Challenging Oppression

# G O D ' S B O N D A G E

**Freddie Mercury's music video of "Living on my own" inspired me, it was filmed at his 49th birthday and banned until 2019, because of potentially disturbing content for society. My skirt collection is a message of freedom and a fight against oppression, after the saying be bold, be you, be free.**

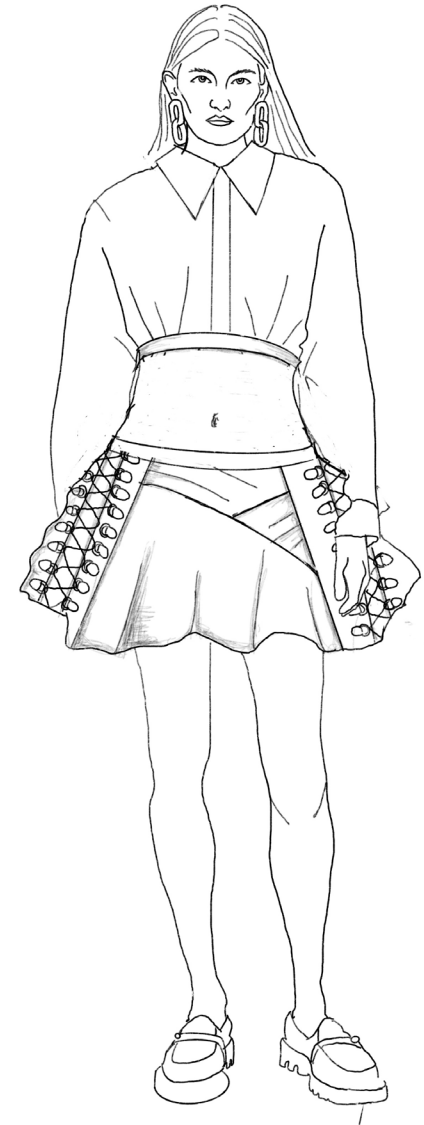

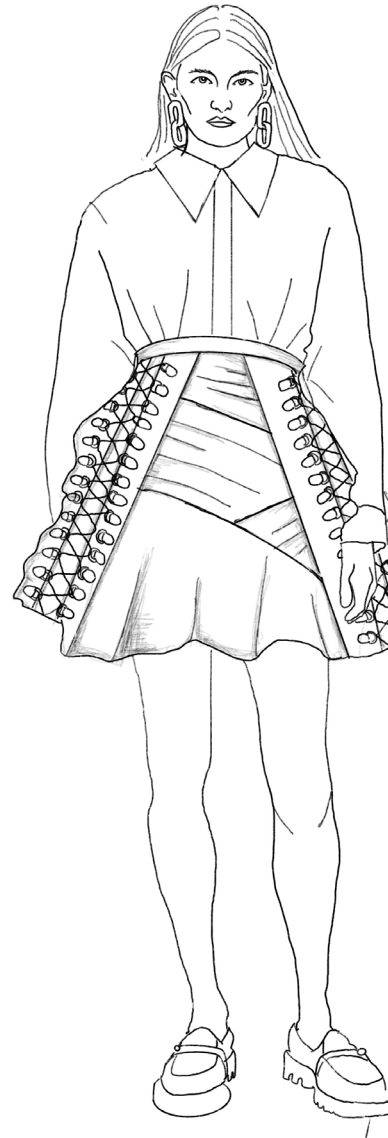

God's Bondage - refers to not owning your own body, due to not expressing it in the way you want, because of social norms or religious oppression or many more.
