March 2025

February on Theuniskraal

"Mother Nature is a cruel Mistress!!!"

Test her at your own peril.

All our activities in the vineyard are governed by Mother Nature's mood. We pay close attention to climatic conditions as this determines the pace at which our grapes ripen. We cannot predict anything and are forced to be patient until all the conditions are perfect. We have a very small window when this happens and when it does, chaos prevails. Lots to do and very little time to make it happen.

Besides the mechanical harvester their is a huge team of people busy in the vineyard during harvest. It can best be described as the perfect symphony of nature, man and machine. All working in harmony to produce our amazing wines.

We cannot wait to see what Mother Nature has in stall for us in March.

A TRIBUTE TO CCR & SMOKIE
