Elevate your test drive experience

The Vancouver International Auto Show Electric Vehicle test drive feature offers attendees an unparalleled opportunity to experience the future of transportation firsthand, with 37 vehicles in rotation!

This hands-on experience is facilitated via an indoor-to-outdoor format with an accompanying brand ambassador to help tell you about all the features in the vehicle you'll be driving, including performance, handling, range, regenerative braking and instant torque delivery.

The Test Drive Experience at the Vancouver Auto Show serves as a critical platform for manufacturers to directly engage with consumers, gather feedback on their vehicles, and foster a deeper understanding of EV/PHEV capabilities and benefits.

This interaction not only helps in demystifying electric vehicles for the general public but also plays a vital role in accelerating the adoption of cleaner, more sustainable transportation options.

Through these test drives, the Vancouver International Auto Show contributes significantly to promoting environmental awareness and showcasing the practicality and excitement of driving an electric vehicle, making it a highlight of the event for both exhibitors and attendees alike!

A big thank you to CleanBC Go-Electric, RBC, Emotive, Plug 'N Drive, and ICBC for their contributions;

without their support, the test drive experience could not have happened.

What are the test drive hours?

Test drives are available from noon to 7 p.m. on March 25, 10 a.m. to 7 p.m. on March 26-28, and 10 a.m. to 5 p.m. on March 29.

How long is a test drive?

Each test drive experience is estimated to take about 20 minutes from start to finish. Our team at Emotive BC will be registering guests in scheduled time slots each day on a first-come, first-served basis. Be sure to make your way to the Registration Desk on the Exhibition Hall floor right away. The Test Drive Registration desk is located in Hall C, near the Ford display.

What is the route?

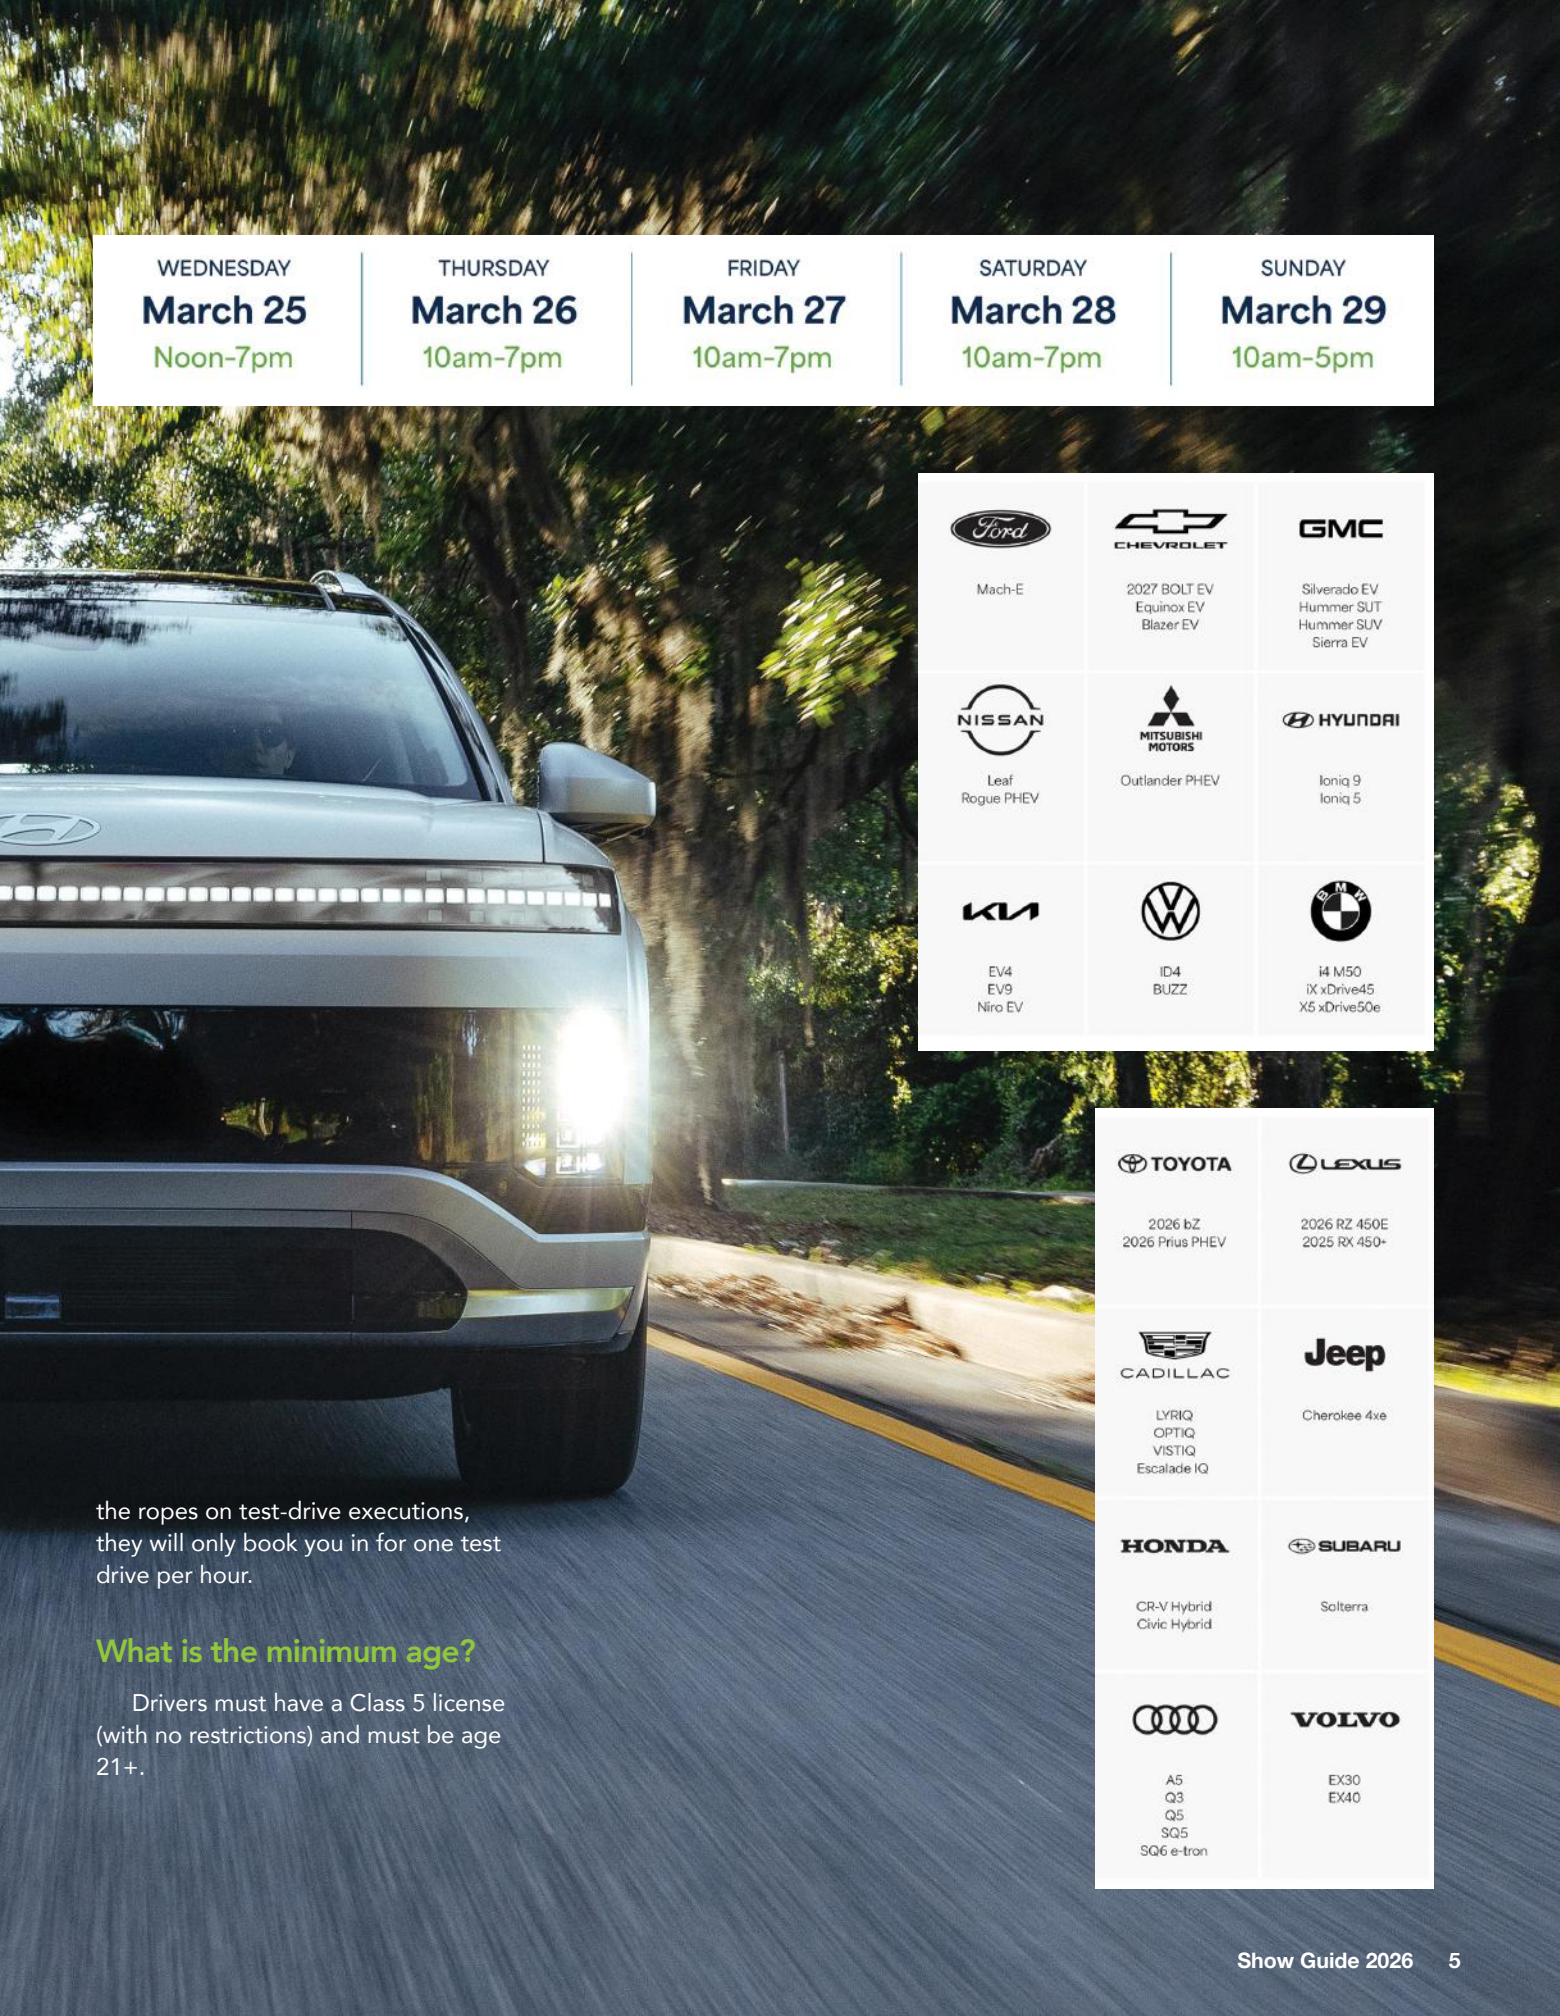

We let each of the manufacturers and dealers pre-plan their own route based on a 10-minute drive through downtown Vancouver. Your ride-along ambassador will help you navigate the route.

Can I bring friends/family?

Yes, the vehicles are equipped to carry passengers, however they are not equipped with car seats.

How many test drives?

There are no restrictions on the number of test drives you can take, however you will run out of time before you run out of cars to drive!. Because our team at Emotive knows

AUTO SHOW FEATURES

Add these to your must-see list

SUPERCAR ELEGANZA

The Pinnacle of Power and Prestige

Building on the legacy of past VIAS showcases, this year's feature redefines the standard of performance and luxury. Step into a world where craftsmanship meets velocity — a stage reserved for the world's most coveted marques and the rarest expressions of automotive design.

Prepare to be captivated by an unrivalled collection of supercars, from Porsche, Lamborghini, Bentley, Aston Martin, and more! Each one being a masterpiece of precision engineering and artistry. From the exhilarating symphony of revving engines to the flawless contours sculpted from ambition and aerodynamics, every detail is a testament to human innovation at its finest.

ELITE DREAM MACHINES

Ultimate Performance Showcase

Introducing a tribute showcase to the supercar and hypercar culture; a celebration of automotive excellence.

This feature presents the most powerful and luxurious vehicles from iconic brands like Bugatti, Ferrari, Lamborghini, McLaren, Porsche, Pagani, Koenigsegg,

and more.

Each car is a personally-owned vehicle, generously made available by their owners for this exclusive viewing. We extend our heartfelt thanks to these passionate collectors for sharing their remarkable machines with us.

For car enthusiasts, this showcase offers a rare chance to witness the art and innovation that define these elite vehicles. From breathtaking speed to masterful craftsmanship, each model tells a story of pushing boundaries and redefining what's possible.

ELITE DREAM MACHINES

SR Auto Group

Step into the SR Auto space and witness automotive history as we celebrate the pinnacle of performance automotive artistry.

This year, Vancouver's own Super Car dealer SR Auto Group returns to the 2026 Vancouver Auto Show, bringing a custom curated display of specialty cars. Guests will once again be thrilled to witness a breathtaking and diverse display. Last year's showcase featured a quartet of Bugatti Veyrons, Pagani Huayra Roadster, McLaren P1, and more.

Toybox Auto Group – Curating Supercars at VIAS26

Step into a rarefied world where performance, provenance, and obsession collide.

At VIAS26, Toybox Auto Group returns with a hand-curated collection of supercars that represents the absolute apex of modern automotive culture. This is not a display of “nice cars.” This is a showcase of automotive royalty: machines defined by scarcity, significance, and soul.

A premier boutique destination for exotic and collector-grade vehicles, Toybox Auto Group operates at the intersection of precision engineering and aspirational lifestyle. Every vehicle they touch tells a story. Every spec is deliberate. Every detail matters. From sourcing to presentation, Toybox has built its reputation by delivering cars that enthusiasts whisper about—and collectors quietly compete for.

This year's VIAS showcase is anchored by an extraordinary trio of Porsches and a special high horse-powered unicorn:

First is a Moonbeam Silver Carrera GT, paired with a striking Austrian Red interior, showing just 158 kilometres from delivery.

A second Silver Carrera GT, presented to highlight the contrast between Porsche's factory silver and the ultra-rare Moonbeam finish.

The third is a 997-generation Porsche 911 GT2 RS, finished in Carrara White with a black and red interior, equipped with a full roll cage, and showing just 2,300 kilometres.

The final unicorn is still under wraps and will be revealed ahead of the show.

CIRRUS SR22T

Personal Aircraft on Display

For the first time in Vancouver Auto Show history, we're taking luxury lifestyle beyond the road. Cirrus Aircraft is bringing its SR22T mockup to VIAS26, delivering a rare, up-close look at one of the world's most iconic modern personal aircraft.

This is more than a display... it's a statement about aspiration, design, and the evolution of premium mobility. From advanced aeronautical engineering and flight deck innovation to the unmistakable presence of elite craftsmanship, the Cirrus Aircraft SR22T represents the intersection of automotive performance culture and aviation excellence.

Guests will have the unique opportunity to walk up to the aircraft and explore its design philosophy. Experience how luxury brands are redefining what “movement” means in a world where lifestyle is increasingly defined by freedom, speed, and precision. This is one of VIAS26's most unexpected and unforgettable firsts.

CORVETTE CX CONCEPT

Chevrolet's Canadian Debut in 2026

The Vancouver International Auto Show 2026 will deliver a once-in-a-lifetime moment for performance enthusiasts and design purists alike. The **Chevrolet Corvette CX Concept** is coming to VIAS for its first-ever public display in Canada, and this may be the only chance to see it in person.

Described as an electrified hypercar concept sculpted into existence, the CX represents GM's bold vision for what the future of Corvette performance and innovation could become. From its aggressive aerodynamic form developed with input from the GM Motorsports Aero Group, to its unforgettable fighter-jet-inspired canopy cockpit, every element is engineered to stop crowds in their tracks.

This isn't just a concept car... it's a statement. A rare glimpse into tomorrow, brought to life on the VIAS show floor.

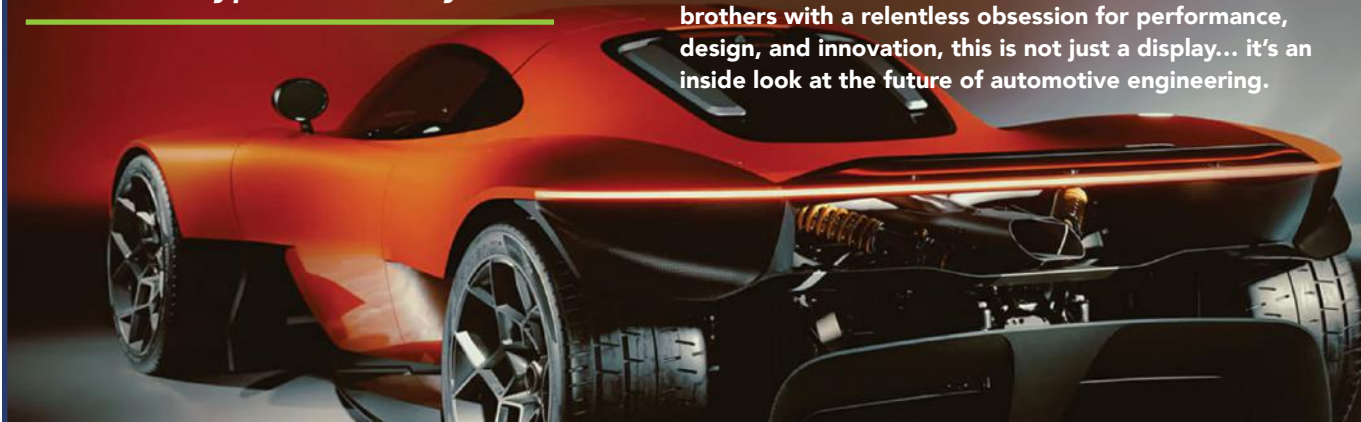

VIAS sends a special 'thank you' to the GM Canada team for making this happen!

OILSTAINLAB HF-11

Canadian Hypercar History

For the first time ever, VIAS guests will experience the Canadian debut of Oilstainlab — the breakout hypercar creators behind the stunning HF-11. Built by Canadian brothers with a relentless obsession for performance, design, and innovation, this is not just a display... it's an inside look at the future of automotive engineering.

CADILLAC FORMULA 1

New Era in Racing in Canadian Debut

The future of motorsport is shifting — and Cadillac is coming to Vancouver to prove it. For VIAS26, guests will experience the Canadian debut of **Cadillac's Formula 1 display car**, offering an inside look at the engineering intensity and global ambition behind one of the most talked-about new entrants in Formula 1.

This is more than brand theatre. It's the beginning of a new era. From precision aerodynamics and carbon-fibre performance design to the unmistakable presence that Cadillac brings to the world stage. This is a rare opportunity to step right up to the edge of elite racing innovation.

Whether you're a lifelong motorsport fan or simply want to see what's next in high-performance technology, the Cadillac Formula 1 is a must-see. And one more reason VIAS26 is shaping up to be one of the most compelling automotive events this season.

COOL WHIPS GARAGE

Wear what drives you

From the hum of midnight engines to the glow of city lights, Cool Whips Garage captures the pulse of modern car culture — both on the streets and across social.

Founder **Gavin Mah** has built a digital movement where horsepower meets hustle. Through raw, cinematic social content that speaks the language of the culture—builds, burnouts, and behind-the-scenes energy—they've turned lifestyle into community.

Meet Gavin onsite and listen to his stories of building his GT4, GULF Cayenne Turbo and more!

HORSEPOWER HEAVEN

No replacement for displacement

Bigger. Louder. Bolder. Horsepower Heaven is back and ready to ignite your passion for pure automotive power.

Get up close and personal with a jaw-dropping collection of rare custom builds, one-of-a-kind resto-mods, and vintage icons reborn — hand-selected from the vault at **360 Fabrication Inc.** and exclusive private collectors.

Each masterpiece tells a story — where classic design meets modern innovation, and where heritage and horsepower collide. From meticulously restored legends to boundary-pushing custom builds, every vehicle embodies the spirit of automotive evolution.

Feel the rumble, admire the craftsmanship, and experience the fusion of modern performance with timeless style.

Don't forget to cast your vote for the 2026 Fan Favourite Award and help crown the king of this year's lineup.

2026 Horsepower Heaven Lineup

COLLECTOR'S CORNER

Check Out Limited Edition Merch

Explore a curated lineup of exclusive **Hanz Driven** merchandise and automotive collectibles, and get an up-close look at a stunning vehicle display that embodies the spirit of craftsmanship and car culture.

New for 2026: Hanz Driven and the Vancouver International Auto Show have joined forces to unveil the brand's very first die-cast release — a **Nissan Skyline GT-R R34** finished in chrome black, produced in an extremely limited run of only 1,008 units.

Fans who purchase the Limited Edition Ticket Package, available exclusively through the Vancouver Auto Show Elevate ticketing system, will receive this special R34 collectible as part of their package. Inside each blind bag is a chance to uncover a rare chase edition in red chrome, limited to just 42 pieces worldwide — making it one of the most coveted releases of the show.

A small quantity of these models will also be made available for direct purchase at the Hanz Driven booth, limited to one per person per day, and only while supplies last.

Hanz Driven, recognised for its 1/64 premium die-cast models crafted for the adult collector, brings its signature attention to detail, design, and storytelling to this landmark debut. At the booth, attendees can step into Hanz City — a modular city diorama that brings the miniature car world to life. Visitors can purchase individual parts and expansions to build and personalise their own displays.

In addition to the die-cast experience, the booth will feature a wide selection of kid-friendly and hard-to-find Hot Wheels, ensuring that enthusiasts of all ages can share in the excitement.

Guests can also browse exclusive Hanz Driven apparel, event keepsakes, and the official Vancouver Auto Show merchandise, all created especially for this year's show.

Finally, collectors will have the opportunity to meet Roby Albertini, Co-founder and designer of Hanz Driven, and collect his signature on their exclusive R34 model — a must-have for serious fans and collectors alike.

Celebrate the art of car culture with Hanz Driven — where every model tells a story of speed, style, and innovation. Don't miss your chance to own a true piece of automotive history — this debut collectible will never be available anywhere else.

BC RACING HISTORY

Road Racing Clubs Showcase Season

The **Sports Car Club of BC (SCCBC)** and the **BC Vintage Racing Club (VRCBC)** have been organising road racing since the 50s at Westwood Motorsport Park, and at Mission since 1991. In addition to the major BC Historic Race Weekend, there are seven SCCBC/VRCBC race weekends running through the summer months with two SCCBC driver schools each year.

When race fans are out at the Mission track they get an opportunity to meet the drivers and enjoy the excitement of motorsport at its best. At this year's Vancouver Auto Show, guests can catch a glimpse of history, get information on the clubs, and learn about the coming season race schedules. Check it out at the A History of Racing in BC space on the exhibit hall floor!

SPEED THRILLS

Motorsports in British Columbia

Experience the thrill of motorsports at the 2026 Vancouver Auto Show. This dynamic feature is a collaboration between the **Sports Car Club of BC, Vintage Racing Club of BC, Mission Raceway, West Coast Rally Association, West Coast Karting Club, Women in Motorsport, West Coast Motorcycle Racing Club**, and more.

Learn about Driver Education programs, and discover the passion, speed, and community behind British Columbia's motorsport scene, showcasing everything from vintage racing to high-speed karting. It's a must-see for enthusiasts and newcomers alike!

Whether you're a seasoned driver, racer or a passionate enthusiast, the Motorsports in BC feature promises an exhilarating adventure. Explore the options available to experience racing culture in our province, exclusively at the 2026 Vancouver Auto Show.

PORSCHE DAILY DRIVE

Enthusiasts — this one is for you

For those who joined us in 2024, you might remember the buzz around the last-minute decision to bring the weekend Drive Ups into the Convention Centre. What started as a quick fix turned into an unforgettable spectacle in 2025, leaving car lovers in awe. We're continuing that Daily Drive-Ins magic; a dedicated indoor feature celebrating Porsche's unparalleled legacy of performance and design.

Cars will roll in approximately 30 minutes after show opening, and they'll roll out at approximately 6:15pm.

Every day of the event, you'll witness a fresh lineup of hand-picked Porsches, personally owned by members of the **Porsche Club of America – Canada West Region**. Each day showcases a unique theme to ignite your passion for these timeless European masterpieces:

Wednesday, March 25: Let's Box (Boxster variants)

Thursday, March 26: Seeing Red (Guards Red cars only)

Friday, March 27: Hypnotic by Design (Miami Blue/ Python and/or Viper Green cars only)

Saturday, March 28: GT Cars (GT2, GT3, GT4)

Sunday, March 29: Swan Neck Track Weapons (992 GT3 RS only)

From bold reds, blues, greens and race-inspired GT models, this feature is a must-see for every car lover. Get ready to experience the artistry, precision, and passion that make Porsche an automotive icon.

Themes and cars are subject to change—just like the thrill of the drive!

EUROPEAN EV LUXURY

Dilawri Presents Opulence and Innovation

Indulge in the epitome of automotive elegance that European luxury is known for. Explore the seamless blend of opulence and innovation as some of the world's most prestigious brands converge.

Brought to you by one of BC's largest automotive conglomerates, **Dilawri**, immerse yourself in the electrifying future as they showcase a sampling of the latest EV technology from Audi, Mercedes, and Volvo. From the regal presence of Mercedes, to the avant-garde excellence of Audi's electric marvels, be captivated by the allure of sustainable luxury. Join us to witness the dawn of a new era where eco-conscious sophistication meets impeccable craftsmanship, defining the essence of modern prestige.

DAILY DRIVE-UPS

Check it out on Jack Poole Plaza

Gear up for the Vancouver Auto Show's exhilarating **Daily Drive-Ups**, a showcase unlike any other, situated at the iconic Jack Poole Plaza. Each day of the event, we're rolling out a spectacular array of automobiles under the open sky, featuring a different theme to ignite the passion of every car enthusiast.

Kick off the event with the sleek and sophisticated Supercars, where performance meets style in an impressive display of engineering marvels. Shift gears with the Lotus Club, celebrating precision power. Elevate your experience with Customized and Lifted 4X4s lead by Cap-iT, where "rugged meets refined" in vehicles designed to conquer any terrain. And we'll head into the weekend

with the support of BC's Corvette and BMW clubs; both clubs showcasing their brands' automotive craftsmanship and engineering.

This feature at the Vancouver Auto Show is your ticket to explore the diverse world of cars, each with its own story and legacy. Join us outdoors at Jack Poole Plaza for this unparalleled automotive celebration—where every day promises a new discovery.

Wednesday, March 25: Supercars

Thursday, March 26: A Whole Lot(us) Going On (Lotus Club)

Friday, March 27: Overlanding & 4x4s (Cap-iT)

Saturday, March 28: BC Corvette Club

Sunday, March 29: BMW Club of BC

CLASSIC MINI COOPERS

Mini Collection Spans Over 40 Years

Car lovers know that collecting automobiles can become addictive. This is real for a local B.C. resident who's amassed a collection of **17 original Mini Coopers** that he's restored over the years.

The inspiration behind Nadir Ibadullah's classic Mini collection stems from a bittersweet memory of parting with his cherished Mini back home. Unfortunately, it met its fate at a scrap yard due to neglect, a fate that saddened him deeply. Determined to keep the Mini spirit alive, Nadir embarked

on a journey to collect classic Minis here in Canada.

Nadir's collection (NIMini Collection) is an homage to the iconic Mini, from Vancouver, Toronto, Montreal and

Calgary. Spanning decades, from a 1962 Woody, 1967 Austin Mini Super Saloon Super de Luxe MK I, 1969 MKII, 1969 Austin Mini Cooper 'S' MK II, 1977 Moke, 1978 Pick Up, 1979 Clubman 1275GT, 1981 Mini Pickup (Pup), 1982

Pickup, 1986 Mini, 1987 Austin Mayfair, 1994 British Open Classic, 1994 Mini, 1997 35 Anniversary, 1998 Balmoral LE, 1998 Rover, to 2000 Final Year.

EV incentives are back

Will this finally get you into an EV/PHEV?

Our guide to help you find the right vehicle

The government incentives to make clean energy vehicle ownership more affordable are back as of April.

But unlike previous programs, the new incentive sets a lower \$50,000 price eligibility ceiling and declining rebates over the next five years.

How do vehicles qualify?

When looking to purchase or lease an EV and wanting to benefit from the incentives under the Electric Vehicle Affordability Program (EVAP), what really matters is the final transaction value cannot exceed \$50,000.

Final transaction value is the final price a buyer agrees to pay when buying or leasing a vehicle. It includes:

- the base price of the vehicle

trim (inclusive of incentives or discounts offered by vehicle manufacturers or dealerships)

- optional features, add-ons, and packages added during final assembly
- accessories included at delivery, and
- manufacturer or dealership fees related to the sale

It does not include:

- extended warranties
- winter tires
- level 2 chargers
- pre-delivery inspection and freight charges
- financing and leasing costs
- down payments or trade-ins, and
- any government incentives, rebates, taxes, or fees.

How long will the incentives last?

Incentives will decrease over the program's five-year lifespan. They will start at up to \$5,000 then drop to up to \$4,000 on January 1, 2027, up to \$3,000 on January 1, 2028, and up

to \$2,000 on January 1, 2030. The program will be available for five years and there is only one rebate per individual. However, organizations and businesses can receive up to 10 incentives.

What's the other fine print?

There is no transaction value maximum on Canadian-made EVs. The rebate is applied directly at the dealership — you don't need to apply to get your money back. The EVAP program is stackable with provincial incentives.

Vehicles must be from countries with free-trade

agreements with Canada. As a result, the 49,000 EVs being allowed into Canada every year from China won't be eligible.

EV purchases and leases made after Feb. 16, 2026 may qualify for the incentive. Note lease terms less than 48 months receive lower incentives.

You do not have to be a Canadian citizen to qualify, but you must be a Canadian resident.

Our EVAP guide below features eligible vehicles. We encourage you to test drive them through the guide's sponsoring dealers. The full EVAP vehicle list is available from Transport Canada.

BATTERY ELECTRIC SUV | MSRP under \$44,000

Chevrolet Bolt

Origin: USA • Starting at \$43,431

Dueck
Auto Group

Dueck Downtown | Dueck on Marine | Dueck Richmond

800 Terminal | 400 SE Marine Drive
12100 Feather Stone Way

Chrysler Pacifica PHEV

Origin: Canada • Starting at \$62,290

- The Chrysler Pacifica PHEV (Plug-in Hybrid Electric Vehicle) is currently the only plug-in hybrid minivan on the market.
- **Electric Range:** Provides an estimated 51 km (32 miles) of all-electric driving on a full charge.
- **Powertrain:** Combines a 3.6L Pentastar V6 engine with two electric motors to produce a total of 260 horsepower.

Dodge Charger EV

Origin: Canada • Starting at \$59,995

- The Dodge Charger Daytona EV is Dodge's first all-electric muscle car, manufactured in Windsor, Ontario.
- **Scat Pack EV:** The high-performance flagship remains available, delivering up to 670 horsepower and 627 lb-ft of torque. It features a 0–97 km/h (0–60 mph) time of 3.3 seconds.

Fiat 500e

Origin: Italy • Starting at \$38,480

- The FIAT 500e is currently marketed as Canada's lowest-priced battery electric vehicle.
- **Range:** Offers an estimated total range of 227 km on a full charge.
- **Battery:** Equipped with a 42 kWh battery pack (38 kWh usable).
- **Power:** Delivers 117 hp and 162 lb-ft of torque through a front-wheel-drive motor.

Hyundai Kona EV

Origin: South Korea • Starting at \$43,999

- The Hyundai Kona EV is a subcompact electric SUV that offers a refined driving experience with an estimated all-electric range of up to 420 kilometres.
- **Powertrain:** Equipped with a 150 kW electric motor (approx. 201 hp) and a 64.8-kWh lithium-ion polymer battery.

Kia EV4

Origin: South Korea • Starting at \$38,995

- The 2026 Kia EV4 was officially launched in Canada as an affordable electric sedan, positioned as a key competitor to the Tesla Model 3 and Hyundai IONIQ 6
- **Powertrain:** A front-mounted electric motor producing 201 horsepower and 209 lb-ft of torque.

Kia EV6

Origin: South Korea • Starting at \$48,995

- While the 2025 model is available at dealerships now, the EV6's future in Canada is limited.
- **Maximum range:** Up to 513 km on the Wind RWD trim with the new 84 kWh battery.
- **Charging:** Features 800V architecture, allowing a 10% to 80% charge in approximately 18 minutes at a 350-kW fast charger.

Kia Niro EV/PHEV

Origin: USA • Starting at \$45,595

- Available in three trim models and two powertrain versions, the Kia Niro is a compact crossover.
- **Range:** An EPA-estimated 407 km.
- **Battery:** A 64.8-kWh lithium-ion battery pack.
- **Power:** Front-wheel drive (FWD) with 201 hp and 188 lb-ft of torque.

Kia Sorento PHEV

Origin: South Korea • Starting at \$48,695

- The Kia Sorento PHEV is a three-row midsize SUV featuring standard All-Wheel Drive and a 6-speed automatic transmission.
- **Powertrain:** 1.6L Turbocharged 4-cylinder engine paired with an electric motor.
- **Output:** Combined 261 horsepower and 258 lb-ft of torque.
- **Electric Range:** Approximately 48 to 55 km of all-electric driving.

Kia Sportage PHEV

Origin: South Korea • Starting at \$46,295

- The 2026 Kia Sportage PHEV offers an estimated 53 km of all-electric range and a combined output of 268 horsepower.
- **Powertrain:** 1.6L Turbocharged 4-cylinder engine paired with a 66.9 kW electric motor and a 13.8 kWh lithium-ion battery.
- **Fuel Economy:** Approximately 6.6 L/100km combined when operating in hybrid mode.

Subaru Uncharted

Origin: Japan • Starting at \$42,995

- The 2026 Subaru Uncharted is Subaru's first all-electric compact SUV in Canada.
- **Range:** Estimated at 399 km for the base FWD, 496 km for the FWD LR, and 438 km for AWD models.
- **Charging:** Supports Level 3 DC fast charging, capable of reaching 10% to 80% in approximately 30 minutes.

Toyota C-HR

Origin: Turkey • Starting at \$44,900

- The Toyota C-HR has returned to Canada for the 2026 model year as a completely all-electric battery electric vehicle.
- **AWD Performance:** The dual-motor AWD system provides a manufacturer-estimated 0-100 km/h time of 5.2 seconds.
- **Battery:** All trims utilize a 77-kWh lithium-ion battery pack with a preconditioning function for faster charging.

Toyota bZ

Origin: Japan • Starting at \$45,990

- The Toyota bZ (formerly known as the bZ4X) has been significantly updated for the 2026 model year in Canada.
- **Increased Range:** The XLE AWD model now reaches up to 468 km on a full charge (a 25% increase), while the Limited AWD offers 436 km. The XLE FWD provides up to 380 km.

Toyota Prius PHEV

Origin: Japan • Starting at \$40,050

- The Toyota Prius is a compact hybrid vehicle currently in its fifth generation.
- **Power:** 220 hp combined output.
- The 2026 model offers an estimated electric driving range of up to 72 km on the SE trim and roughly 64 km on XSE trims, with fuel efficiency ratings of approximately 4.4 - 5.0 L/100km combined.

Volvo EX30

Origin: Belgium • Starting at \$49,995

- The Volvo EX30 is Volvo's smallest-ever fully electric SUV.
- **Acceleration:** The Twin Motor Performance version can reach 0-100 km/h in 3.6 seconds.
- **Range:** (Standard model) Approximately 407 km.
- **Charging:** Supports DC fast charging, going from 10% to 80% in under 30 minutes.

Cadillac rolls out luxury electric vehicles

Previews by
Andrew McCredie

starting at **\$96,598**

Electric range

491 km on full charge
0-100 km/h in under 4.0 seconds

Engine

Standard dual motor
615 hp and 650 lb-ft torque

Drivetrain

AWD

Cadillac Vistiq

Cadillac has one of the best electric vehicle stables and adds to that strength with the all-new, three-row Vistiq. The EV features a standard all-wheel drive, or dual motor, powertrain featuring a 102-kilowatt/hour battery pack that produces an impressive 615 horsepower and 650 lbs.-ft of torque. The automaker estimates a full-charge range of nearly 500 kilometres, and a lightning quick dash from a standstill to 97 km/h in less than four seconds.

The Vistiq's exterior borrows the distinctive swept-back windshield from the Escalade IQ, and the

signature D-pillar sail panel design with a tornado-like shape that honours Cadillac's sporty heritage. Inside the large cabin designers were inspired by Brutalist architectural cues to create an interior with refined lines, finding a balance between sophistication and utility.

Standard features include a 23-speaker AKG Studio Audio system with Dolby Atmos, and Super Cruise, one of the industry's first truly hand-free driver assistance technology, that comes with three years of OnStar connected service. And for even more refined driving dynamics, there is an available Air Ride Adaptive suspension and available Active Rear Steering.

Escalade IQ

Starting at \$164,498
Dual-motor AWD system
750 hp / 785 lb-ft of torque

Cadillac made a statement when it electrified its iconic full-size SUV in 2024, and for 2026 the luxury automaker is stretching that notion even further. Quite literally. The all-new and all-electric Escalade IQ is longer than its already large IQ stablemate, which translates to more room for third-row occupants and an additional 345 litres of cargo space in the eTrunk, or frunk. Power comes from a big 205 kilowatt/hour battery pack, offering a road-trip worthy 740 kilometres of range on a full-charge.

Optiq

Starting at \$60,998
Up to 510 km range
315 hp / 332 lb-ft of torque

When the all-electric Optiq launched in 2023, it came as just an all-wheel drive model. That changes in 2026 as a rear-wheel drive Optiq enters the scene as the standard model, offering 315 horsepower, 332 lbs.-ft of torque and a very impressive estimated range of 510 kilometres. The other big news on the Optiq front is the new NASC (North American Charging Standard) charge port, meaning you can charge up the compact crossover using the expansive Tesla supercharger network.

Ford puts more muscle behind iconic Mustang

Previews by
Andrew McCredie

estimated at **\$100,000**

Fuel Economy

Estimated (combined) 15+L/100 KM
Fuel type 93-octane

Engine

5.2L supercharged V8
700-800 hp

Drivetrain

RWD
7-speed dual clutch

Ford Mustang Dark Horse SC

There isn't a more iconic car than the Ford Mustang, and each year, without fail, Ford engineers and designers up the power and performance of the six-decade-plus pony car. And so, for 2026, we get the Mustang Dark Horse SC, an update of the monstrous Dark Horse which was let out of the barn in 2024. This SC version gets several new additions,

including a supercharged 5.2-litre V8, and aero and suspension features from the track-ready Mustang GTD.

We don't yet know the horsepower output of the Dark Horse SC, but it's

suspected to be in the 700 to 800 hp range; true, not as much as the 815 ponies galloping out of the GTD, but still enough to keep you focused. Gathering all that power up and getting it to the wheels is a Tremec 7-speed, dual-clutch gearbox with a carbon fibre driveshaft.

Further keeping things grounded is a suspension system with MagneRide dampers, stiffer springs, unique stabilizer bars and a modified front suspension. And as all fast things must come to a stop eventually, there are six-piston brakes up front and four-piston rear Brembo calipers in the back.

Explorer Tremor

MSRP \$61,995
Engine: 3.0L V6
400 hp; 5,000 lb tow capacity

Ford's longtime and very successful SUV the Explorer gets a significant refresh inside and out in 2026, but the big news is the introduction of the first-ever Tremor model. This off-road-oriented trim replaces the Timberline edition and gets a number of upgrades, including specialized suspension, front/rear skid plates, all-terrain tires, and a unique grille with integrated LED lighting. Interior upgrades across the Explorer line see new, higher-quality soft-touch materials, and improved cabin noise reduction.

Lincoln Navigator

Starting at \$128,695
Maximum seating capacity: 8
13.5L/100 KM combined

It's hard to believe the Lincoln Navigator has been around for more than two decades, and it just seems to be getting better with age. The 2026 Navigator features a redesigned, more luxurious look with a standard 48-inch panoramic display, a new 'split gate' rear tailgate, and a revised model lineup featuring a new entry-level Premiere trim. Power still comes from the tried-and-true 440-horsepower 3.5-litre twin-turbo six, and towing capability — a big selling point of the Navigator — remains at 8,700 lbs.

Rear-mounted 160 kW
All-wheel motors: 303 hp

Towing

Capacity 1,587 kg to
2,268 kg

Hyundai Ioniq 9

Hyundai's all-electric brand Ioniq has helped position the South Korean automaker as a leader in both EV architecture and design. And it has another hit on its hands with the 2026 Ioniq 9, a three-row SUV with a sleek and aerodynamic body and a massive interior cabin. There are three distinct

powertrains available; the long-range rear-wheel drive trim offering 214 horsepower; the long-range all-wheel drive bumps that up to 303 hp; and the performance all-wheel drive has a maximum power output of 315 horsepower.

All are powered by a 110.3 kilowatt-hour battery pack and feature active air flap (AAF) technology that improves efficiency. Hyundai cites a 10 per cent to 80 per cent recharge time of just 24 minutes using a 350-

kW charger thanks to the standard 800-volt charging technology. Another useful standard feature is vehicle-to-load (V2L) capability that allows the Ioniq 9 to serve as a mobile power pack, capable of powering camping gear, laptops and even home appliances during a power outage. Refined suspension tuning provides an impressive combination of body control, secure handling and refined comfort, the latter further enhanced by acoustic glass and noise-reducing tires.

Elantra N TCR

Starting at \$47,599
276 hp
289 lb-ft torque

Hyundai Motorsport has built and campaigned a couple of touring cars in the TCR category that found their way onto the street, and the latest to get the go-fast treatment is a beauty: the 2026 Elantra N TCR Edition. This limited-run, track-inspired variant of the standard Elantra N sedan comes with a bunch of goodies, including a carbon swan-neck spoiler, 19-inch forged wheels, and an enhanced N performance brake system. The tweaked and turbocharged 2.0-litre engine produces 276 horsepower.

Palisade Hybrid

Starting at \$60,499
8.3 L/100 km (City)
7.9 L/100 km (Highway)

Hyundai has made an already very good three-row SUV even better for 2026 with the addition of a hybrid model. The Palisade Hybrid is powered by a very efficient 2.5-litre turbocharged hybrid powertrain with 329 horsepower and up to nearly 1,000 kilometres of range. The entire 2026 Palisade model line has received a new design inside and out, and automotive journalists have taken note: it claimed AJAC's Canadian Utility Vehicle of the Year award.
