# BRAND STORY

Rabbit & Friends is a Polish brand owned by Regnum, a company established in 2000. The idea for the first lamp came from one of the co-owners — a mother of two children. The product proved so functional that it quickly gained the trust of other parents.

# BRAND PHILOSOPHY

Our brand focuses on functionality, quality, and aesthetics. All lamps are made exclusively from the finest, carefully selected materials to meet the expectations of both parents and children.

Rabbit & Friends lamps combine charming design with the highest quality craftsmanship. They are durable, damage-resistant, and safe — thanks to LED technology, they don't heat up, and their soft surface is free from sharp edges.

Made from safe, **BPA-free silicone**, they are suitable even for the youngest children. They meet strict **CE** and **RoHS** standards, guaranteeing their safety. This allows parents to be confident they are choosing a product created with care for their children.
