Optimise the guest experience with Philips MediaSuite

Get guests connected

Model 65HFL6114U/27

Helping to create memorable guest experiences

From premium TVs in the room to touchscreens at check-in, Philips' professional TVs and signage solutions help run things smoothly. Unique features like Ambilight and CMND offer more interactivity, more control, and more style.

Connectivity is everything - **Philips MediaSuite** brings a world of options to the screen with Chromecast built-in, Google Play Store and Google Voice Assistant.

Customisable branding

Philips MediaSuite features a clear, easy-to-navigate user interface (UI) that can be customised with any branding.

CMND & Check-in

Visitors feel welcome. CMND & Check-in lets a hotel use individual information such as name and language spoken to create a personalized experience.

Powered by Android

Android-powered Philips professional displays are fast, versatile and easy to navigate.

All displays are optimised for native Android apps and a facility can install web apps directly to the display too.

Chromecast built-in

Enable instant, secure wireless casting of movies, presentations, and more from smart devices (mobiles, laptops, tablets) in up to 4K resolution.

Terms and conditions apply for Netflix activation.

Netflix

Integrated Netflix access makes watching the latest movies and shows from an account easier, faster and more convenient. There's no need for any external players or satellite TV, which helps keep operational costs down and installations neat, whilst maintaining a modern look for an establishment.

Google Assistant

Voice control and faster answers are here with the optional Google Assistant enabled remote control (22AV2025B/00).

Hospitality TV solutions

Entertainment designed to enhance the guest experience

Commercial Lite TV's & Public Display

Cost-effective and reliable 4K UHD and Full HD TVs with welcome screen, easy set-up & USB cloning.

Hospitality Full Features TV's

Entertain your guests by unlocking access to premium content, Pro:Centric compatible and enjoy rapid deployment through the USB cloning feature.

Installation & Programing available by an authorized LG integrator.

Hospitality IP & Smart TV's

Offer your guests a better hotel experience through a TV with IP-based programs & provide premium hotel services without the need for set-top boxes. Create custom dashboards and offer informative resources to make your guests' stay more welcoming.

2-3 years on-site commercial warranty on both parts and labor.

Hospitality displays, LED Wall and digital signage solutions

Entertainment designed to enhance the guest experience

Model HG75TQ800NF

Samsung offers a comprehensive range of hospitality displays and wall and digital signage solutions, built to transform the guest experience.

Samsung's display solutions are designed to enhance guest comfort and optimise staff efficiency.

From arrival to departure, and everywhere in between, Samsung's innovative display technologies provide guests with a modern, integrated, and engaging experience.

Invite guests in with captivating displays and memorable experiences, managed by simple operating systems for staff.

Luxury

Indulge guests with vibrant and high-resolution displays powered by Samsung's innovative technology.

Lifestyle

Modern designs that don't compromise quality. Enhance the guests' stay with Samsungs beautiful and iconic displays.

Premium

Bring the comfort of home whilst on the road, with high-quality imagery and intriguing entertainment.

Standard

Welcome guests with a simple and convenient display experience operating from a centralized operating system.

Model shown ~ ALV2 Slim with bluetooth

Advanced RFID & electronic locking solutions

Intelligent and stylish card lock systems

ALV2 Slim

ALV2 Regular

MIWA is a true lock maker who manufactures and controls the quality of every aspect of every lock, from start to finish. Made in Japan since 1945, MIWA lock systems are designed specifically for today's busy hospitality industry.

Using the latest RFID & Bluetooth (BLE) technology, the locking systems are attractive yet durable and easy for guests and staff to use.

MIWA locks systems are approved by most major hotels chains like Marriott, Hyatt, Choice Hotels, Wyndham & more.

As the top choice for independent properties worldwide, MIWA is your gateway to peace of mind!

Key Features

- Bluetooth Low Energy (BLE) Enabled to work with mobile key (optional)
- Guest card can be programmed to open individual lock or multiple rooms, plus all common doors, special and VIP areas
- Property Management System (PMS) & Point of sales (POS) interface ready
- System allows guests and staffs to use cards, key fobs or wristbands
- Staff keys can be audited, timed and set to operate on chosen days of the week
- Master and emergency cards override all locks whether the deadbolt is in use
- 3 years limited warranty

ALV3UMG476

Handle & Color Options

Available in several finishes and handle types. The pressed stainless steel escutcheon is available as standard in 6 high-quality finishes:

Polished Stainless Steel, Satin Stainless Steel, Mid-Bronze, Satin Brass, Polished Brass and Mat Black.

Dedicated hotel access solutions

Hotel access control meeting industry standards, and delivering guest satisfaction

DIRECTKEY™ TECHNOLOGY ~
Mobile access solution

The Onity DirectKey system is a mobile access solution that keeps guests moving, while helping drive engagement, efficiency and growth. Designed to work alongside Onity Trillium locks, most legacy Onity locking systems and the OnPortal locking system, DirectKey technology helps facilities better support and satisfy the way their guests want to interact with the property.

ONPORTAL™ SYSTEM ~
Enterprise Lock Management

The OnPortal system is Onity's latest lock management software: a scalable solution with roving check in option and full access management. Built on research and feedback from front-desk agents on their routines and challenges, the OnPortal system is designed to deliver optimal efficiency, flexibility and guest satisfaction.

SERENE ~ Serene™ luxury locks

- Serene locks use Bluetooth® technology to stay in a ready state so guests can use a hotel provided mobile app to unlock as they approach the door.
- Onity's DirectKey system protects mobile key credentials using 128-bit AES encryption which provides an additional layer of security on top of locking system features built into Serene locks such as user access permissions and audit trails. Serene lock firmware can be upgraded through a firmware utility to optimize lock performance and add new features.

TRILLIUM ~ Trillium® RFID locks

- RFID locks offer a wide variety of levers and finish options to complement your decor.
- RFID locks enable guests to move faster more efficiently, and also provide an additional level of reliability compared to magstripe locks.
- Trillium locks provide the option to implement enhanced credential security for RFID keycards by choosing MIFARE Plus® technology.

TRILLIUM ADVANCE
~ Trillium® ADVANCE RFID locks

- With a two-piece design, Trillium radio frequency identification (RFID) locks offer a wide variety of levers and finish options to complement your decor.
- RFID locks enable guests to move faster and more efficiently, and also provide an additional level of reliability compared to magstripe locks.
- Trillium locks provide the option to implement enhanced credential security for RFID keycards by choosing MIFARE Plus® technology.

Access control adaptable to all types of facilities

Taking the guest experience to a whole new level guest satisfaction
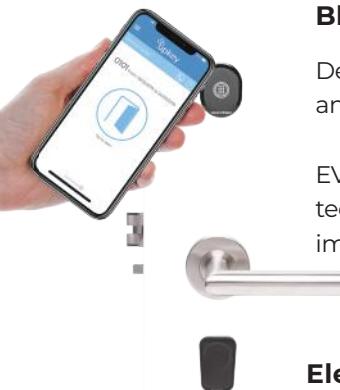

Bluetooth Electronic Lock for Hotels "EVO"

Design technology and innovation converge in EVO to provide an electronic hotel lock of high-performance.

EVO electronic lock incorporates an innovative access control technology, developed by OMNITEC, which allows hotels to implement an unprecedented level of security and control.

Electronic Lock for Hotel "FIT-IN"

Upgrading mechanical, magnetic band, chip or RFID locks is easy and fast with the Fit-In electronic hotel lock. Maintaining the existing mortise, the electronic lock Fit-In adapts to its installation and provides the ease and security of MiFare electronic locks for hotel renovations.

Access Control "Digit Hotel"

Access control with opening by numeric keypad, Bluetooth, proximity card or on-line. Designed to control hotel doors and external access to buildings, garages, etc. and to common areas of hotels and offices.

Access Control "Lift"

Lift access control integrates with elevator access panels. Increase hotel security allowing guests to access only where they have been granted permissions.

Electronic Lock "OS SLIM"   Electronic Lock "OS SLIM CODE"

The OS SLIM and OS SLIM CODE electronic locks stand out for their slim design, with narrow escutcheons, giving both the door and the room style and elegance.

Their high technological level combined with opening via Bluetooth, MiFare proximity card, numerical code and remotely online through Gateway, make these locks some of the most versatile models in the hotel sector.

Electronic Lock for Hotel "FLAT 2"

FLAT 2 electronic lock has been designed to adapt to existing mortises and modernize doors, providing them with a comfortable and safe access control system. Its remote management systems makes the FLAT 2 a perfect lock for mid small hotels with or without a 24h reception.

Wall Reader Access Control "Anti-Vandalism"

The Omnitec wall reader Anti-Vandalism access control is a guarantee of maximum security in access control.With the independent reader unit and control unit, undesired entries are prevented, due to the impossibility of tampering with the controller.

Access Control "MINI"

MiFare wall-reader access control for common areas and entrances of hotels and buildings where an electronic lock can't be installed.

Customizable RFID & magnetic key cards, wristbands and fobs

Access solutions that reflect your brand and wow your guests

Whether you're restocking or upgrading your entry system, count on LOC to deliver cutting-edge access solutions that meet your needs and elevate the guest experience.

Showcase your brand with fully customizable access options:
- Magnetic stripe cards
- RFID key cards
- RFID key fobs
- RFID wristbands

Professional printing and turnkey service
Choose from generic key cards ready to use, brand-standard cards for major hotel chains, or fully customized designs with your logo.

Complete your order with matching accessories:
- Key card fobs
- Key card envelopes and holders
- Eco-conscious materials: paper or bamboo options

Compatible. Reliable. Ready to ship.
Our key cards work with the industry's most widely used electronic locking systems. Trusted by independently owned hotels, franchises, and global chains across North America and around the world.

Drawer Mini-Bar - For premium hotels & cruise lines

A convenient slide-out access, very low energy consumption, rapid cooldown mini-bar. Sets a new benchmark in versatility, comfort and efficiency.

The Drawer Mini-Bar has an elegant design and it is customisable according to a clients' needs - ideal for unusual or reduced spaces creating alternative solutions, with an innovative design.

This new concept of minibar is silent and smart, providing a drawer system for easy access from above. Items within are easy to find and retrieve thanks to the two interior compartments, which can easily be converted into a single space.
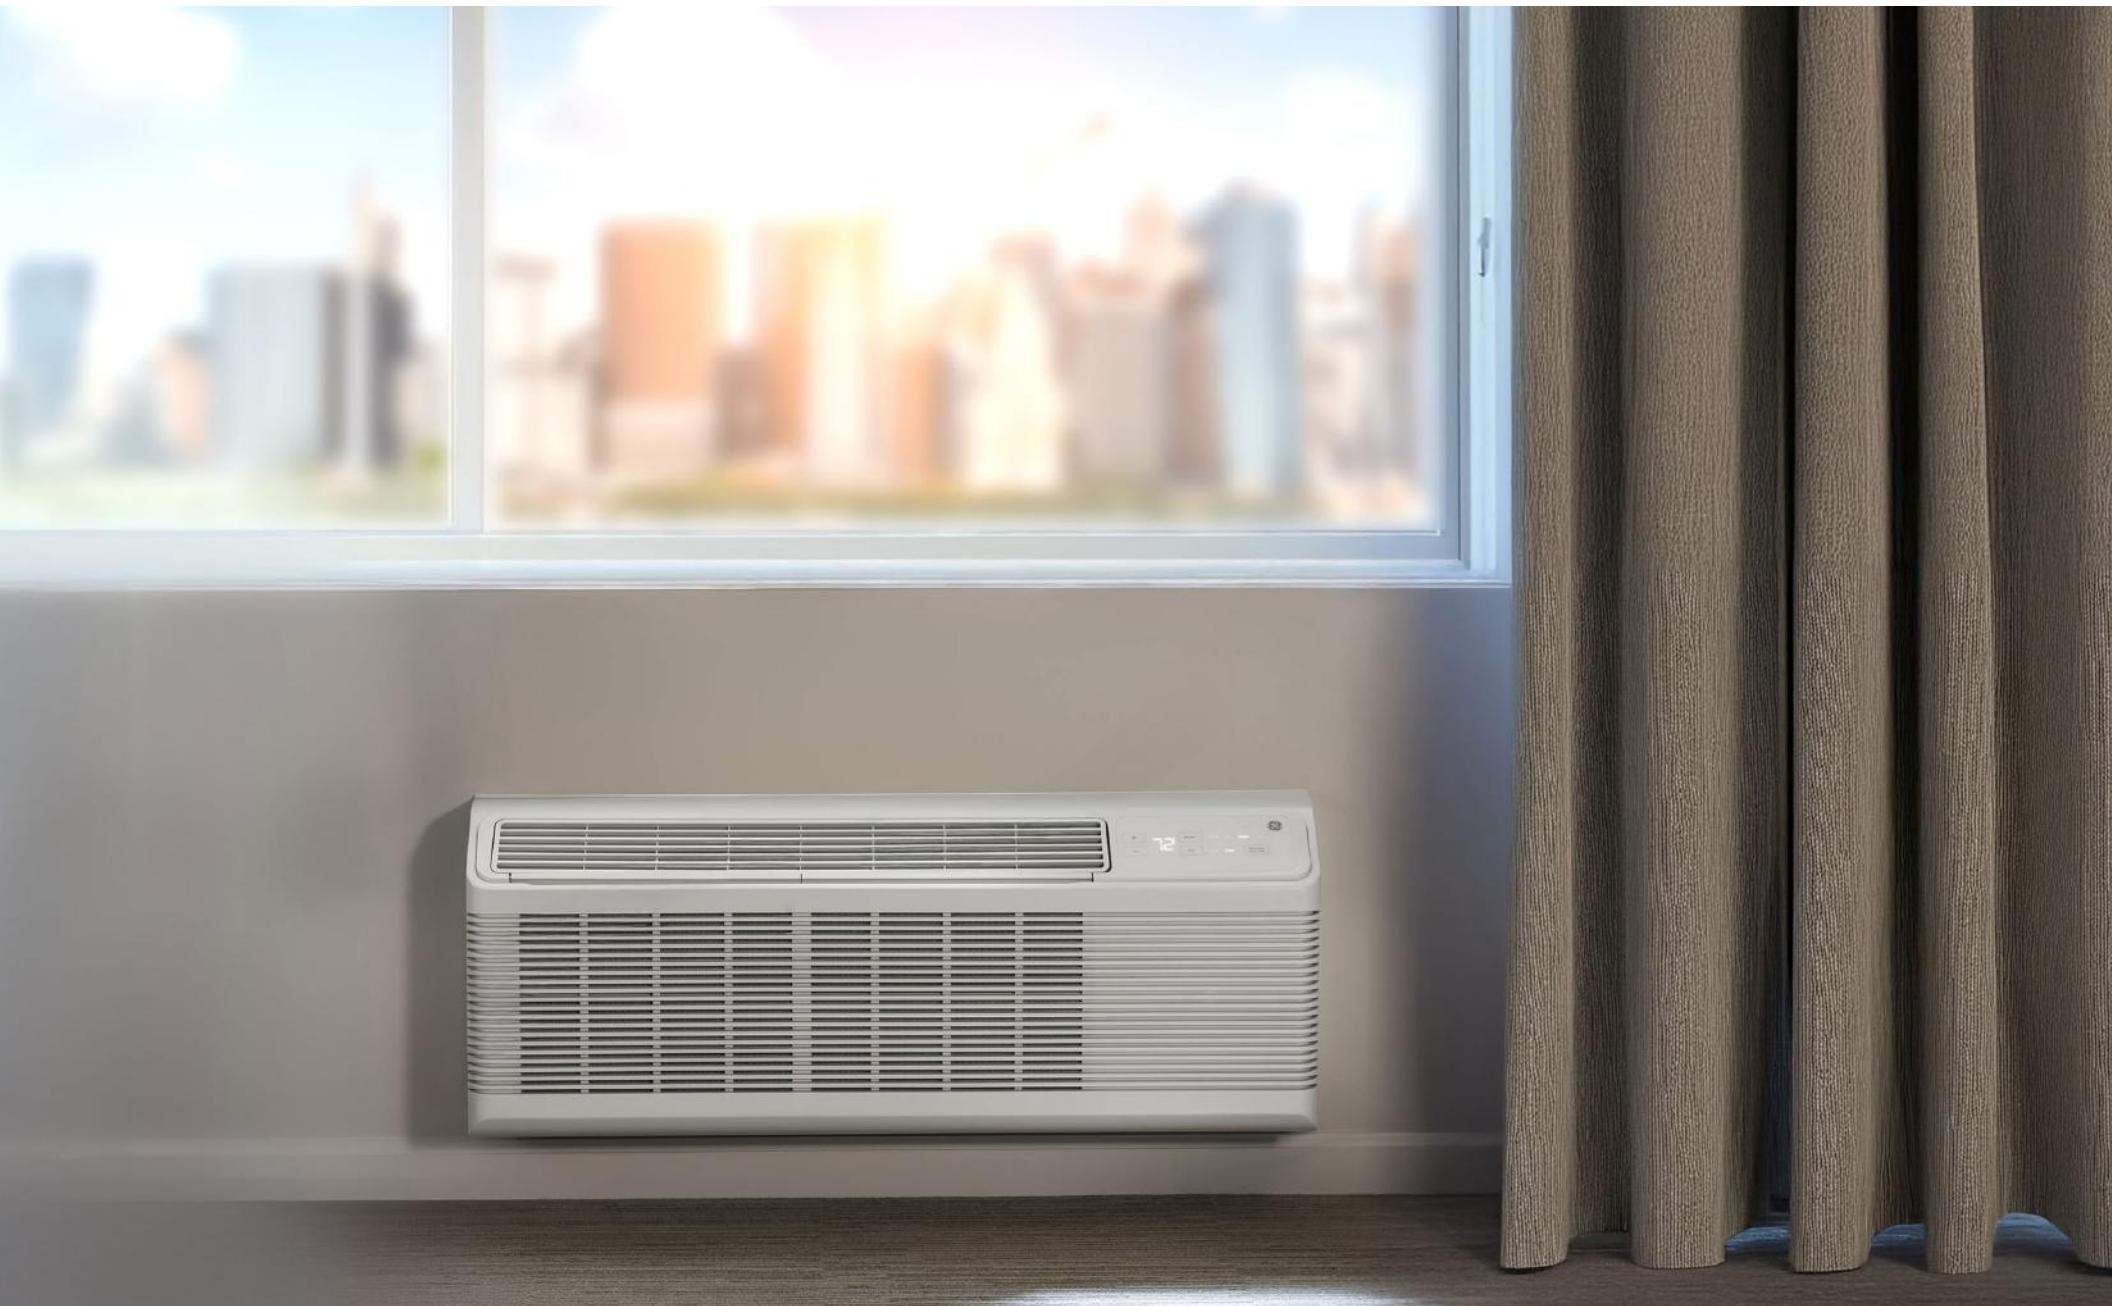

Premium PTAC units for your rooms

Features

- Smart thermostat pairing options with front desk control
- Heat pump feature for energy savings
- Extended parts & labour warranty
- More efficient, more reliable, and much quieter
- Hotel-approved models that meet your needs and budget

The Benefits of PTACs

PTAC units are an economical way to cool and/or heat a room. Easy to install, clean and maintain for years of satisfied use.

Energy Efficient

PTAC models have an efficiency rating up to 13.3 eer, which translates into energy savings.

Optional special features

- Corrosion Protection
- MUA (Make-Up Air)
- ICR (Internal Condensate Removal)

High Efficiency Brand Rotary Compressor

Energy efficient and maintenance-free operation.

Separate Indoor & Outdoor BLDC Motors

Dual motor configurations allow for the lowest sound rating, while also promoting the highest level of energy efficiency.
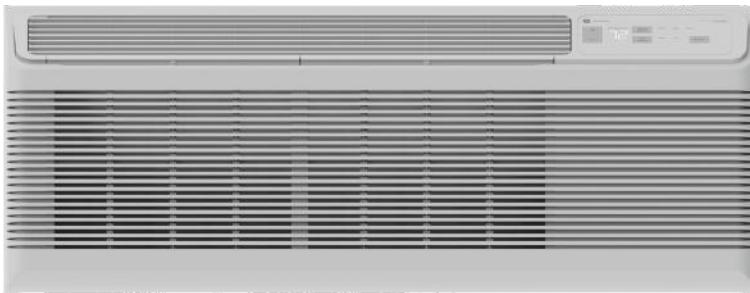

Zoneline® Perfect Control

- Whisper-Quiet Operation
- One Size Fits All: Perfect Control technology PTAC self regulates to room size & room conditions from 4000 to 15000 BTU.
- Efficient Cold Weather Heat Pump: The variable speed compressor and advanced defrost capability on Perfect Control models allow for the best-in-class heat pump operation down to 0°F (excludes ICR models).

Zoneline® Fixed Speed

- New Updated Appearance: The new Zoneline® grey white chassis color will complement any installation and room decor. Easy-to-read interface makes navigation simple.
- Unmatched Durability: All Zoneline® units are made of the highest quality materials and tested in extreme environments to ensure they operate at peak performance, season after season.
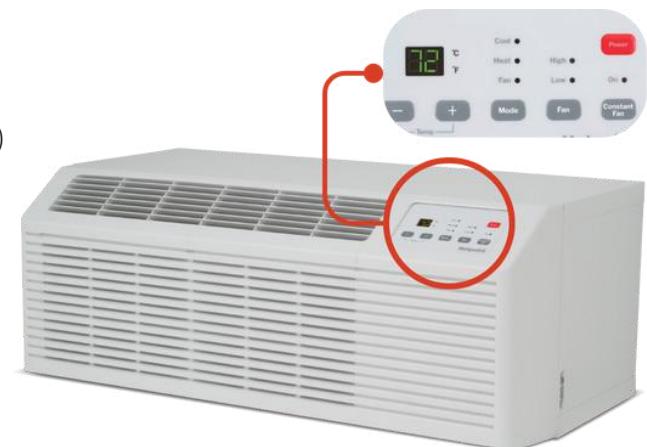

Hotpoint R32

- 2 Fan Speeds
- Slinger Ring Condensate Removal
- Coverless Control Panel
- Automatic Emergency Heat
- Freeze/Frost & Overheat Protection
- Constant Fan Button
- Self-Diagnostics
- Auto Power Recovery

Energy-saving thermostat solution for hospitality

Reduce energy costs and increase operational efficiency

Guests spend more than half their stay outside their rooms, yet heating and cooling systems often continue running at full capacity.

Smarter Energy Savings

The New Dream Ultra Thermostat powered by Energex helps hotel owners cut energy consumption and utility costs by 15–40% by reducing waste in unoccupied rooms.

Flexible, Scalable, and Future-Ready

The Energex platform is compatible with virtually any thermostat and can be expanded with advanced features such as occupancy-sensor light switches, remote control, load shedding, and wireless technologies including WiFi, ZigBee, Z-Wave, and ISM-band modules.

Dream Thermostat by Energex
· Wi-Fi cloud dashboard
· AI-Powered energy management solution
· Selection of wireless and wired sensors

Effortless Installation

Get up and running in under 30 minutes
No disruptions, no downtime, and no impact on your space's appearance.

Custom-Fit for Any HVAC Setup

Each configuration is customized to fit the property's infrastructure and specific HVAC systems, including:

· PTAC (Packaged Terminal Air Conditioner)
· PTHP (Packaged Terminal Heat Pump)
· Baseboard heaters
· VAV / VRV Terminal Boxes
· FCUs (Fan Coil Units)

Energex also integrates seamlessly with any Property Management Software (PMS) and Building Automation System (BAS).

Energex Energy Management Platform

At the heart of the Energex platform is a sleek, digital thermostat dashboard that seamlessly connects to multiple sensors, devices, and networks. Leveraging your building's existing WiFi, our system simplifies installation and reduces the cost of a connected solution by up to 60%.
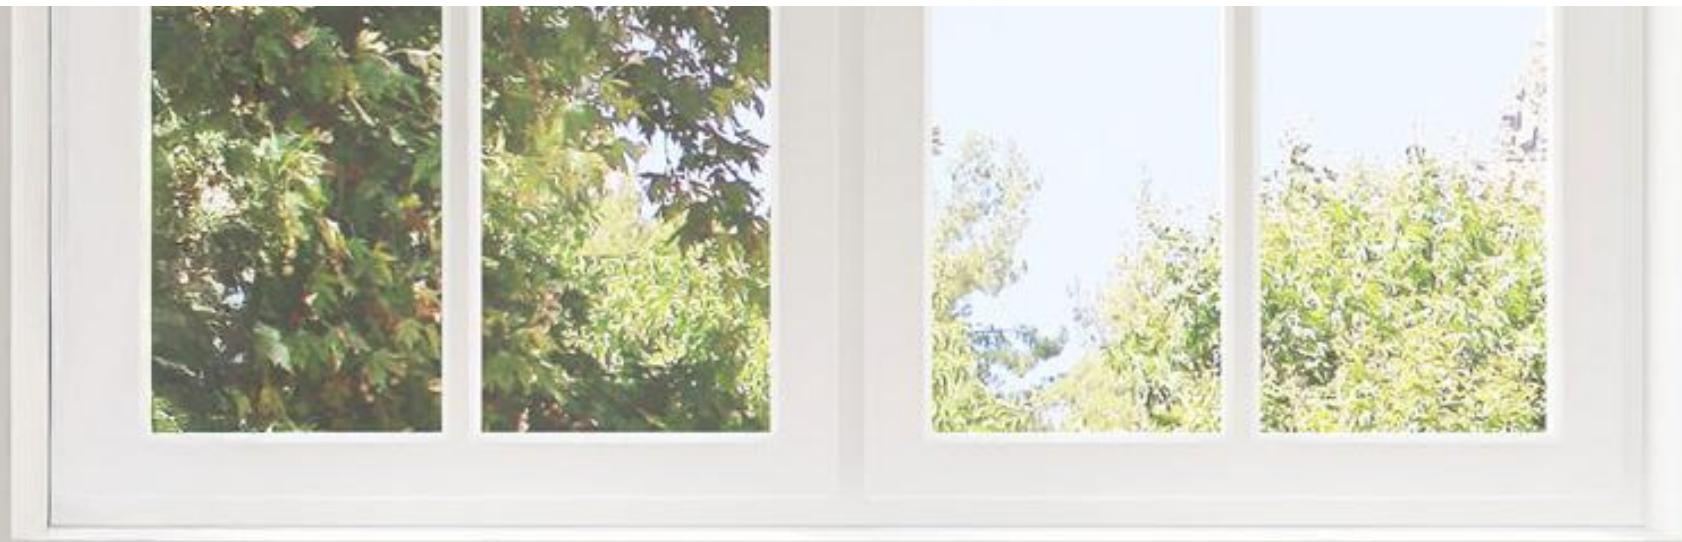

PTAC units

Efficient solutions for all heating and cooling needs

The Benefits of PTACs

PTAC units are an economical way to cool and/or heat a room. Easy to install, clean and maintain for years of satisfied use.

Energy Efficient

PTAC models have an efficiency rating up to 13.3 eer, which translates into energy savings.

### High Efficiency Brand Rotary Compressor

Energy efficient and maintenance-free operation.

Separate Indoor & Outdoor BLDC Motors

Dual motor configurations allow for the lowest sound rating, while also promoting the highest level of energy efficiency.

- Options for hotel rooms of all sizes
- Heat pumps provide an all-year-round ventilation solution
- Powerful cooling and fan speeds for variable airflow
- Eco-friendly R410-A refrigerants
- Anti-Corrosion protection
- Continuous fan operation
- Auto restart: units automatically restart after a power failure
- A high-efficiency compressors providing durability and efficiency
- Freeze protection protects air conditioning coils from freezing
- Compatible with remote digital thermostats

Up to 5-years commercial warranty.
Multiple brands available.

Before puchasing PTAC units, the square footage of the intended space must be determined. This square footage will determine how many BTUs the unit needs to efficiently cool or heat the area. Options available are 7 000, 9 000 & 12 000 BTU.

Our air conditioning options provide optimized solutions for all areas of a hotel, bringing exceptional heating, ventilation and air conditioning performance. Through our expertise and industry knowledge, we respond directly to the needs of hotel clients seeking digitalized and eco-conscious PTAC solutions.

Hospitality appliance needs

Behind-the-scenes excellence

Many hotels SAVE 12% OR MORE by consolidating their supply orders with us.

Tags & permits

Keep things organized from check-in to check-out.

Whether you're managing guest luggage, valet services, or self-parking, having the right tags and permits in place ensures a smooth, professional experience for both staff and guests.

We offer both fully custom designs and cost-effective generic options to fit your operational needs and budget!

- Parking Permits
- Baggage Tags
- Valet Tickets
- Bathrobe Tags
- Rental Tags

More branded essentials

Looking for something else? We customize a wide range of in-room and back-of-house essentials from laundry bags, hangers, and coasters to branded glasses, cups (including coffee cups with lids), wine openers, and staff supplies.

If you don't see what you're looking for, just ask our team. We're here to help you find the best solution for your property!

Teknotip cashless tipping solution

The future of tipping is here

Nowadays, 79% of transactions are made electronically, making cash tips a thing of the past. No wonder hoteliers are concerned!

Indeed, the rise of QR codes and electronic payment options has directly impacted hotel staff earnings. Enter Teknotip's cashless tipping solution: a safe and easy way to boost wages and increase employee satisfaction.

Give your staff the appreciation they deserve

Position yourself as an employer of choice by implementing innovative solutions to increase staff wages.

How it works?

Customers can easily make payments by scanning a QR code and using their mobile wallet or credit card. Through its payroll procedures, **the property** ensures that the staff receives their tips directly in their paycheck! It's a simple and hassle-free process.

Displaying your QR Code has never been easier

LOC offers various QR code printing options, including:
· Table tents
· Keycards
· Keycard sleeves
· Keycard holders

Ask your local representative how your hotel can take advantage of this game-changing solution.

Support guest satisfaction

Allow your guests the ease of expressing satisfaction by tipping your staff in just two clicks.

Features

· Easy to use for both guests and staff
· Minimal financial risk for hoteliers, as commissions are based on tips only
· 100% turnkey, ultra-flexible support tailored to the needs of any hotel
· No technology skills required, and minimal effort on your part: a dedicated representative sets up your account

Who can benefit from cashless tips?

· Housekeepers
· Valets
· Concierges
· Bellhops
· Bartenders
· Spa staff
· And more
