History

Calvin & Collin Construction Ltd. is a high-end construction company run by father and son, Calvin and Collin Ng. Calvin founded the company over 12 years ago; since then, the Vancouver real estate market has gone through many changes. Today, Calvin & Collin manage a select number of luxury homes and other projects around the West Vancouver area. Calvin oversees each project personally to focus closely on the details. He ensures his team provides the highest quality and best service to clients.

Originally from Hong Kong, Calvin has extensive expertise as an electrician and a plumber. After immigrating to Canada, he found work in the trades and did everything from framing to renovations. He is a hands-on builder with a focus on getting the small details right. After he acquired experience as a project manager, he discovered a passion for building homes and thus began his own company. He started by building modest-sized homes but, as the market grew, he began catering to new luxury custom home projects.

Home & Relationship Building Go Hand in Hand

For the most part, new clients contact Calvin and Collin through referrals, which are a natural byproduct of being a highly reputable luxury home builder. Collin explains: "We have very good relationships with our clients. It is important to have a trusting relationship which is built on understanding what the client wants and what we can deliver. We work closely with designers and architects so we can align and deliver all aspects of a given project in an efficient manner. Calvin's long history of hands-on experience in many different trades helps to complement this process seamlessly." For example, one partner with whom Calvin & Collin work closely is New Century Cabinets, who provide the stunning cabinetry on many of their homes.

Home & Relationship Building Go Hand in Hand Cont'd

With inflation consistently impacting the cost of goods and labour as well as other unpredictable external factors, Calvin & Collin Construction Ltd. is extra thorough when choosing subcontractors and materials. They also provide a detailed run-down of each project, so everyone is on the same page to avoid sudden changes during the duration of the project. Accurately finalizing plans in the early stages allows them to place orders of materials to mitigate price increases that could happen during the duration of the project. Currently, the timeline to complete a project is about 14-18 months, which is slightly longer than it used to be due to constantly changing regulations.

CALVIN & COLLIN CONSTRUCTION Ltd

One can sense the high level of integrity in a company based on the advice they offer clients and professionals alike. "Treat every project as though it were your own home. Plan and have clear expectations from the trades and have the expertise behind you to adapt to any issues that may arise. It is our job to provide a thorough process for the client's experience."

Calvin and Collin are excited to be working on four projects that will be completed this year as well as five more projects that will continue into 2024. The projects include all styles of modern, transitional, and traditional, each presenting as strong contenders for next year's Georgie Awards. One of their recent projects, entitled Panamera, which they worked on with Elite Premium Home Design Ltd., was a finalist in two categories in the 2023 Georgies. Panamera was a finalist for both a custom home valued between \$2,000,001 to \$3,000,000 and the best single-family kitchen over \$200,000, while Refined Beauty was a finalist in the Custom Homes Valued Over \$3,000,000 category.
