# THE PRINTED PEN GUIDE

---

The 2024 catalogue boasts a wide range of promotional writing products from budget friendly ball pens to executive level pen sets and everything in between.

New additions can be found across the range this year, including several new eco-friendly models in our biggest green section yet! One being the all new Recycool Ball Pen (Page 41) which is sure to catch attention, with a traceable footprint, it's made from 100% ethically sourced recycled materials and for every 2 pens sold, an entire plastic bottle is prevented from entering the ocean. A variety of environmentally friendly materials including biodegradable, recycled and sustainably sourced options made from card, wheat, bamboo and wood can also be found.

The Pen Boxes category has also had an upgrade this year, with new Prestige boxes as well as bespoke pen and pencil sleeves that can bring your branding to life with full colour. And don't forget our Prestige Pens and Pen Sets for truly premium corporate gifts.

Take note of the branding icons throughout the catalogue, as many of our products can be personalised with individual name engraving – the perfect finishing touch for a truly memorable merchandise gift. As branding specialists we can offer several techniques to support your corporate branding from spot colour printing digital printing and laser engraving.

# Selecting the Write PEN

When it comes to promotional materials, writing instruments stand out as one of the most cost-effective and impactful choices. There are few occasions where a promotional pen wouldn't be an ideal addition. Pens are not only practical but also tend to be kept by recipients, continuing to promote your brand long after your campaign concludes.

With a plethora of options for promotional pens available, you may wonder where to begin. Below, we outline some key factors to consider:

## 1 Recipient

Make sure the pen you select aligns with your intended audience; for instance what appeals to an executive may not necessarily be the same as what appeals to a student.

## 2 Budget

Take into account your budget and the quantity needed. Additionally, consider whether the promotion might be repeated later in the year. Our prices include a one colour print unless specified otherwise.

Please note that giftbox prices are separate, and there are additional costs for setup and carriage.

## 3 Pen Style

Numerous pen styles are at your disposal, including ballpoint pens, rollerballs, pencils, click-action, and twist pens. It's essential to consider the context of the pen distribution.

## 4 Pen Colour

Consider how your corporate or brand colours will harmonise with the pen's colour. A dark blue logo may pose visibility challenges on a black pen, whereas it would stand out beautifully on a white pen.

## 5 Pen Size

Certain pens have a rounded or bulbous shape, while others come with rubber grips. This consideration is crucial if you intend to fit the pen into a folder or a pen loop.

If you are in doubt whether a pen will fit you can request a sample free of charge.

## 6 Print Sizing

Contemplate the content you wish to include on your pen, a strapline or contact details require more space compared to a logo. If you plan to incorporate a substantial amount of information, opt for a pen with a larger print area.

Keep in mind that your logo will need to be scaled down to fit the designated print area. Therefore, if your logo contains intricate details, it may impact the overall print clarity.

## 7 Print Colour

Choosing more print colours will increase the cost. If colour is essential, consider selecting a pen with a coloured body and a neutral print, like white or silver.

Additionally, we offer precise colour matching options, using Pantone® references or matching to your letterhead or compliment slip for a seamless look.

## 8 Artwork

We require artwork in a PDF or EPS format. If not, we can offer an artwork re-drawing service, which comes at an additional cost. Rest assured, before moving to the production phase, you will always receive a visual representation of how your final pen will appear.

## 9 Delivery

Think about your delivery timeline, as production times can differ based on the pen model. Several models offer express services, and some can be ready within 48 hours, though this may involve extra charges.

## 10 Packaging

Enhancing your promotional pen with a gift box can elevate its perceived value. Various gift box choices are at your disposal, featuring diverse finishes, shapes, materials, and sizes. Keep in mind that these boxes occupy additional space, which should be taken into account when contemplating storage solutions.

## Power Products

Be on the lookout for the 'P' Power products icon, as it signifies models that are eligible for express lead time engraving.

# Eco Pen GUIDE

A collection of eco-friendly pens and pencils made from sustainably sourced materials such as card, wheat, bamboo and wood. To reduce your carbon footprint even further, look out for European made models.

## CARD BARREL

Utilising the robustness of recycled cardboard provides a barrel material that not only functions effectively but also naturally decomposes within a relatively brief timeframe. Recycled cardboard can also undergo recycling once more, although eventually, the recycled material may be repurposed into materials used in items such as clothing.

## WOOD BARREL

The wood employed in our pens belongs to the 'Birch' family, a completely natural and 100% biodegradable material sourced sustainably.

## WHEAT BARREL

The wheat plastic employed in our pens combines traditional plastic with 50%-60% plastic derived from wheat straw waste. This typically discarded agricultural residue can be blended with conventional plastics to create pen components, reducing the reliance on traditional petroleum-based plastics.

## COFFEE BARREL

Carefully crafted from recycled coffee ground waste, contributes to a sustainable and eco-friendly approach by significantly diminishing our reliance on oil-based plastic materials, thus making a meaningful impact on environmental conservation.

## BAMBOO BARREL

Bamboo is a completely natural and 100% biodegradable material, cultivated without pesticides and with significantly lower water usage compared to other crops. We responsibly source bamboo from sustainable origins to craft barrels that are not only visually appealing but also resilient.

## ALUMINIUM BARREL

Environmentally conscious pens skillfully manufactured using recycled aluminium cans for the body, some of the plastic trims are crafted from recycled PET, which is from discarded water bottles.

## PET BARREL

PET plastic is extensively employed in producing water bottles and holds the distinction of being the most commonly recycled plastic. Our RPET is sourced from recycled water bottles and can undergo recycling once more – in fact, RPET can be recycled up to 10 times!

For more information on eco pens and their various designs, please don't hesitate to contact our sales team. They will be delighted to provide you with detailed information and assist you in selecting the best eco pens for your specific needs. Embrace sustainability and make a positive impact by choosing eco-friendly pens today.

Choosing the perfect...

# Pen Box

Choosing the perfect pen box involves a thoughtful consideration of design, personalisation and customisation. Whether for corporate gifts or personal use, a well-designed, personalised and customised pen box reflects attention to detail and elevates the overall value of the writing instrument it holds.

## Design.

Most of our gift boxes are supplied with white protective sleeves and whereas we do not offer to print on these we can replace them with a digitally printed version which offers a full colour process print all around the sleeve.

## Personalise.

Add the finishing touch to your gift box with eye-catching personalisation. Some of the branding techniques on offer include printing, foil blocking, de-bossing and bespoke plaques.

## Customise.

For an even more impressive wow factor, consider selecting a gift box featuring a customized foam inlay; this foam can be precisely tailored to ensure a flawless fit for the enclosed item.

## 5. QUOTATIONS AND CONTRACTS

5.1 Orders are accepted subject to our right to adjust prices quoted to take account of any changes in the law or government regulations requiring us to increase prices by way of direct taxation, import duties, custom and excise duties or otherwise. The prices are based on today's current costs of production and in the event of increase in wages or costs of materials to us occurring after the confirmation or accepted contract, we shall be entitled to charge such increases to you.

5.2 To ensure accuracy, orders must be confirmed by fax, post or email. Telephone orders cannot be processed until written confirmation has been received. All changes to orders must be confirmed in writing and are subject to all costs incurred until the date of our acknowledgement of change.
