Stealth Irons

The all-new Stealth™ irons, you can expect to play less golf, more often.

- Cap Back Design with toe wrap construction is an advanced engineering feat that shifts mass from the extreme high toe of the head and repositions it in the sole to create an extremely low CG.
- The 450 stainless steel face has an intelligently positioned sweet spot that spans the most common impact points, delivering explosive ball speeds and consistency in all the right places.
- Located behind the face, the ECHO Damping System uses a soft polymer blend and multiple contact points across the face to channel away harsh vibrations and create a forged-like feel at impact.
- Patented TaylorMade technology engineered to maximize face flexibility for increased ball speed and forgiveness for mis-hits low on the face.

Flasque Whisky Decanter Sets

Each set features a minimalist decanter with a geometric stopper & complementing whiskey glasses. The glasses have thick sides and heavy bases, promoting quality insulation for your drinks.
