TESTIMONIALS

Sidley Austin

From focus groups to courtroom presentations, Opveon has provided us with full service support. They combine skill, experience and judgment in a way that delivers excellent work product for all aspects of litigation. Opveon is a trusted and valuable member of our trial teams.—Mark D. Hopson & Ben Mundel | Partners

Montgomery & Andrews, P.A.

Although Opveon is Oklahoma-based, we found them to be the most competent company nationally for our needs in a multi-year original jurisdiction case before the United States Supreme Court. We could not have handled the massive multi-party discovery demands without their enthusiastic support. At the six week trial held remotely, April Ferguson provided expert and seamless trial support from our offices in New Mexico. We heartily endorse the Opveon team. —Shelly L. Dalrymple | Partner

Baker McKenzie

I have been using April with Opveon for years. April works to gain critical insight into both my client's business and the facts of our case. She gains the trust of the client and trial team. She is dependable, efficient, and brilliant, and her company is a one-stop shop for trial graphics, trial assistance, jury consulting, and video editing. In my experience, April and her team are integral to all of the decision-making processes during trial. From jury consulting and visual aids to story-telling and jury testing, I don't make decisions without consulting April and her team.—Michelle Hartmann | Partner

Hiltgen & Brewer, P.C.

We are continuously impressed by Opveon. Whether it is courtroom tech or jury focus groups (which they have figured out how to do virtually while the world is dealing with COVID - seamlessly, I might add), April and her team provide top-notch service and are extremely knowledgeable. Highly recommend.—Katie McCune | Associate Attorney
