About us

New Classic Toys is where classic quality and contemporary design meet. Established by Harm Beishuizen in 1991. With a mission to make lovable, dependable toys that promote learning and exploration. Our family-run business specializes in making traditional wooden toys and games that are made to last for generations.

At New Classic Toys we believe that playing is not just fun, but also very important. While playing, children get familiar with the world around them by building, stacking, making music or imitating. Playing contributes to the development of problem-solving skills, hand-eye coordination and fine motor skills. That makes playing educational and valuable for any child!

With safety always being our top priority, all our products are crafted to comply with the toy safety regulations. Each batch that we produce is tested by an accredited laboratory according to the latest standards to ensure the safety of our toys.

From our family to yours, we hope that our toys bring as much happiness to your home as they have to ours! Because every childhood should be filled with moments that are joyful, memorable and ever-inspiring.
