Does God Exist? The Ultimate Philosophical Question

Presenter: Rabbi Michael Gold

Date: Wednesday, June 3 | Time: 12–1:30 p.m.

Fee: \$63/non-member; \$50.40/member

The existence of God is perhaps the most important question many of us ask during our lifetimes. We will explore this question through the eyes of religion, philosophy, and science. Using religious studies, we will explore how the classical theism of Judaism, Christianity, and Islam developed. Using philosophy, we will look at attempts by major philosophers to prove the existence of God and the traditional challenges to those proofs. Finally, we will ask whether God's existence fits into modern science. In the end, the speaker, a rabbi, philosopher, and lover of science, will present his own answer. **Space is limited to foster discussion.**

We'll review helpful tools already built into everyday devices—smartphone accessibility settings, voice assistants, smart watches, medication and appointment supports, fall detection, and communication aids—and discuss where these tools help, where they don't, and how to evaluate them without hype. The focus is on preparation: setting up simple systems before a crisis, reducing avoidable friction for families and caregivers, and making technology choices that align with personal values. No technical background required. Participants will leave with a simple evaluation framework, a short checklist of features to explore, and time for Q&A.

FOUR-WEEK SERIES

Week 2. “The Red Shoes” 1948: This film played non-stop for over a year in one movie theatre creating a craze for classical ballet as the supreme art. Young girls were swooning into its romantic beauty. Some actually became ballet dancers to their regret. An intoxicating film.

Week 3. “A Place in the Sun” 1952: Derived from a famous novel. Fascinating to watch Elizabeth Taylor actually falling in love with Montgomery Clift and stealing the show. A classic of snobbery, ambition, deception.

Week 4. “Giant” 1952: James Dean dominates this film with devastating tragic grandeur. From nothing he rises to eclipses an age and a culture. One can view this film as a magnificent revenge saga and portrait of America.

Important Supreme Court decisions and multiple Presidential Executive orders in 2025 now substantially alter and affect our legal and Constitutional landscape. Long-standing, comfortable, oft-repeated Constitutional principles such as “no person is above the law” and “we enjoy three coequal branches of government” now require further examination. Frequent ongoing Supreme Court “split” decisions reflect ever-present disparate fundamental challenges between liberal and conservative views, as well as uncertainty as to continued adherence to many established long-standing Supreme Court precedents. Expect a dynamic semester, as this course will not be for the faint-hearted. **Enrollees can attend a pre-lecture primer on court processes at 2 p.m. on Thursday, July 23. Returning participants are welcome.**

Historically, there are only a handful of Golden Age Hollywood stars who combined massive box-office success with profound acting talent. Among the most obvious were Paul Muni, Henry Fonda, and Katharine Hepburn. Edward G. Robinson should sit atop that list. For “Manny” was both a first-rate actor and a box-office champion. Far from being the stereotypical cigar-chomping gangster he was, onscreen, he was also a sparkling comedian, overpowering tragedian father and uncle, and world-class collector of art. Let’s spend eight weeks getting to know the man born Emmanuel Goldenberg and watch a wide range of his films ... both the well-known and the unknown. You just might develop a greater love of the man’s overwhelming talent.

Invest in the Future of Lifelong Learning

Why Planned Giving Matters to OLLI at Florida Atlantic

For many of our members, Osher Lifelong Learning Institute (OLLI) at Florida Atlantic is more than a place to take classes — it's a community, a source of purpose, and a gateway to lifelong discovery. If OLLI has been meaningful in your life, you have the power to help ensure its impact continues for generations to come.

As an auxiliary of Florida Atlantic, OLLI does not receive state funding. We rely entirely on membership fees, course registrations, and the generosity of donors to deliver the high-quality programming you enjoy — from renowned speakers and timely courses to our engaging special events.

Planned gifts — gifts made through your estate or financial plans — provide lasting support that allows us to:

- Expand and enrich our programs
- Maintain and upgrade our classroom technology
- Keep class fees as low and accessible as possible
- Improve our facilities to better serve members

How Planned Giving Works

You don't have to be wealthy to make a planned gift — just thoughtful.

There are many simple and meaningful ways to leave a legacy:

- **Name OLLI at Florida Atlantic as a beneficiary** of your IRA, retirement plan, or life insurance policy.
- **Include OLLI in your will or living trust.** This can be a specific amount, a percentage of your estate, or what remains after other gifts.
- **Make a gift of appreciated stock or real estate** during your lifetime or as part of your estate.
- **Create a charitable gift annuity or trust,** which can provide you with income during your lifetime while supporting OLLI in the future.

Many of these options offer tax advantages for you or your heirs, while ensuring the values you care about — education, community, and connection — live on through OLLI.

"OLLI has given me more than I ever expected — purpose, friendships, and a renewed passion for learning. Including OLLI in my estate plans was an easy decision. I want others to experience the same joy and connection long after I'm gone."

— Mary P., longtime member and OLLI Planned Giving donor

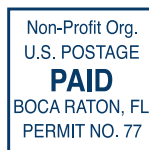

Your legacy can help shape OLLI's next chapter.
