

BY-LAMP

SPECIAL LAMP DESIGNS FOR CORPORATIONS

About Us

Light is the language of matter.

The right light gives life to your belongings, expresses them. But; Thanks to light, our eyes can recognize an object, its color, shape.

We can only express our homes and ourselves correctly by using the right light. As the BY-LAMP team, we offer a more unique gift alternative with the lamps we specially designed by destroying the classical lamp perception that we encounter in our daily lives.

Most importantly, we care about your taste, character, and hobbies, and we diversify our lamps designed specially for you day by day.

In addition, we aim to be at your bedside in every aspect of your life with our decorative lighting that appeal to every segment, age and taste.

In our company, which has been operating since 2015, we prepare your orders carefully to the smallest detail and deliver them to their owners, together with our team, who are experts in their field and most importantly, do their job lovingly.

We will be happy to serve you with our original and quality product range as a brand with proven speed and reliability in the coming years.
