Company

leather design furniture manufacturer

Enrico Pellizzoni brand was created in 1986 from a tradition in leather production that had spanned almost one hundred years. Since the early 1900s, the Pellizzoni family had made of leather their passion, initially entering the footwear sector but immediately repositioning themselves in furnishings. The company is traditionally based in Mariano Comense (Como - Italy) and has been established in its current 4,000 sq. m. complex since 1988, where essential residential and office furnishings are produced: chairs, armchairs, stools, sofas, tables, desks and accessories.

Il marchio Enrico Pellizzoni nasce nel 1986, dopo un'esperienza di lavorazione del cuoio centenaria. Fin dal 1900 infatti la famiglia Pellizzoni ha fatto del cuoio una vera passione; entra inizialmente nel settore calzaturiero orientandosi poi nella produzione di articoli d'arredo. L'azienda storicamente situata in Mariano Comense (Co), dal 1988 si è stabilita nel suo attuale complesso di 4000 mq, dove produce complementi d'arredo per la casa e l'ufficio: sedie, poltrone, sgabelli, divani, tavoli, scrivanie e accessori.

Sustainability

we work for a clean earth

Full grain leather CPF is a material obtained by first quality bovine hides coming from EU member states. The part of leather used is the shoulder. During the tanning-phase, in which only natural substances are used, the pentachlorophenol is absent according to EU Legislation. Tannin extracts are a fundamental ingredient for the slow tanning process and the quality of its result. The finishing of the leather is carried out with pigments and resins made of caseins, having therefore a very low toxic content. During the last phase, in order to prevent the surface from absorbing water, a compound of nitro emulsion is used. Small veins, wrinkles and imperceptible scratches on the surface prove its naturalness rendering each skin one of a kind. Leather is obtained by the butchering for feeding purposes. It's produced in Tuscany, an Italian region well-known for production of some of the finest quality vegetable tanned leathers, and it's protected and promoted by the trademark "Pelle Conciata al Vegetale in Toscana". No bovine has been therefore killed only for furnishings consumerism.

Il Cuoio Pieno Fiore è un materiale ottenuto da pelli di bovino di prima qualità di provenienza da membri dell'UE. La parte di pellame utilizzata è la spalla. Nella fase di concia, durante la quale vengono usate soltanto sostanze vegetali, non è presente il pentaclorofenolo, come richiesto dalle normative UE. La rifinitura del cuoio è effettuata con pigmenti e resine composti principalmente da caseine e, quindi a bassissimo contenuto tossico. In ultima fase, per impedire l'assorbimento dell'acqua dal lato fiore, viene usato un composto di nitro emulsione. Piccole venature, grinze e graffi impercettibili sulla superficie dimostrano la naturalezza della pelle rendendola unica nel suo genere. Il cuoio è ottenuto dalla macellazione avvenuta per scopi alimentari. Nessun bovino è stato dunque abbattuto per il solo consumo di articoli di arredamento. È prodotto in Toscana, una regione italiana famosa per la produzione delle migliori qualità di cuoio conciato al vegetale ed è protetto e promosso dal consorzio "Pelle Conciata al Vegetale in Toscana".

Tom Kelley

designer

Born in East-Germany, after political problems and Stasi-Prison he studies in Aachen, Munich and then in Long Beach (California). Initially both painter and designer, brought by his work and studies to Italy, where he lives more or less since 20 years in Venice. He worked for many companies in several countries. Looking always for simplicity, he sees himself as primarily an observer, and believes that after a while all its observations become shapes, colors, projects and words. In these last recent years, in addition to the prominent work as designer, he restored private houses, including the famous Villa of Michael Thonet.

Nato nella Germania dell'Est, dopo problemi politici e dopo essere stato rinchiuso in prigione dalla Stasi, studia ad Aquisgrana, Monaco e poi a Long Beach (California). Prima pittore e poi designer, ha portato il suo lavoro e i suoi studi in Italia, dove vive da circa 20 anni a Venezia. Ha lavorato per molte aziende in diversi paesi. Sempre alla ricerca della semplicità, si considera prima di tutto un osservatore e ritiene che dopo un po' tutte le sue osservazioni vogliono uscire fuori in forme, composizioni, colori, progetti, parole. In questi ultimi anni, oltre alla preminente attività di designer, ha restaurato case private tra cui la villa del famoso Michael Thonet.

Stefano Bigi

designer

Born in 1974, Stefano Bigi grew up between France and Italy. Out of this double culture, he has acquired a taste for the chic and the beautiful. After studying at Art School, he started a career in webdesign within a SSII before becoming self-employed. It was 10 years ago that he first began to sketch sofas, decorative objects, and his obsession: chairs. However, when he turned 31 he decided to live for his passion: to design furniture and decorative objects. Since 2005 he has established himself in Milan and founded his own company: Helldesign di Stefano Bigi.

Nato nel 1974, Stefano Bigi è cresciuto tra la Francia e l'Italia. Di questa doppia cultura ha coltivato il gusto dello chic e delle belle cose. Dopo aver studiato Arte in Francia, ha fatto esperienza e carriera nel campo del webdesign, inizialmente in una SSII francese, poi in modo autonomo. Però, durante quasi dieci anni, non ha mai smesso di disegnare divani, sedie e oggetti ed è solo a 31 anni che deciderà di realizzare questa sua passione: Il design di mobili e oggetti. Nel 2005 si trasferisce a Milano e fonda il suo studio: Helldesign di Stefano Bigi.

Giuliano Cappelletti

designer

Architect and designer, he graduated from the Politecnico of Milan, and in 1970 he founded his studio with the architect Enzo Pozzoli. Since 2012, he continues its activities as Giuliano Cappelletti & Partners along with his son Gabriel.

In the same year he opened a studio in Shanghai with some foreign partners to carry out projects of architecture and interior design. The study follows several projects, from project management to interior design, to pure architecture, actively taking part in competitions and national and international exhibitions, including the selection of the XVI Compasso d'Oro with the sink "Lavando" produced by ABC Cucine, the 5 Stelle Award Tecnhotel, the award Donatella, the International Management selection. He also collaborates with leading companies in the field of design.

Architetto e designer, si laurea al Politecnico di Milano, e nel 1970 fonda lo studio associato con l'architetto Enzo Pozzoli. Dal 2012 prosegue la sua attività come Giuliano Cappelletti & Partners assieme al figlio Gabriele. Nello stesso anno apre uno studio a Shanghai con alcuni partner stranieri per realizzare progetti di architettura e di interior design. Lo studio segue diversi progetti, dal project management all'interior design, fino all'architettura pura, prendendo parte attivamente anche a concorsi e mostre nazionali e internazionali, tra cui la Selezione del XVI Compasso d'oro con il Lavello "Lavando" prodotto da ABC Cucine, il Premio 5 Stelle Tecnhotel, il Premio Donatella, la Selezione International Management. A questi lavori, affianca continue collaborazioni con importanti aziende nel settore del design.

Sergio Bianchi

designer

Grassi&Bianchi studio, founded in 1984 from the architect Sergio Bianchi with his wife, is engaged mainly in building trade, from planning to restoration of private and public buildings. The pleasure of being designer comes also from the creation of pieces of furniture. "I often long for the past when my studio was concerned with the planning of furniture like chairs, tables and writing desks. Unfortunately now we have no time to apply ourselves to this sector and probably the right partners are missing". Enrico Pellizzoni represented the occasion to plan pieces of furniture of a simple elegance just drawing essential lines on a white sheet.

Lo studio Grassi&Bianchi, fondato nel 1984 dall'architetto Sergio Bianchi con la moglie, lavora principalmente nel settore dell'edilizia, dove si occupa della progettazione e del restauro di edifici pubblici e privati. Il piacere che si prova ad essere designer deriva anche dalla creazione di componenti d'arredo. "Spesso provo una sorta di nostalgia per gli anni in cui il mio studio si dedicava anche alla realizzazione di oggetti come sedute o tavoli e scrivanie. Purtroppo ora mancherebbe il tempo di farlo e soprattutto verrebbero a mancare i partner giusti".

Enrico Pellizzoni rappresenta l'occasione per progettare elementi di arredo tracciando sul foglio linee sobrie ed essenziali, per creare oggetti di grande equilibrio formale e di semplice eleganza.

Christian Werner

designer

Christian Werner was born in Berlin in 1959. He studied industrial design in both Berlin and Hamburg, but was finally drawn to the latter, where he has lived since 1984. He founded his own product design and interior architecture agency in 1992, where he designs furniture for prominent international manufacturers. Furniture is by no means his only arena for expression, he has also undertaken various projects for exhibition stands, restaurants, PR agencies, shops, and franchises. He received numerous awards, including three Red Dot awards.

Christian Werner è nato a Berlino nel 1959. Ha studiato design industriale sia a Berlino che ad Amburgo, ma alla fine è stato attratto da quest'ultimo, dove vive dal 1984. Nel 1992 ha fondato il proprio studio di product e interior design, dove progetta mobili per produttori internazionali di primo piano. L'arredamento non è il suo unico ambito di espressione, ha anche intrapreso diversi progetti per stand fieristici, ristoranti, agenzie di PR, negozi e franchising. Ha ricevuto numerosi premi, tra cui tre premi Red Dot.

Franco Bizzozzero

designer

Born in 1948 in Cantù, center of the Furniture Art, he gained in this field his education and his first planning researches, collaborating with magazines and teaching Technique of Furniture at the training center. He attended the University "Polytechnic" in Milan, where he graduated in 1973 arguing his thesis on the theme "the handicraft as essential component of the structure of an area". As a designer focuses his attention in industrial design. His professional activity is also supported by the institutional one, as president of CLAC, a non-profit society in Wood-Furniture created to promote the design and technological innovation of small and medium company.

Nato nel 1948 a Cantù, centro dell'Arte Ebanistica, ha maturato in quest'ambito la sua formazione e le sue prime ricerche progettuali, collaborando con riviste ed insegnando Tecnica dell'Arredamento presso il centro di Formazione. Frequenta il Politecnico di Milano, dove si laurea nel 1973 a tema "l'artigianato come componente essenziale della struttura di un territorio". Come designer si esprime con particolare attenzione rivolta alla progettazione industriale. L'attività professionale è inoltre affiancata da quella istituzionale come presidente del CLAC, società no-profit del sistema Legno-Arredo nata per promuovere il design e l'innovazione tecnologica nella piccola e media azienda.

Experiencing the potentialities of hard and soft leather: this is the core of Enrico Pellizzoni, a company that can boast a long tradition in high quality manufacturing. Creative and research projects are springing up to carry matter and technologies towards product innovation. The purpose is to supply a wider and modern selection of new finishes, colors and environmentally sustainable materials to meet the multiple needs of the market in which Enrico Pellizzoni has established as a specialist in leather furniture.

Sperimentare le potenzialità di cuoio e pelle: questo è il cuore di Enrico Pellizzoni, azienda ricca di una lunga tradizione nella lavorazione di alta qualità. Nascono progetti di ricerca e creatività che declinano materia e tecnologie verso l'innovazione del prodotto. Una gamma ampliata e contemporanea di nuove finiture, colori e materiali ecosostenibili viene proposta in sintonia con le molteplici esigenze del mercato verso il quale Enrico Pellizzoni si propone come specialista nell'arredamento in cuoio e pelle.

Studio Nove.3

designer

Luca Giacomelli and Lorenzo Rossotti
both born in 1993, graduated
in Product Design at the European
Institute of Design in Milan in 2015.

Since 2015 they have been
collaborating with design studios in
Milan also working in the field of
packaging. In 2018 they founded
together Design Studio Nove.3
in Milan, dealing with product
design and design consulting.
In the meantime, they take part in some
contests with the studio, receiving
international awards from important
companies in the furniture sector.

Luca Giacomelli e Lorenzo Rossotti,
nati nel 1993, si sono laureati
in Product Design presso l'Istituto
Europeo di Design di Milano nel 2015.

Dal 2015 collaborano con studi
di design a Milano lavorando anche
nel campo del packaging. Nel 2018
hanno fondato il Design Studio Nove.3
a Milano, occupandosi di design
del prodotto e consulenza progettuale.
Nel frattempo, partecipano ad alcuni
concorsi con lo studio, ricevendo
premi internazionali da importanti
aziende del settore dell'arredamento.

Giulio Manzoni

designer

Architect Giulio Manzoni works mainly in the field of industrial design with a focus on new technologies and the study of new materials, preferring the design of multifunctional products. Ongoing research and his capacity for invention led him to manufacture, in the forty years of career, innovative products that have contributed to the history of furniture. Hipod and Lopod are the result of a careful analysis of product and a perfect integration between ergonomics and aesthetics.

L'architetto Giulio Manzoni opera prevalentemente nel campo dell'industrial design con particolare attenzione alle nuove tecnologie ed allo studio di nuovi materiali, prediligendo la progettazione di prodotti polifunzionali. La continua ricerca e la propria capacità inventiva lo hanno portato a realizzare, in quarant'anni di professione, prodotti innovativi che hanno contribuito alla storia del mobile. Hipod e Lopod sono frutto di un'attenta analisi di prodotto e di una perfetta integrazione tra ergonomia ed estetica.

A photograph of a modern office interior. The scene is dominated by large glass windows that offer a view of a city street with buildings and bare trees. In the foreground, a curved, white, minimalist desk or partition structure is visible. The lighting is soft and natural, coming from the windows. The overall aesthetic is clean and contemporary.

Fauciglietti Engineering

designer

Fauciglietti Engineering studio was founded in 1986 by Renzo Fauciglietti together with his wife Graziella Bianchi: the aim was "the search and development of new products of design as well as their planning and their production". The prizes and awards they have received (Tecnhotel in Genoa, Compasso d'Oro, Neste Form in Finland, the silver medal at Batimat in Paris) are the result of a constant job of research and innovation in the product development. Furthermore Renzo Fauciglietti is teacher at Centro di Cultura Scientifica "Alessandro Volta" in Como and university lecturer at Politecnico and Bocconi in Milan.

Lo studio Fauciglietti Engineering viene fondato nel 1986 da Renzo Fauciglietti insieme alla moglie Graziella Bianchi: l'intento è "contribuire alla ricerca ed allo sviluppo di nuovi prodotti di design, alla loro progettazione ed alla loro creazione". Il premio Tecnhotel di Genova, le segnalazioni al Compasso d'oro ed al Neste Forma Finlandia, la medaglia d'argento al Batimat di Parigi sono i risultati di un lavoro costante di ricerca e di innovazione nello sviluppo del prodotto, un impegno al quale si affianca l'attività di docenza al Centro di Cultura Scientifica "Alessandro Volta" di Como, al Politecnico di Milano e all'Università degli Studi "Bocconi" di Milano.

Danilo Bianchi

designer

His background is linear and traditional for people who aim to become an architect: he attended the Institute of Art in Cantu and

he got his diploma. He started soon a collaboration with a design studio near where he lived. This working experience lasted ten years. In 1989, at the age of 31 years old, he opened his own studio.

"I interpret my job as a continuous challenge. Whether with myself or with the company that places the order.

The blank sheet is an enemy to pull down every time: in order to win a new idea or an original line, that draws an item in an elegant way, are always needed".

Il cammino si snoda lungo un percorso assolutamente lineare: la frequenza all'Istituto di Arte di Cantù, il diploma e l'immediata collaborazione con uno Studio di architettura. Nel 1989, a 31 anni, arriva il momento di aprire il proprio Studio: "Considero il mio lavoro come una sfida continua.

Sia con se stessi, sia con l'azienda che commissiona il lavoro. Il foglio bianco è ogni volta un nemico da abbattere: è necessario avere sempre un'idea nuova, una linea originale che riesca a tracciare il contorno di un oggetto elegante".

Daniele Lo Scalzo Moscheri

designer

Born in Milan November 9, 1963. Dr Architect, graduated at Politecnico of Milano in Architecture in Milan, 1987. Master in "Advanced Technology Application in Industrial Design Manufacture" Tampa University, Florida USA, 1988. Piero Lissoni design team's consultant partner since 1987 until 1993, when he started his independent professional studio in Milan, in product design and advertising. His style is concise, up to date, and play with the happy composition of different materials: the sign is sharp and accurate, enriched by technological innovation and "ready made" culture. Daniele loves domestic design shaped to show the personality of the individual but without being trivially downgraded to a service tag.

Nato a Milano il 9 novembre 1963. Laureato alla facoltà di Architettura di Milano nel 1987. Master in "Advanced Technology Application on Industrial Design Manufacture" Tampa University, Florida USA, 1988. Dal 1987 consulente di Piero Lissoni fino al 1993, anno in cui apre lo studio professionale in via De Sanctis a Milano che si occupa di product design e advertising. Il suo stile è conciso, di tendenza, e gioca con il felice incontro di materiali diversi: il segno è nitido e preciso, arricchito dalla innovazione tecnologica e dalla cultura "ready made". Ama il design domestico pensato per condividere la personalità dell'individuo ma senza essere banalmente un oggetto di servizio.

Stefano Santilio

designer

Born in 1971, Stefano Santilio graduated in Architecture at "Politecnico di Milano".

He has gained several experiences with renowned companies in the retail and office sector. He's interested about design, materials and production technologies; his passion for light and product design start to become real when he has the opportunity to experiment solutions related to leather processing. In collaboration with Enrico Pellizzoni's R&D office, his collections of lamps and objects are born, characterized by simplicity and attention to detail.

Nato nel 1971, Stefano Santilio si è laureato in architettura al Politecnico di Milano. Nel corso degli anni ha maturato diverse esperienze presso rinomate aziende del settore retail ed ufficio. Appassionato di design, materiali e tecnologie di produzione, mette a frutto la sua passione per la luce e il product design quando ha la possibilità di sperimentare diverse soluzioni formali legate alla lavorazione del cuoio.

In collaborazione con l'ufficio R&D della Enrico Pellizzoni nascono così le sue collezioni di lampade e oggetti, caratterizzati da semplicità e cura nei dettagli.

Mia Cullin

designer

Mia Cullin studied at Konstfack, University College of Arts, Crafts and Design, as well as abroad at the Denmark Design School in Copenhagen and at Accademia di Moda e Design in Florence.

She founded her design studio after having graduated from Konstfack in 1998. Her works span from interior design to furniture and smaller objects. A deeply nourished interest in traditional craftsmanship and visually striking constructions inspires Mia Cullin's work with interior architecture work as well as with design objects in all kind of sizes. Clean, straightforward and often basic geometric shapes are combined with handicraft details.

Mia Cullin ha studiato al Konstfack, University College of Arts, Crafts and Design, oltre che all'estero presso la Denmark Design School di Copenhagen e all'Accademia di Moda e Design di Firenze. Ha fondato il suo studio di design dopo essersi laureata alla Konstfack nel 1998. Le sue opere spaziano dall'interior design ai mobili e agli oggetti più piccoli. Un interesse profondamente nutrito per l'artigianato tradizionale e le costruzioni visivamente suggestive ispira il lavoro di Mia Cullin con il lavoro di architettura d'interni e con oggetti di design di ogni tipo di dimensione. Le forme geometriche pulite, semplici e spesso di base sono combinate con dettagli artigianali.

Ro
ROOM DIVIDER

A close-up photograph of brown leather goods. The image shows a vertical strap or handle in the center, flanked by two large, rounded rectangular pieces of leather. These pieces are outlined with a decorative, hand-stitched border. The leather has a smooth, slightly textured appearance. The lighting is soft, highlighting the texture and the stitching.

A still life photograph featuring a white, shallow plate resting on a dark, highly reflective surface. On the plate sits a dark, abstract, sculptural object with a jagged, organic form. The reflective surface shows a clear reflection of the plate and the object. In the upper left corner, a glass vase containing red berries and dried branches is partially visible. The background is a dark, textured wall. The text 'Series index' is overlaid in the upper right, and 'Materials' is overlaid in the lower right.
