## IMPACT

Being an environmentally responsible company is at the core of what Swannies does. They hope to influence the industry to think more critically about how their products impact the environment and what we can do about it.

### MATERIALS

REPREVE is a 100% recycled polyester made from discarded water bottles and is used in select styles.

REPREVE makes up over 50% of Swannies' fabric use, and to date they've used over 3 million recycled water bottles to make their products.

### PACKAGING

Swannies' primary packaging supplier, ecoenclose, is the premiere source for sustainable packaging materials.

Their recycled & reusable packaging products allow Swannies to reduce both their waste and carbon footprint.

### OFFSETTING

Through Swannies partnership with GreenStory, they calculate the lifecycle emissions of each of their products.

Swannies offsets those emissions by supporting carbon reduction & removal projects in reforestation & renewable energy adaptation.
