

PLANTS
MAKE
People
Happy

Hey! We're pleased to meet you

Our Founder Mark has been designing, making and selling sustainable gifts since 2004. Pod is a collection of smart and sustainable plants, seed kits and candles which can be used for any occasion, event or launch.

Soul Soother

Why plants, seed kits and candles? Well, all are an instant mood lifter, bring calm to busy minds and soothe souls; boosting happiness and wellbeing. Plus, once your candle has shared its love, or your plant has outgrown its starter home, you can repurpose your pot and fill it with all your bits and bobs. It's a gift for life which makes sure your brand or message lasts.

Needless to say, we source as locally and ethically as we can. Our pots are handmade. All our plants are carefully selected from the finest nurseries in Holland and our candles are hand poured in Kent using only 100% natural vegan ingredients. All our packaging is both biodegradable and recyclable – even the tape!

Plants

Modern and minimalist. These **sustainable** concrete or aluminium pots come complete and planted with a plant of your choice ready to look good in any office or home.

Pots come in a **6cm** or **9cm** cube. The **marble** coloured concrete or **black** aluminium finish can either be **laser engraved** or **full colour printed** to one or more sides with a **message** or **design** of your choice.

Pots can be **bulk packed** or sent **individually** by Royal Mail tracked **24** or **48hr** service.

Looking for something different?

With a little time and volumes greater than 500 pcs we are able to source **specialist plants** to tie in with colours or themes of the brand or event.

Plant Stock

All our plants are **carefully hand selected** from the finest nurseries in **Holland**. We hold strong stock of our core range and have access to a vast range of **specialist plants** on quick turnarounds for special **projects**. Each plant comes with its own **care card** and travel passport for shipping within the UK [Excl. NI] For projects requiring distribution beyond this we recommend supplementing from our candle range.

We offer **custom seeds** so with a little lead-time and +500 packs anything is possible!

Again, again and again...

Born out of a mission to remove single use plastic from the corporate gift industry, we are focused on creating ranges of sustainable merchandise that can be used again, again and again.

100% plastic free. Aluminium, cork, concrete and kraft paper is at the heart of our products. Did you know that 75% of aluminium ever produced is still in circulation.

So, if you want to start making a difference and help your business move to a more sustainable gifting model – start by offering your clients merchandise that they will appreciate, will make them think and, most importantly, give them the option to use it again, again and again.

Desktop Garden

Help protect the planet's bee population and lift moods with the **joy of growing** your own plants, herbs and trees. **Recycled** aluminium desktop gardens are the perfect desktop **grow kit**, complete with **innovative seedball** that will germinate in around 7-14 days. A reclaimed cork stopper, **growing instructions** and organic soil coin complete our best-seller. A full colour label or laser engraving maximise your logo or message. Available in **brushed silver** or **matt black** finish.

Pots can be **bulk packed** or boxed and sent **individually** by Royal Mail tracked **24** or **48hr** service.

Seed Pot

Help protect the planet's bee population and lift moods with the **joy of growing** your own plants and herbs. **Seed pots** are a beautiful mix of native wildflower seeds that are perfect for pollinators. No digging or expert knowledge is required - just scatter them in spring or autumn.

Each pot contains 5-6 seed balls, enough to cover 25cm square in a garden bed or 1-2 medium sized pots.

Full colour printed label to the lid, pots can be **bulk packed** or sent individually by Royal Mail tracked **24** or **48hr** service.
