    a) Downloading the Mobile App
    b) Adding Devices

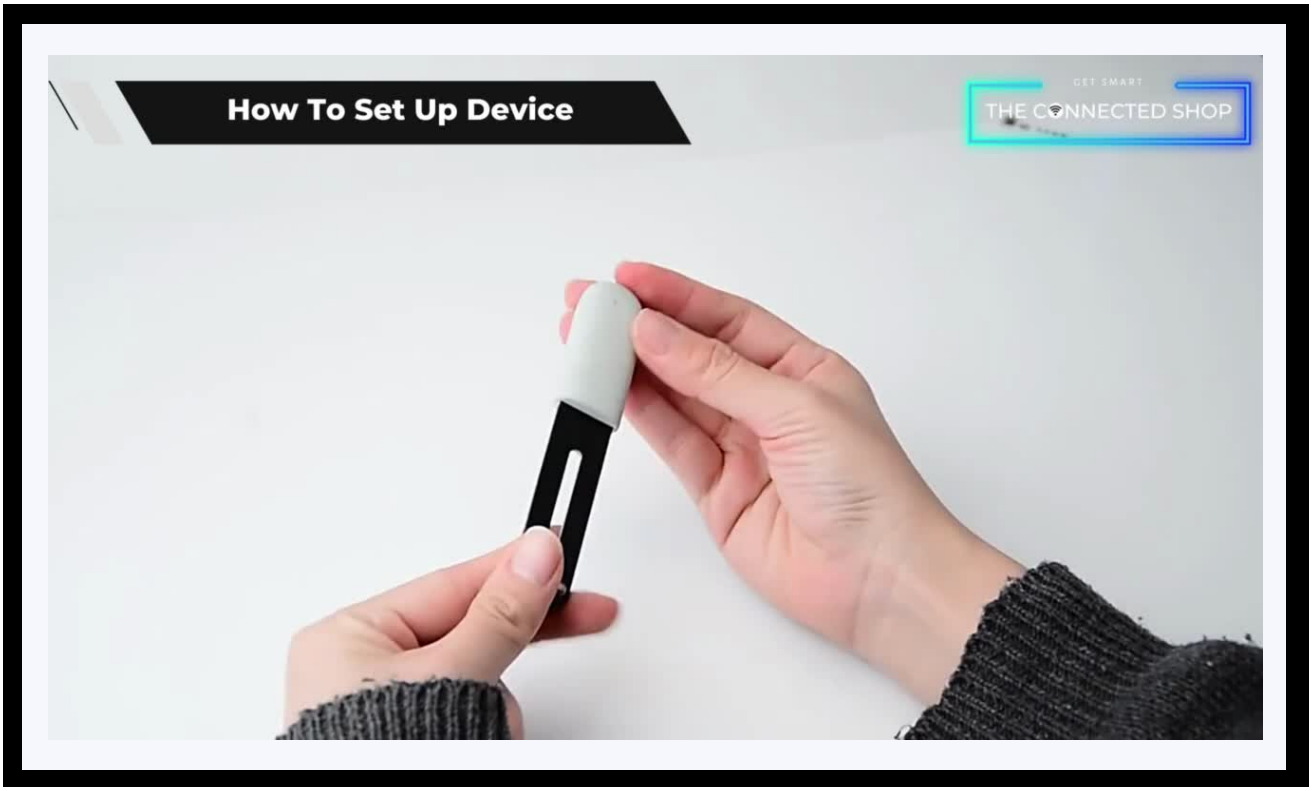
PACKAGING DETAILS

1	Plant & Flower Smart Sensors	2	Case

STEP-BY-STEP SET-UP GUIDE

1. SET UP

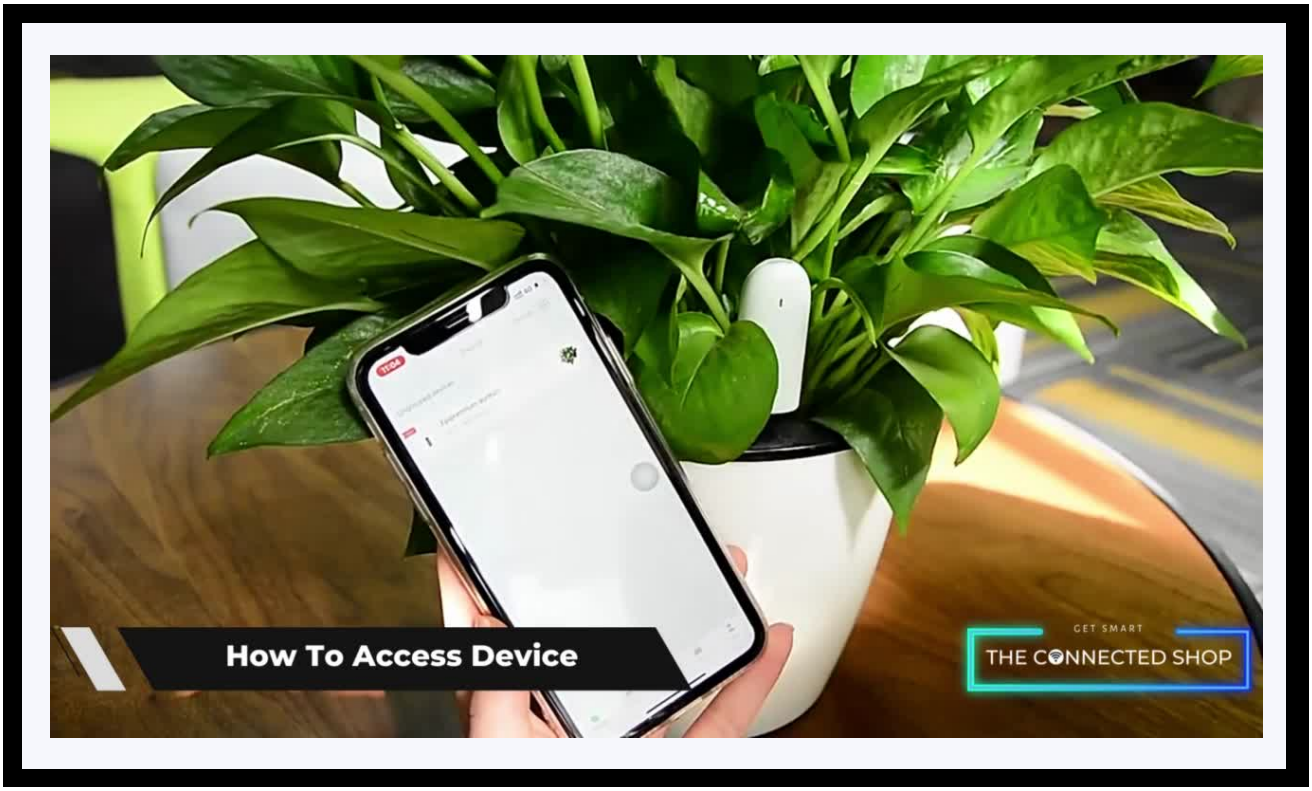
a. Remove all items from its original box
b. Open the battery compartment and remove the plastic sticker to activate the device
c. Proceed to following the videos and steps below on how to properly set up the item



2. INITIAL STATE OF YOUR DEVICE

a) Access Device

- To access the device's settings, open the mobile app
- Select your added plant
- You can now view and configure your device's settings, along with your plant's status, on the app



3. MOBILE APP CONNECTION

a) Downloading the App

Download the application on the Google Play Store or Apple AppStore by searching “Flower Care” or by scanning the QR code below:

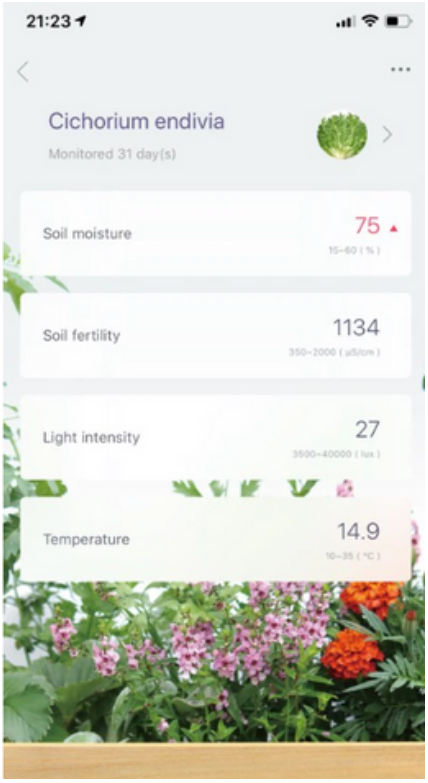
After downloading the app

- Register or log in to an account
- Enable your Bluetooth and phone location
- Activate the device
- Keep your device near your phone

3. MOBILE APP CONNECTION

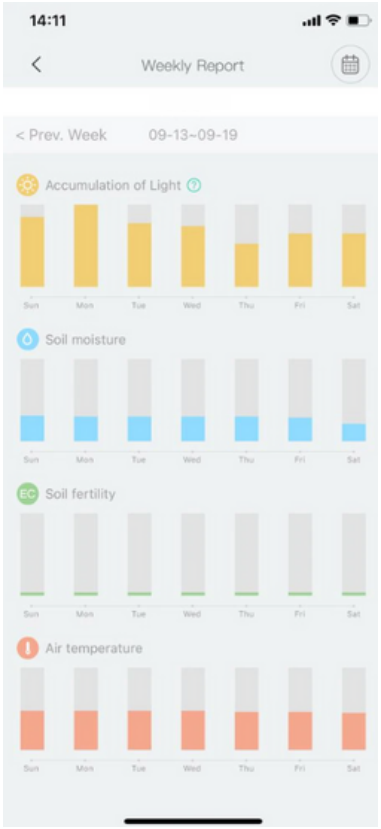
b) Adding Devices

To add devices on the app, please follow the instructions below. Your devices and phone must be connected to the same 2.4 GHz Wi-Fi network in order for this to work.



- To add a device, initiate the search on the mobile app via Bluetooth
- Wait for the app to finish searching
- Once done, it will show a list of plant names
- Search and add your plant to complete adding the device

- Once done, you will be able to manage and configure the settings for your device on the mobile app



Congratulations!

You have successfully set up your very own Plant & Flower Smart Sensors.
Thank you for being a valued customer of The Connected Shop.
