

# Sheet Wood Veneer

## Dual Digital Specialty Sheet Products

Wausau Coated Products offers a distinctive line of specialty pressure-sensitive Dual Digital stocks, designed for premium label applications that demand both performance and visual impact.

Featuring real cherry and birch wood veneer facestocks, these materials provide a naturally elegant look with a surface smooth enough for high-quality printing and converting.

- **Cherry is known for its durability, smooth grain, and rich, warm color.**
- **Birch offers a fine grain, uniform texture, and a light golden hue.**

Each wood type showcases natural variations, making them ideal for labels that require a unique, handcrafted appearance.

These stocks are Dual Digital compatible, meaning they are optimized for both HP Indigo and Production Digital Presses, offering flexibility across digital platforms.

Product #	Description	Adhesive	Liner	Size	Scoring	Sheets per Ctn
<b>DUAL DIGITAL</b>						
WCD-0007	12 pt Cherry Wood Veneer	Xtra Perm	50#	13 x 19	-0-	50
WCD-0008	12 pt Birch Wood Veneer	Xtra Perm	50#	13 x 19	-0-	50

\*Please note, wood is a natural material, there will be variations in color, texture, and grain pattern. Like real wood, these sheets will react to the moisture and humidity in the air.

### Printing Tips

Due to the natural texture and the grain of the wood, the following Indigo press settings are recommended:

- "Uncoated" setting
- 2 null cycles - for better ink transfer
- Run cleaner sheets more often on large runs
