About us

Founded in 1968 and located in northern Portugal, Intraplás specializes in producing and promoting innovative packaging solutions. With extensive expertise in Extrusion, Thermoforming, and Printing, our products are distributed across more than 30 countries worldwide.

From the beginning, Intraplás has been committed to sustainability and product circularity. We focus on promoting carbon neutrality throughout our value chain by investing in eco-design and incorporating recycled polymers into our packaging solutions.

Your trusted global partner in
dairy packaging solutions

Mission

Sustainable and Innovative Packaging Solution Provider with **Focus on People's Wellbeing**

Vision

Eco Friendly Sustainable Packaging is Possible

Social Responsibility

Intraplás **prioritizes safe working conditions and strict safety protocols to ensure employee well-being and productivity.** Regular training programs equip employees with new skills, fostering innovative thinking and career advancement opportunities

Environmental Sustainability

We **prioritize the development of innovative, biodegradable packaging** to reduce environmental impact. We **invest in cutting-edge green technologies** to minimize energy consumption and waste generation

Dairy Focus

Our expertise in dairy packaging runs deep. From yogurt to cheese, cream to desserts, we understand the unique needs of every dairy product. **Every package we design is tailored to preserve freshness, ensure sustainability, and enhance the dairy experience** for consumers

CERTIFICATIONS

IMS (FDA)

 intraplás

ONGOING PROCESS FOR ISO 14001 AND ISO 45001 CERTIFICATION.

Product Portfolio

PRODUCT RANGE OVERVIEW

Intraplás offers a diverse array of food packaging materials (PS, PP, PET, Paper), ensuring quality and sustainability across products.

RECYCLABLE MATERIAL INNOVATIONS

The company specializes in developing recyclable versions of packaging materials (rPS, rPP, rPET), emphasizing environmental responsibility in production.

CUSTOMIZATION FEATURES

Customization capabilities include tailored designs and colorization options, addressing specific client preferences effectively.

THERMOFORMING SHEET

PHYSICAL PROPERTIES

- Thickness Range:** from 300 to 1500 microns
- Width Range:** from 250 up to 1200 mm
- Core Inner Diameter:** 200 / 400 mm
- Reel Diameter:** Up to 1200 mm
- Palletization:** Reel (Vertical or Horizontal) or Jumbo
- Finishing:** Mate, Natural or Glossy
- Color:** Natural, One Color, Dual Color or Multicolored

PS/rPS Properties

- ✓ Easymachining
- ✓ Easycolorization
- ✓ Low density
- ✓ Easy to expand
- ✓ Easy break
- ✓ Hot Fill
- ✓ Gloss
- ✓ Recyclable
- ✓ Barrier Products (EVOH and/ or PE)

PP/rPP Properties

- ✓ Easymachining
- ✓ Easycolorization
- ✓ Low density
- ✓ Chemically inert
- ✓ Sterilizable
- ✓ Excellent water barrier
- ✓ Recyclable
- ✓ Barrier Products (EVOH)

PET/rPET Properties

- ✓ Easymachining
- ✓ Gloss
- ✓ Easycolorization
- ✓ Chemically inert
- ✓ Mechanically resistant
- ✓ Excellent color and gas barrier
- ✓ Recyclable
- ✓ Barrier Products (Thermolaminated)

WHY CHOOSE US AS YOUR TRUSTED BUSINESS PARTNER?

At Intraplás, we bring expertise in the production of high-quality packaging solutions specifically tailored for the solid dairy sector

● **Our commitment** to excellence and innovation allows us to stay at the forefront of industry trends, ensuring that our packaging not only meets but exceeds the stringent standards required for dairy products

● **What sets us apart is our unmatched versatility.** We understand that every client has unique needs, and we pride ourselves on our ability to adapt our processes and products to meet those specific requirements

● **When you choose Intraplás** as your trusted business partner, you are choosing a team that is dedicated to supporting your success through reliable, innovative, and customer-focused packaging solutions

**TOGETHER,
WE CAN
CREATE
THE FUTURE
OF DAIRY
PACKAGING**

Thank
you
