

# SELECT PRO WELD-IN LONG THROW KEYLATCH

## Specification Sheet **SWKLLT**

### FEATURES

- **Reliable security:** Simply slam the gate shut- it locks automatically and requires a key to open.
- **Enhanced protection:** Stainless steel latchbolt extends 30mm into the gate post for added security, with a long throw for extra strength.
- **Customizable fit:** Adjustable latchbolt length and rotatable design making it suitable for both left and right-handed gates.
- **Long-lasting durability:** Fitted with a brass latchbolt bearing for smooth, reliable operation over time.

### PRODUCT DETAILS

Product code	Description
SWKLLT1630	For 30mm (1-1/8") wide gate frames
SWKLLT1640	For 40mm (1-5/8") wide gate frames
SWKLLT1650	For 50mm (2") wide gate frames
SWKLLT1660	For 60mm (2-3/8") wide gate frames

### INCLUDED IN THE BOX

- 1x3mm hex key
- Keep plate (self-drilling fasteners)
- M5 fixing bolts
- A set of keys (3)
- Latchbolt

### INSTALLATION

1. Disassemble the lock by removing the 3 screws from the face plate of the lock, remove the face plate, and then remove the euro cylinder (twist the key 15 degrees clockwise or anti-clockwise to release). The insides of the lock will then slide out.
2. Weld the lockcase to the gate and galvanise or paint as part of the gate.
3. Fit the lock and eurocylinder into the lockcase and secure with screws.

**MAINTENANCE:** Every two months, lubricate the latchbolt with light oil. Annually, dismantle lock and spray the mechanism inside with light oil.
