चिड़िया

एक नन्ही सी प्यारी चिड़िया,
छत पर रोज ही आती है।
चीं-चीं-चीं-चीं करके
मुझे रोज बुलाती है।
हाना-पानी पाकर मुझसे,
खुरा वह खूब हो जाती है।
अपना मीठा गीत सुनाकर,
मेरा मन मोह जाती है।

What is Mental Health?? Ishika Jain 24-5-2023

Mental health refers to a person's emotional, social and psychological well-being. Mental health is as important as part of full active lifestyle.

It is harder to define mental health than physical health because many psychological diagnoses depend on an individual's perception of these experience.

With improvements in testing, however, doctors are now able to identify some physical signs of some types of mental illness in CT scans and genetic tests.

A mental illness, such as depression or anorexia, can affect body weight and overall function.

FUTURE TRIP WITH A SUPERHERO

Once upon a time, there was a superhero named H₂O. One day, he went on a trip to the future. Till now, he was living in a beautiful part of the Himalayas. The trip was very long. It took 3 days to reach the future. When he saw the future, he was astonished. What he saw was a barren land with no water. There were no trees if there were some they were very dried. The animals, the people all other living things were very desperate to get water. Some even started dying. There was no water left not even a single drop. He came back thinking about how to change the future. When he came back, he told his friends to tell the human beings to save water for the future and

use it wisely. He also told them to tell them that they were wasting a lot of a water, which they should not. If they do so then then water will not remain a renewable resource. After telling them he took his friends along to the future. His friends were also astonished to see the future. They came back and told the humans about the same. The human after that day, used water very wisely.

Moral - Don't waste water

★ We should focus on the new good habits, not the old unhealthy habits.

★ We should work towards positive goals.
I will stop eating junk food VS I will start eating healthy food

★ An excellent way to get rid of all bad habits is to change your environment and move to a new one.
