

# MAX&LUUK

PARASOLS | OUTDOOR FURNITURE

ORIGINAL DUTCH DESIGN

## MAX & LUUK

Max & Luuk (2013) is a brand of Borek Parasols | Outdoor Furniture (1977), alongside YO! Outdoor Furniture (2019). Max & Luuk is a youthful and innovative brand that takes its name from my sons, and is distinguished by exquisite materials, enticing designs, and ultimate comfort. Since 1977, the family-owned business Borek has evolved into a leading brand both domestically and internationally.

The 2025 collection from Max & Luuk brings contemporary design and innovative techniques together to elevate outdoor living. Inspired by soft colors and inviting shapes, our collection is crafted to inspire relaxation and create moments of enjoyment throughout the year.

With the introduction of new models and unique details, stylish and inviting outdoor settings are now within reach. Warm bronze tones and natural greens debut in this collection, perfectly complementing existing designs and making combinations effortless.

The Corsica table collection is a beautiful expression of organic design and craftsmanship, featuring a material first used at Max & Luuk: cement reinforced with fiberglass, finished with a light grey coating that offers a vibrant texture. This coating makes the tables weather- and color-resistant, making them both beautiful and practical for outdoor use.

The Tirrena collection, featuring teak tables, adds an air of sophistication and showcases exceptional craftsmanship. At Max & Luuk, we focus on modernity, durability, and the creation of powerful yet elegant furniture that transforms your outdoor space into a stylish retreat.

We invite you to savor extraordinary moments, surrounded by the sublime luxury of our exclusive outdoor furniture collections.

Frank Bogaers

A handwritten signature in black ink, appearing to read 'Frank Bogaers', with a long horizontal stroke extending to the right.

### SUNBRELLA®

All Sunbrella® cushions & pouffes are made to measure to provide extra comfort and the fabric is a washable Sunbrella® polyacrylate. Sunbrella is dyed completely, is UV-resistant, colourfast, water and dirt repellent, antifungal and is able to withstand water from swimming pools and seawater.

In the price catalog you can see which cushions are standard available for each product. Other Sunbrella® colours are available to order for a surcharge.

MAINTENANCE ADVICE: we advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

#### ALL WEATHER

All the fabrics used by MAX&LUUK for all weather cushions are particularly suitable for outdoor use. These fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed especially for MAX&LUUK.

The following lounge collections are delivered with all-weather cushions as standard: Alba/Alice/Avellino/Brain/Chase/Duke/Fiore/Gray/Glenn/Jane/Jago/Jaxx/Liam/Lorenza/Luke/Mason/Mick/Mylo/Rik/Rider/Toya/Tyler/Valente/West. All other cushions are also available in all-weather fabric for a surcharge.

#### MAINTENANCE ADVICE

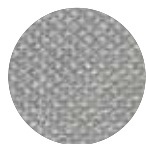

We advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

## (DECORATIVE) CUSHIONS CERVO

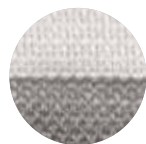

Cervo feels soft and has a lot of texture, which is why the fabric gives the outdoor furniture an extra luxurious look. Thanks to the special treatment, the material is water and dirt repellent.

## MATERIALS & MAINTENANCE

### ROPE & BELT

#### ROPE & BELT

Ropes and belts are durable, innovative and strong materials to use for the weaving of outdoor furniture. It is stylish, unique and has a soft touch, creating comfortable seating and stunning looks. The versatility of this material in combination with various weaving techniques applied on powder coated aluminum- and galvanised steel results in exciting and contemporary designs. Rope and belt are made of thermoplastic polypropylene fibres and has been developed to meet all requirements for outdoor furniture. It is engineered to endure extreme outdoor conditions such as sunlight UV exposure, temperatures variances, mold and mildew. Rope is resistant to moisture, is colourfast, does not contain PVC, is washable and requires little maintenance.

#### MAINTENANCE ADVICE

Easy to clean with Fabric Cleaner. After cleaning it is possible to further protect the material with Fabric Protector. Never use a high pressure cleaner.

## MATERIALS & MAINTENANCE

### FIBRE/FIBERGLASS

#### **FIBRE**

MAX&LUUK fibre is a polyethylene synthetic wicker that has been developed to meet all standard specifications for outdoor furniture. The fibre is fabricated to endure rigorous outdoor conditions such as sunlight UV exposure, extreme temperatures variances, mold and mildew. It is resistant to moisture, sea water and chlorinated water.

#### **MAINTENANCE ADVICE**

Easy to clean with Multi Cleaner. A soft nylon brush or a low pressure air hose can also be used to clean between the weaving.

#### **FIBERGLASS**

Fiberglass is a composite material. Fiberglass mats are combined with resin and the products are shaped by hand in a 3D mold. It takes several days to finish a product. The combination of strength and low weight makes fiberglass an excellent material to make unique and complex shapes. Fiberglass is a weather resistant material.

#### **MAINTENANCE ADVICE**

Easy to clean with Multi Cleaner.

## MATERIALS & MAINTENANCE

### CEMENT

#### **CEMENT**

Glass Reinforced Cement (GRC), also known as Glass Fiber Reinforced Concrete (GFRC), is a brand new material within the Max & Luuk collection. This innovative composite material consists of cement, fine aggregates, water and alkali-resistant (AR) glass fibers. Thanks to the glass fibers, the material is exceptionally strong, durable and tear resistant.

With GRC, we expand our collection with a material that is not only versatile, but also perfectly suited to the high demands of outdoor use. The material offers a sleek, modern look while being weather-resistant and easy to maintain.

#### **MAINTENANCE ADVICE**

We recommend regular maintenance of your table to maintain its longevity and appearance. Use water and a soft brush or sponge to remove dirt and dust. Mild soap or detergents are appropriate, but avoid harsh chemicals to avoid damaging the protective finish.

To keep your table in optimal condition, we recommend storing it in a covered area, such as a shed or garage, during the winter or protecting it with a protective cover.

## MATERIALS & MAINTENANCE

### TEAK

#### TEAK

The teak of MAX&LUUK is a special selection of certified sourced teak from West Java and Sumatra. Teak furniture does not require any special maintenance routine or any additional protection apart from occasional cleaning. Left to age naturally outside, teak will gradually change from its original colour to a soft, silver-grey as the pigments in the surface layer of the wood begin to fade away. Every piece of teak has its own character and structure. Small inlays can be used to fill up minor existing imperfections. Teak is a natural material and cracks in the end grain of components, for example legs and laminated tops, may appear due to changes in temperature and humidity and the consequent change in moisture content of the wood. This is normal, especially in heavier components and it will not affect the serviceability of your furniture. Tables/benches 220cm or longer may begin to sag.

#### MAINTENANCE ADVICE

We recommend that you allow your teak furniture to weather naturally this way and simply clean thoroughly three or four times a year with Teak Cleaner to remove accumulated dirt. Teak is a natural product and is not treated against stains. It will absorb liquids if not sealed (leaves, food, olive oil, drinks etcetera). To protect teak against stains we recommend Teak Protector. Under no circumstances should a power washer be used to clean your product. Treating with teak oil or other preservatives is not necessary; it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture. If you intend to store your furniture over the winter, we recommend that you do so in a watertight garden shed or garage. However, we advise that you do not move teak furniture from the garden straight into a heated indoor room for storage, as the sharp differences in temperature and humidity may cause the wood to split.

## MATERIALS & MAINTENANCE

### ALUMINIUM

#### **POWDER COATED ALUMINIUM**

Fluidized powder coating applied to the aluminium structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The material is fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

#### **MAINTENANCE ADVICE**

Easy to clean with Multi Cleaner.

A photograph of an outdoor patio area. In the foreground, a large, light-colored patio umbrella is partially visible on the left. A white sectional sofa with several cushions is the central focus. In front of the sofa is a round, light-colored wooden coffee table. To the right of the sofa is a white armchair with a woven backrest and a black cushion. The background features a tall, dense green hedge and several trees with light-colored bark and green leaves. The sky is clear and blue.

The Vince side post parasol has a crank system and will be delivered exclusive base.

The parasol has a tilt system and can be rotated 360° around the base. With a single movement the parasol retracts aside the vertical pole avoiding to have to move the furniture underneath.
