Voxie Tactics

Voxie Tactics is an online Free To Play Tactical Role Playing Game (RPG) with dynamic gameplay and allows true player ownership in the form of cryptocurrency and in-game NFT items. The game currently has 3 modes of PvP gameplay:

- **Draft Arena** – players can play using the free Starter Voxies from a selection of certain classes and earn VOXEL tokens or NFT drop rewards if they win a battle
- **Extreme Arena** – players can play with the Voxies NFT that can be equipped with the Voxie Tactics Items NFT and win a battle to earn rewards. The Voxies NFT increases the VOXEL tokens earned and VOXEL Bonus Bag and NFT drop chance depending on their rarity and other factors, but Extreme has increased complexity due to the wide range of team compositions that can be made.
- **Pro Arena** – a new permanent arena released in October 2024, it has the same mechanics as Extreme Arena but only allows up to Rare rarity items to be equipped by Voxies and has lower rewards than Extreme but higher than Draft.

The game is currently only playable in Windows, with the Mobile version closed beta planned in early 2025 and the Mac version and PvE (player vs environment) gameplay in the works.

VOXEL Token

The **VOXEL token** is Voxie Tactics’ official cryptocurrency. It is an ERC-20 token in the Polygon network launched on December 14, 2021 through the Binance Launchpad and is listed in multiple cryptocurrency exchanges such as Binance, Coinbase and Crypto.com. It can be earned by participating in the Draft or Extreme PvP arena battles of Voxie Tactics. As the currency of the Voxie Tactics ecosystem, it has a wide range of utilities: it can be used on buying and selling NFTs in the [Voxies Marketplace](#), buying consumables for use in battle, renting NFTs or earning from NFTs rented out and forging in the Arcanist’s Forge.

The Voxies NFT collection is an ERC-721 token in the Polygon network which started as one of the early Ethereum NFT projects in 2021 that employed bonding curves during minting and later migrated into Polygon.

April 29th

- **Voxie Tactics** was launched in its **Unity** game engine version on April 29th, 2024. The move to Unity from the legacy version marked a significant milestone for Voxie Tactics, elevating the game's visuals and gameplay to new heights, offering players a more immersive and solidified gaming experience.
- Key changes/improvements in the Unity version:
 - **Improved Visuals and Graphics:** New visual effects for all spells and abilities, new animations for all player in-battle actions, new splash screen and background graphics for the main menu, updated all map visuals and decorations
 - **User Interface (UI):** Revamped battle UI with new action buttons, improved "HP" and "MP" overhead display in battle
 - **Party Roster:** New "Tavern" party roster background for better immersion, added ability for players to see each character and consumable items and their details in Party Roster
 - **Game Security and Accessibility:** New measures to prevent bots and exploits from harming player experience and exploits of consumables and items, support for lower PC specifications and a larger range of monitor resolutions
 - **Economy and VOXEL:** Voxie Bounties allow defeated players to earn VOXEL based on how many enemy characters they defeat in battle, new rank rewards system with 6 tiers (from Trainee to Tactician) means higher ranks lead to better and more rewards
- The Voxies website was also updated a few days before the Unity Version release, revealing the new logos, branding, illustrations and a redesigned homepage.

Voxie Tactics Major Updates and Events in 2024 (continued)

End of The Search For The Snow Crystal Event

December 18th, 2023 – April 3rd, 2024

- The **Search For The Snow Crystal** event, which featured the limited-supply **The Snow Crystal** accessory, ended on April 3rd, 2024. A total of 10 out of the 21 Snow Crystal accessories were minted during the event.
- 9 Snow Crystals were minted during the event using the Snow Crystal Unification recipe: 2 distinct wallets have used this recipe, with one wallet having used the recipe 3 times, and the other wallet 6 times. 1 Snow Crystal was also the prize of the Search for the Snow Crystal Giveaway campaign where participants had to provide a secret code to enter. The giveaway winner was drawn during the Valentine's Day Twitch Stream on February 14th, 2024.

Olympia Set Release

August 15th – November 5th

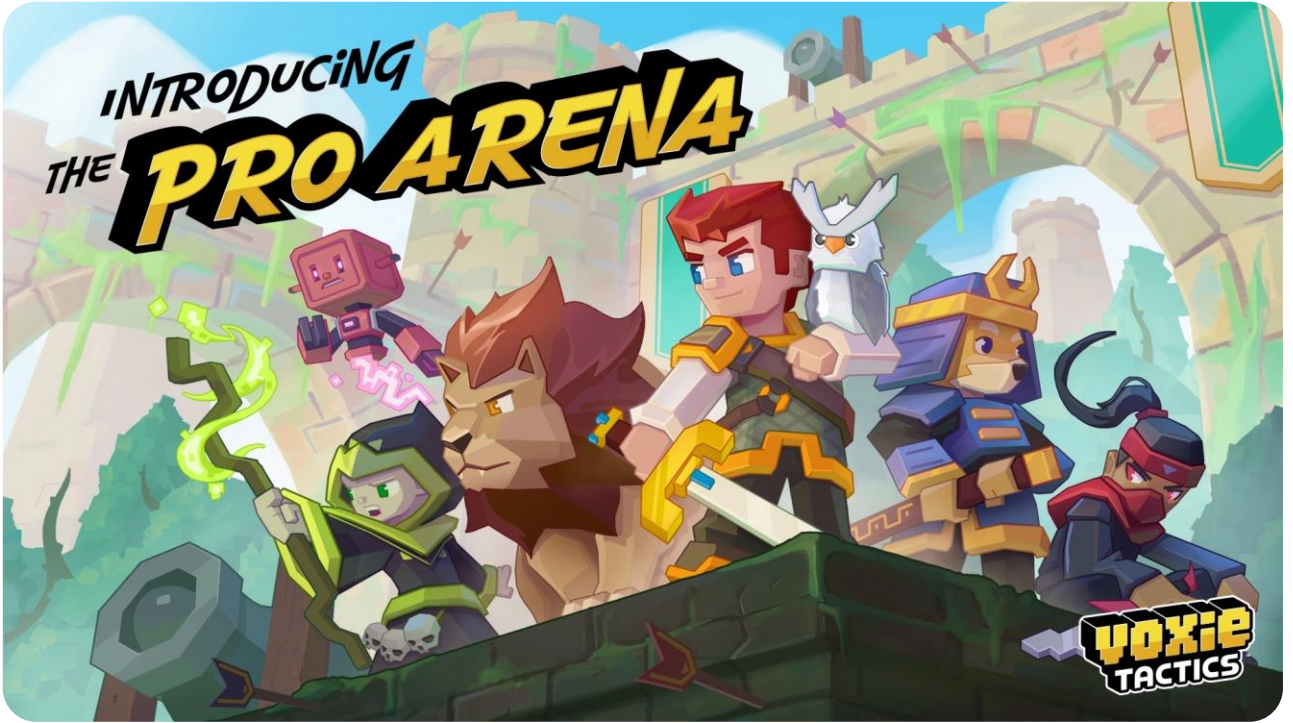

- The **Olympia Set** is a Voxies Marketplace exclusive and limited offer that ran from August 15th to November 5th. The Olympia set featured Olympic-themed items that can be equipped by Voxies in-game, ranging from the **Legendary Olympia Togas**, **medal accessories** matching the Olympic medals and **The Voxies Torch** wand.
- The Olympia Togas and Medals were available as rewards in the Rare, Epic and Legendary Smelting recipes in the Arcanist's Forge, while The Voxies Torch was only available as a reward by identifying Unidentified Items.
- The Olympia set introduced the first items that provide usable abilities in-game when equipped by a Voxel. These abilities appear in the Special abilities of a Voxel. The Olympia Togas also feature the Glory of the Games ability which applies the new Flux status effect to ally Voxies, providing 10 MP every 3 ticks/turns for four times.

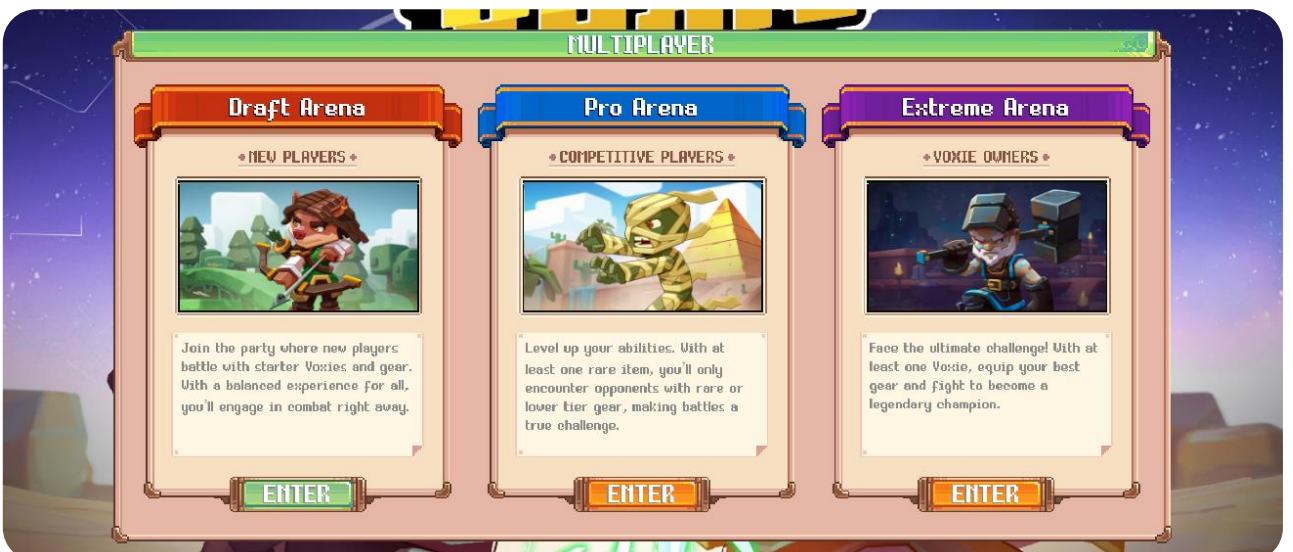

Voxie Tactics Major Updates and Events in 2024 (continued)

Pro Arena Release

October 16th

- The **Pro Arena** was released on October 16th, aiming to enhance new players' onboarding experience and ensure a fair and competitive environment for all. The rollout of this new permanent arena also marked the first phase of the Voxie Champions event launch.
- **Players must own or rent at least one Rare Voxie Tactics Item NFT to compete in the Pro Arena.** Owning or renting a Voxie is not required, however any Voxie (Starter or NFT, any rarity) is permitted. However, **Epic, Legendary, Godly and Special rarity gear are prohibited** in the Pro Arena to establish a more level playing field.
- The name Pro Arena was the winner of a community poll for the new arena's name, the other choice being Rare Arena.
- The Pro Arena addresses large disparities in player strength. By limiting equipment rarity to Common (Virtual), Uncommon (Virtual) and Rare (NFT) categories, the arena ensures that players with less powerful gear can compete based on strategy and skill rather than be overwhelmed by opponents with significantly better gear. This approach emphasizes skill, strategy, and creativity in team compositions for players who don't possess higher-level (i.e., Epic rarity and above) gear.
- VOXEL rewards in the Pro Arena are greater than Draft Arena but lower than Extreme Arena. The core mechanics of arena matchmaking, tiers (i.e., Trainee to Tactician) and the reward system remain unchanged, with player ELOs being reset for this new arena on release.

Voxie Tactics Major Updates and Events in 2024 (continued)

Champions Tournament

November 19th – December 17th

- The **Voxie Tactics Champions Tournament** ran for **28 days** from November 19th, 2024 to December 17th, 2024. Results and prize distribution will start during the week of January 20th, 2025.
- Similar with the Pro Arena, the community was polled on the name for the tournament, with the choices being Voxie Champions, Voxies Challenge and Voxies Showdown.
- The tournament featured a **One Million VOXEL Prize Pool** and occurred in two arenas: the **Pro Arena** and the **Extreme Arena**. Each arena had its unique leaderboard and prize pool, and **leaderboard rank was based on Arena Points**, whose amount is correlated to Team Composition, Ranking, and Voxies Defeated in battle. The 1,000,000 VOXEL prize pool is split into 200,000 VOXEL for 1,500 players of Pro Arena and 800,000 VOXEL for 1,500 players of Extreme Arena. The excess reward pool will be allocated among qualified players.
- During the Champions tournament, when players win battles and defeat enemy Voxies, they earned Arena Points instead of earning direct VOXEL rewards. VOXEL could still be rewarded after every battle won in the form of a **VOXEL bonus bag**, whose drop chance is affected by Rank Tier and Voxie Rarity and can randomly contain from 1 up to 100 VOXEL per bag.
- The **Champions Chest** loot box has a chance to drop after winning a battle during the event. It can still be opened in the Arcanist's Forge and can result in the event-exclusive **Legendary Event Armor and Pets!** The Forge was also updated prior to the tournament to include the **Legendary Champion Headpieces and Accessories**. The new items also feature the first implementation of **set bonuses** in the game when equipped in battle, with a complete 5-item set providing 2 stat boosts and the new Alacrity ability which grants self-target Haste.

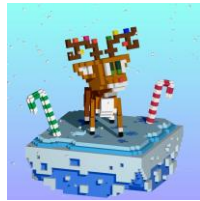

Voxie Tactics Major Updates and Events in 2024 (continued)

Winter Forge Update

December 17th (ongoing)

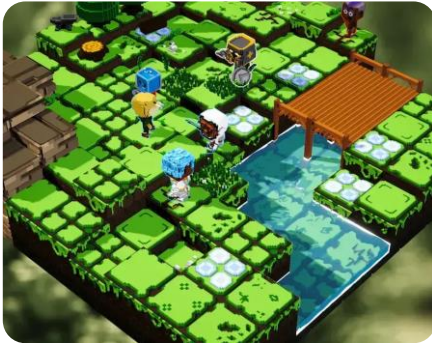

- The **Winter Forge** update went live on December 17th, featuring **eight new winter-themed items** available through forging and through the **Ice Cube loot boxes** which can be dropped as an in-game reward.
- The update introduced **3 new set bonuses** from most of the new items and pet: Tundra, Permafrost and Avalanche sets. It also features the first Rare rarity item that provides an increase in the movement stat: Snow Striders.
- Limited winter-themed items featured in 2021-2022 return with the update: the Snowball Launcher gun (from Dec. 2021 Winter Weapon Giveaway) and the Reindeer pet and Santa Hat (from Dec. 2022 Holiday Gift loot box).

VOXEL Rewards

- The team reduced the randomness (i.e., the gap between the low and the high rewards of VOXEL was narrowed) of VOXEL rewards January 5th for a greater experience per game and less volatility. - An update during the Champions Tournament on December 4th increased the **minimum game time** for all arenas from 3 to **5 minutes**, added a timeout penalty for players who quit a match before the 8-minute mark, and removed rewards eligibility for matches that end before 5 minutes.
- The **revamped VOXEL reward system** went live on December 17th after the Champions Tournament, which retained the **VOXEL Bonus Bags** and **re-enabled Direct VOXEL rewards**, with Bonus Bags having a larger place in the reward experience. **Trainee rankings were no longer be eligible for Direct VOXEL rewards** after the update. About The Author

Moonscaper here! I'm a Voxies and Voxel Tactics Items NFT holder and I've been a part of the Voxies community since June 2021.

My Voxies highlights in 2024: winning a Gold Medal from Epic Smelting with 0.7% chance in 2 attempts, completing the legendary Bear armor set, almost getting 1 copy of each existing rare weapon (only need to reinfuse 4 of them)
