Living with a Elite Hair wig means getting back to having hair that looks like your own. What makes Elite Hair wig looks natural is that it moves and lives like your clients' hair, far from the staid wigs we usually see.

A natural and elegant "coiffé décoiffé" (hairstyle with a disheveled look), in short, French chic, represents the spirit of the collection you are about to discover.

The construction of the wigs cap makes them secure and comfortable. Our invisible front lace allow for all types of styling and the high quality of our synthetic fiber hair is the result of state-of-the-art technology.

Our human hair, 100% REMI, is carefully selected to remain supple and shiny like the first day.

Professionals in France and abroad have praised our creations for the quality, style, and trendy colors of our wigs.

Elite Hair International is now present in 99 French cities and 11 countries.

We are very happy to welcome you in our universe and to put our technical and artistic know-how at your service.
