

OUR HISTORY

FOR OVER A CENTURY, HALTERMANN CARLESS HAS BEEN AT THE FOREFRONT OF FUEL INNOVATION, WITH ROOTS DATING BACK TO 1859.

Our legacy includes pioneering the very term petrol and supplying high-performance fuels for motorsports, aviation, and historic vehicles. This deep heritage ensures that Carless Classic Fuels is not just another fuel—it's a continuation of history, crafted with the same attention to quality and performance that powered the golden age of motoring.

CARLESS ENABLES 1,000 MILES TRIAL SUCCESS

Our motorsport heritage dates back to the late 19th century when Carless' motor fuel "Petrol" became the preferred choice for UK motorists. In April 1900, the RAC staged the ambitious 1,000 Miles Trial—a 15-day, cross-country event connecting Britain's major cities—to promote auto racing. Of the 65 entrants, 23 finished, including the 12-horsepower Panhard driven by motoring pioneer and Rolls-Royce co-founder Charles Stewart Rolls, who exclusively used Carless "Petrol" and won the premier award for best performance by a privately owned car.

 CARLESS
CLASSIC
 FUELS
 BY EXPERTS

CLASSIC CARS DESERVE CLASSIC-QUALITY FUEL. THAT'S WHY CARLESS CLASSIC FUELS BRINGS TOGETHER DECADES OF EXPERTISE TO CREATE HIGH-PERFORMANCE FUELS DESIGNED SPECIFICALLY FOR VINTAGE AND HISTORIC VEHICLES.

Whether on the road or the track, our fuels deliver the reliability, efficiency, and authenticity that classic engines demand—preserving their heritage while maximising performance.

LEGACY FUELS

Legacy Fuels are traditional, fossil-based fuels that contain no sustainable content.

Designed to honour the history of classic motoring, maintaining the original characteristics of conventional petrol formulations.
