Advanced Technological Solutions for Hotels

Electronic Locks

Onity provides cost-effective, customizable access management systems with streamlined check-in, enabling guest convenience and operational efficiencies for large or small properties.
Offering proven reliability and the latest technologies, Serene is a sleek all-in-one new lock beautifully designed inside & out while the Trillium range also combines modern aesthetics with an easy upgrade path.
Serene™ | **Trillium™ RFID** | ***ADVANCE* Trillium™ RFID** | **Trillium™ Mag**

Onity offers a proven mobile key solution; our lock range is available with a **DirectKey™** module for a superior guest experience, which can also be updated on premises later when ready to make the leap to mobile access.

Designed to deliver optimal efficiency, flexibility and guest satisfaction, **OnPortal™**, Onity's full access lock management software is a scalable solution with roving check-in option.

Other Locking Solutions

Electronic Cylinders

Onity e-Cylinders are the ideal locking solution for small to medium size hotels, providing convenience and high security using RFID MIFARE® technology. They are ideal for refurbishment projects as they only require replacing the mechanical lock for the electronic cylinder, without drilling the door.

e-CylinderMAX

RFID Lock for Lockers

Onity also offers electronic locks for lockers, which are operated with contactless RFID MIFARE® carriers. Ensuring functionality and high security, they provide peace of mind for users and management.
