ACCOMPLISHMENT REPORT C.Y. 2023-2024

ILIGAN CITY GENDER & DEVELOPMENT OFFICE ACCOMPLISHMENT REPORT

**AL-AZANEERH
R. MADALE**
GAD HEAD

The Gender and Development Office (GAD) of the Local Government Unit of Iligan strives to make Iligan City a gender-sensitive, gender-responsive, and safe place for all Iliganons, regardless of gender, background, and culture. Hence, as the LGU Iligan GAD Focal, it is my profound responsibility to turn our advocacy for gender empowerment into reality.

Under the administration of Mayor Frederick Siao, the CMO-GAD has created programs and projects centralized for establishing gender empowerment towards various gender identities in Iligan City, uplifting their socioeconomic status, and strengthening morale. Significantly, as we recognize the plight of women suffering from mental and physical abuse, we bring forth an initiative to improve the system of processing cases of abuse through the digitalization of Barangay Violence Against Women and Their Children (VAWC) Desks.

The Panginabuhian sa Kababayan-an Livelihood Program was also implemented through our CMO-GAD Women's Livelihood Consultants, Julita Bokingko and Esay Minaga, to elevate the socioeconomic status of women from different women's associations in Iligan City by training them how to run a business and benefit from it.

We also rally for social inclusion by suppressing the systemic discrimination that the LGBTQIA+ community of Iligan has experienced for years. CMO-GAD LGBTQIA + Focal, Ubdul Samad Malik, organized the different LGBTQIA + organizations throughout Iligan City, giving them the platform to foreground their gender identity regardless of their sexual orientation and gender expression.

In essence, the Gender and Development Office (GAD) will vow to continue our crusade to address gender issues and to be an ally in championing gender rights and empowerment.

Padayon sa PagpangalaGAD, Asenso Iliganon!

CHLID MINDING CENTER GROUNDBREAKING CEREMONY

On May 4, 2024, the City Mayor's Office - Gender and Development (GAD) office, proudly hosted the groundbreaking ceremony for the new Child Minding Center at Buhanginan Hills, Palao, Iligan City. This significant event marked the beginning of a project dedicated to providing a safe, nurturing, and educational environment for young children. The Child Minding Center will offer crucial support to working parents by ensuring their children are well-cared for and engaged in developmental activities.

The Child Minding Center is scheduled for completion in early 2025. Once operational, it will provide a range of services, including day care, early childhood education, and developmental activities. This center will be a vital resource for working parents, giving them the assurance that their children are in good hands.

The City Mayor's Office - Gender and Development Office remains dedicated to the success of this project and to continuing their efforts to support and uplift the families of Iligan City.

DEVELOPMENT AND IMPLEMENTATION OF THE ONLINE VAWC DATA BANKING SYSTEM

The City Mayor's Office - Gender and Development (GAD) office is to announce the creation and implementation of the Online Violence Against Women and Children (VAWC) Data Banking System. This system is designed to improve the efficiency and effectiveness of data management and reporting for VAWC cases across Iligan City, involving the City Social Welfare and Development Office and VAWC desk officers in all 44 barangays.

The system aims to streamline the collection, storage, and retrieval of VAWC data, ensuring accuracy, timely updates, and easy access. By centralizing this data, the system enhances reporting, analysis, and the development of targeted interventions. It also promotes accountability and transparency, ensuring all reports are documented and appropriately followed up.

Training sessions will be provided to City Social Welfare and Development Office staff and the 44 Barangay VAWC desk officers to ensure proficiency in using the system. A pilot phase in selected barangays will test functionality and allow adjustments before citywide implementation.

Upon successful testing, the system will be rolled out to all barangays, with ongoing support and maintenance. The GAD office is committed to protecting and supporting the women and children of Iligan City. This system represents a significant step towards improving the response to VAWC cases, ensuring victims receive the support and justice they deserve.

The Social Workers of City Social Welfare and Development Office can access seven modules which are the resident, case, referral, receiving, progress, assistance, and report. All information of the 44 barangays is also accessible to the social workers of CSWD.

Meanwhile, the VAWC Desk Officer per Barangay can only access the two modules which are the resident and case. These modules are not limited and can add another module depending on their convenience. All VAWC Desk Officers can only access the VAWC cases within their barangay.

The system is user-friendly and efficient without unnecessary steps. Further features to be added are the Agreement Form, Complaint Form, Printing Documents (Feedback, Referral, Monthly Reports, BPO), Uploading of Evidences (Pictures), and Application of Barangay Protection Order (BPO).

CITY POPULATION & DEVELOPMENT OFFICE ACCOMPLISHMENT REPORT

The top accomplishments of the City Population and Development Office from July 2023 to June 2024 involves Pre-Marriage Orientation and Counseling (PMOC) team training, Philippine Population and Development Program (PPDP) localization, the establishment of the City Implementation Team (CIT) for the Responsible Parenthood and Reproductive Health Law of 2012 (R.A 10354), and the establishment of the Barangay Population Volunteers/Workers (BPV/Ws). All these have been achieved as the new budget allocation allows for more activities to attain the local government's desired goals in promoting responsible parenthood and family planning methods and access to needed reproductive health care information and services not only to prospective PMOC clients but also to the couples with unmet needs at every barangays.

POPDEV HEAD
Population Program
Officer IV

I congratulate the Office of the City Mayor through the steadfast leadership of Mayor Frederick W. Siao and the able chief, Sir Jules Verne A. Padilla, in coming up with this CMO Magazine to showcase the respective accomplishments of the divisions and taskforces under the CMO.

In allowing us Office Heads to present our wins in the implementation of our Office programs and projects, the local chief executive has acknowledged our efforts and daily struggles to provide to our constituents their much deserved good public service. At this point, the administration has been very cognizant that the LGU-CMO employees, its "labor force" are given their fair share of the limelight. It is thus befitting that we as employees should be inspired to pay-forward to everyone better quality of service and aim for customer satisfaction in our daily grind in public office.

Finally, I thank everyone in this administration in striving to perform better and together let us embark on the Asenso Iliganon journey.

BUSINESS PERMITS AND LICENSING OFFICE ACCOMPLISHMENT REPORT

**MARIA RHODORA
D. OMLERO**
BPLO HEAD
Licensing Officer IV

The Business Permits and Licensing Office, a division under the City Mayor's Office, in compliance with Republic Act No. 11032 "An Act Promoting Ease of Doing Business and Efficient Delivery of Government Services" has finally achieved its goal and objective in streamlining and promoting digitalization of various government services including but not limited to issuance of Business Permits and other special permits.

Reforms were initiated earlier this year, including the reduction of business processes to three (3) steps, with other steps treated as backroom processes. Additional sites for the Business-One-Stop-Shop (BOSS) were arranged to bring services closer to taxpayers during renewals, facilitating easier access and accommodating more taxpayers simultaneously. As a result, the number of business registrations has increased significantly as early as mid-year, compared to 2023. Furthermore, online application and payment of Business Permits have been introduced and encouraged, allowing entrepreneurs to apply for or renew their Business Permits even when out of town, minimizing face-to-face interactions with taxpayers in compliance with the "no/zero contact" policy pursuant to R.A. 11032.

With the help of the Committee on Anti-Red Tape of Iligan City, the Local Government of Iligan City has received commendation from the Honorable Secretary, Ernesto Perez, as ARTA Compliant on July 4, 2024.

Through open dialogue, the office strengthened its dedication to reducing bureaucratic challenges in business services.

CEREMONIAL SIGNING OF THE MEMORANDUM OF AGREEMENT FOR THE INTEGRATION OF BFP-FSFC TO ELECTRONIC BUSINESS ONE-STOP SHOP

The office took a major step forward with the ceremonial signing of a Memorandum of Agreement to integrate the Bureau of Fire Protection's Fire Safety Inspection Certificate into the eBOSS system. This integration enables a more efficient, centralized approach for businesses obtaining necessary certifications by simplifying procedures and enhancing service delivery.

BUSINESS-ONE-STOP SHOP IN THREE (3) AREAS DURING THE BUSINESS PERMIT RENEWAL

To ease the business permit renewal process, the Business Permits and Licenses Office established Business-One-Stop Shops (BOSS) in three convenient locations. By providing accessible service hubs at the City Hall, Robinsons Iligan, and Gaisano Mall, the office ensured business owners could renew permits more efficiently and with greater convenience.

The key to a successful and sustainable housing program lies in the strong collaboration of all stakeholders, from government agencies to community members. Housing recipients are not just passive beneficiaries; they play a critical role in the process. Their active involvement in the construction, the formation of homeowners' associations, and the safeguarding of their land titles ensures the long-term security and stability of their families. By taking ownership of these responsibilities, they contribute significantly to the success of our resettlement efforts.

This collective commitment fosters communities that are not only safe and resilient but also prepared to grow and thrive in the future. Together, we can create lasting change, ensuring that every family has the security and opportunity they deserve in a place they can truly call home.

This milestone is a vital step in empowering communities, as it fosters collective responsibility among residents. By formally organizing into homeowners' associations, the beneficiaries are better equipped to manage their communities, secure their land tenure, and advocate for their needs. This accomplishment also strengthens their ability to collaborate with the government on housing policies and programs, ensuring a more sustainable and well-organized approach to community development in the long term.

SHELTER ROW HOUSE CONSTRUCTION FOR 'SENDONG' SURVIVERS

There is an ongoing construction of 100 core shelter row houses at Kapuso Village, Barangay Mandulog, a project dedicated to the survivors of Typhoon Sendong. ILIGAN CITY PUBLIC LIBRARY ACCOMPLISHMENT REPORT

EVAN BAYLON
ICPL HEAD
Librarian IV

Greetings from the Iligan City Public Library!

The Iligan City Public Library is committed to providing invaluable information and research materials, in line with our mandate under Republic Act 9246. Our library offers a wide array of resources, including reference materials, circulation books, archives, newspapers, and magazines. We also preserve the rich heritage of Iligan through Iliganiana memorabilia and cultural documents.

In our continuous efforts to serve the community better, we are proposing the establishment of Barangay Reading Centers, storytelling sessions, e-libraries, and the installation of ramps for Persons with Disabilities (PWDs). Additionally, we seek to hire more regular staff to ensure the efficient management of these services.

Our e-library services include an Online Public Access Catalog (OPAC) for easier resource access, user registration, and access to news and other important information. We are gradually adapting to the latest trends in librarianship, and we look forward to the realization of a new library building in the near future.

May God bless us all as we work toward these goals.

BARANGAY READING CENTER

The long-time clamour of a Barangay Reading Center started in 1994 when the National Library (now National Library of the Philippines) made a program for a Barangay Reading center as stated in R.A. No. 7743 - An act providing for the establishment of Congressional, City, Municipal Libraries and Barangay Reading Centers throughout the Philippines appropriating the necessary funds therefor and for other purposes. It is proposed that the BRC be established after visitation at the area to the following barangays: Buru-un, Ma. Cristina, Tomas Cabili, Tambacan, Poblacion, Santiago, Bagong Silang, Luinab, Del Carmen, and Villaverde. Out of ten (10) barangays I visited, only five (5) barangays have Reading Centers or mini libraries, namely: Buru-un, Ma. Cristina, Tambacan, Poblacion and Villaverde, but they have only few reading materials, and lack of tables and chairs.

STORY-TELLING SESSION

The Iligan City Public Library hosts engaging storytelling sessions every Friday, specially designed for children. These sessions provide a fun and educational environment where young minds can immerse themselves in the joy of stories.

COMPUTERIZATION PROGRAM

the Iligan City Public Library has implemented a Computerization Program to enhance its services and improve accessibility for users. As part of this initiative, the library has transitioned from traditional card catalog systems to a more efficient and user-friendly digital platform by utilizing the Koha Integrated Library System (ILS). With this system, all catalog entries, including books, periodicals, and other materials, have been digitized and made available online.

CITY INFORMATION OFFICE ACCOMPLISHMENT REPORT

**ALFREDO
PARADELA III**
CIO HEAD

"An informed community is an empowered community!"

The City Information Office (CIO), as mandated by the Local Government Code of the Philippines, serves as the primary communication arm of the local government. The office is mainly responsible for Public Information Dissemination, Promoting Transparency, Community Engagement, Crisis Communication and Media Relations. The CIO plays a vital role in creating an informed and empowered community while upholding the principles of transparency and good governance.

Under the administration of Mayor Frederick Siao, the City Information Office (CIO) has become a cornerstone of transparency and public engagement in the city. Initially, the office faced significant challenges, particularly in providing adequate coverage of LGU events. Limited resources and manpower meant only a fraction of the city's initiatives and programs reached the public. This gap left many unaware of the hard work and achievements of the local government.

Recognizing this, we prioritized strengthening the CIO, equipping the team with better tools, training, and a clear mandate to enhance communication. The office underwent a transformation, expanding its scope to ensure comprehensive coverage of all LGU events. From developmental projects and community programs to public consultations and crisis updates, the CIO now ensures that every event, big or small, is documented and communicated effectively.

The City Information Office (CIO) has introduced a series of transformative programs aimed at promoting transparency, raising public awareness, and strengthening the bond between the local government and its constituents. These initiatives embody the administration's dedication to responsive and inclusive governance.

ILIGAN MEDIA FORUM (IMF)

The Iligan Media Forum is a live press conference designed to address media inquiries and ensure that the public receives accurate and timely information about the local government's initiatives. This platform serves as a hub for dialogue between local government and the press, promoting transparency and accountability while addressing issues that matter most to Iliganons.

TARA ILIGAN (TRANSFORMATIVE ACTION RESPONSIVE ADMINISTRATION)

TARA Iligan provides a dynamic and comprehensive look into the city's latest news, events, and developments, including glimpses into Mayor Siao's personal and professional life. With engaging segments like Asenso Balata (showcasing progress), Talakayan (discussions on governance), Garbo Iliganon (celebrating local achievements), and Freddie Serye (highlighting Mayor's stories), this program aims to keep Iliganons informed and inspired.

SERBISYONG SIAO, SERBISYONG WOW

This program features a series of interviews with LGU office heads, offering insights into their work and emphasizing why Mayor Siao's administration delivers exemplary service. Through these candid conversations, Iliganons gain a deeper understanding of how the local government operates and how its initiatives directly impact their lives.

KUMUSTAHAN WITH MAYOR FREDDIE

True to his hands-on leadership style, Mayor Siao personally visits various offices, schools, and establishments through this program. Kumustahan with Mayor Freddie allows him to engage directly with stakeholders, understand their challenges, and identify how the city government can provide tailored support. This initiative reflects Mayor Siao's commitment to listening and responding to the needs of Iliganons.

These innovative programs are just a few examples of how the City Information Office has effectively bridged the gap between the local government and the public, making governance more accessible, transparent, and engaging. Through these initiatives, Iliganons are not only kept informed but also empowered to actively contribute to the city's progress.

ILIGAN CITY STRATEGIC AFFAIRS OFFICE ACCOMPLISHMENT REPORT

GLENMOORE F. LONGAKIT
ICSAO HEAD
City Government
Department Head II

The mandate of the Iligan City Strategic Affairs Office or ICSAO is to come up with a reorganization or rationalization plan for the City Government of Iligan. The reason for doing this is that our structure, systems, policies, and even the people are already very old. We need to scale up and refashioned our city so it could provide services that are more responsive, efficient and effective, leveraging technology to build the envisioned smart city.

To do this, we used the field of Organization Development to help us produce a comprehensive plan that will address the systemic problems or challenges that we often encounter.

Thus, we did the following: The Organizational Climate Survey (OCS), Stakeholders Analysis (SA), Communication Plan (CommPlan), Organizational Design, Business Process Reengineering (BPR), Workload Analysis, and Competency Modeling.

All these studies have never been done before in the history of Iligan governance. In fact, no LGU has yet ventured a rationalization plan of this scale. This is because the vision of ICSAO is to "Build a High-Performing Organization."

CMO - RECORDS ACCOMPLISHMENT REPORT

**MILDRED
AÑONUEVO-JARO**
RECORDS HEAD
CLERK III

Iligan City has been my home for many years. I grew up witnessing its ups and downs. But what remains vividly imprinted on my memories were the victories celebrated by the Iliganons particularly on surviving and graciously embracing the remnants of the disasters from the past: bombings, Marawi siege, fire tragedies, Covid-19 pandemic and typhoons like Sendong, Yolanda, and more. The Iliganons stood up with pride, courage, and hope over those catastrophes with sparkling smiles as we persistently and unwaveringly continued to celebrate life especially during the feast of Sr. San Miguel.

The Records Section of this office had seen what seems to be unknown to the general public. The documents can tell all the stories from hardships to how triumphantly the Iligan City Government had wrought seize them all. Our records bear all the truths and the answers that pave the way to the pedestal where Iligan City is standing right now.

But all these wouldn't be if not for this present administration, which, in all ways, have supported the office and reared the entire organization to better performance and functionality.

My salute to our Mayor, Mayor Frederick W. Siao, Vince Mayor Marianito "Dodong" D. Alemania, and to the whole administration for they are the face of a true Iliganon; strong, resilient, and courageous with a heart full of hope and compassion not just to those in need but also to promote the unified progress of the entire city.

ASENSO ILIGANON!

The Records Division take the responsibility in managing and maintaining the incoming and outgoing records of the City Mayor's Office. These records include Administrative Order, Executive Orders, Memoranda, all sorts of letters, invitations and many more.

Manned by 5 personnel, the office exerts a huge effort in organizing and meticulously arranging the records. Since the start of this administration, we took the initiative to classify and provide an appropriate indexing for easy retrieval and referencing. Though our work is still in progress, we can proudly say that we've made significant strides in streamlining and enhancing the organization's record-keeping systems.

Currently, the City Mayor mandated the digitization of records from the present and some from previous administration. It won't be long and our office will have the ability to catch up to the increasing demand for record retrieval. We are looking forward to the fulfilment and full implementation of the system and be the first to savour its efficiency and effectiveness, all because of the initiative and innovativeness of our beloved mayor, Mayor Frederick W. Siao.

Through initiatives such as mass weddings, mass feeding programs, and clean-up drives, the City Mayor's Office aims to strengthen family bonds, promote a healthy lifestyle, and foster a progressive community—foundations for a prosperous country.

MASS WEDDING PROGRAM

This program is part of IDG13, with most participating couples coming from various barangays across the city. It strengthens relationships and reinforces the institution of marriage. In addition, participating couples receive gifts, goods, and tokens as they embrace this significant commitment. From 2023 to 2024, the CMO-CAO successfully organized 11 mass weddings, uniting a total of 498 couples in marriage.

MASS FEEDING PROGRAM

Aligned with the objectives of IDG 13, the feeding program serves as a vital support system for various sectors, stakeholders, public schools, and all 44 barangays within the city. This initiative is designed not only to address immediate nutritional needs but also to promote healthier lifestyles and enhance the well-being of underserved communities.

From 2023 to the present, the CMO-CAO successfully conducted 132 mass feeding activities across these areas, extending support to those who need it most.

CLEAN-UP DRIVE - AND CLEANING, CLEARING OPERATION PROGRAM

Recognizing the need to address the state of public spaces, which were often found "messy and untidy," the Clean-Up Drive Program and the daily cleaning and clearing operations were launched. These initiatives aim to instill proper waste segregation practices every Saturday and ensure the continuous clearing of canals along highways throughout the week. These programs are aligned with IDG 12, focusing on providing effective solutions to the city's flooding and drainage challenges. From 2023 to the present, a total of 60 clean-up drives have been conducted, showcasing the city's commitment to creating cleaner, safer, and more sustainable public spaces.

In the Procurement Unit of the City Mayor's Office, our work is more than just processing transactions—it is about making sure that every peso spent contributes to the betterment of Iligan City. Every purchase, contract, and procurement decision we make is guided by transparency, fairness, and accountability, ensuring that resources are used wisely and efficiently.

Public service comes with great responsibility, and it is not a task we carry alone. The dedication and hard work of our fellow employees in the City Mayor's Office make it possible to deliver the programs and services that our people rely on. Every department, every unit, and every individual plays a crucial role in keeping the local government running smoothly, and we deeply appreciate their efforts.

We also extend our heartfelt gratitude to Mayor Frederick Siao for his leadership and unwavering support. His commitment to good governance inspires us to uphold the highest standards in procurement and resource management. With his guidance, we continue to improve our processes, making procurement more efficient, transparent, and responsive to the needs of our city.

As we look ahead, we remain committed to our mission: to ensure that every project we support, every contract we facilitate, and every resource we secure contributes to a more progressive, efficient, and service-oriented local government.

Together, let us continue to work with integrity and purpose for a better Iligan!
