the Northern Free State Bull Terrier Club, under Chairmanship of Wynand Lourens, who Bennie also grew to see as one of his mentors. At the meeting, Bennie was co-opted and thrown in at the deep end when they made him show manager. Since then he's been involved with the Club in a variety of positions, including Chairman and President. Over the years he's also been involved in the following clubs, either as Chairman, or Vice-chairman and Show manager: SA Bull Terrier Club, Central Free State Bull Terrier Club, Eastern Transvaal Bull Terrier Club, and currently, Vice-Chairman at the Western Province Bull Terrier Club.

In 2008 his first Shodan-bred Champion was registered, but his real breakthrough came when he managed to buy **Sandawana Be Dazzled of Shodan** from the late Mr Dave Harrison after much begging.

◂ Sandawana Be Dazzled of Shodan

◂ Ch Shodan Amber Fire Glow

She became his 2nd Champion. 'Jody' became the foundation bitch from whom the whole mother line descends. Another beacon in the kennel was 'Jody's' granddaughter, **Ch Shodan Amber Fire Glow** who was his first Bull Terrier to win an All Breeds Best in Show and numerous Terrier Groups. She was also the mother of the very well-known siblings Gr Ch, Ch Shodan Caesar ROM, Ch Shodan Pacman and Ch Shodan Pepper Lady.

In 2010 he met Tania and in November 2012, they got married. For their honeymoon, they went to the International Competition in the Netherlands and met some wonderful people from across the world. After the show weekend they went to the UK where they visited some of the prominent Breeders of the time. This is when they also met the late Russel Lamonby of Emred Bull Terriers. This later developed into a great friendship and they convinced him to come to South Africa to come and judge the Northern Free State Bull Terrier Club Championship show. After the show Bennie and Russel went for a shark-diving expedition which was one of Russel's lifelong dreams.

Together with the late David Thompson and the late Steve Liversedge, Bennie and Tania imported frozen semen from UK CH Emred Daredevil, UK CH Emred Devils Spy, UK CH Emred Devils Advocate, UK CH Teirwgwyn Top Gun, UK CH Bobuddy Trafalgar and UK CH Irazistabul Star of Hades. These sires are still prominent in the pedigrees of a lot of the dogs currently in the ring.

In 2013 they bought **Ch Reithsons Devils Dynamo of Shodan**, a UK CH Emred Daredevil son, from the late Dave Thompson. This was a prolific sire who produced numerous champions which helped him win the title of Stud Dog of the Year for two consecutive years. His son, 'Caesar' won the Supreme Bull Terrier title twice, and then Stud dog of the Year twice. Thus, father and son winning the Stud dog Title for 4 years in a row.

▾ Ch Reithsons Devils Dynamo of Shodan

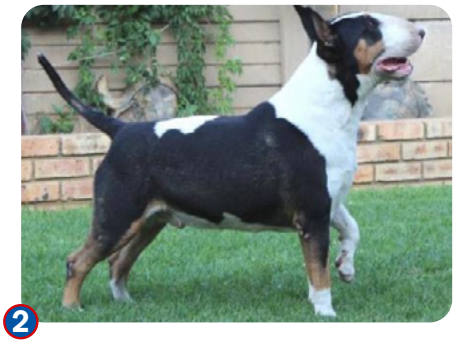

Their dogs/bitches have managed to win every available title at the Major Trophy Show, some of them more than once.

Apart from the MTS they have also won multiple All Breed Best in Show and Multiple Best in Specialist Show awards and had the #1 Showing Bull Terrier according to the KUSA Top 100, in 2013 with Ch Shodan Amber Fire Glow, in 2018, 2019, 2020 and 2021 with Int Ch, Gr Ch, Ch Shodan Queen Nala ROM and again in 2023 with Gr Ch, Ch Shodan Chico ZAW ‘23, Nat Breed ‘23.

Even though Tania insisted on keeping her own kennel name, they bred and planned and showed together, and often against each other, to the entertainment of the spectators. To date they have bred and/or showed a total of 31 standard Bull Terriers to Championship. Of these, 2 became ROM Champions, 3 x Grand Champions and 1 x International Champion.

More recently, since COVID to be exact, they also tried their hand at Miniature Bull Terriers and hope to have a positive impact on the breed with their first home-bred youngsters who have recently started their show careers.

# BREED STANDARD
## QUIZ

### THE HEAD

*"The HEAD should be long, strong and deep right to the muzzle, but not coarse. Full face it should be oval in outline and be filled completely up, giving the impression of i.e. egg-shaped. In profile it should curve gently downwards from the top of the skull to the tip of the nose. The forehead should be flat across from ear to ear. The distance from the tip of the nose to the eyes should be perceptibly greaterthan that from the eyes to the top of the skull. The underjaw should be deep and well-defined.*

*The LIPS should be clean and tight.*

*The TEETH should meet in either a level or a scissors bite. In the scissors bit the upper teeth should fit in front of and closely against the lower teeth and they should be sound, strong and perfectly regular.*

*The EARS should be small, strong and thin and placed close together. They should be capable of being held stiffly erect, when they should point upwards.*

*The EYES should be well-sunken and as dark as possible, with a piercing glint and they should be small, triangular and obliquely placed; set near together and high up on the the dog's head. Blue eyes are a disqualification.*

*The NOSE should be black, with well-developed notrils bent downward at the tip."*

*"Full face it should be oval in outline and be filled completely up, giving the impression of fullness with a surface devoid of hollows or indentations, i.e. egg shaped..."*

### DISCUSSION

From the front, the head should be egg-shaped with no indentations from the base of the ear to the end of the muzzle. The end of the muzzle should be strong and broad. More strength of muzzle with less curve of the profile is preferable to a pronounced profile with a narrow muzzle that tapers to a point.

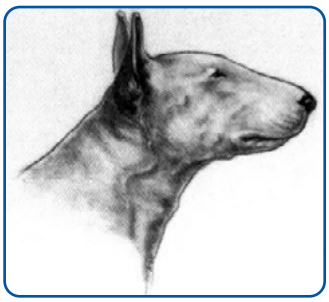

**An ideal head with fill, strength and balance. The skull is flat across the top with small, well placed ears which point upwards. No indentations detract from the smooth egg-shape. The eyes are well set, small, dark and triangular.**

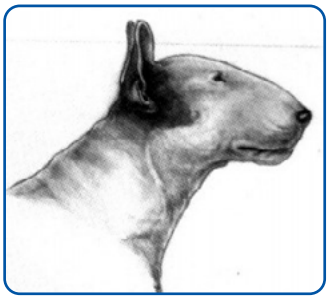

**This head lacks fill under the eyes, so it is not egg-shaped. The eyes are large and placed low in the head. The skull is round and the ears are badly placed on the side, pointing outwards. The large, low set eyes and "donkey" ears give this head a poor expression.**

**An excellent head in strength and proportion; the distance from eye to nose tip is noticeably longer than from the eye to the top of the skull. The profile demonstrates a clean sweeping curve with a noticeable downturn at the nose, called "roman finish".**

**A weak snipey head with a dippy profile and short shallow underjaw often called "pig jaw".**

**The head has a good but unexaggerated profile with excellent strength of muzzle carried all the way to the end. Clean tight lips and a full deep underjaw complement the great virtues of strength and balance in this head.**

# The Importance of Construction

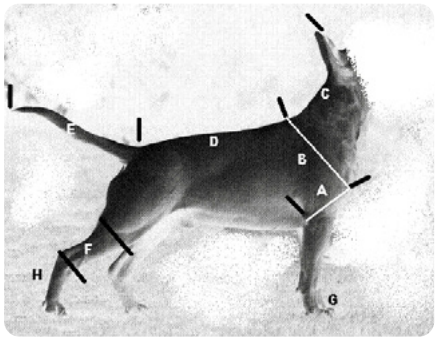

## By: Jamie Watkiss

I recently re-read Tom Horners book “All About The Bull Terrier” and so much of what was written then, applies now. Tom suggests to new enthusiasts that when they are looking for a foundation bitch and they have the chance to buy a very well made bitch with a plain but strong filled head, or a cracking headed bitch with an average front and poorer quarters, one should buy the well made bitch. Every country has many super headed dogs with average construction, so the well made bitch will have the choice of plenty of stud dogs and she can supply the good conformation. If she has good heads in her pedigree it is a great help.

Based upon my many years of international judging, the poorer made bitch with the super head is very limited with her options as I can count on one hand the males I have seen with anything approaching the correct proportions of Humerus to Scapula. Unfortunately since Raymond Oppenheimer and the great kennels the likes of Maerdy, Woodrow, Contango and many more of the top UK breeders have left the scene, there is a tendency to judge against ones peers rather than to the standard. I firmly believe that many modern breeders who have had fortunate “ Best In Show “ awards, have either never read or have failed to understand the original standard. I say fortunate because a large proportion of contemporary judges have never had the opportunity to learn from those old doyens of the breed and tend to judge by being followers of fashion or get sucked in by cute heads and robot type showmanship.

I recall lamenting on the phone to a UK judge about fronts and jokingly said to him “If you see a dog anywhere with a correct upper arm while you are judging, please buy it for me and I will come and collect it “.He replied, “ If by some unlikely stroke of luck I do see one, I will be keeping it”

Such is the absence of sound construction. Powerful quarters, which are the most important attribute for a fighting dog to perform his original purpose are also almost obsolete. A weak rear condemns a fighter to defeat as they cannot hold their ground, much less force the opponent over onto his back and take control. I have taken on board the opinions of all the great breeders and when filtered and combined the picture of a well made dog is clear. In the following pictures I will try to illustrate where some dogs which to many people seem sound, tend to fall down in the finer points. I searched the net for pictures of various types. Heads have been removed and the pics posterised and produced in negative format for obvious reasons, so that I am using just shape to illustrate the finer points. If any reader disagrees with the comments, I will be happy to debate my analysis with them and endeavour to steer them on the correct path, or they may enlighten me.

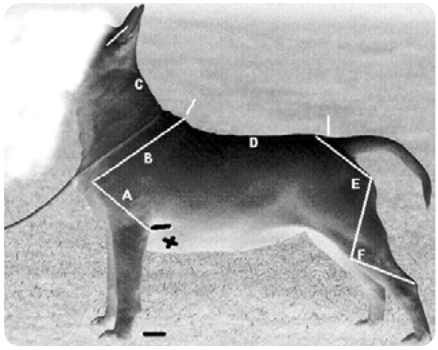

**1**

While this dog (1) would appeal to many young breeders because of his lovely head , depth and length of muzzle and nice ear placement, (Obscured)I would like to point out where he could have been better made.

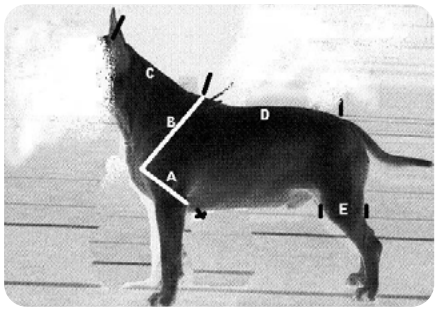

If his Humerus (A) was the same length as his Scapula (B) this would cause the top of his scapula to end up further down his back giving him better lay of shoulder and making the distances at (C) and (D) much more even and he would have a shorter back and longer neck.
He also would have his elbows much further back almost even with the deepest part of his brisket, resulting in a good forechest.
He appears to have short Cervical bones (C), longer Thoracic (Front part of D) and quite long Lumbar ( Back part of and Coccygeal (E) This is exactly the reverse of what the standard requires, ie; Long Cervical-Shorter Thoracic-very short lumbar and coccygeal.
I remember a top old breeder saying to me 30 years ago, “ If a dog has one third of his weight in front of his elbows, he is likely to be correctly made.” This dog also has the Gundog type longer hocks-slight sag at the pasterns-and a lack of muscle in the area above the hock(F) A strong rear end would have hams almost reaching the heel ( Beginning of the hock) a number of people do not realise that the hock is the dog’s foot and the part usually called the foot is only the toes.

## 2

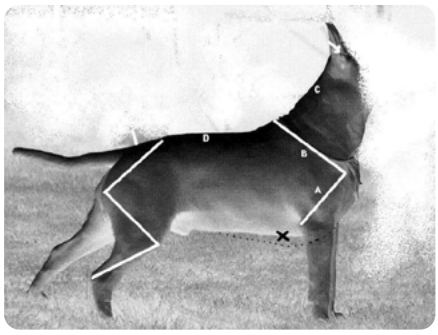

Dog No.(2) has a closer proportion of neck to back length (C) to (D), but is still a long way off being balanced again because of the lack of upper arm length. (A)
If you observe the length of upper arm and the postion where his elbow resides, try to imagine how good he would look if the elbow ended up where the black cross is. That would take the dip behind the withers out, giving him a better forechest and most important his foreleg would start from there instead of a quarter of the way up his ribs, which would put some daylight under his front and improve his topline no end.
In the near future I will perfect the ability to do a before and after with photoshop and demonstrate what happens to the overall balance when the upper arm is the same length as the scapula and foreleg.

## 3

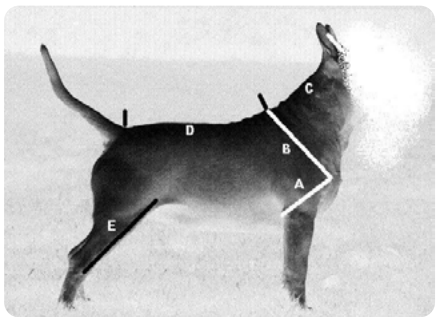

Dog No.3 also has a decent neck to back proportion, (C to D) but he too would benefit from a longer upper arm.(A)
Even if it finished where the black cross is, it would still be shorter than his scapula.
He has a reasonable turn of stifle but lacks the depth of muscle from front to back of his thigh, (E) it should be one third more than it is. It does not mean that a dog like this cannot be used for his virtues, which are super.

## 4

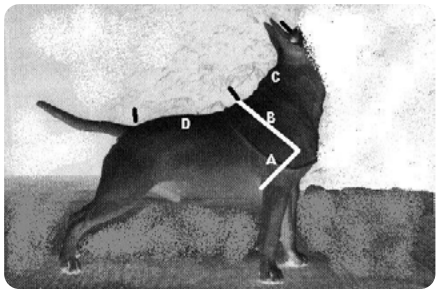

Dog No. 4. Once again the upper arm is short yet his neck length is not too bad.
For a few seconds it puzzled me as to how he had such layback of shoulder, with a short Humerus.
If you look carefully you will see that he does not have a lot of depth through the brisket. Please imagine if you could pull the elbow down to where the black cross is and he had the depth indicated by the black dots, the point where his Scapula and Humerus met would be further back and this would accentuate his forechest.
The superb resulting balance would be complimented by his well angled rear and tailset.
I could mate this dog to a number of Aussie bitches which I have judged and I believe do very well.

## 5

Dog No. 5. Short upper arm again,(A) how much better would he look if his Scapula and Humerus were in proportion.
His neck, dorsal and lumbar bones are all medium and his tailbones are long. An unusual combination.
His rear (E) is so typical of many modern dogs whereas it forms little angulation while being quite muscular.

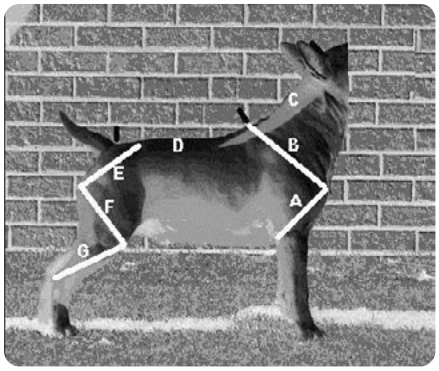

## 6

Dog No. 6. Has a very impressive neck to back proportion, in spite of his upper arm length (A) being less than his Scapula.(B)

His shoulder has very good layback and one can only assume that he has long Cervical bones (C) and short Thoracic and Lumbar (D) with medium Coccygeal.

## 7

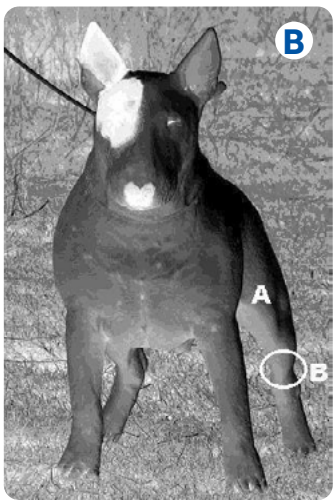

Dog No. 7. Again has a shorter upper arm. (A) His neck to back proportion is not bad (C to D)
He has good angulation with muscle all the way down to the hock and even length of bones ( E-F and G) His Thoracic and Lumbar bones are short and his coccygeal are very short. He has managed to be compact despite his short upper arm.

## A & B Below

These two dogs have very strong virtues; the dog A has front bones of almost even proportions with length of foreface and good forechest, while B has super width of muzzle all the way to his nose and more meat on his quarters than some cc lineups combined. (A) The muscle goes all the way down to his hock (B). He also has nicely tucked in elbows. I am sorry I cannot provide a picture of a dog with the correct upper arm as I have not bred one, judged one or seen one for many years. Good luck finding one. This dog is the first dog I have seen a photo of in years where the head has the **correct proportions**. From Memory Tom Horner used to advocate that we break the head up into 5 sections and the distance from occiput to eye should constitute 2 and the eye to nose should be the other three. The Muzzle must be longer than the skull. Many I have judged around the world are either equal or 3 to 2 the wrong way, giving a horrible balance to the head. The first adjective in the head standard is **LONG. James Hinks bred the length to enable the dog to get more of the other dog in his grip.** This boy also has depth of muzzle and underjaw and I would assume from the photo a good mouth.

**Quiz answers:** **Question 1 - B, C, A;** **Question 2 - D, F, E;** **Question 3 - I**

# 20 Basic Breeding Principles

## By: Raymond Oppenheimer

From “The Complete Bull Terrier” by Ernest Eberhard written in 1957.

There are a vast number of different breeding methods, some good, some bad. I should never presume to try to tell fanciers what is the right method because there is no such thing. Outstanding success can be achieved and has been achieved in a variety of different ways, so all I am going to do is to make some suggestions which I think helpful and to warn against certain pitfalls which trap too many of the unwary.

1. Don’t make use of indiscriminate outcrosses. A judicious outcross can be of great value, an injudicious one can produce an aggregation of every imaginable fault in the breed.
2. Don’t line breed just for the sake of line breeding: Line breeding with complimentary types can bring great rewards, with unsuitable ones it will lead to immediate disaster.
3. Don’t take advice from people who have always been unsuccessful breeders: If their opinions were worth having, they would have proved it by their successes.
4. Don’t believe the popular cliché about the brother or sister of the great champion being just as good to breed from: For every one that is hundreds are not. It depends on the animal concerned.
5. Don’t credit your own dogs with virtues they don’t possess: Self-deceit is a stepping stone to failure.
6. Don’t breed from mediocrities: The absence of a fault does not in any way signify the presence of its corresponding virtue.
7. Don’t try to line breed to two dogs at the same time: You will end by line breeding to neither.
8. Don’t assess the worth of a stud dog by its inferior progeny: All stud dogs sire rubbish sometimes. What matters is how good their best efforts are.
9. Don’t allow personal feelings to influence your choice of stud dog: The right dog for your bitch is the right dog, whoever the owner is.
10. Don’t allow admiration of a stud dog to blind you to his faults: If you do you will soon be the victim of auto-intoxication.
11. Don’t mate together animals which share the same fault: You are asking for trouble if you do.
12. Don’t forget that it is the whole dog that counts: If you forget one virtue while searching for another, you will pay for it.
13. Don’t search for the perfect dog as a mate for your bitch: The perfect dog (or bitch) does not exist, never has, and never will.
14. Don’t be frightened of breeding from animals that have obvious faults, as long as they have compensating virtues: A lack of virtues is far the greatest fault of all.
15. Don’t mate together non-complimenting types: An ability to recognize type at a glance is a breeder’s greatest gift. Ask the successful breeders to explain this subject - there is no other way of learning. ( I would define non-complimentary types as ones which have the same faults and lack the same virtues)
16. Don’t forget the necessity to preserve head quality: It will vanish like a dream if you do.
17. Don’t forget that substance plus quality should be one of your aims: Any fool can breed one without the other.
18. Don’t forget that a great head plus soundness should be another of your aims: Many people can never breed either.
19. Don’t ever try to decry a great bull terrier: A thing of beauty is not only a joy forever but a great bull terrier should be a source of aesthetic pride and pleasure to all true lovers of the breed.
20. Don’t be satisfied with anything but the best: The second best is never good enough.

* Registered owners of competing exhibits must be members in good standing of the KUSA and The Western Province Bull Terrier Club.
* In order to qualify to compete, dogs must have been entered and exhibited at minimum one (1) WPBTC Breed Championship Show in the qualifying time period where points are accumulated.
* Points run from 1 September 2023 to 31 August 2024.
* Dogs qualifying for the "WPBTC Ultimate Bull Terrier" Event, to be held after the annual October Breed Championship Show, need to accumulate 300 points by 31 August in that year.
* Dogs reaching 300 points within the qualifying time period will be invited to compete for South Africa's "Ultimate Bull Terrier" and "BOS Ultimate Bull Terrier".
* Wild Card qualifiers – max 1 dog and/or 1 bitch – may be included from the exhibits entered and present at the October Breed Championship Show, at the sole discretion of the officiating judge, and will be eligible to participate at the "WPBTC Ultimate Bull Terrier" Event later that day.
* Attendance by all exhibitors at the "WPBTC Ultimate Bull Terrier" Event shall be at their own and sole expense.

Full rules - Western Province Bull Terrier Club (WPBTC) Annual Club Awards, eff. 01.01.2024 - can be accessed on the Club's FB Page and Members WhatsApp Group.
