THE FOUNDERS

As artists ourselves, we created StreamFest to be the home for storytelling across all streaming platforms. The way we consume content has changed, yet film festivals have stayed the same. We saw a broken model, and we reimagined it. The beauty of StreamFest: you get to just show up, be present, and let us curate the stage for you. No lines, no chaos—just stories and human connection, with a touch of incredible wine and world-class hospitality. We are incredibly proud of this year's lineup and the community we are building together. To those of you here today: you see the vision, you get it, and you are the reason we do this. Thank you for supporting our non-profit and joining us for our second act.

FRIDAY NIGHT MARQUEE FILM

IF THESE WALLS COULD ROCK is the untold story of the Sunset Marquis—the legendary West Hollywood hideaway where rock stars checked in, passed out, and made history. Featuring a Hall of Fame lineup including Ringo Starr, Slash, Cyndi Lauper, Morrissey, and Dave Grohl, the film dives deep into the debauchery, the music, and the magic that made the Marquis the heartbeat of rock 'n roll for over six decades. But behind the famous awning and trashed rooms lies a deeper tale: the emotional journey of the visionary founder and his business-minded son, who saved the hotel from ruin and transformed it into a sanctuary.
