LIFE IS BETTER CONNECTED!

WHY DO GROUPS MATTER?

Pathways Church exists to lead people into a growing relationship with Jesus. Groups at Pathways are safe, highly-relational environments designed to explore the Scriptures, ask questions, and be encouraged to follow Jesus on your journey.

We believe that people grow best when they are connected through relationships with others. Whether it's through deeper discussion of the weekend message, common interest, or serving together, groups at Pathways Church offer the opportunity to connect with others and grow closer to Jesus.

THE HEART OF SMALL GROUPS

This environment is all about finding community through a small group where you can experience grace, prayer, growth and service together. Whether in a serving role or a spiritual relationship, the circle brings fulfillment and belonging.

VOLUNTEER TESTIMONIAL

“Days 1 & 2 at Adventure Camp were AMAZING... I actually teared up while leaving yesterday since it was my last day and I desperately wished I was able to be there all week. I've been telling everyone about it! Watching the kids lift their hands and jump to praise is a sight I will never forget. I could list off all the wonderful things about just the first couple days, but it would be never-ending.”

PARENT TESTIMONIAL

“This year all three of my children have been able to attend. They were jumping up and down when I told them I had enrolled them in camp again this year and all of them could go. They have been so excited to tell me all they've learned at camp each day. We've been able to pray for some of their new friends on the way home, they excitedly say their team color chant, talk about the armor of God they learned about and really enjoy the large group activity.”

PRAISE REPORTS!

“Thanks for praying for my brothers hip replacement surgery. It went well. He has a temporary antibiotic hip in for 3 months and the permanent replacement hip will be put in again in March. Thank you for praying.”

“Prayer and believing GOD answers prayers has helped me. I am a recovering alcoholic for 32yrs. My grandchildren have never seen me drink alcohol. God gave me the serenity to accept the things I cannot change.”

“Stage 3 Pancreatic Cancer. After several chemo treatments, the tumor has shrunk! Dave has a 5-week window of rest and is hopeful that either complete healing with the tumor being miraculously removed OR doctors can do surgery because of the shrinkage. Let’s keep praying!”

“The doctor came in smiling and proudly told me that all the ulcers within my colon are GONE! And that I had achieved remission again. I told him about my choice to quit drinking alcohol and he said that is the absolute BEST decision I could have ever made for my health and condition. I’m super excited and thankful to continue this journey. All things are possible with God!!!”

“Update/Praise report on Nick, Lexi and their newborn baby - Thanks for your prayers.... Baby Bowen is on the right track.”

“Update on Mike – he had an Internal Cardio Defibrillator (a little bigger and more powerful device than a pacemaker) installed yesterday. He is doing great this morning (Wednesday). The new device is pairing well with the monitor. He is up and about and the pain isn’t too bad. Will be going home from the hospital today!”

“Praise report on the prayer request for our neighbor Shirley. She has greatly improved! Instead of likely not leaving the hospital and declining rapidly, her family is now seeking to place her in a nursing home. If she does well there for 3-4 months she may be able to come home 😊. This has to be due to prayer partners lifting her up. Thank you!”

“Thank you for praying for us yesterday. Your hand on my right shoulder and prayer brought the Lord's instant healing of my very bad right shoulder. No nerve pain! I had my first day without ibuprofen in months! I am so grateful for the Lord's humbling of supernatural healing.”

“Deb experienced a pulmonary embolism. The severity almost took her life. But through prayer those clots are healing. She is alive. And Deb will be transferred to a rehab facility.”
