PROGRAM INVESTASI DI KABUPATEN YAHUKIMO INVESTMENT PROGRAM IN YAHUKIMO REGENCY

Kabupaten ini memiliki potensi luar biasa yang perlu mendapatkan sentuhan dan dikembangkan secara optimal. Potensi Daerah tersebut dikelompokkan ke dalam Program-Program Investasi antara lain:

1. Program Peningkatan Listrik (PLTMH dan PLTA) dan Pertambangan:

Kabupaten ini memiliki sumber daya alam yang luar biasa untuk membangun Pembangkit Listrik tenaga Mikrohidro (PLTMH) dan Pembangkit Listrik tenaga Air (PLTA) terutama di Distrik Koropun, Silimo, Anggruk, Bomela, Holuwon, Soba, Nipsan, Kurima, Dekai, Duram, Sela, Ubahak, Kwikma, Samenage, Kayo, Yogosem, Pesama dan Kwelamdua (PLTMH) dan Distrik Kurima dan Dekai (PLTA); serta Pembangkit Listrik Tenaga Diesel (PLTD) di Ibukota Kabupaten. Jaringan listrik yang dihasilkan diharapkan mampu menjangkau seluruh wilayah Kabupaten Yahukimo selama 24 jam per hari. Pemerintah Kabupaten Yahukimo akan bekerjasama dengan PT. PLN (Persero). Di Sektor Pertambangan, Kabupaten Yahukimo memiliki potensi pertambangan batubara dan emas yang perlu mendapatkan perhatian para Investor.

2. Program Pengembangan Infrastruktur, Industri dan Perdagangan:

Pada tahun 2020 direncanakan Pembangunan Infrastruktur Daerah yang diarahkan pada peningkatan perekonomian masyarakat Kabupaten Yahukimo, antara lain: Pembangunan Bandar Udara Nop Goliat di Dekai agar dapat didarati pesawat udara berbadan lebar, termasuk di dalamnya Pengurusan Sertifikasi dan Pagar Bandara; Pengembangan Pelabuhan Pepera; Pembangunan Infrastruktur Jalan; dan Pembangunan Lapangan Terbang Perintis di Distrik Sobaham dan Koropun. Pada Sektor Industri dan Perdagangan, dilakukan upaya Pengembangan Industri skala kecil dan menengah, terutama industri rumah-tangga serta Pengembangan Usaha Perdagangan.

The Regency has extraordinary potential that needs to be optimally touched and developed. The Potentials of the Regions are grouped into Investment Programs, among others:

1. Electricity (PLTMH and PLTA) and Mining Improvement Program:

The Regency has extraordinary natural resources to build the Micro Hydro Power Plants (PLTMH) and the Hydro Electric Power Plants (PLTA) especially in the Districts of Koropun, Silimo, Anggruk, Bomela, Holuwon, Soba, Nipsan, Kurima, Dekai, Duram, Sela, Ubahak, Kwikma, Samenage, Kayo, Yogosem, Pesama and Kwelamdua (PLTMH) and the Kurima and Dekai Districts (PLTA); and the Diesel Power Plants (PLTD) in the Regency Capital. The generated electricity network is expected to be able to reach all regions of Yahukimo Regency for 24 hours per day. The Government of Yahukimo Regency will collaborate with the State Electricity Company (PT. PLN Persero). In the Mining Sector, Yahukimo Regency has the potential for coal and gold mining which needs to get the attention of investors.

2. Infrastructure, Industry and Trade Development Program:

In 2020 the Regional Infrastructure Development is planned which will be directed towards improving the economy of the people of Yahukimo Regency, including: the Development of the Nop Goliat Airport in Dekai so that wide-bodied aircrafts can be landed there, including the Management of Airport Certification and Fence; the Development of the Port of Pepera; the Road Infrastructure Development; and the Development of Pioneer Airfields in Sobaham and Koropun Districts. In the Industry and Trade Sector, efforts are made to develop Small and Medium Scale Industries, especially home industries and Trade Business Development.

Shiny Investment in Yahukimo Regency

3. Program Peningkatan Produksi Tanaman Pangan dan Hortikultura:

Salah satu makanan pokok penduduk Papua pada umumnya dan Yahukimo pada khususnya adalah Sagu. Wilayah Kabupaten Yahukimo memiliki area luas untuk pertanaman sagu baik untuk dibudidayakan maupun yang tumbuh di alam. Wilayah tersebut antara lain di Distrik Dekai, Seredala, Suru-Suru, Sumo, Obio dan Yahuliambut. Peningkatan Produksi Sagu diarahkan guna dapat memenuhi kebutuhan dalam wilayah Kabupaten maupun untuk diproduksi dengan pemasaran ke luar wilayah Kabupaten. Disamping itu juga direncanakan Sub-Program antara lain: Sub-Program Intensifikasi dan Ekstensifikasi Tanaman Pangan; Diversifikasi Pangan Lokal; Pemenuhan Sarana Produksi Pertanian; dan Pengembangan Tanaman Hortikultura (Sayuran, Buah-buahan, dan Biofarmaka).

4. Program Peningkatan Produksi Perkebunan:

Beberapa tanaman perkebunan yang mampu menjadi tanaman unggulan Kabupaten Yahukimo antara lain adalah: Kelapa Sawit, Kopi, Kakao, Buah Merah dan Jarak. Program Peningkatan Produksi selain diarahkan pada peningkatan produksinya, juga dikembangkan bagi Sub-Program Pengolahan Hasil Produksi Perkebunan, Pengembangan Kelapa Sawit dan Pengembangan Wilayah Pertanaman Kakao.

Pengembangan Perkebunan KOPI (jenis Arabika) dilakukan di Distrik Kurima, Tangma, Werima, Kwelamdua dan Holuwon; BUAH MERAH dilakukan di Distrik Dekai, Kurima, Anggruk, Obio, Pasema, Hogio, Tangma, Ukha, Nipsan, Holuwon, Lolat, Bomela, Seredala; Kabianggama, Kwelamdua, Hilipuk, Duram, Kwikma, Kayo, Sumo, Samenage, dan Nalca; KAKAO diupayakan di Distrik Dekai, Seredala dan Suru-Suru. Sedangkan biji JARAK dikembangkan di Distrik Dekai, Seredala dan Suru-Suru.

3. Food Crop and Horticulture Production Improvement Program:

One of the staple foods of the population of Papua in general and Yahukimo is Sago. Yahukimo Regency has a large area for sago plants both to be cultivated or grows in nature. These areas include The Districts of Dekai, Seredala, Suru-Suru, Sumo, Obio and Yahuliambut. The Improvement of Sago Production is directed to meet the needs inside the Regency area and to be produced with marketing outside the Regency. Besides that, there are also planned Sub-Programs, among others: the Sub-Programs of Food Crop Intensification and Extension; Local Food Diversification; Fulfilment of Agricultural Production Facilities; and Horticultural Crop Development (Vegetables, Fruits and Biopharma).

4. Plantation Production Improvement Program:

Some plantation crops that can become superior crops in Yahukimo Regency include: Palm Oil, Coffee, Cocoa, Red Fruit and Castor oil beans. Besides increasing the production program, the Production Improvement Program is also developed for the Sub-Programs of Plantation Production Processing, Oil Palm and Cocoa Plantation Area Development.

Development of COFFEE Plantation (Arabica type) is carried out in the Districts of Kurima, Tangma, Werima, Kwelamdua and Holuwon; RED FRUIT is carried out in the Districts of Dekai, Kurima, Anggruk, Obio, Pasema, Hogio, Tangma, Ukha, Nipsan, Holuwon, Lolat, Bomela, Seredala; Kabianggama, Kwelamdua, Hilipuk, Duram, Kwikma, Kayo, Sumo, Samenage and Nalca; COCOA is sought in the Districts of Dekai, Seredala and Suru-Suru. While CASTOR OIL beans were developed in the Districts of Dekai, Seredala and Suru-Suru.

Kemilau Investasi di Kabupaten Yahukimo

5. Program Pengembangan Peternakan dan Perikanan:

Sebagaimana umumnya wilayah Papua, sebagian besar ternaknya adalah babi. Oleh karena itu Pemerintah Kabupaten Yahukimo menyusun Pengembangan Produksi Ternak diarahkan pada komoditas Babi. Sedangkan dalam upaya memenuhi kebutuhan bagi komunitas yang tidak mengkonsumsi daging babi, dilakukan upaya pengembangan ternak sapi potong dan kambing di Distrik Dekai, Seredala dan Anggruk. Untuk memenuhi kebutuhan akan daging ayam dan telurnya, dilakukan pula Pengembangan Peternakan Unggas (ayam buras, ayam pedaging, ayam petelur dan itik). Pada Sektor Perikanan dikembangkan Peningkatan Budidaya Perikanan (Darat) dan Pengembangan kura-kura.

6. Program Pengembangan Potensi Kehutanan

Luas kawasan hutan di Kabupaten Yahukimo adalah 413.630 ha dengan produksi kayu gergajian mencapai 525,7 m³/tahun. Upaya pemanfaatan potensi ini dilakukan dengan tetap memperhatikan azas lestari dan berkelanjutan, sehingga dapat dihindarkan terjadinya penggundulan hutan dan illegal logging. Menjaga lingkungan hutan agar tetap lestari sebagaimana asalnya, juga akan mampu membuatnya menjadi paru-paru wilayah Kabupaten Yahukimo, memberikan hasil kayu dan non-kayu yang dapat dimanfaatkan untuk kesejahteraan masyarakat setempat, menghindari terjadinya banjir dan tanah longsor yang sangat merugikan perekonomian daerah.

7. Program Pengembangan Pariwisata:

Kepariwisataan Kabupaten Yahukimo terutama di Distrik Kurima, Anggruk, Mugi dan Dekai, perlu dikembangkan dalam upaya menarik wisatawan sebanyak-banyaknya dengan keunggulan alam dan budaya yang dimilikinya. Untuk itu diperlukan penyempurnaan sarana dan prasarana Kepariwisataan serta penyiapan paket wisata berikut Biro/Agen Perjalanannya.

4. Animal Husbandry and Fisheries Development Program:

As is generally the case in Papua, most of the livestock are pigs. Therefore, the Government of Yahukimo Regency has developed the Animal Husbandry Production Development directed at pig commodity. Meanwhile, to meet the needs of communities that do not consume pork, efforts are made to develop beef cattle and goats in the Districts of Dekai, Seredala and Anggruk. To meet the needs of chicken meat and eggs, the Poultry Farm Development (domestic chickens, broilers, layers and ducks) is also carried out. In the Fisheries Sector, Aquaculture (Land) and Aquatic Turtle development are developed.

6. Forestry Potential Development Program:

The forest area in Yahukimo Regency is 413,630 ha with sawn timber production reaching 525.7 m³ a year. Efforts to exploit the potential are carried out with due regard to the Principle of Preservation and Sustainable, so that deforestation and illegal logging can be avoided. Keeping the forest environment as sustainable as it was originally will also be able to make it into the lungs of the Yahukimo Regency area, providing timber and non-timber products that can be utilized for the welfare of the local community, avoiding floods and landslides which are very detrimental to the Regional Economy.

7. Tourism Development Program:

The Tourism of Yahukimo Regency, especially in the Districts of Kurima, Anggruk, Mugi and Dekai, needs to be developed to attract as many tourists as possible with its natural and cultural advantages. For the reason, it is necessary to improve tourism facilities and infrastructure as well as to prepare a tour package and its travel agents.
