EXPATRIDE WAS FOUNDED TO SUPPORT GLOBAL MOBILITY

CREATED BY EXPATS FOR EXPATS

ExpatriRide was inspired by our CEO & founder Jesper Lovendahl's challenges in leasing a car without U.S. credit history when he moved to New York in 2005.

Our mission is to innovate and simplify transportation and settling-in solutions for expats using technology and empathy to ease global coordination and service delivery for partners and clients.

Our core focus is on supporting individual expatriates, HR talent mobility, and relocation management companies with their transportation needs.

CORPORATE RELOCATION TRANSPORTATION PROGRAM

A GLOBALLY STRUCTURED PLAN

Consistently delivering high-quality VIP and standard transportation services demands a structured and uniform approach, much like other aspects of international assignments. We closely collaborate with clients and relocation company partners to devise a comprehensive Transportation Program. It can include standardizing services worldwide, establishing policies, deciding budgets, vehicle sizes, regulations, local customary transportation, and creating a tailored centralized direct billing process across all locations and services.

OUR TEAM MEMBERS' EMPATHY IS INDUSTRY LEADING

DEDICATED VIP TEAM

Our VIP Team is dedicated to carefully plan, coordinate, and monitor all steps along the way. With years of experience servicing Fortune 500 companies, our team goes above and beyond to ensure the highest level of comfort and care. We pride ourselves in thinking a step ahead and anticipating every need in advance. Each team member's empathy is second to none, personally understanding needs and challenges in a new country. A single point of contact throughout the journey can enhance communication and the entire experience.

DAILY CHAUFFEUR SERVICE IN LUXURY VEHICLE

Whether needed for a few days or a few years, travel from A to B (or C) in the splendor of luxury and allow the world outside to fade away. Enjoy the expertise of a local driver, who knows how to navigate the busy roads, and more importantly, the time-saving shortcuts.

LONG-TERM SERVICE

Our long-term chauffeur service extends beyond transportation; it becomes a pillar of support for the entire family. The chauffeur effortlessly integrates into the family's daily rhythm, whether commuting to work, school, shopping, or dinner. The service can be five, six, or seven days a week. Tailored to the VIP's needs.

SETTLING-IN SERVICE

For VIPs settling into a new city, our short-term chauffeur service offers relief from the challenges of navigating their new surroundings. A pristine vehicle, accompanied by a knowledgeable and professional driver, ensures a smooth transition between appointments and sightseeing in the new surroundings. Beyond saving time, it enables the VIP to acclimate to local driving customs before operating a vehicle themselves.

ARMORED VEHICLE

When transportation plans require an elevated level of security, we can accommodate the most complex requirements. Armored vehicle driver service can be a preventative measure for kidnapping or robbery attempts.

All vehicles are equipped with the latest security features, including bulletproof glass, and reinforced frames. An armored vehicle lease is a cost-effective component of an integrated security plan.

EXECUTIVE PROTECTION OFFICERS

Our range of armored vehicles can be managed by world-class local Executive Protection Officers (armed and unarmed) according to the client's specific needs or local regulations.

Our chauffeurs are trained in defensive driving, threat assessment, and emergency response. They maintain constant communication with our operations center and follow predetermined secure routes, with contingency plans for unforeseen circumstances.

EXOTIC CAR RENTAL

From exotic sports cars to EV and luxury sedans and SUVs, we can offer a variety of rental cars with our tailor-made VIP service. We can deliver and collect the luxury vehicle to and from a preferred address. The benefit of a rental car is that it's available immediately and almost everywhere. A rental car can be used for one day and as long as needed. There are no length restrictions.

LUXURY CAR LEASE & PERSONAL CAR SHOPPER

Our Personal Car Shopper Service is a concierge service that sources a brand-new car tailored to the VIPs' unique car preference and lease length. The VIP or their proxy will review customized quotes via email in the comfort of their home.

Leasing a car is a more gradual process than any of our other VIP services. Don't worry! Our dedicated VIP Team and the Personal Car Shopper will be there every step of the way.

BUS & COACH SERVICES

EXTENSIVE POOL OF SERVICES

Bus and shuttle provisions are handled on a modular basis, providing a great deal of flexibility for clients no matter the situation. They can be booked for single day journeys, scheduled point-to-point work drop-offs, and even city-to-city transfers. In terms of passenger accommodations, we have everything from luxury sprinters (10+ seating capacity) to buses that can comfortably hold four dozen people at once.

DELUXE VEHICLE SELECTION ON DEMAND

Enjoy a broad catalogue of high-end buses and shuttles tailored to suit your VIP group's size, providing all the amenities and accommodations they could ever need. Our VIP service goes beyond convenience, dedicating ourselves to providing the vehicle you desire to the best of our abilities - even if we have to ship it over ourselves.

EXPERIENCED MULTI-PASSENGER TRANSPORT DRIVERS

Our trained drivers are among the best of their craft, with years of experience maneuvering large vehicles through even the roughest possible roadside encounters. They're briefed on the travel plan and free to plan out their intended routes, prioritizing providing VIP groups with a smooth, punctual ride that strictly respects the set schedule.

ORIENTATION TOUR WITH CHAUFFEUR SERVICE

ExpatRide has developed a service specifically designed for employees going on orientation tours to potential new locations. These tours typically involve exploring homes, schools, and the surrounding community before an official move. The service aims to improve the quality and efficiency of orientation tours while addressing common challenges. Safety is a top priority, ensuring employees feel secure and comfortable throughout the entire tour.

BENEFITS OF THE CHAUFFEUR SERVICE

- Safety First
 - Using a professional chauffeur lets the Destination Services Provider (DSP) consultant focus fully on guiding the employee, ensuring safety and minimizing risks from distracted driving. It also provides peace of mind, knowing an experienced driver handles the road.
- Efficiency and Convenience:
 - The employee and DSP consultant is dropped off and picked up at appointments, saving time and allowing more visits to homes, schools, and key locations—making the orientation tour more efficient.
- Tailored to Employee Expectations:
 - The service uses vehicles that match employee expectations in terms of size, luxury level, and comfort, making a positive impression during the critical orientation phase. For VIPs, ExpatRide offers luxury options tailored to high-level executives and their families.
- Consistent Experience Worldwide
 - By having ExpatRide—not the local DSP, coordinated chauffeur and vehicle, consistency on service level, experience and policy compliance is achieved

How the Service Works

ExpatRide collaborates directly with the local DSPs across all of your locations to ensure timely and accurate services during the tour days.
